Texas Department of Criminal Justice Correctional Population and Capacity (End of Month)

Month/Year	Total Population (End of Month)	On-Line Bed Capacity	Bed Capacity Adjustments				Operating Capacity	Available Operating Capacity
			Added	Temporarily Removed	Permanently Removed	Gain/Loss		
October 2013	151,143	156,796	0	0	0	0	150,524	-619
November 2013	151,273	156,852	56	0	0	56	150,578	-695
December 2013	151,080	156,812	0	0	40	-40	150,540	-540
January 2014	150,935	156,812	0	0	0	0	150,540	-395
February 2014	150,668	156,812	0	0	0	0	150,540	-128
March 2014	150,573	156,812	0	0	0	0	150,540	-33
April 2014	150,549	156,812	0	0	0	0	150,540	-9
May 2014	150,461	156,812	0	0	0	0	150,540	79
June 2014	150,645	156,812	0	0	0	0	150,540	-105
July 2014	150,545	156,756	0	56	0	-56	150,486	-59
August 2014	150,367	156,756	0	0	0	0	150,486	119
September 2014	150,569	156,756	0	0	0	0	150,486	-83

Note: TDCJ defines operating capacity as 96.0% of its on-line bed capacity. TDCJ is accustomed to going beyond its operating capacity for short periods of time.

On-line bed capacity reflects the total number of TDCJ beds available for the permanent assignment of inmates. At the end of September 2014, 2,369 beds had been temporarily removed from on-line bed capacity, including 896 Substance Abuse Felony Punishment (SAFP) beds temporarily converted into Intermediate Sanction Facility (ISF) beds and 1,473 beds temporarily removed from capacity due to staffing shortages. Also at this time, on-line bed capacity did not include 2,180 temporary placement beds, which include medical (hospital beds and unit-based infirmary beds), solitary confinement, transfer holding, and pre-hearing detention beds. Inmates housed in temporary placement beds also have permanent beds assigned to them. The total number of ISF beds, at the end of September 2014, was 2,601, which included the 896 SAFP beds temporarily converted into ISF beds and 1,705 previously existing ISF beds.

Capacity Adjustments:

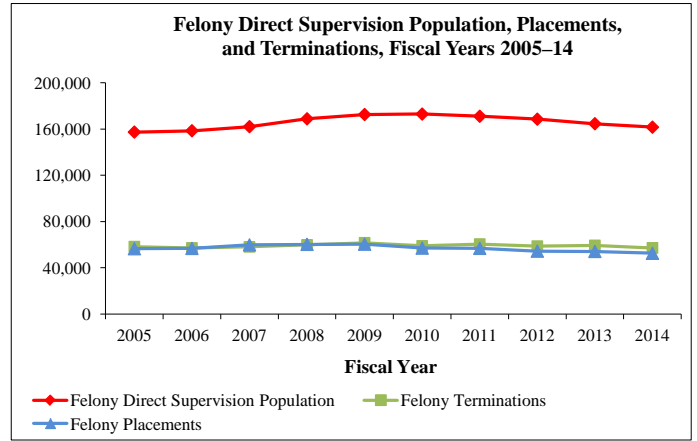

- * In July 2014, TDCJ temporarily removed 56 beds from capacity at the East Texas Treatment Facility; these beds were converted from SAFP beds to ISF beds.
- * In December 2013, TDCJ permanently removed 40 beds at the Duncan facility; adjustments were made to accommodate wheelchair accessibility.
- * In November 2013, TDCJ added 56 beds at the East Texas Treatment facility; these beds were converted from ISF beds to SAFP beds.

Texas Department of Criminal Justice Community Supervision (Adult Probation) Populations

¹ During fiscal year 2010, the Texas Department of Criminal Justice – Community Justice Assistance Division transitioned from compiling aggregate population data from counties through the Monthly Community Supervision and Corrections Report (MCSCR) to generating monthly population reports based on detailed case-based data collected through the Community Supervision Tracking System / Intermediate System (CSTS Intermediate System). Community supervision data through fiscal year 2009 are based on population counts reported to the MCSCR, and fiscal years 2010 to 2012 data are based on monthly reports generated from the CSTS Intermediate System. Community supervision data will be updated on a quarterly basis.

² Supervision placements include adjudicated probation, deferred adjudication, return from shock incarceration, and return from state boot camp.

³ Successful supervision terminations include early termination and expired term.

⁴ Unsuccessful supervision terminations include revocation to county jail, state jail, prison, state boot camp, and other revocations.

Texas Juvenile Justice Department: State Correctional Populations

¹ Historical numbers reflected in this report may be updated to reflect current information.

² A new commitment is a juvenile committed to the Texas Juvenile Justice Department (TJJD) for the first time and a recommitment is a juvenile who had been committed to TJJD at least once prior to the current commitment.

³ A determinate sentence is a commitment for a specified period of time that is set by the juvenile court and can last up to 40 years in length; youth who have not completed their sentence length by their 19th birthday are transferred to the adult system to complete the sentence.

⁴ An indeterminate sentence is a commitment for an unspecified length of time up to the child's 19th birthday; TJJD has sole discretion over the commitment length.

⁵ The parole revocation information in this table presents the offense category that initiated the parole revocation.

⁶ Other commitments (also referred to as negative movements) are juveniles returned to a secure facility for medical care, mental health care, and other non-disciplinary reasons. It also includes juveniles moved to a secure facility for a court hearing that does not result in a revocation.

⁷ This calculation involved only one juvenile.

Texas Juvenile Justice Department: Juvenile Probation Department Supervision Populations

¹ A formal referral occurs when: 1) delinquent conduct, conduct indicating a need for supervision (CINS), or violation of probation was allegedly committed; 2) the juvenile probation department has jurisdiction and venue; and 3) face-to-face contact occurs with the department or official designated by the juvenile board. Juveniles are typically referred to juvenile probation departments by schools and police but may also be referred by social workers, parents, and others. Historical numbers reflected in this report may be updated to reflect current information.

² Misdemeanor Offenses include contempt of magistrate orders in addition to class A and B misdemeanor offenses.

³ Conduct in Need of Supervision (CINS) is a non-criminal offense for a juvenile and includes public intoxication, truancy, running away from home, fineable-only offenses that have been transferred to a juvenile court from a municipal or justice court, inhalant abuse, and expulsion from an alternative school setting for persistent misconduct.

⁴ Dispositions reflect the outcomes of referrals to juvenile probation departments. The dispositions listed above do not include consolidated or transferred cases. Adjudicated probation includes all adjudicated dispositions of probation and modification of probation. Dismissed dispositions include dismissals, findings of not guilty, and findings of no probable cause. Supervisory caution is a non-judicial disposition that may involve such actions as referring the child to a social service agency or a community-based first offender program operated by law enforcement, contacting parents to inform them of the child's activities, or simply warning the child about his or her activities. Historical numbers reflected in this report may be updated to reflect current information. Figures in the table represent the number of cases, not the number of juveniles. A juvenile may have more than one case in a quarter.

⁵ Juveniles under pre-disposition, deferred prosecution, or adjudicated probation supervision may also be on Intensive Supervision (ISP) and/or placed in a residential facility. ISP is a form of supervision that typically involves smaller caseloads supervised by specially trained probation officers and more frequent contacts between the juvenile and his or her probation officer. Juveniles under deferred prosecution or adjudicated probation supervision may be placed in a secure or nonsecure residential facility that is administered by a juvenile probation department or a contracted organization.

⁶ The Juvenile Justice Alternative Education Program (JJAEP) table and graph only captures information about students expelled for mandatory reasons because the state only provides funding for these JJAEP students though JJAEPs may accept students referred for discretionary reasons. The number of mandatory attendance days in June and July are low because many schools close in May and others only operate for part of June. The counts in summer school are also typically low because operating a summer school is optional. Historical numbers reflected in this report may be updated to reflect current information.

⁷ Mandatory Attendance Days reflect the sum of the number of days each mandatory student attends JJAEPs within the month.

⁸ The graph reflects the number of juveniles certified as an adult and the number of cases sent to TJJD state residential facilities.

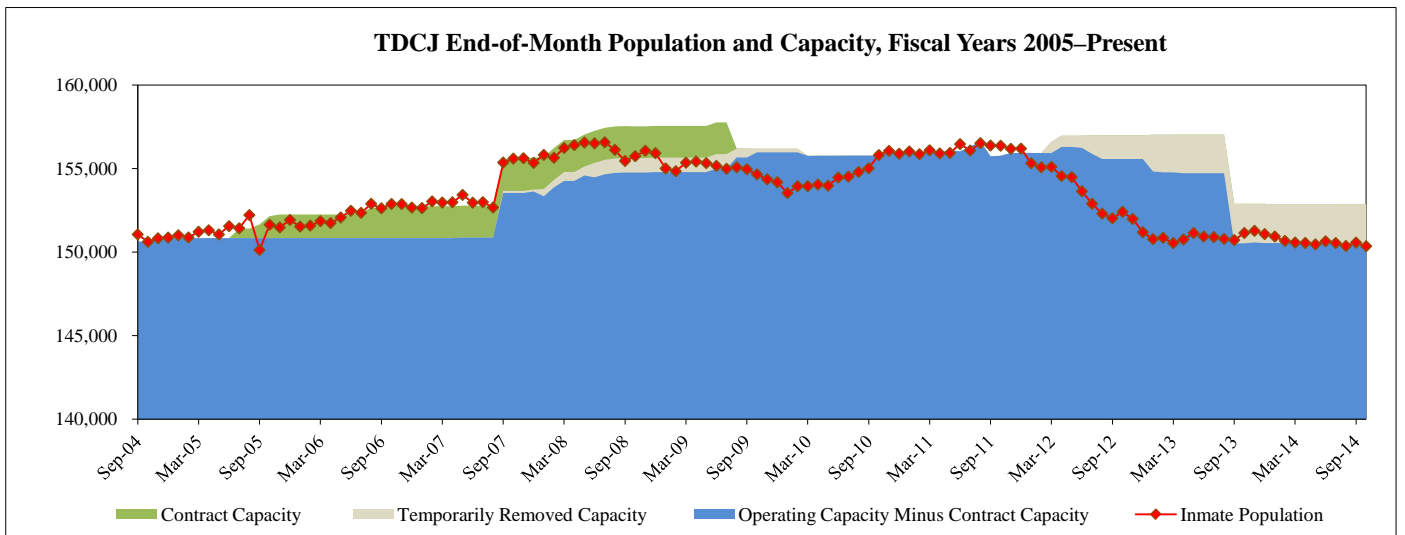

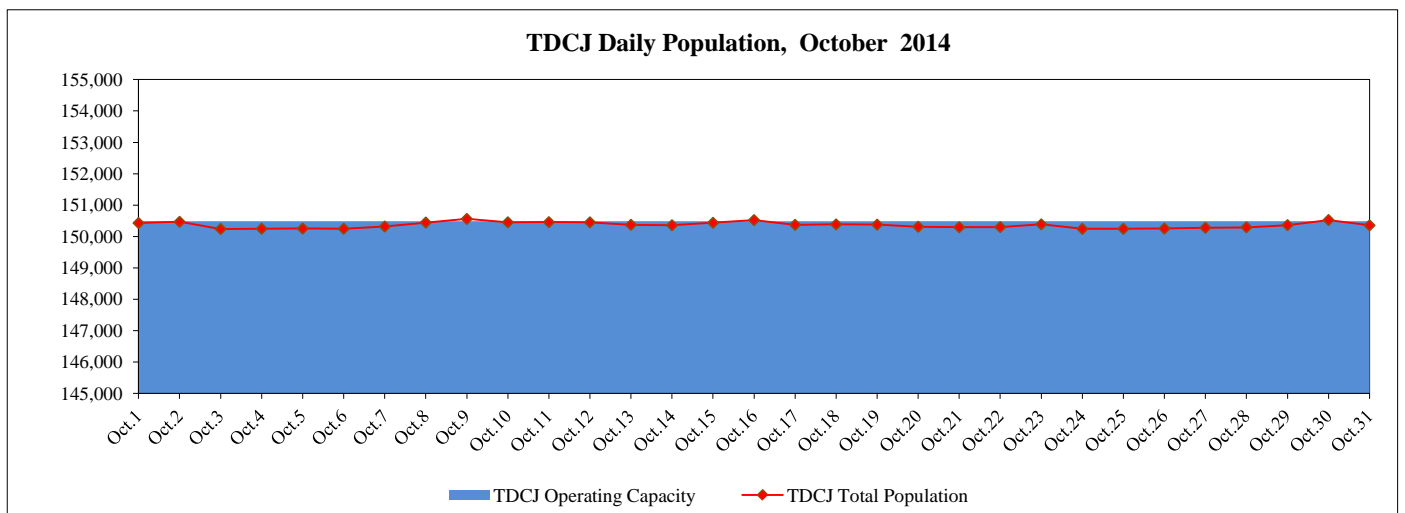

⁹ The Juvenile Justice Alternative Education Program graph reflects mandatory attendance days accrued during the regular school year and does not include those accrued during summer school. Since summer school is optional and only available when sufficient funding exists, including only the regular school year renders year-to-year results that are comparable over time.

Note: TDCJ defines operating capacity as 96.0% of its on-line bed capacity. TDCJ is accustomed to going beyond its operating capacity for short periods of time.

On-line bed capacity reflects the total number of TDCJ beds available for the permanent assignment of inmates. At the end of October 2014, 2,369 beds had been temporarily removed from on-line bed capacity, including 896 Substance Abuse Felony Punishment (SAFP) beds temporarily converted into Intermediate Sanction Facility (ISF) beds and 1,473 beds temporarily removed from capacity due to staffing shortages. Also at this time, on-line bed capacity did not include 2,180 temporary placement beds, which include medical (hospital beds and unit-based infirmary beds), solitary confinement, transfer holding, and pre-hearing detention beds. Inmates housed in temporary placement beds also have permanent beds assigned to them. The total number of ISF beds, at the end of October 2014, was 2,601, which included the 896 SAFP beds temporarily converted into ISF beds and 1,705 previously existing ISF beds.

Capacity Adjustments:

* In July 2014, TDCJ temporarily removed 56 beds from capacity at the East Texas Treatment Facility; these beds were converted from SAFP beds to ISF beds.

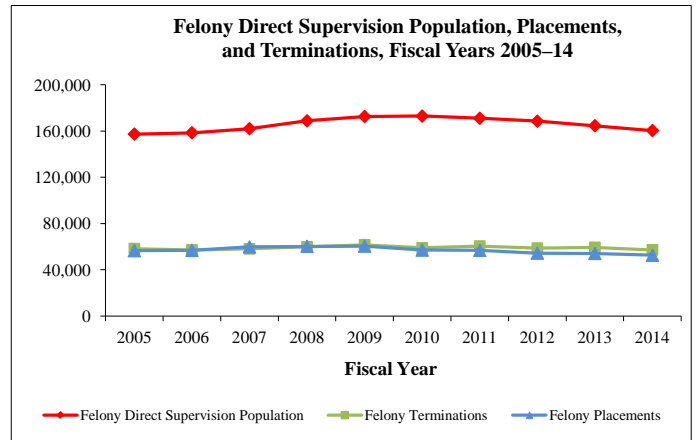

* In December 2013, TDCJ permanently removed 40 beds at the Duncan facility; adjustments were made to accommodate wheelchair accessibility.

