

Monthly Tracking of Adult Correctional Population Indicators (June 2017)

Texas Department of Criminal Justice Correctional Population and Capacity (End of Month)

Month/Year	Total Population (End of Month)	On-Line Bed Capacity	Bed Capacity Adjustments				Operating Capacity	Available Operating Capacity
			Added	Temporarily Removed	Permanently Removed	Gain/Loss		
June 2016	146,985	155,702	0	0	0	0	149,474	2,489
July 2016	146,843	155,702	0	0	0	0	149,474	2,631
August 2016	147,058	155,534	0	-168	0	-168	149,313	2,255
September 2016	146,854	155,534	0	0	0	0	149,313	2,459
October 2016	146,904	155,534	0	0	0	0	149,313	2,409
November 2016	147,445	155,534	0	0	0	0	149,313	1,868
December 2016	147,034	154,867	0	0	-667	-667	148,672	1,638
January 2017	146,337	154,859	0	0	-8	-8	148,665	2,328
February 2017	146,020	154,803	0	-56	0	-56	148,611	2,591
March 2017	146,273	154,803	0	0	0	0	148,611	2,338
April 2017	146,158	154,857	56	0	-2	54	148,663	2,505
May 2017	146,107	154,585	0	0	-272	-272	148,402	2,295

Note: TDCJ defines operating capacity as 96.0% of its on-line bed capacity. TDCJ is accustomed to going beyond its operating capacity for short periods of time.

On-line bed capacity reflects the total number of TDCJ beds available for the permanent assignment of inmates. At the end of May 2017, 3,524 beds had been temporarily removed from on-line bed capacity, including 840 Substance Abuse Felony Punishment (SAFP) beds temporarily converted into Intermediate Sanction Facility (ISF) beds and 2,684 beds temporarily removed from capacity due to staffing shortages. Also at this time, on-line bed capacity did not include 2,240 temporary placement beds, which include medical (hospital beds and unit-based infirmary beds), solitary confinement, transfer holding, and pre-hearing detention beds. Inmates housed in temporary placement beds also have permanent beds assigned to them. The total number of ISF beds, at the end of May 2017, was 3,024, which included the 840 SAFP beds temporarily converted into ISF beds and 2,184 previously existing ISF beds.

Capacity Adjustments:

- \*In May 2017, TDCJ permanently removed 272 beds from capacity at the Jim Rudd Transfer Facility; these beds were converted from transfer facility to ISF beds.
- \*In April 2017, adjustments to TDCJ capacity resulted in a net increase of 54 beds. Capacity adjustments included 56 beds added to capacity at the East Texas Treatment Facility, where beds were converted from ISF to SAFP beds, and 2 beds permanently removed from capacity at the Stiles Unit to accommodate wheelchair accessibility.
- \*In February 2017, TDCJ temporarily removed 56 beds from capacity at the East Texas Treatment Facility; these beds were converted from SAFP to ISF beds.
- \*In January 2017, TDCJ permanently removed 8 beds from capacity at the Holliday Unit to accommodate wheelchair accessibility.
- \*In December 2016, TDCJ permanently removed 667 beds from capacity at the Kegans State Jail when the facility was repurposed as an ISF.
- \*In August 2016, TDCJ temporarily removed 168 beds from capacity at the Telford Unit due to staffing shortages.

<sup>1-9</sup> All footnotes are detailed on page 5.

**Texas Department of Criminal Justice Community Supervision (Adult Probation) Populations**

<sup>1</sup> During fiscal year 2010, the Texas Department of Criminal Justice – Community Justice Assistance Division transitioned from compiling aggregate population data from counties through the Monthly Community Supervision and Corrections Report (MCSCR) to generating monthly population reports based on detailed case-based data collected through the Community Supervision Tracking System / Intermediate System (CSTS Intermediate System). Community supervision data through fiscal year 2009 are based on population counts reported to the MCSCR, and fiscal years 2010 to 2012 data are based on monthly reports generated from the CSTS Intermediate System. Community supervision data will be updated on a quarterly basis.

<sup>2</sup> Supervision placements include adjudicated probation, deferred adjudication, and return from shock incarceration.

<sup>3</sup> Successful supervision terminations include early terminations and those with expired terms.

<sup>4</sup> Unsuccessful supervision terminations include revocation to county jail, state jail, prison, and other revocations.

**Texas Juvenile Justice Department: State Correctional Populations**

<sup>1</sup> Historical numbers reflected in this report may be updated to reflect current information.