Texas Department of Criminal Justice Community Supervision (Adult Probation) Populations

¹ During fiscal year 2010, the Texas Department of Criminal Justice – Community Justice Assistance Division transitioned from compiling aggregate population data from counties through the Monthly Community Supervision and Corrections Report (MCSCR) to generating monthly population reports based on detailed case-based data collected through the Community Supervision Tracking System / Intermediate System (CSTS Intermediate System). Community supervision data through fiscal year 2009 are based on population counts reported to the MCSCR, and fiscal years 2010 to 2012 data are based on monthly reports generated from the CSTS Intermediate System. Community supervision data will be updated on a quarterly basis.

² Supervision placements include adjudicated probation, deferred adjudication, return from shock incarceration, and return from state boot camp.

³ Successful supervision terminations include early termination and expired term.

⁴ Unsuccessful supervision terminations include revocation to county jail, state jail, prison, state boot camp, and other revocations.

Texas Juvenile Justice Department: State Correctional Populations

¹ Historical numbers reflected in this report may be updated to reflect current information.

² A new commitment is a juvenile committed to the Texas Juvenile Justice Department (TJJD) for the first time and a recommitment is a juvenile who had been committed to TJJD at least once prior to the current commitment.

³ A determinate sentence is a commitment for a specified period of time that is set by the juvenile court and can last up to 40 years in length; youth who have not completed their sentence length by their 19th birthday are transferred to the adult system to complete the sentence.

⁴ An indeterminate sentence is a commitment for an unspecified length of time up to the child's 19th birthday; TJJD has sole discretion over the commitment length.

⁵ The parole revocation information in this table presents the offense category that initiated the parole revocation.

⁶ Other commitments (also referred to as negative movements) are juveniles returned to a secure facility for medical care, mental health care, and other non-disciplinary reasons. It also includes juveniles moved to a secure facility for a court hearing that does not result in a revocation.

⁷ This calculation involved only one juvenile.

Texas Juvenile Justice Department: Juvenile Probation Department Supervision Populations

¹ A formal referral occurs when: 1) delinquent conduct, conduct indicating a need for supervision (CINS), or violation of probation was allegedly committed; 2) the juvenile probation department has jurisdiction and venue; and 3) face-to-face contact occurs with the department or official designated by the juvenile board. Juveniles are typically referred to juvenile probation departments by schools and police but may also be referred by social workers, parents, and others. Historical numbers reflected in this report may be updated to reflect current information.

² Misdemeanor Offenses include contempt of magistrate orders in addition to class A and B misdemeanor offenses.

³ Conduct in Need of Supervision (CINS) is a non-criminal offense for a juvenile and includes public intoxication, truancy, running away from home, fineable-only offenses that have been transferred to a juvenile court from a municipal or justice court, inhalant abuse, and expulsion from an alternative school setting for persistent misconduct.

⁴ Dispositions reflect the outcomes of referrals to juvenile probation departments. The dispositions listed above do not include consolidated or transferred cases. Adjudicated probation includes all adjudicated dispositions of probation and modification of probation. Dismissed dispositions include dismissals, findings of not guilty, and findings of no probable cause. Supervisory caution is a non-judicial disposition that may involve such actions as referring the child to a social service agency or a community-based first offender program operated by law enforcement, contacting parents to inform them of the child's activities, or simply warning the child about his or her activities. Historical numbers reflected in this report may be updated to reflect current information. Figures in the table represent the number of cases, not the number of juveniles. A juvenile may have more than one case in a quarter.

⁵ Juveniles under pre-disposition, deferred prosecution, or adjudicated probation supervision may also be on Intensive Supervision (ISP) and/or placed in a residential facility. ISP is a form of supervision that typically involves smaller caseloads supervised by specially trained probation officers and more frequent contacts between the juvenile and his or her probation officer. Juveniles under deferred prosecution or adjudicated probation supervision may be placed in a secure or nonsecure residential facility that is administered by a juvenile probation department or a contracted organization.

⁶ The Juvenile Justice Alternative Education Program (JJAEP) table and graph only captures information about students expelled for mandatory reasons because the state only provides funding for these JJAEP students though JJAEPs may accept students referred for discretionary reasons. The number of mandatory attendance days in June and July are low because many schools close in May and others only operate for part of June. The counts in summer school are also typically low because operating a summer school is optional. Historical numbers reflected in this report may be updated to reflect current information.

⁷ Mandatory Attendance Days reflect the sum of the number of days each mandatory student attends JJAEPs within the month.

⁸ The graph reflects the number of juveniles certified as an adult and the number of cases sent to TJJD state residential facilities.

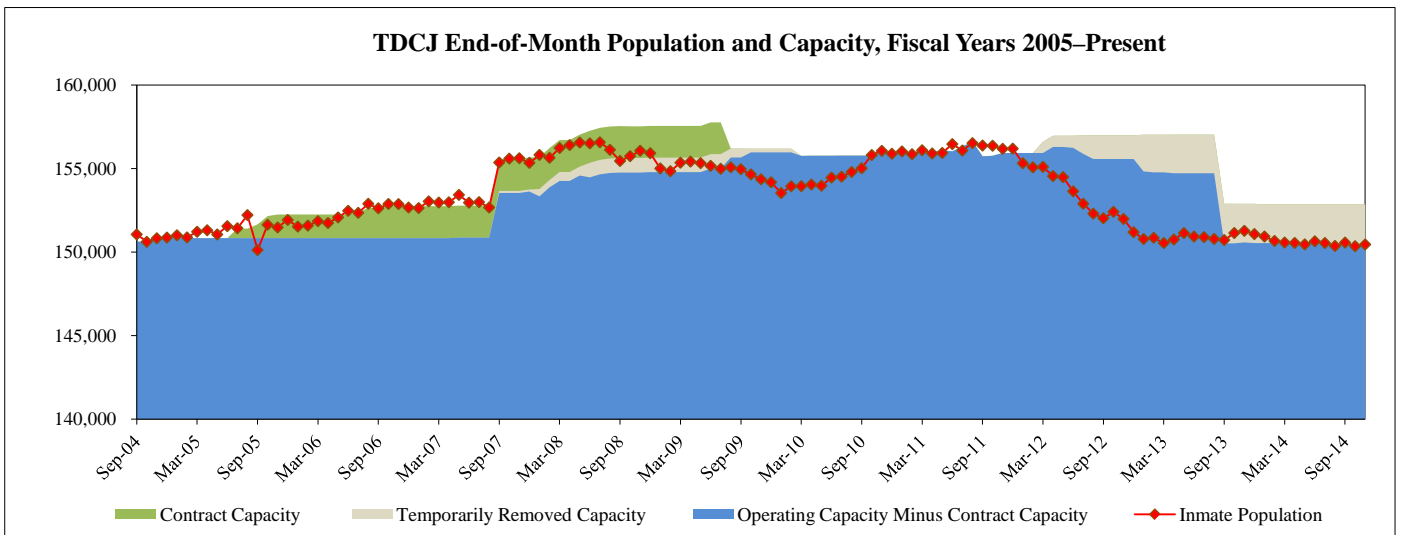

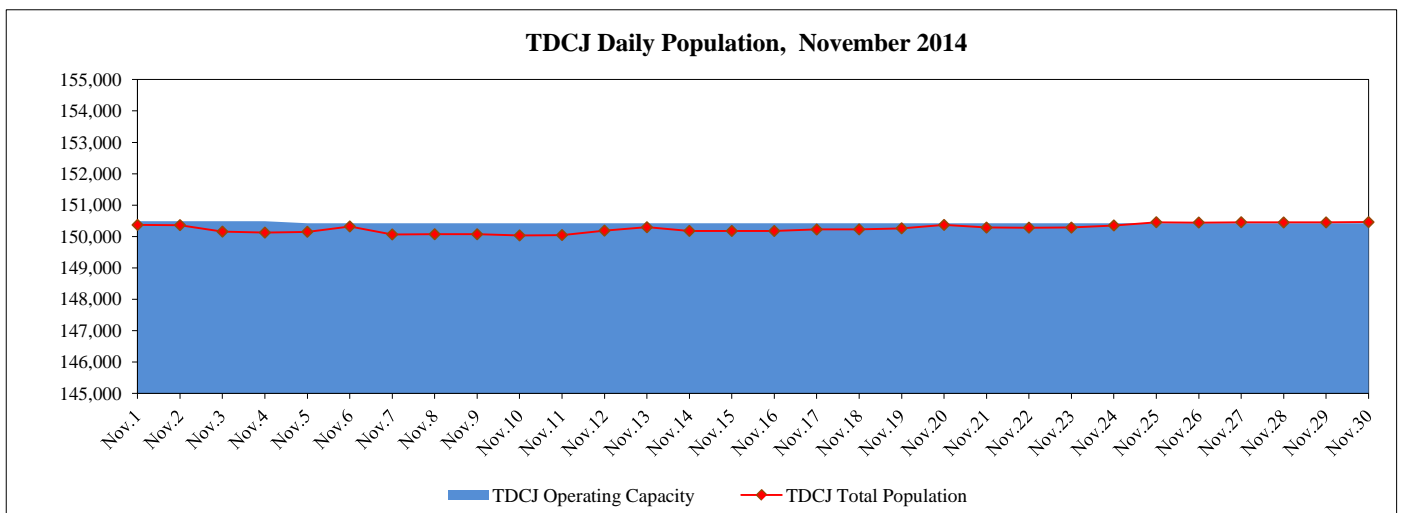

⁹ The Juvenile Justice Alternative Education Program graph reflects mandatory attendance days accrued during the regular school year and does not include those accrued during summer school. Since summer school is optional and only available when sufficient funding exists, including only the regular school year renders year-to-year results that are comparable over time.

November 2014	150,457	156,688	0	68	0	-68	150,420	-37

Note: TDCJ defines operating capacity as 96.0% of its on-line bed capacity. TDCJ is accustomed to going beyond its operating capacity for short periods of time.

On-line bed capacity reflects the total number of TDCJ beds available for the permanent assignment of inmates. At the end of November 2014, 2,437 beds had been temporarily removed from on-line bed capacity, including 964 Substance Abuse Felony Punishment (SAFP) beds temporarily converted into Intermediate Sanction Facility (ISF) beds and 1,473 beds temporarily removed from capacity due to staffing shortages. Also at this time, on-line bed capacity did not include 2,180 temporary placement beds, which include medical (hospital beds and unit-based infirmary beds), solitary confinement, transfer holding, and pre-hearing detention beds. Inmates housed in temporary placement beds also have permanent beds assigned to them. The total number of ISF beds, at the end of November 2014, was 2,669, which included the 964 SAFP beds temporarily converted into ISF beds and 1,705 previously existing ISF beds.

Capacity Adjustments:

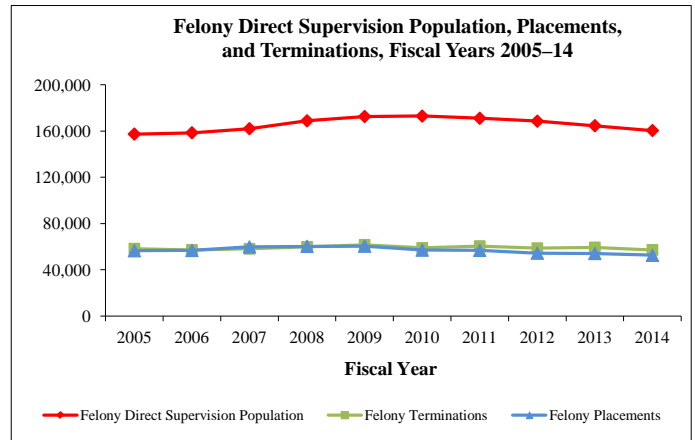

- * In November 2014, TDCJ temporarily removed 68 beds from capacity at the Glossbrenner Unit; these beds were converted from SAFP beds to ISF beds.
- * In July 2014, TDCJ temporarily removed 56 beds from capacity at the East Texas Treatment Facility; these beds were converted from SAFP beds to ISF beds.
- * In December 2013, TDCJ permanently removed 40 beds at the Duncan facility; adjustments were made to accommodate wheelchair accessibility.

Texas Department of Criminal Justice Community Supervision (Adult Probation) Populations

¹ During fiscal year 2010, the Texas Department of Criminal Justice – Community Justice Assistance Division transitioned from compiling aggregate population data from counties through the Monthly Community Supervision and Corrections Report (MCSCR) to generating monthly population reports based on detailed case-based data collected through the Community Supervision Tracking System / Intermediate System (CSTS Intermediate System). Community supervision data through fiscal year 2009 are based on population counts reported to the MCSCR, and fiscal years 2010 to 2012 data are based on monthly reports generated from the CSTS Intermediate System. Community supervision data will be updated on a quarterly basis.

² Supervision placements include adjudicated probation, deferred adjudication, return from shock incarceration, and return from state boot camp.

³ Successful supervision terminations include early termination and expired term.

⁴ Unsuccessful supervision terminations include revocation to county jail, state jail, prison, state boot camp, and other revocations.

Texas Juvenile Justice Department: State Correctional Populations

¹ Historical numbers reflected in this report may be updated to reflect current information.

² A new commitment is a juvenile committed to the Texas Juvenile Justice Department (TJJD) for the first time and a recommitment is a juvenile who had been committed to TJJD at least once prior to the current commitment.

³ A determinate sentence is a commitment for a specified period of time that is set by the juvenile court and can last up to 40 years in length; youth who have not completed their sentence length by their 19th birthday are transferred to the adult system to complete the sentence.

⁴ An indeterminate sentence is a commitment for an unspecified length of time up to the child's 19th birthday; TJJD has sole discretion over the commitment length.

⁵ The parole revocation information in this table presents the offense category that initiated the parole revocation.

⁶ Other commitments (also referred to as negative movements) are juveniles returned to a secure facility for medical care, mental health care, and other non-disciplinary reasons. It also includes juveniles moved to a secure facility for a court hearing that does not result in a revocation.

⁷ This calculation involved only one juvenile.

Texas Juvenile Justice Department: Juvenile Probation Department Supervision Populations

¹ A formal referral occurs when: 1) delinquent conduct, conduct indicating a need for supervision (CINS), or violation of probation was allegedly committed; 2) the juvenile probation department has jurisdiction and venue; and 3) face-to-face contact occurs with the department or official designated by the juvenile board. Juveniles are typically referred to juvenile probation departments by schools and police but may also be referred by social workers, parents, and others. Historical numbers reflected in this report may be updated to reflect current information.

² Misdemeanor Offenses include contempt of magistrate orders in addition to class A and B misdemeanor offenses.

³ Conduct in Need of Supervision (CINS) is a non-criminal offense for a juvenile and includes public intoxication, truancy, running away from home, fineable-only offenses that have been transferred to a juvenile court from a municipal or justice court, inhalant abuse, and expulsion from an alternative school setting for persistent misconduct.

⁴ Dispositions reflect the outcomes of referrals to juvenile probation departments. The dispositions listed above do not include consolidated or transferred cases. Adjudicated probation includes all adjudicated dispositions of probation and modification of probation. Dismissed dispositions include dismissals, findings of not guilty, and findings of no probable cause. Supervisory caution is a non-judicial disposition that may involve such actions as referring the child to a social service agency or a community-based first offender program operated by law enforcement, contacting parents to inform them of the child's activities, or simply warning the child about his or her activities. Historical numbers reflected in this report may be updated to reflect current information. Figures in the table represent the number of cases, not the number of juveniles. A juvenile may have more than one case in a quarter.

⁵ Juveniles under pre-disposition, deferred prosecution, or adjudicated probation supervision may also be on Intensive Supervision (ISP) and/or placed in a residential facility. ISP is a form of supervision that typically involves smaller caseloads supervised by specially trained probation officers and more frequent contacts between the juvenile and his or her probation officer. Juveniles under deferred prosecution or adjudicated probation supervision may be placed in a secure or nonsecure residential facility that is administered by a juvenile probation department or a contracted organization.

⁶ The Juvenile Justice Alternative Education Program (JJAEP) table and graph only captures information about students expelled for mandatory reasons because the state only provides funding for these JJAEP students though JJAEPs may accept students referred for discretionary reasons. The number of mandatory attendance days in June and July are low because many schools close in May and others only operate for part of June. The counts in summer school are also typically low because operating a summer school is optional. Historical numbers reflected in this report may be updated to reflect current information.

⁷ Mandatory Attendance Days reflect the sum of the number of days each mandatory student attends JJAEPs within the month.

⁸ The graph reflects the number of juveniles certified as an adult and the number of cases sent to TJJD state residential facilities.

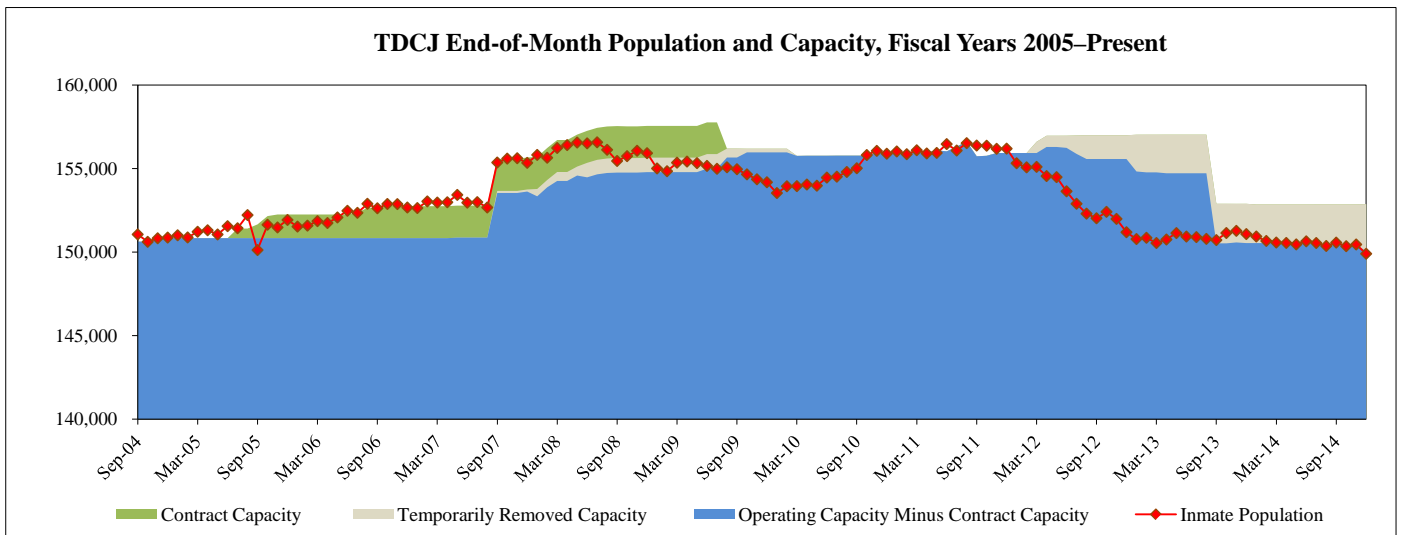

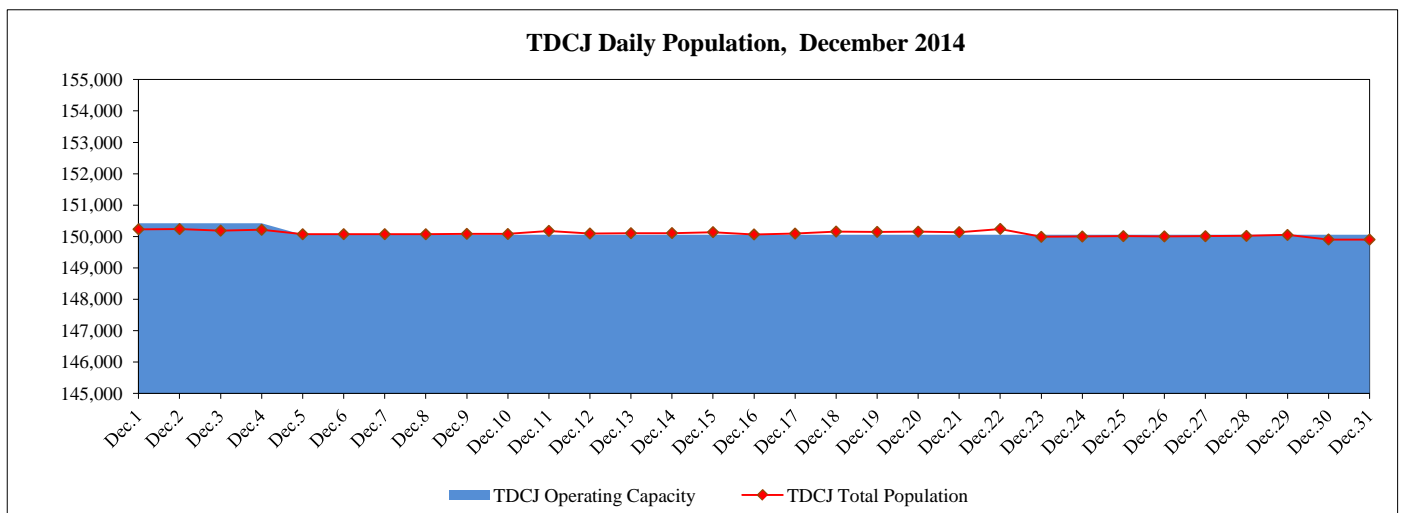

⁹ The Juvenile Justice Alternative Education Program graph reflects mandatory attendance days accrued during the regular school year and does not include those accrued during summer school. Since summer school is optional and only available when sufficient funding exists, including only the regular school year renders year-to-year results that are comparable over time.

Monthly Tracking of Adult Correctional Population Indicators (January 2015)

Texas Department of Criminal Justice Correctional Population and Capacity (End of Month)

Month/Year	Total Population (End of Month)	On-Line Bed Capacity	Bed Capacity Adjustments				Operating Capacity	Available Operating Capacity

November 2014	150,457	156,688	0	68	0	-68	150,420	-37
December 2014	149,901	156,307	0	381	0	-381	150,055	154

Note: TDCJ defines operating capacity as 96.0% of its on-line bed capacity. TDCJ is accustomed to going beyond its operating capacity for short periods of time.

On-line bed capacity reflects the total number of TDCJ beds available for the permanent assignment of inmates. At the end of December 2014, 2,818 beds had been temporarily removed from on-line bed capacity, including 964 Substance Abuse Felony Punishment (SAFP) beds temporarily converted into Intermediate Sanction Facility (ISF) beds and 1,854 beds temporarily removed from capacity due to staffing shortages. Also at this time, on-line bed capacity did not include 2,180 temporary placement beds, which include medical (hospital beds and unit-based infirmary beds), solitary confinement, transfer holding, and pre-hearing detention beds. Inmates housed in temporary placement beds also have permanent beds assigned to them. The total number of ISF beds, at the end of December 2014, was 2,669, which included the 964 SAFP beds temporarily converted into ISF beds and 1,705 previously existing ISF beds.

Capacity Adjustments:

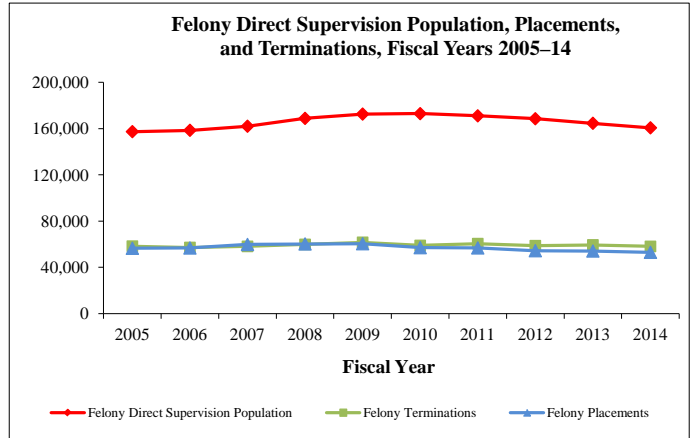

- * In December 2014, TDCJ temporarily removed 381 beds from capacity at the Smith Unit due to staffing shortages.
- * In November 2014, TDCJ temporarily removed 68 beds from capacity at the Glossbrenner Unit; these beds were converted from SAFP beds to ISF beds.
- * In July 2014, TDCJ temporarily removed 56 beds from capacity at the East Texas Treatment Facility; these beds were converted from SAFP beds to ISF beds.

Texas Department of Criminal Justice Community Supervision (Adult Probation) Populations

¹ During fiscal year 2010, the Texas Department of Criminal Justice – Community Justice Assistance Division transitioned from compiling aggregate population data from counties through the Monthly Community Supervision and Corrections Report (MCSCR) to generating monthly population reports based on detailed case-based data collected through the Community Supervision Tracking System / Intermediate System (CSTS Intermediate System). Community supervision data through fiscal year 2009 are based on population counts reported to the MCSCR, and fiscal years 2010 to 2012 data are based on monthly reports generated from the CSTS Intermediate System. Community supervision data will be updated on a quarterly basis.

² Supervision placements include adjudicated probation, deferred adjudication, return from shock incarceration, and return from state boot camp.

³ Successful supervision terminations include early termination and expired term.

⁴ Unsuccessful supervision terminations include revocation to county jail, state jail, prison, state boot camp, and other revocations.

Texas Juvenile Justice Department: State Correctional Populations

¹ Historical numbers reflected in this report may be updated to reflect current information.

² A new commitment is a juvenile committed to the Texas Juvenile Justice Department (TJJD) for the first time and a recommitment is a juvenile who had been committed to TJJD at least once prior to the current commitment.

³ A determinate sentence is a commitment for a specified period of time that is set by the juvenile court and can last up to 40 years in length; youth who have not completed their sentence length by their 19th birthday are transferred to the adult system to complete the sentence.

⁴ An indeterminate sentence is a commitment for an unspecified length of time up to the child's 19th birthday; TJJD has sole discretion over the commitment length.

⁵ The parole revocation information in this table presents the offense category that initiated the parole revocation.

⁶ Other commitments (also referred to as negative movements) are juveniles returned to a secure facility for medical care, mental health care, and other non-disciplinary reasons. It also includes juveniles moved to a secure facility for a court hearing that does not result in a revocation.

⁷ This calculation involved only one juvenile.

Texas Juvenile Justice Department: Juvenile Probation Department Supervision Populations

¹ A formal referral occurs when: 1) delinquent conduct, conduct indicating a need for supervision (CINS), or violation of probation was allegedly committed; 2) the juvenile probation department has jurisdiction and venue; and 3) face-to-face contact occurs with the department or official designated by the juvenile board. Juveniles are typically referred to juvenile probation departments by schools and police but may also be referred by social workers, parents, and others. Historical numbers reflected in this report may be updated to reflect current information.

² Misdemeanor Offenses include contempt of magistrate orders in addition to class A and B misdemeanor offenses.

³ Conduct in Need of Supervision (CINS) is a non-criminal offense for a juvenile and includes public intoxication, truancy, running away from home, fineable-only offenses that have been transferred to a juvenile court from a municipal or justice court, inhalant abuse, and expulsion from an alternative school setting for persistent misconduct.

⁴ Dispositions reflect the outcomes of referrals to juvenile probation departments. The dispositions listed above do not include consolidated or transferred cases. Adjudicated probation includes all adjudicated dispositions of probation and modification of probation. Dismissed dispositions include dismissals, findings of not guilty, and findings of no probable cause. Supervisory caution is a non-judicial disposition that may involve such actions as referring the child to a social service agency or a community-based first offender program operated by law enforcement, contacting parents to inform them of the child's activities, or simply warning the child about his or her activities. Historical numbers reflected in this report may be updated to reflect current information. Figures in the table represent the number of cases, not the number of juveniles. A juvenile may have more than one case in a quarter.

⁵ Juveniles under pre-disposition, deferred prosecution, or adjudicated probation supervision may also be on Intensive Supervision (ISP) and/or placed in a residential facility. ISP is a form of supervision that typically involves smaller caseloads supervised by specially trained probation officers and more frequent contacts between the juvenile and his or her probation officer. Juveniles under deferred prosecution or adjudicated probation supervision may be placed in a secure or nonsecure residential facility that is administered by a juvenile probation department or a contracted organization.

⁶ The Juvenile Justice Alternative Education Program (JJAEP) table and graph only captures information about students expelled for mandatory reasons because the state only provides funding for these JJAEP students though JJAEPs may accept students referred for discretionary reasons. The number of mandatory attendance days in June and July are low because many schools close in May and others only operate for part of June. The counts in summer school are also typically low because operating a summer school is optional. Historical numbers reflected in this report may be updated to reflect current information.

⁷ Mandatory Attendance Days reflect the sum of the number of days each mandatory student attends JJAEPs within the month.

⁸ The graph reflects the number of juveniles certified as an adult and the number of cases sent to TJJD state residential facilities.