<sup>2</sup> A new commitment is a juvenile committed to the Texas Juvenile Justice Department (TJJD) for the first time.

<sup>3</sup> A determinate sentence is a commitment for a specified period of time that is set by the juvenile court and can last up to 40 years in length; those who have not completed their sentence length by their 19th birthday are transferred to the adult system to complete the sentence.

<sup>4</sup> An indeterminate sentence is a commitment for an unspecified length of time up to the individual's 19th birthday; TJJD has sole discretion over the commitment length.

<sup>5</sup> Since January 2016, a youth is said to have multiple commitments when there is more than one lawful court order committing him/ her to the TJJD simultaneously. This differs from a recommitted youth, which is a youth who has been *discharged* from a TJJD commitment, usually due to positive completion of the program before age 17, only to reoffend and be *committed again* ("recommitted") by the county juvenile court. Prior to January 2016, the term recommitment was used in the context of what is really a multiple commitment.

<sup>6</sup> The parole revocation information in this table presents the offense category that initiated the parole revocation.

<sup>7</sup> Other commitments (also referred to as negative movements) are juveniles returned to a secure facility for medical care, mental health care, and other non-disciplinary reasons. It also includes juveniles moved to a secure facility for a court hearing that does not result in a revocation.

<sup>8</sup> This calculation involved only one juvenile.

**Texas Juvenile Justice Department: Juvenile Probation Department Supervision Populations**

<sup>1</sup> A formal referral occurs when: 1) delinquent conduct, conduct indicating a need for supervision (CINS), or violation of probation was allegedly committed; 2) the juvenile probation department has jurisdiction and venue; and 3) face-to-face contact occurs with the department or official designated by the juvenile board. Juveniles are typically referred to juvenile probation departments by schools and police but may also be referred by social workers, parents, and others. Historical numbers reflected in this report may be updated to reflect current information.

<sup>2</sup> Misdemeanor Offenses include contempt of magistrate orders in addition to class A and B misdemeanor offenses.

<sup>3</sup> Conduct in Need of Supervision (CINS) is a non-criminal offense for a juvenile and includes public intoxication, truancy, running away from home, fineable-only offenses that have been transferred to a juvenile court from a municipal or justice court, inhalant abuse, and expulsion from an alternative school setting for persistent misconduct.

<sup>4</sup> Dispositions reflect the outcomes of referrals to juvenile probation departments. The dispositions listed above do not include consolidated or transferred cases. Adjudicated probation includes all adjudicated dispositions of probation and modification of probation. Dismissed dispositions include dismissals, findings of not guilty, and findings of no probable cause. Supervisory caution is a non-judicial disposition that may involve such actions as referring the child to a social service agency or a community-based first offender program operated by law enforcement, contacting parents to inform them of the child's activities, or simply warning the child about his or her activities. Historical numbers reflected in this report may be updated to reflect current information. Figures in the table represent the number of cases, not the number of juveniles. A juvenile may have more than one case in a quarter.

<sup>5</sup> Juveniles under conditional pre-disposition, deferred prosecution, or adjudicated probation supervision may also be on Intensive Supervision (ISP) and/or placed in a residential facility. ISP is a form of supervision that typically involves smaller caseloads supervised by specially trained probation officers and more frequent contacts between the juvenile and his or her probation officer. Juveniles under deferred prosecution or adjudicated probation supervision may be placed in a secure or nonsecure residential facility that is administered by a juvenile probation department or a contracted organization.

<sup>6</sup> The Juvenile Justice Alternative Education Program (JJAEP) table and graph only captures information about students expelled for mandatory reasons because the state only provides funding for these JJAEP students though JJAEPs may accept students referred for discretionary reasons. The number of mandatory attendance days in June and July are low because many schools close in May and others only operate for part of June. The counts in summer school are also typically low because operating a summer school is optional. Historical numbers reflected in this report may be updated to reflect current information.

<sup>7</sup> Mandatory Attendance Days reflect the sum of the number of days each mandatory student attends JJAEPs within the month.

<sup>8</sup> The graph reflects the number of juveniles certified as an adult and the number of cases sent to TJJD state residential facilities.

<sup>9</sup> The Juvenile Justice Alternative Education Program graph reflects mandatory attendance days accrued during the regular school year and does not include those accrued during summer school. Since summer school is optional and only available when sufficient funding exists, including only the regular school year renders year-to-year results that are comparable over time.