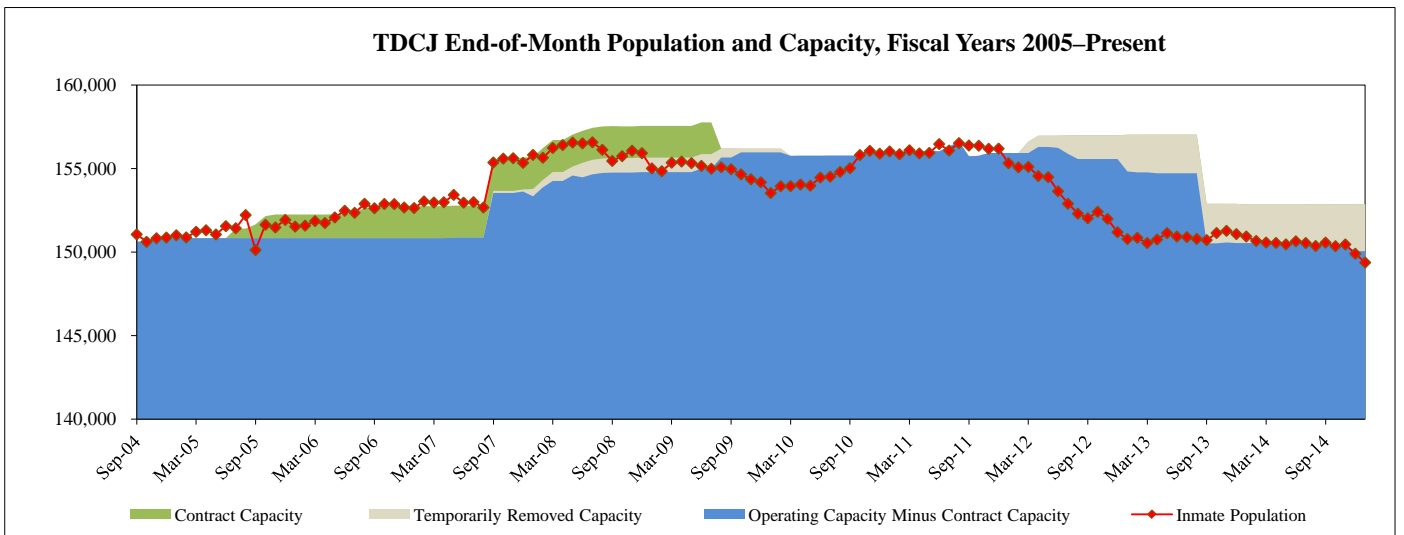

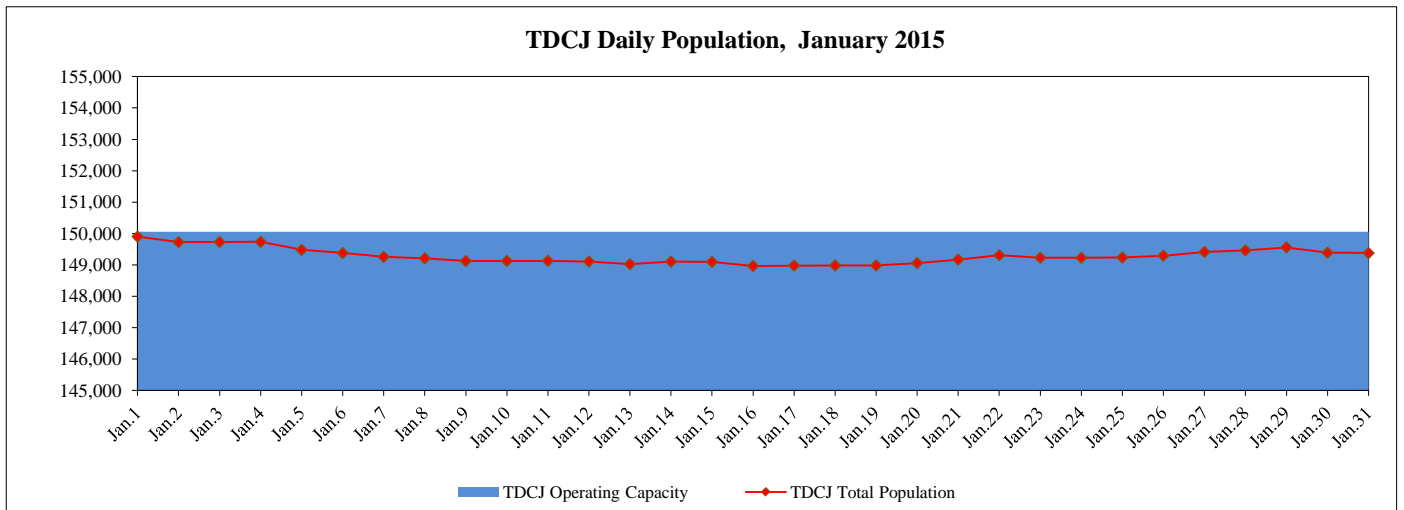

⁹ The Juvenile Justice Alternative Education Program graph reflects mandatory attendance days accrued during the regular school year and does not include those accrued during summer school. Since summer school is optional and only available when sufficient funding exists, including only the regular school year renders year-to-year results that are comparable over time.

January 2015	149,374	156,307	0	0	0	0	150,055	681

Note: TDCJ defines operating capacity as 96.0% of its on-line bed capacity. TDCJ is accustomed to going beyond its operating capacity for short periods of time.

On-line bed capacity reflects the total number of TDCJ beds available for the permanent assignment of inmates. At the end of January 2015, 2,818 beds had been temporarily removed from on-line bed capacity, including 964 Substance Abuse Felony Punishment (SAFP) beds temporarily converted into Intermediate Sanction Facility (ISF) beds and 1,854 beds temporarily removed from capacity due to staffing shortages. Also at this time, on-line bed capacity did not include 2,180 temporary placement beds, which include medical (hospital beds and unit-based infirmary beds), solitary confinement, transfer holding, and pre-hearing detention beds. Inmates housed in temporary placement beds also have permanent beds assigned to them. The total number of ISF beds, at the end of January 2015, was 2,669, which included the 964 SAFP beds temporarily converted into ISF beds and 1,705 previously existing ISF beds.

Capacity Adjustments:

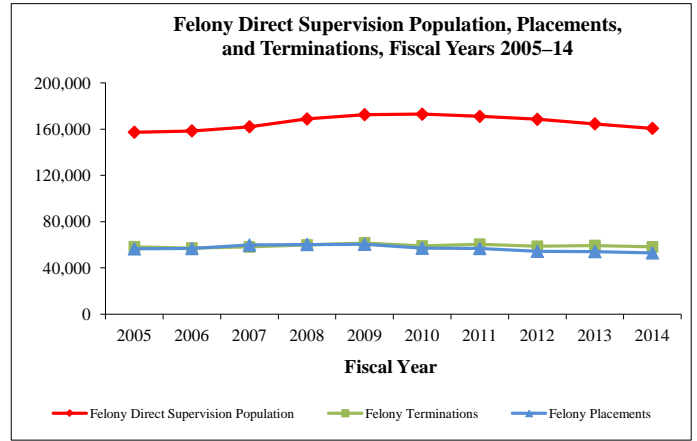

- * In December 2014, TDCJ temporarily removed 381 beds from capacity at the Smith Unit due to staffing shortages.
- * In November 2014, TDCJ temporarily removed 68 beds from capacity at the Glossbrenner Unit; these beds were converted from SAFP beds to ISF beds.
- * In July 2014, TDCJ temporarily removed 56 beds from capacity at the East Texas Treatment Facility; these beds were converted from SAFP beds to ISF beds.

Texas Department of Criminal Justice Community Supervision (Adult Probation) Populations

¹ During fiscal year 2010, the Texas Department of Criminal Justice – Community Justice Assistance Division transitioned from compiling aggregate population data from counties through the Monthly Community Supervision and Corrections Report (MCSCR) to generating monthly population reports based on detailed case-based data collected through the Community Supervision Tracking System / Intermediate System (CSTS Intermediate System). Community supervision data through fiscal year 2009 are based on population counts reported to the MCSCR, and fiscal years 2010 to 2012 data are based on monthly reports generated from the CSTS Intermediate System. Community supervision data will be updated on a quarterly basis.

² Supervision placements include adjudicated probation, deferred adjudication, return from shock incarceration, and return from state boot camp.

³ Successful supervision terminations include early termination and expired term.

⁴ Unsuccessful supervision terminations include revocation to county jail, state jail, prison, state boot camp, and other revocations.

Texas Juvenile Justice Department: State Correctional Populations

¹ Historical numbers reflected in this report may be updated to reflect current information.

² A new commitment is a juvenile committed to the Texas Juvenile Justice Department (TJJD) for the first time and a recommitment is a juvenile who had been committed to TJJD at least once prior to the current commitment.

³ A determinate sentence is a commitment for a specified period of time that is set by the juvenile court and can last up to 40 years in length; youth who have not completed their sentence length by their 19th birthday are transferred to the adult system to complete the sentence.

⁴ An indeterminate sentence is a commitment for an unspecified length of time up to the child's 19th birthday; TJJD has sole discretion over the commitment length.

⁵ The parole revocation information in this table presents the offense category that initiated the parole revocation.

⁶ Other commitments (also referred to as negative movements) are juveniles returned to a secure facility for medical care, mental health care, and other non-disciplinary reasons. It also includes juveniles moved to a secure facility for a court hearing that does not result in a revocation.

⁷ This calculation involved only one juvenile.

Texas Juvenile Justice Department: Juvenile Probation Department Supervision Populations

¹ A formal referral occurs when: 1) delinquent conduct, conduct indicating a need for supervision (CINS), or violation of probation was allegedly committed; 2) the juvenile probation department has jurisdiction and venue; and 3) face-to-face contact occurs with the department or official designated by the juvenile board. Juveniles are typically referred to juvenile probation departments by schools and police but may also be referred by social workers, parents, and others. Historical numbers reflected in this report may be updated to reflect current information.

² Misdemeanor Offenses include contempt of magistrate orders in addition to class A and B misdemeanor offenses.

³ Conduct in Need of Supervision (CINS) is a non-criminal offense for a juvenile and includes public intoxication, truancy, running away from home, fineable-only offenses that have been transferred to a juvenile court from a municipal or justice court, inhalant abuse, and expulsion from an alternative school setting for persistent misconduct.

⁴ Dispositions reflect the outcomes of referrals to juvenile probation departments. The dispositions listed above do not include consolidated or transferred cases. Adjudicated probation includes all adjudicated dispositions of probation and modification of probation. Dismissed dispositions include dismissals, findings of not guilty, and findings of no probable cause. Supervisory caution is a non-judicial disposition that may involve such actions as referring the child to a social service agency or a community-based first offender program operated by law enforcement, contacting parents to inform them of the child's activities, or simply warning the child about his or her activities. Historical numbers reflected in this report may be updated to reflect current information. Figures in the table represent the number of cases, not the number of juveniles. A juvenile may have more than one case in a quarter.

⁵ Juveniles under conditional pre-disposition, deferred prosecution, or adjudicated probation supervision may also be on Intensive Supervision (ISP) and/or placed in a residential facility. ISP is a form of supervision that typically involves smaller caseloads supervised by specially trained probation officers and more frequent contacts between the juvenile and his or her probation officer. Juveniles under deferred prosecution or adjudicated probation supervision may be placed in a secure or nonsecure residential facility that is administered by a juvenile probation department or a contracted organization.

⁶ The Juvenile Justice Alternative Education Program (JJAEP) table and graph only captures information about students expelled for mandatory reasons because the state only provides funding for these JJAEP students though JJAEPs may accept students referred for discretionary reasons. The number of mandatory attendance days in June and July are low because many schools close in May and others only operate for part of June. The counts in summer school are also typically low because operating a summer school is optional. Historical numbers reflected in this report may be updated to reflect current information.

⁷ Mandatory Attendance Days reflect the sum of the number of days each mandatory student attends JJAEPs within the month.

⁸ The graph reflects the number of juveniles certified as an adult and the number of cases sent to TJJD state residential facilities.

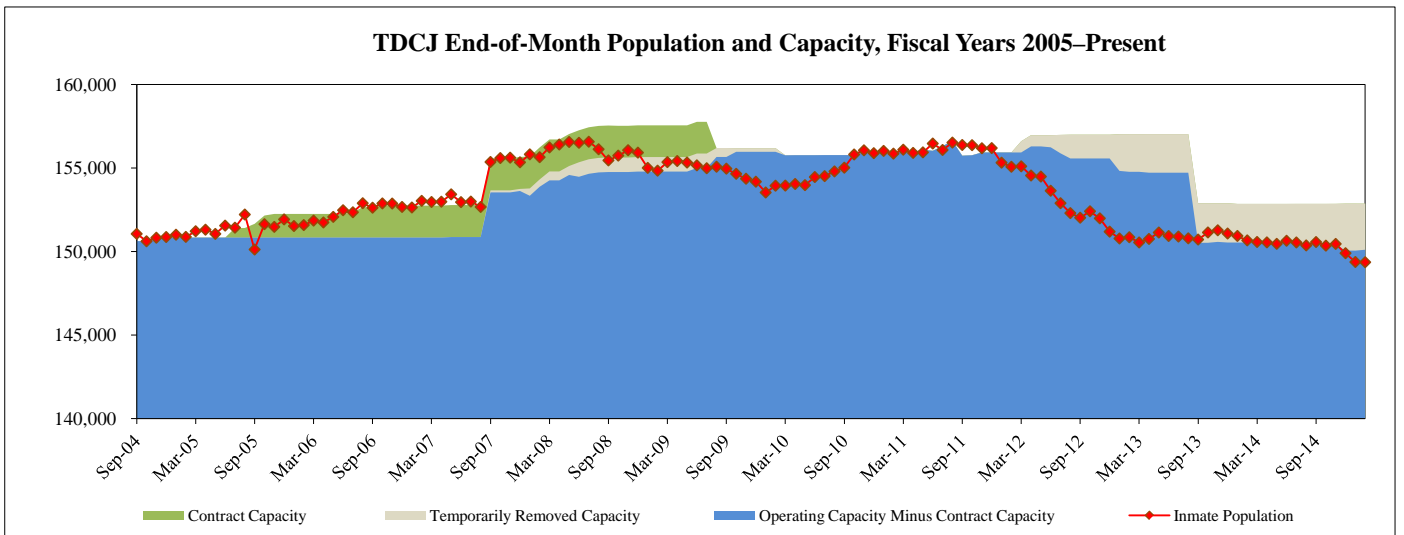

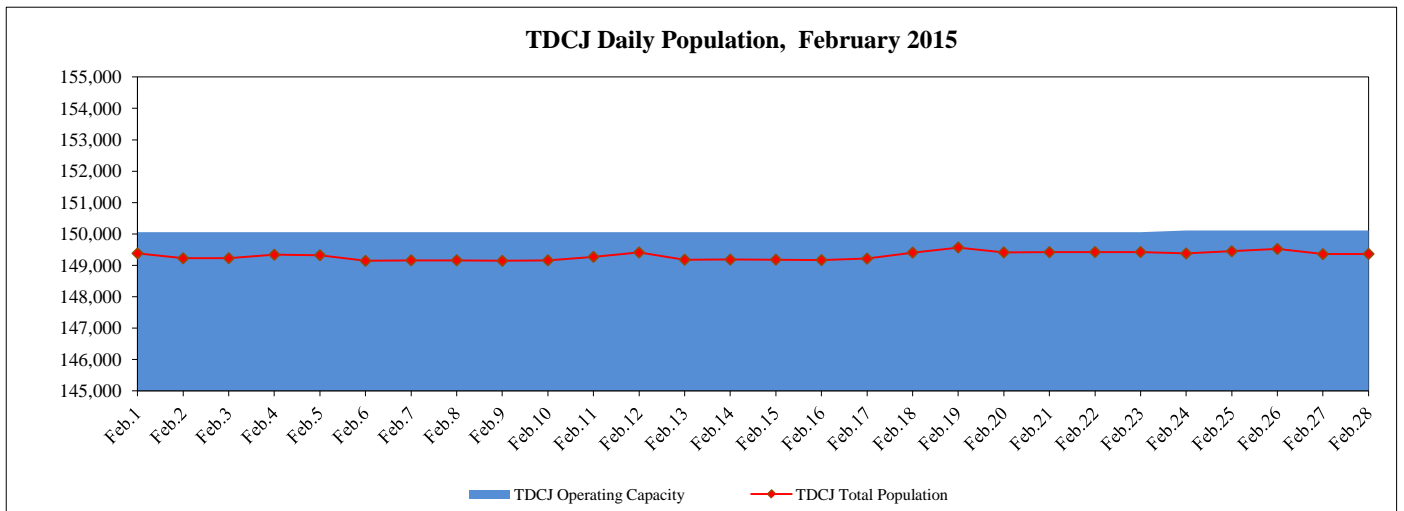

⁹ The Juvenile Justice Alternative Education Program graph reflects mandatory attendance days accrued during the regular school year and does not include those accrued during summer school. Since summer school is optional and only available when sufficient funding exists, including only the regular school year renders year-to-year results that are comparable over time.

February 2015	149,361	156,363	56	0	0	56	150,108	747

Note: TDCJ defines operating capacity as 96.0% of its on-line bed capacity. TDCJ is accustomed to going beyond its operating capacity for short periods of time.

On-line bed capacity reflects the total number of TDCJ beds available for the permanent assignment of inmates. At the end of February 2015, 2,762 beds had been temporarily removed from on-line bed capacity, including 908 Substance Abuse Felony Punishment (SAFP) beds temporarily converted into Intermediate Sanction Facility (ISF) beds and 1,854 beds temporarily removed from capacity due to staffing shortages. Also at this time, on-line bed capacity did not include 2,180 temporary placement beds, which include medical (hospital beds and unit-based infirmary beds), solitary confinement, transfer holding, and pre-hearing detention beds. Inmates housed in temporary placement beds also have permanent beds assigned to them. The total number of ISF beds, at the end of February 2015, was 2,613, which included the 908 SAFP beds temporarily converted into ISF beds and 1,705 previously existing ISF beds.

Capacity Adjustments:

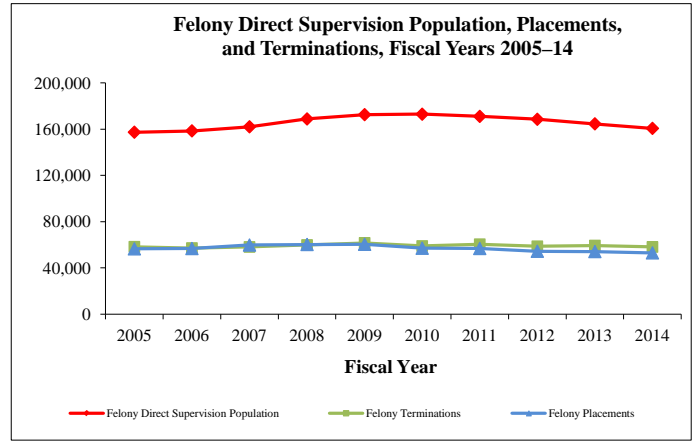

- * In February 2015, TDCJ added 56 beds to capacity at the East Texas Treatment Facility; these beds were converted from ISF beds to SAFP beds.
- * In December 2014, TDCJ temporarily removed 381 beds from capacity at the Smith Unit due to staffing shortages.
- * In November 2014, TDCJ temporarily removed 68 beds from capacity at the Glossbrenner Unit; these beds were converted from SAFP beds to ISF beds.
- * In July 2014, TDCJ temporarily removed 56 beds from capacity at the East Texas Treatment Facility; these beds were converted from SAFP beds to ISF beds.

Texas Department of Criminal Justice Community Supervision (Adult Probation) Populations

¹ During fiscal year 2010, the Texas Department of Criminal Justice – Community Justice Assistance Division transitioned from compiling aggregate population data from counties through the Monthly Community Supervision and Corrections Report (MCSCR) to generating monthly population reports based on detailed case-based data collected through the Community Supervision Tracking System / Intermediate System (CSTS Intermediate System). Community supervision data through fiscal year 2009 are based on population counts reported to the MCSCR, and fiscal years 2010 to 2012 data are based on monthly reports generated from the CSTS Intermediate System. Community supervision data will be updated on a quarterly basis.

² Supervision placements include adjudicated probation, deferred adjudication, return from shock incarceration, and return from state boot camp.

³ Successful supervision terminations include early termination and expired term.

⁴ Unsuccessful supervision terminations include revocation to county jail, state jail, prison, state boot camp, and other revocations.

Texas Juvenile Justice Department: State Correctional Populations

¹ Historical numbers reflected in this report may be updated to reflect current information.

² A new commitment is a juvenile committed to the Texas Juvenile Justice Department (TJJD) for the first time and a recommitment is a juvenile who had been committed to TJJD at least once prior to the current commitment.

³ A determinate sentence is a commitment for a specified period of time that is set by the juvenile court and can last up to 40 years in length; youth who have not completed their sentence length by their 19th birthday are transferred to the adult system to complete the sentence.

⁴ An indeterminate sentence is a commitment for an unspecified length of time up to the child's 19th birthday; TJJD has sole discretion over the commitment length.

⁵ The parole revocation information in this table presents the offense category that initiated the parole revocation.

⁶ Other commitments (also referred to as negative movements) are juveniles returned to a secure facility for medical care, mental health care, and other non-disciplinary reasons. It also includes juveniles moved to a secure facility for a court hearing that does not result in a revocation.

⁷ This calculation involved only one juvenile.

Texas Juvenile Justice Department: Juvenile Probation Department Supervision Populations

¹ A formal referral occurs when: 1) delinquent conduct, conduct indicating a need for supervision (CINS), or violation of probation was allegedly committed; 2) the juvenile probation department has jurisdiction and venue; and 3) face-to-face contact occurs with the department or official designated by the juvenile board. Juveniles are typically referred to juvenile probation departments by schools and police but may also be referred by social workers, parents, and others. Historical numbers reflected in this report may be updated to reflect current information.

² Misdemeanor Offenses include contempt of magistrate orders in addition to class A and B misdemeanor offenses.

³ Conduct in Need of Supervision (CINS) is a non-criminal offense for a juvenile and includes public intoxication, truancy, running away from home, fineable-only offenses that have been transferred to a juvenile court from a municipal or justice court, inhalant abuse, and expulsion from an alternative school setting for persistent misconduct.

⁴ Dispositions reflect the outcomes of referrals to juvenile probation departments. The dispositions listed above do not include consolidated or transferred cases. Adjudicated probation includes all adjudicated dispositions of probation and modification of probation. Dismissed dispositions include dismissals, findings of not guilty, and findings of no probable cause. Supervisory caution is a non-judicial disposition that may involve such actions as referring the child to a social service agency or a community-based first offender program operated by law enforcement, contacting parents to inform them of the child's activities, or simply warning the child about his or her activities. Historical numbers reflected in this report may be updated to reflect current information. Figures in the table represent the number of cases, not the number of juveniles. A juvenile may have more than one case in a quarter.

⁵ Juveniles under conditional pre-disposition, deferred prosecution, or adjudicated probation supervision may also be on Intensive Supervision (ISP) and/or placed in a residential facility. ISP is a form of supervision that typically involves smaller caseloads supervised by specially trained probation officers and more frequent contacts between the juvenile and his or her probation officer. Juveniles under deferred prosecution or adjudicated probation supervision may be placed in a secure or nonsecure residential facility that is administered by a juvenile probation department or a contracted organization.

⁶ The Juvenile Justice Alternative Education Program (JJAEP) table and graph only captures information about students expelled for mandatory reasons because the state only provides funding for these JJAEP students though JJAEPs may accept students referred for discretionary reasons. The number of mandatory attendance days in June and July are low because many schools close in May and others only operate for part of June. The counts in summer school are also typically low because operating a summer school is optional. Historical numbers reflected in this report may be updated to reflect current information.

⁷ Mandatory Attendance Days reflect the sum of the number of days each mandatory student attends JJAEPs within the month.

⁸ The graph reflects the number of juveniles certified as an adult and the number of cases sent to TJJD state residential facilities.

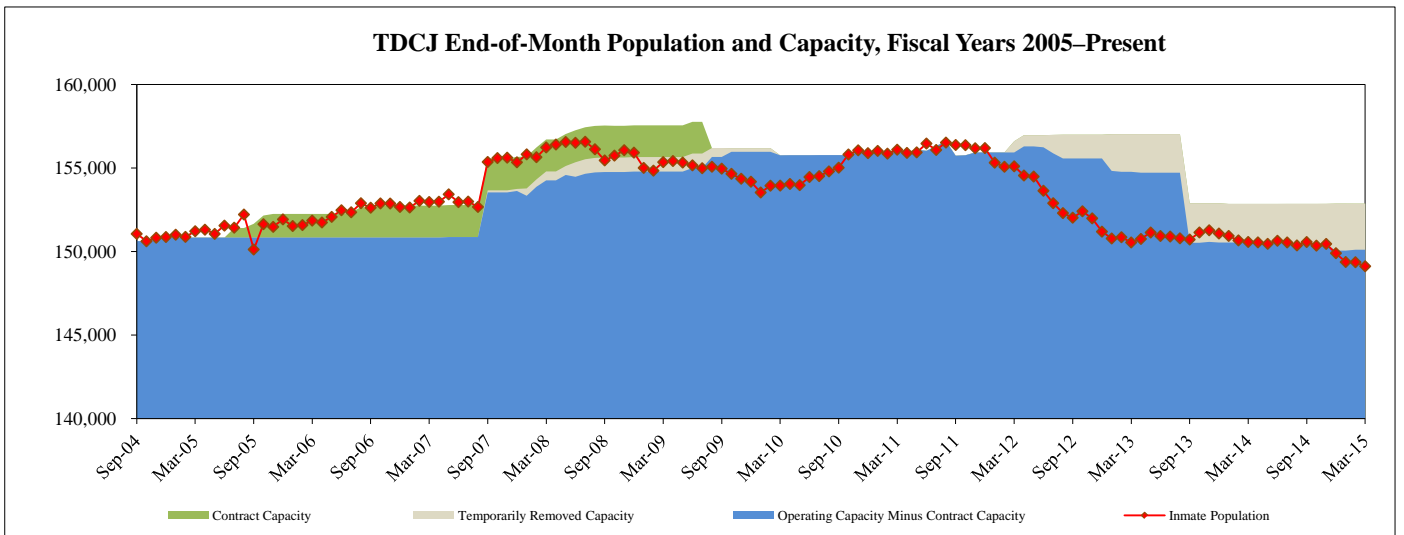

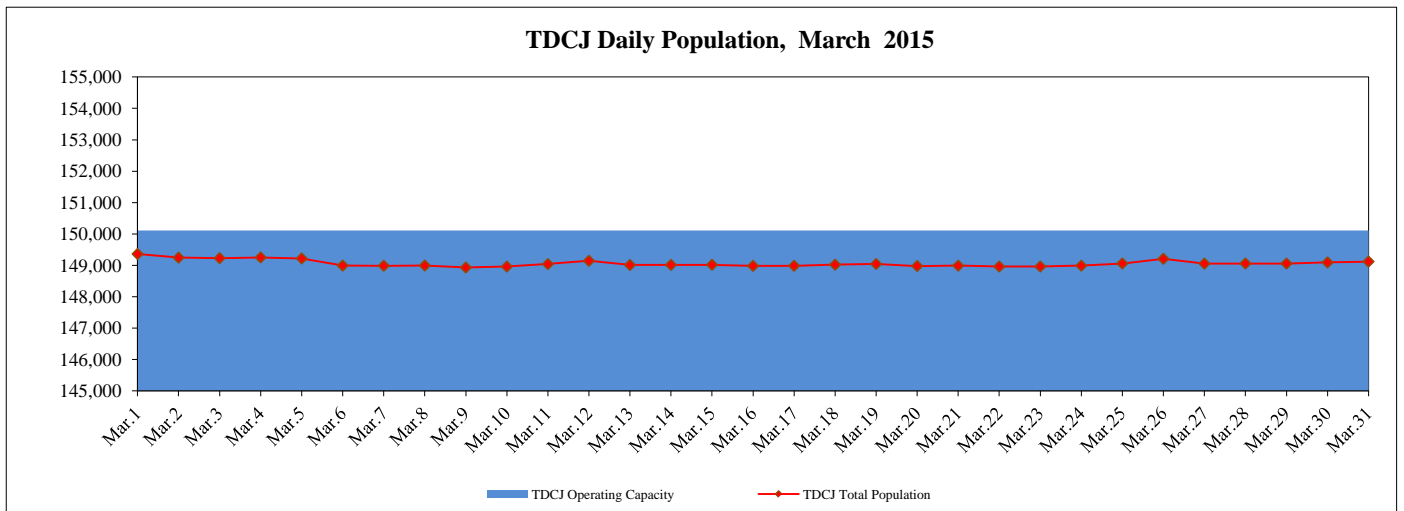

⁹ The Juvenile Justice Alternative Education Program graph reflects mandatory attendance days accrued during the regular school year and does not include those accrued during summer school. Since summer school is optional and only available when sufficient funding exists, including only the regular school year renders year-to-year results that are comparable over time.

March 2015	149,118	156,363	0	0	0	0	150,108	990

Note: TDCJ defines operating capacity as 96.0% of its on-line bed capacity. TDCJ is accustomed to going beyond its operating capacity for short periods of time.

On-line bed capacity reflects the total number of TDCJ beds available for the permanent assignment of inmates. At the end of March 2015, 2,762 beds had been temporarily removed from on-line bed capacity, including 908 Substance Abuse Felony Punishment (SAFP) beds temporarily converted into Intermediate Sanction Facility (ISF) beds and 1,854 beds temporarily removed from capacity due to staffing shortages. Also at this time, on-line bed capacity did not include 2,180 temporary placement beds, which include medical (hospital beds and unit-based infirmary beds), solitary confinement, transfer holding, and pre-hearing detention beds. Inmates housed in temporary placement beds also have permanent beds assigned to them. The total number of ISF beds, at the end of March 2015, was 2,613, which included the 908 SAFP beds temporarily converted into ISF beds and 1,705 previously existing ISF beds.

Capacity Adjustments:

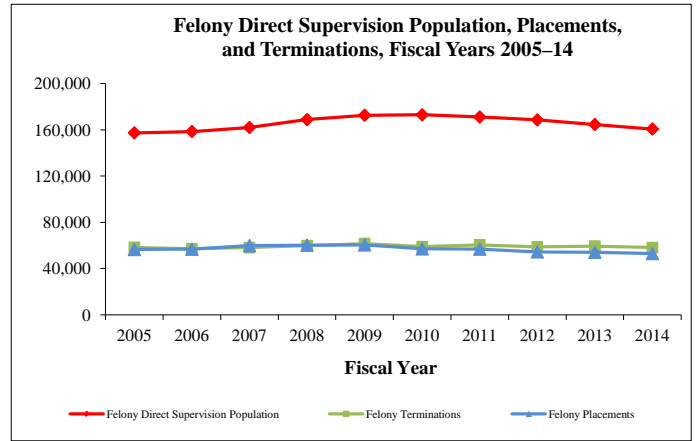

- * In February 2015, TDCJ added 56 beds to capacity at the East Texas Treatment Facility; these beds were converted from ISF beds to SAFP beds.
- * In December 2014, TDCJ temporarily removed 381 beds from capacity at the Smith Unit due to staffing shortages.
- * In November 2014, TDCJ temporarily removed 68 beds from capacity at the Glossbrenner Unit; these beds were converted from SAFP beds to ISF beds.
- * In July 2014, TDCJ temporarily removed 56 beds from capacity at the East Texas Treatment Facility; these beds were converted from SAFP beds to ISF beds.

Texas Department of Criminal Justice Community Supervision (Adult Probation) Populations

¹ During fiscal year 2010, the Texas Department of Criminal Justice – Community Justice Assistance Division transitioned from compiling aggregate population data from counties through the Monthly Community Supervision and Corrections Report (MCSCR) to generating monthly population reports based on detailed case-based data collected through the Community Supervision Tracking System / Intermediate System (CSTS Intermediate System). Community supervision data through fiscal year 2009 are based on population counts reported to the MCSCR, and fiscal years 2010 to 2012 data are based on monthly reports generated from the CSTS Intermediate System. Community supervision data will be updated on a quarterly basis.

² Supervision placements include adjudicated probation, deferred adjudication, return from shock incarceration, and return from state boot camp.

³ Successful supervision terminations include early termination and expired term.

⁴ Unsuccessful supervision terminations include revocation to county jail, state jail, prison, state boot camp, and other revocations.

Texas Juvenile Justice Department: State Correctional Populations

¹ Historical numbers reflected in this report may be updated to reflect current information.

² A new commitment is a juvenile committed to the Texas Juvenile Justice Department (TJJD) for the first time and a recommitment is a juvenile who had been committed to TJJD at least once prior to the current commitment.

³ A determinate sentence is a commitment for a specified period of time that is set by the juvenile court and can last up to 40 years in length; youth who have not completed their sentence length by their 19th birthday are transferred to the adult system to complete the sentence.

⁴ An indeterminate sentence is a commitment for an unspecified length of time up to the child's 19th birthday; TJJD has sole discretion over the commitment length.

⁵ The parole revocation information in this table presents the offense category that initiated the parole revocation.

⁶ Other commitments (also referred to as negative movements) are juveniles returned to a secure facility for medical care, mental health care, and other non-disciplinary reasons. It also includes juveniles moved to a secure facility for a court hearing that does not result in a revocation.

⁷ This calculation involved only one juvenile.

Texas Juvenile Justice Department: Juvenile Probation Department Supervision Populations

¹ A formal referral occurs when: 1) delinquent conduct, conduct indicating a need for supervision (CINS), or violation of probation was allegedly committed; 2) the juvenile probation department has jurisdiction and venue; and 3) face-to-face contact occurs with the department or official designated by the juvenile board. Juveniles are typically referred to juvenile probation departments by schools and police but may also be referred by social workers, parents, and others. Historical numbers reflected in this report may be updated to reflect current information.

² Misdemeanor Offenses include contempt of magistrate orders in addition to class A and B misdemeanor offenses.

³ Conduct in Need of Supervision (CINS) is a non-criminal offense for a juvenile and includes public intoxication, truancy, running away from home, fineable-only offenses that have been transferred to a juvenile court from a municipal or justice court, inhalant abuse, and expulsion from an alternative school setting for persistent misconduct.

⁴ Dispositions reflect the outcomes of referrals to juvenile probation departments. The dispositions listed above do not include consolidated or transferred cases. Adjudicated probation includes all adjudicated dispositions of probation and modification of probation. Dismissed dispositions include dismissals, findings of not guilty, and findings of no probable cause. Supervisory caution is a non-judicial disposition that may involve such actions as referring the child to a social service agency or a community-based first offender program operated by law enforcement, contacting parents to inform them of the child's activities, or simply warning the child about his or her activities. Historical numbers reflected in this report may be updated to reflect current information. Figures in the table represent the number of cases, not the number of juveniles. A juvenile may have more than one case in a quarter.

⁵ Juveniles under conditional pre-disposition, deferred prosecution, or adjudicated probation supervision may also be on Intensive Supervision (ISP) and/or placed in a residential facility. ISP is a form of supervision that typically involves smaller caseloads supervised by specially trained probation officers and more frequent contacts between the juvenile and his or her probation officer. Juveniles under deferred prosecution or adjudicated probation supervision may be placed in a secure or nonsecure residential facility that is administered by a juvenile probation department or a contracted organization.

⁶ The Juvenile Justice Alternative Education Program (JJAEP) table and graph only captures information about students expelled for mandatory reasons because the state only provides funding for these JJAEP students though JJAEPs may accept students referred for discretionary reasons. The number of mandatory attendance days in June and July are low because many schools close in May and others only operate for part of June. The counts in summer school are also typically low because operating a summer school is optional. Historical numbers reflected in this report may be updated to reflect current information.

⁷ Mandatory Attendance Days reflect the sum of the number of days each mandatory student attends JJAEPs within the month.

⁸ The graph reflects the number of juveniles certified as an adult and the number of cases sent to TJJD state residential facilities.

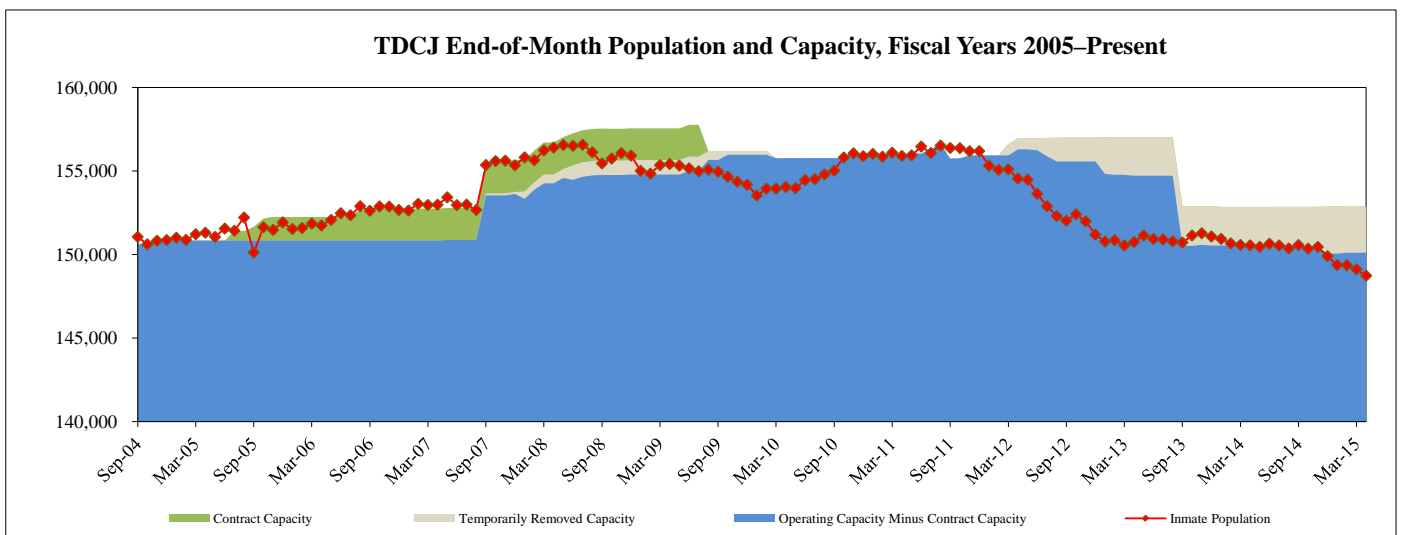

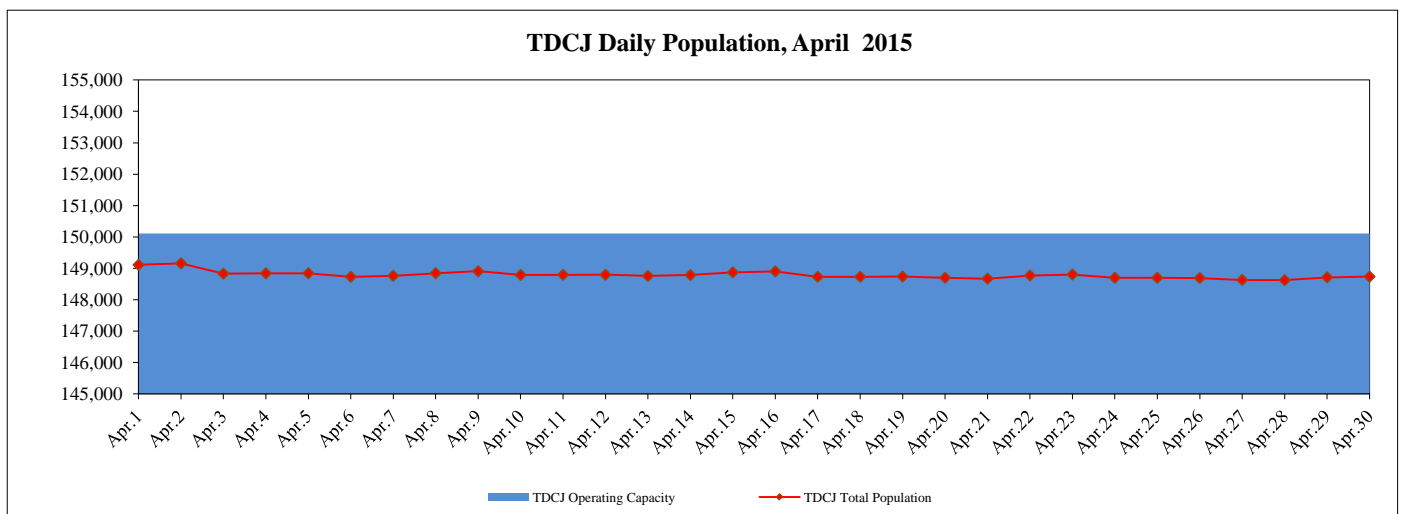

⁹ The Juvenile Justice Alternative Education Program graph reflects mandatory attendance days accrued during the regular school year and does not include those accrued during summer school. Since summer school is optional and only available when sufficient funding exists, including only the regular school year renders year-to-year results that are comparable over time.

Monthly Tracking of Adult Correctional Population Indicators (May 2015)

March 2015	149,090	156,363	0	0	0	150,108	1,018	
April 2015	148,734	156,363	0	0	0	150,108	1,374	

Note: TDCJ defines operating capacity as 96.0% of its on-line bed capacity. TDCJ is accustomed to going beyond its operating capacity for short periods of time.

On-line bed capacity reflects the total number of TDCJ beds available for the permanent assignment of inmates. At the end of April 2015, 2,762 beds had been temporarily removed from on-line bed capacity, including 908 Substance Abuse Felony Punishment (SAFP) beds temporarily converted into Intermediate Sanction Facility (ISF) beds and 1,854 beds temporarily removed from capacity due to staffing shortages. Also at this time, on-line bed capacity did not include 2,180 temporary placement beds, which include medical (hospital beds and unit-based infirmary beds), solitary confinement, transfer holding, and pre-hearing detention beds. Inmates housed in temporary placement beds also have permanent beds assigned to them. The total number of ISF beds, at the end of April 2015, was 2,613, which included the 908 SAFP beds temporarily converted into ISF beds and 1,705 previously existing ISF beds.

Capacity Adjustments:

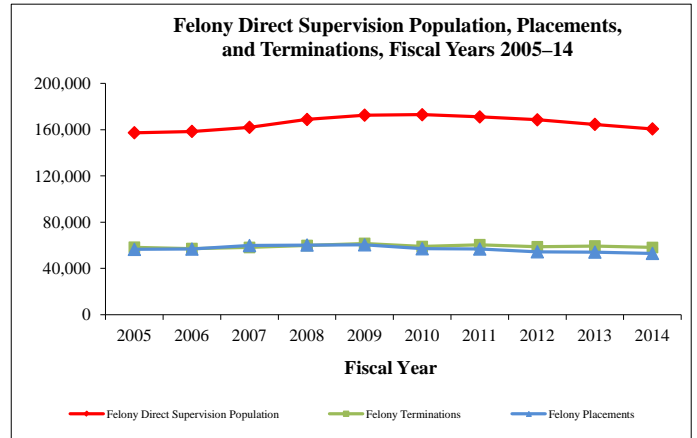

- * In February 2015, TDCJ added 56 beds to capacity at the East Texas Treatment Facility; these beds were converted from ISF beds to SAFP beds.
- * In December 2014, TDCJ temporarily removed 381 beds from capacity at the Smith Unit due to staffing shortages.
- * In November 2014, TDCJ temporarily removed 68 beds from capacity at the Glossbrenner Unit; these beds were converted from SAFP beds to ISF beds.
- * In July 2014, TDCJ temporarily removed 56 beds from capacity at the East Texas Treatment Facility; these beds were converted from SAFP beds to ISF beds.

Texas Department of Criminal Justice Community Supervision (Adult Probation) Populations

¹ During fiscal year 2010, the Texas Department of Criminal Justice – Community Justice Assistance Division transitioned from compiling aggregate population data from counties through the Monthly Community Supervision and Corrections Report (MCSCR) to generating monthly population reports based on detailed case-based data collected through the Community Supervision Tracking System / Intermediate System (CSTS Intermediate System). Community supervision data through fiscal year 2009 are based on population counts reported to the MCSCR, and fiscal years 2010 to 2012 data are based on monthly reports generated from the CSTS Intermediate System. Community supervision data will be updated on a quarterly basis.

² Supervision placements include adjudicated probation, deferred adjudication, return from shock incarceration, and return from state boot camp.

³ Successful supervision terminations include early termination and expired term.

⁴ Unsuccessful supervision terminations include revocation to county jail, state jail, prison, state boot camp, and other revocations.

Texas Juvenile Justice Department: State Correctional Populations

¹ Historical numbers reflected in this report may be updated to reflect current information.

² A new commitment is a juvenile committed to the Texas Juvenile Justice Department (TJJD) for the first time and a recommitment is a juvenile who had been committed to TJJD at least once prior to the current commitment.

³ A determinate sentence is a commitment for a specified period of time that is set by the juvenile court and can last up to 40 years in length; youth who have not completed their sentence length by their 19th birthday are transferred to the adult system to complete the sentence.

⁴ An indeterminate sentence is a commitment for an unspecified length of time up to the child's 19th birthday; TJJD has sole discretion over the commitment length.

⁵ The parole revocation information in this table presents the offense category that initiated the parole revocation.

⁶ Other commitments (also referred to as negative movements) are juveniles returned to a secure facility for medical care, mental health care, and other non-disciplinary reasons. It also includes juveniles moved to a secure facility for a court hearing that does not result in a revocation.

⁷ This calculation involved only one juvenile.

Texas Juvenile Justice Department: Juvenile Probation Department Supervision Populations

¹ A formal referral occurs when: 1) delinquent conduct, conduct indicating a need for supervision (CINS), or violation of probation was allegedly committed; 2) the juvenile probation department has jurisdiction and venue; and 3) face-to-face contact occurs with the department or official designated by the juvenile board. Juveniles are typically referred to juvenile probation departments by schools and police but may also be referred by social workers, parents, and others. Historical numbers reflected in this report may be updated to reflect current information.

² Misdemeanor Offenses include contempt of magistrate orders in addition to class A and B misdemeanor offenses.

³ Conduct in Need of Supervision (CINS) is a non-criminal offense for a juvenile and includes public intoxication, truancy, running away from home, fineable-only offenses that have been transferred to a juvenile court from a municipal or justice court, inhalant abuse, and expulsion from an alternative school setting for persistent misconduct.

⁴ Dispositions reflect the outcomes of referrals to juvenile probation departments. The dispositions listed above do not include consolidated or transferred cases. Adjudicated probation includes all adjudicated dispositions of probation and modification of probation. Dismissed dispositions include dismissals, findings of not guilty, and findings of no probable cause. Supervisory caution is a non-judicial disposition that may involve such actions as referring the child to a social service agency or a community-based first offender program operated by law enforcement, contacting parents to inform them of the child's activities, or simply warning the child about his or her activities. Historical numbers reflected in this report may be updated to reflect current information. Figures in the table represent the number of cases, not the number of juveniles. A juvenile may have more than one case in a quarter.

⁵ Juveniles under conditional pre-disposition, deferred prosecution, or adjudicated probation supervision may also be on Intensive Supervision (ISP) and/or placed in a residential facility. ISP is a form of supervision that typically involves smaller caseloads supervised by specially trained probation officers and more frequent contacts between the juvenile and his or her probation officer. Juveniles under deferred prosecution or adjudicated probation supervision may be placed in a secure or nonsecure residential facility that is administered by a juvenile probation department or a contracted organization.

⁶ The Juvenile Justice Alternative Education Program (JJAEP) table and graph only captures information about students expelled for mandatory reasons because the state only provides funding for these JJAEP students though JJAEPs may accept students referred for discretionary reasons. The number of mandatory attendance days in June and July are low because many schools close in May and others only operate for part of June. The counts in summer school are also typically low because operating a summer school is optional. Historical numbers reflected in this report may be updated to reflect current information.

⁷ Mandatory Attendance Days reflect the sum of the number of days each mandatory student attends JJAEPs within the month.

⁸ The graph reflects the number of juveniles certified as an adult and the number of cases sent to TJJD state residential facilities.

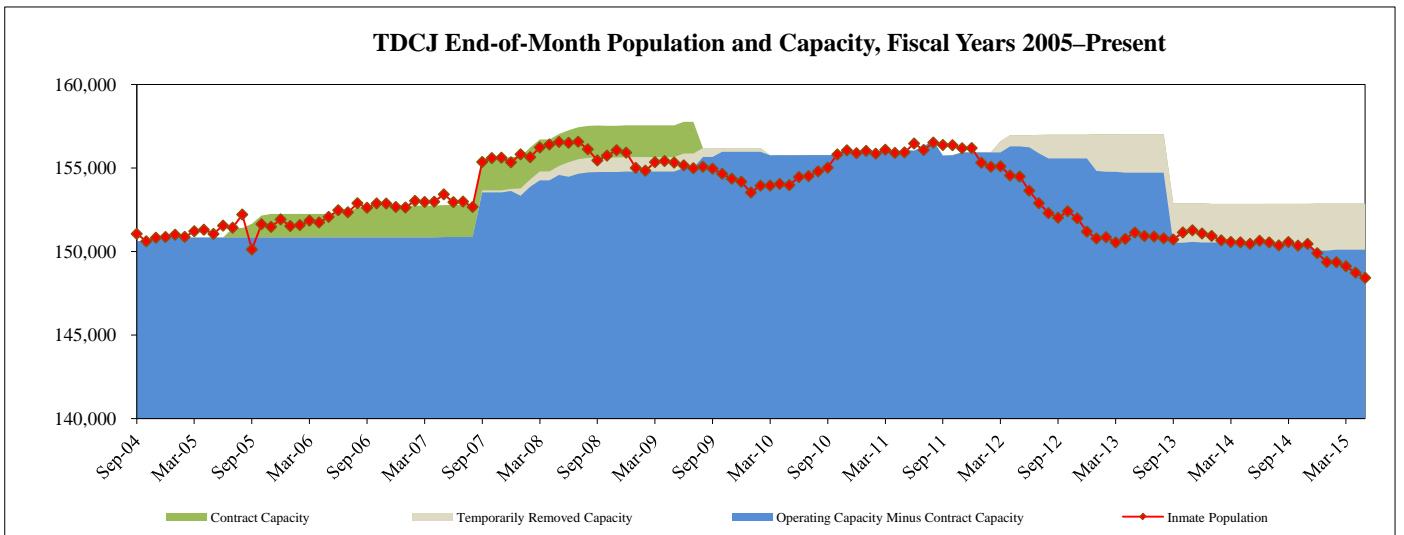

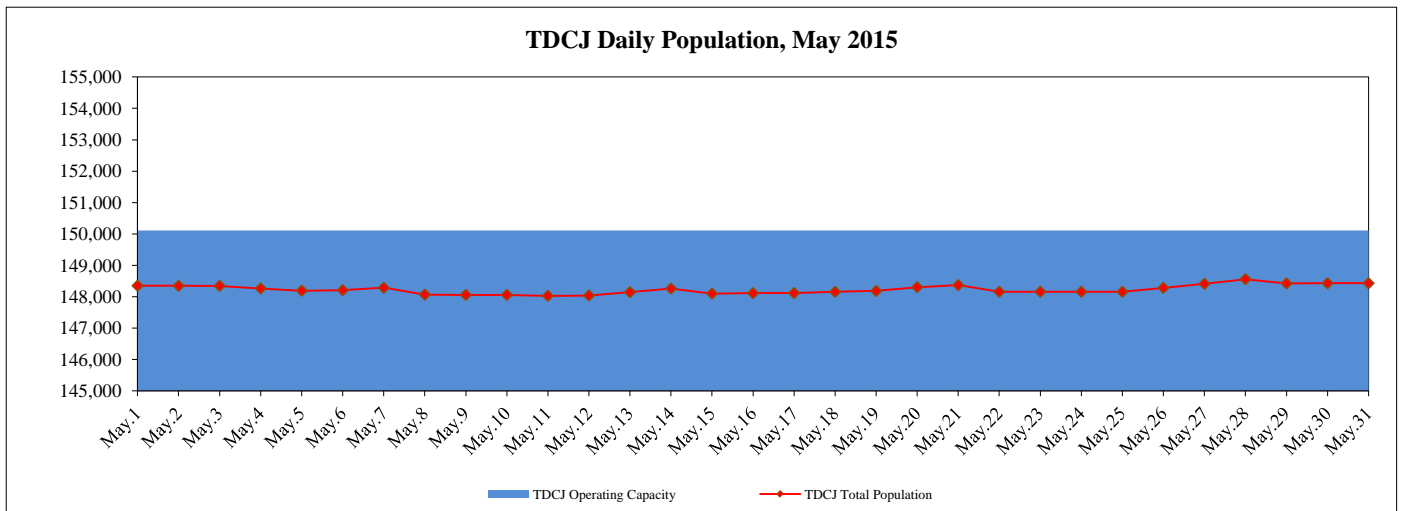

⁹ The Juvenile Justice Alternative Education Program graph reflects mandatory attendance days accrued during the regular school year and does not include those accrued during summer school. Since summer school is optional and only available when sufficient funding exists, including only the regular school year renders year-to-year results that are comparable over time.

Monthly Tracking of Adult Correctional Population Indicators (June 2015)

April 2015	148,734	156,363	0	0	0	0	150,108	1,374
May 2015	148,426	156,363	0	0	0	0	150,108	1,682

Note: TDCJ defines operating capacity as 96.0% of its on-line bed capacity. TDCJ is accustomed to going beyond its operating capacity for short periods of time.

On-line bed capacity reflects the total number of TDCJ beds available for the permanent assignment of inmates. At the end of May 2015, 2,762 beds had been temporarily removed from on-line bed capacity, including 908 Substance Abuse Felony Punishment (SAFP) beds temporarily converted into Intermediate Sanction Facility (ISF) beds and 1,854 beds temporarily removed from capacity due to staffing shortages. Also at this time, on-line bed capacity did not include 2,180 temporary placement beds, which include medical (hospital beds and unit-based infirmary beds), solitary confinement, transfer holding, and pre-hearing detention beds. Inmates housed in temporary placement beds also have permanent beds assigned to them. The total number of ISF beds, at the end of May 2015, was 2,613, which included the 908 SAFP beds temporarily converted into ISF beds and 1,705 previously existing ISF beds.

Capacity Adjustments:

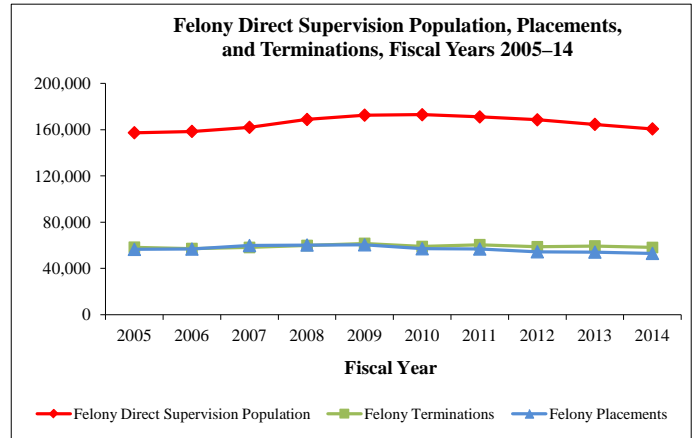

- * In February 2015, TDCJ added 56 beds to capacity at the East Texas Treatment Facility; these beds were converted from ISF beds to SAFP beds.
- * In December 2014, TDCJ temporarily removed 381 beds from capacity at the Smith Unit due to staffing shortages.
- * In November 2014, TDCJ temporarily removed 68 beds from capacity at the Glossbrenner Unit; these beds were converted from SAFP beds to ISF beds.
- * In July 2014, TDCJ temporarily removed 56 beds from capacity at the East Texas Treatment Facility; these beds were converted from SAFP beds to ISF beds.

Texas Department of Criminal Justice Community Supervision (Adult Probation) Populations

¹ During fiscal year 2010, the Texas Department of Criminal Justice – Community Justice Assistance Division transitioned from compiling aggregate population data from counties through the Monthly Community Supervision and Corrections Report (MCSCR) to generating monthly population reports based on detailed case-based data collected through the Community Supervision Tracking System / Intermediate System (CSTS Intermediate System). Community supervision data through fiscal year 2009 are based on population counts reported to the MCSCR, and fiscal years 2010 to 2012 data are based on monthly reports generated from the CSTS Intermediate System. Community supervision data will be updated on a quarterly basis.

² Supervision placements include adjudicated probation, deferred adjudication, return from shock incarceration, and return from state boot camp.

³ Successful supervision terminations include early termination and expired term.

⁴ Unsuccessful supervision terminations include revocation to county jail, state jail, prison, state boot camp, and other revocations.

Texas Juvenile Justice Department: State Correctional Populations

¹ Historical numbers reflected in this report may be updated to reflect current information.

² A new commitment is a juvenile committed to the Texas Juvenile Justice Department (TJJD) for the first time and a recommitment is a juvenile who had been committed to TJJD at least once prior to the current commitment.

³ A determinate sentence is a commitment for a specified period of time that is set by the juvenile court and can last up to 40 years in length; youth who have not completed their sentence length by their 19th birthday are transferred to the adult system to complete the sentence.

⁴ An indeterminate sentence is a commitment for an unspecified length of time up to the child's 19th birthday; TJJD has sole discretion over the commitment length.

⁵ The parole revocation information in this table presents the offense category that initiated the parole revocation.

⁶ Other commitments (also referred to as negative movements) are juveniles returned to a secure facility for medical care, mental health care, and other non-disciplinary reasons. It also includes juveniles moved to a secure facility for a court hearing that does not result in a revocation.

⁷ This calculation involved only one juvenile.

Texas Juvenile Justice Department: Juvenile Probation Department Supervision Populations

¹ A formal referral occurs when: 1) delinquent conduct, conduct indicating a need for supervision (CINS), or violation of probation was allegedly committed; 2) the juvenile probation department has jurisdiction and venue; and 3) face-to-face contact occurs with the department or official designated by the juvenile board. Juveniles are typically referred to juvenile probation departments by schools and police but may also be referred by social workers, parents, and others. Historical numbers reflected in this report may be updated to reflect current information.

² Misdemeanor Offenses include contempt of magistrate orders in addition to class A and B misdemeanor offenses.

³ Conduct in Need of Supervision (CINS) is a non-criminal offense for a juvenile and includes public intoxication, truancy, running away from home, fineable-only offenses that have been transferred to a juvenile court from a municipal or justice court, inhalant abuse, and expulsion from an alternative school setting for persistent misconduct.

⁴ Dispositions reflect the outcomes of referrals to juvenile probation departments. The dispositions listed above do not include consolidated or transferred cases. Adjudicated probation includes all adjudicated dispositions of probation and modification of probation. Dismissed dispositions include dismissals, findings of not guilty, and findings of no probable cause. Supervisory caution is a non-judicial disposition that may involve such actions as referring the child to a social service agency or a community-based first offender program operated by law enforcement, contacting parents to inform them of the child's activities, or simply warning the child about his or her activities. Historical numbers reflected in this report may be updated to reflect current information. Figures in the table represent the number of cases, not the number of juveniles. A juvenile may have more than one case in a quarter.

⁵ Juveniles under conditional pre-disposition, deferred prosecution, or adjudicated probation supervision may also be on Intensive Supervision (ISP) and/or placed in a residential facility. ISP is a form of supervision that typically involves smaller caseloads supervised by specially trained probation officers and more frequent contacts between the juvenile and his or her probation officer. Juveniles under deferred prosecution or adjudicated probation supervision may be placed in a secure or nonsecure residential facility that is administered by a juvenile probation department or a contracted organization.

⁶ The Juvenile Justice Alternative Education Program (JJAEP) table and graph only captures information about students expelled for mandatory reasons because the state only provides funding for these JJAEP students though JJAEPs may accept students referred for discretionary reasons. The number of mandatory attendance days in June and July are low because many schools close in May and others only operate for part of June. The counts in summer school are also typically low because operating a summer school is optional. Historical numbers reflected in this report may be updated to reflect current information.

⁷ Mandatory Attendance Days reflect the sum of the number of days each mandatory student attends JJAEPs within the month.

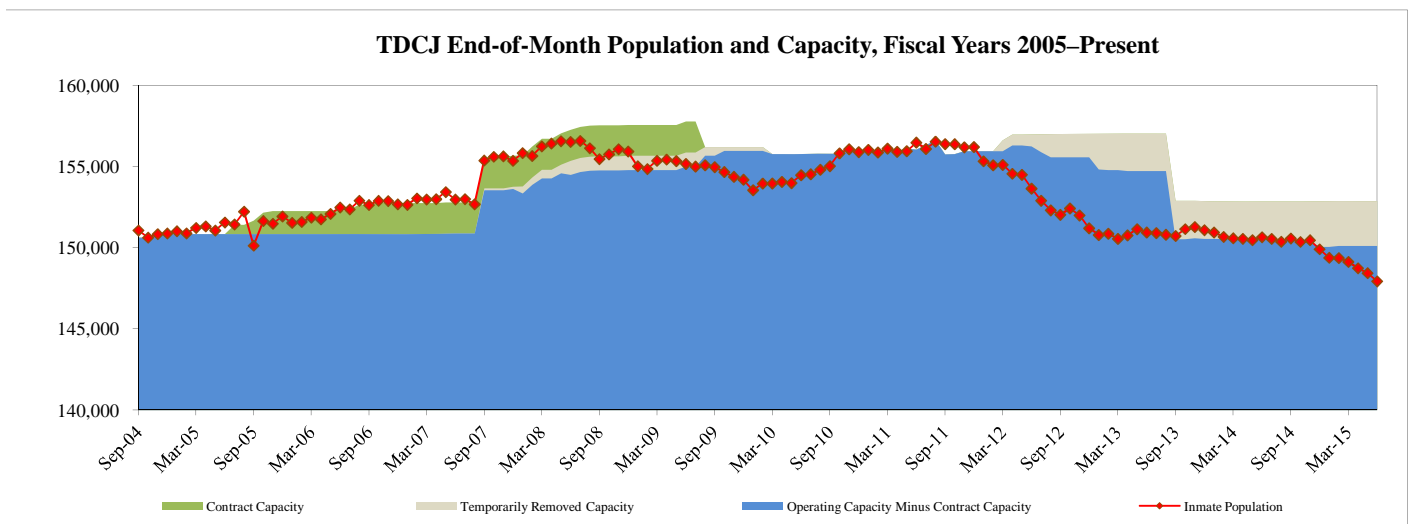

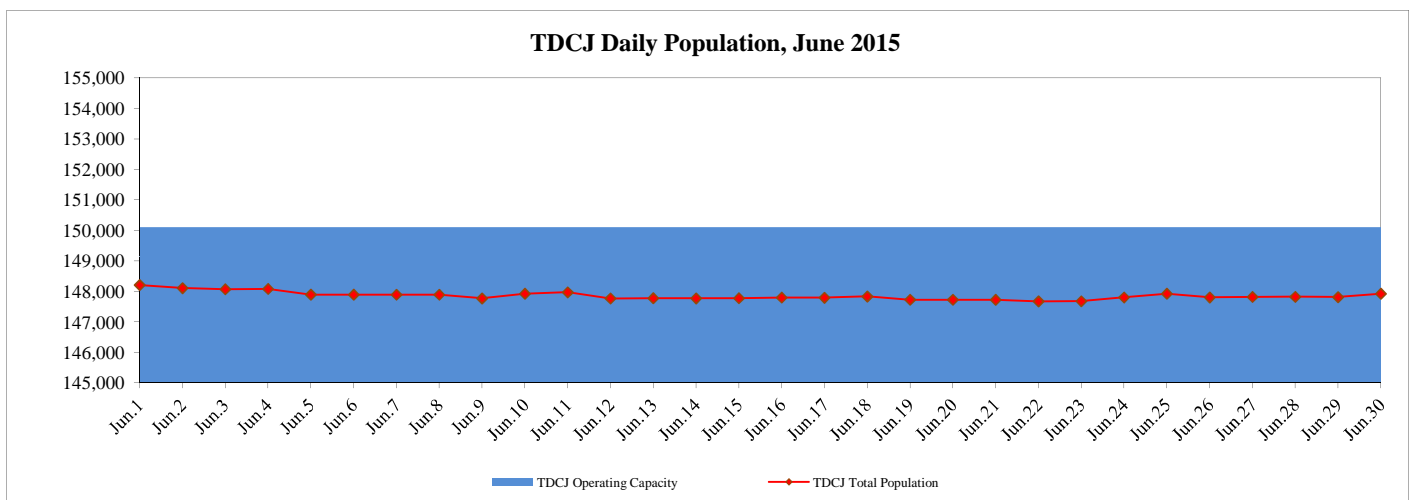

⁸ The graph reflects the number of juveniles certified as an adult and the number of cases sent to TJJD state residential facilities.

⁹ The Juvenile Justice Alternative Education Program graph reflects mandatory attendance days accrued during the regular school year and does not include those accrued during summer school. Since summer school is optional and only available when sufficient funding exists, including only the regular school year renders year-to-year results that are comparable over time.

May 2015	148,426	156,363	0	0	0	0	150,108	1,682
June 2015	147,924	156,363	0	0	0	0	150,108	2,184

Note: TDCJ defines operating capacity as 96.0% of its on-line bed capacity. TDCJ is accustomed to going beyond its operating capacity for short periods of time.

On-line bed capacity reflects the total number of TDCJ beds available for the permanent assignment of inmates. At the end of June 2015, 2,762 beds had been temporarily removed from on-line bed capacity, including 908 Substance Abuse Felony Punishment (SAFP) beds temporarily converted into Intermediate Sanction Facility (ISF) beds and 1,854 beds temporarily removed from capacity due to staffing shortages. Also at this time, on-line bed capacity did not include 2,180 temporary placement beds, which include medical (hospital beds and unit-based infirmary beds), solitary confinement, transfer holding, and pre-hearing detention beds. Inmates housed in temporary placement beds also have permanent beds assigned to them. The total number of ISF beds, at the end of June 2015, was 2,613, which included the 908 SAFP beds temporarily converted into ISF beds and 1,705 previously existing ISF beds.

Capacity Adjustments:

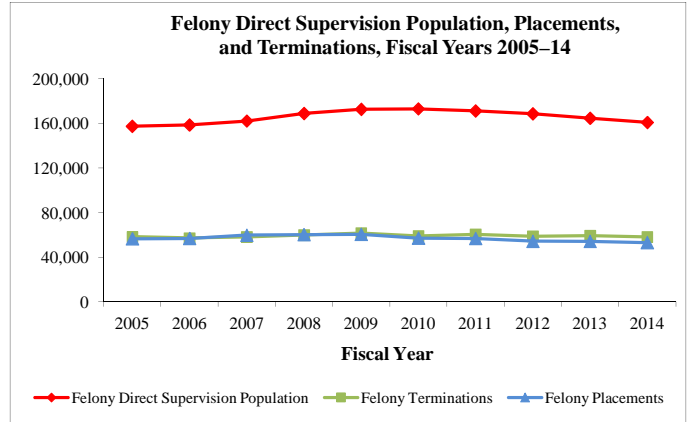

- * In February 2015, TDCJ added 56 beds to capacity at the East Texas Treatment Facility; these beds were converted from ISF beds to SAFP beds.
- * In December 2014, TDCJ temporarily removed 381 beds from capacity at the Smith Unit due to staffing shortages.
- * In November 2014, TDCJ temporarily removed 68 beds from capacity at the Glossbrenner Unit; these beds were converted from SAFP beds to ISF beds.

Texas Department of Criminal Justice Community Supervision (Adult Probation) Populations

¹ During fiscal year 2010, the Texas Department of Criminal Justice – Community Justice Assistance Division transitioned from compiling aggregate population data from counties through the Monthly Community Supervision and Corrections Report (MCSCR) to generating monthly population reports based on detailed case-based data collected through the Community Supervision Tracking System / Intermediate System (CSTS Intermediate System). Community supervision data through fiscal year 2009 are based on population counts reported to the MCSCR, and fiscal years 2010 to 2012 data are based on monthly reports generated from the CSTS Intermediate System. Community supervision data will be updated on a quarterly basis.

² Supervision placements include adjudicated probation, deferred adjudication, return from shock incarceration, and return from state boot camp

³ Successful supervision terminations include early termination and expired term

⁴ Unsuccessful supervision terminations include revocation to county jail, state jail, prison, state boot camp, and other revocations

Texas Juvenile Justice Department: State Correctional Populations

¹ Historical numbers reflected in this report may be updated to reflect current information

² A new commitment is a juvenile committed to the Texas Juvenile Justice Department (TJJD) for the first time and a recommitment is a juvenile who had been committed to TJJD at least once prior to the current commitment

³ A determinate sentence is a commitment for a specified period of time that is set by the juvenile court and can last up to 40 years in length; youth who have not completed their sentence length by their 19th birthday are transferred to the adult system to complete the sentence

⁴ An indeterminate sentence is a commitment for an unspecified length of time up to the child's 19th birthday; TJJD has sole discretion over the commitment length.

⁵ The parole revocation information in this table presents the offense category that initiated the parole revocation

⁶ Other commitments (also referred to as negative movements) are juveniles returned to a secure facility for medical care, mental health care, and other non-disciplinary reasons. It also includes juveniles moved to a secure facility for a court hearing that does not result in a revocation

⁷ This calculation involved only one juvenile

Texas Juvenile Justice Department: Juvenile Probation Department Supervision Populations

¹ A formal referral occurs when: 1) delinquent conduct, conduct indicating a need for supervision (CINS), or violation of probation was allegedly committed; 2) the juvenile probation department has jurisdiction and venue; and 3) face-to-face contact occurs with the department or official designated by the juvenile board. Juveniles are typically referred to juvenile probation departments by schools and police but may also be referred by social workers, parents, and others. Historical numbers reflected in this report may be updated to reflect current information

² Misdemeanor Offenses include contempt of magistrate orders in addition to class A and B misdemeanor offenses

³ Conduct in Need of Supervision (CINS) is a non-criminal offense for a juvenile and includes public intoxication, truancy, running away from home, fineable-only offenses that have been transferred to a juvenile court from a municipal or justice court, inhalant abuse, and expulsion from an alternative school setting for persistent misconduct.

⁴ Dispositions reflect the outcomes of referrals to juvenile probation departments. The dispositions listed above do not include consolidated or transferred cases. Adjudicated probation includes all adjudicated dispositions of probation and modification of probation. Dismissed dispositions include dismissals, findings of not guilty, and findings of no probable cause. Supervisory caution is a non-judicial disposition that may involve such actions as referring the child to a social service agency or a community-based first offender program operated by law enforcement, contacting parents to inform them of the child's activities, or simply warning the child about his or her activities. Historical numbers reflected in this report may be updated to reflect current information. Figures in the table represent the number of cases, not the number of juveniles. A juvenile may have more than one case in a quarter

⁵ Juveniles under conditional pre-disposition, deferred prosecution, or adjudicated probation supervision may also be on Intensive Supervision (ISP) and/or placed in a residential facility. ISP is a form of supervision that typically involves smaller caseloads supervised by specially trained probation officers and more frequent contacts between the juvenile and his or her probation officer. Juveniles under deferred prosecution or adjudicated probation supervision may be placed in a secure or nonsecure residential facility that is administered by a juvenile probation department or a contracted organization.

⁶ The Juvenile Justice Alternative Education Program (JJAEP) table and graph only captures information about students expelled for mandatory reasons because the state only provides funding for these JJAEP students though JJAEPs may accept students referred for discretionary reasons. The number of mandatory attendance days in June and July are low because many schools close in May and others only operate for part of June. The counts in summer school are also typically low because operating a summer school is optional. Historical numbers reflected in this report may be updated to reflect current information.

⁷ Mandatory Attendance Days reflect the sum of the number of days each mandatory student attends JJAEPs within the month.

⁸ The graph reflects the number of juveniles certified as an adult and the number of cases sent to TJJD state residential facilities.

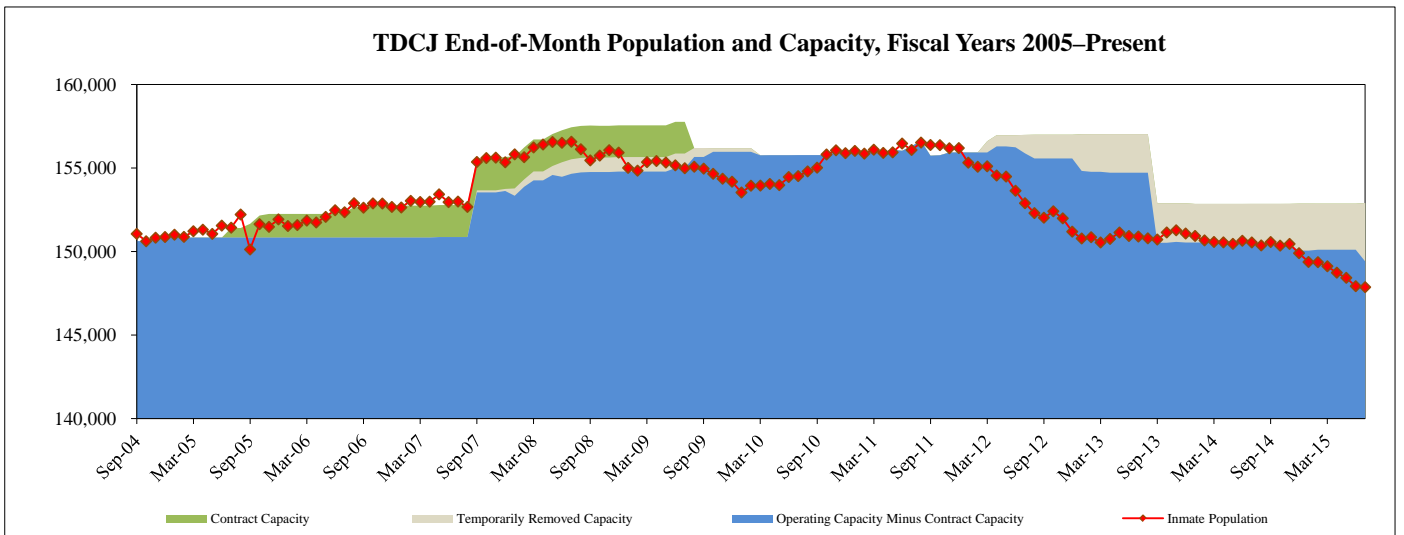

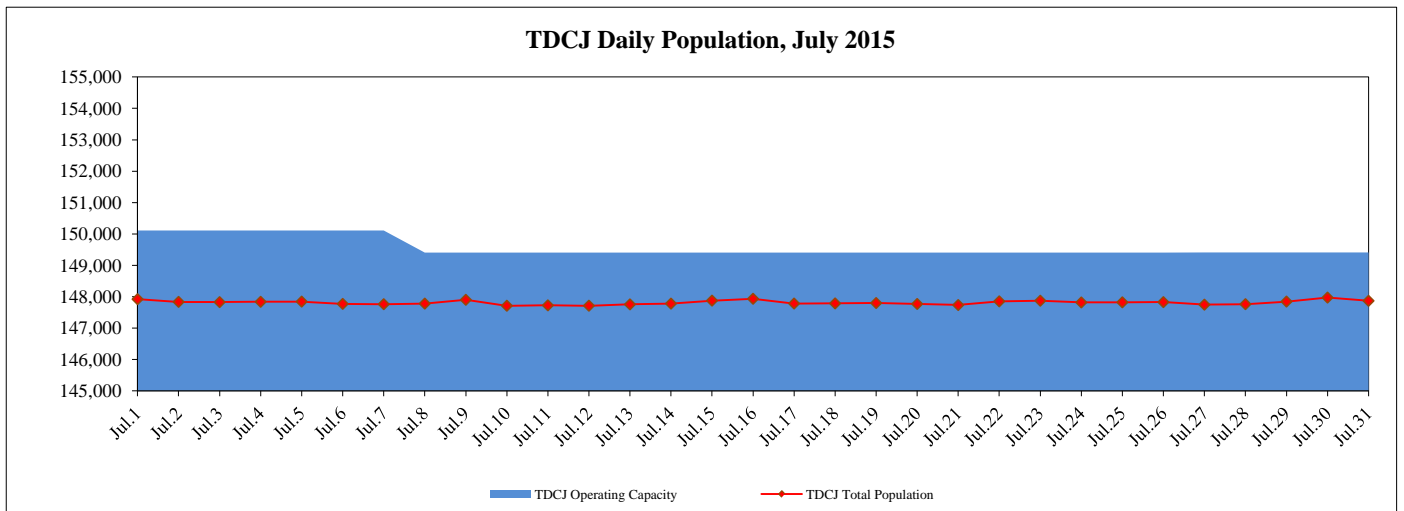

⁹ The Juvenile Justice Alternative Education Program graph reflects mandatory attendance days accrued during the regular school year and does not include those accrued during summer school. Since summer school is optional and only available when sufficient funding exists, including only the regular school year renders year-to-year results that are comparable over time.

Monthly Tracking of Adult Correctional Population Indicators (August 2015)

Texas Department of Criminal Justice Correctional Population and Capacity (End of Month)

June 2015	147,813	156,363	0	0	0	0	150,108	2,295
July 2015	147,866	155,634	5	734	0	-729	149,409	1,543

Note: TDCJ defines operating capacity as 96.0% of its on-line bed capacity. TDCJ is accustomed to going beyond its operating capacity for short periods of time.

On-line bed capacity reflects the total number of TDCJ beds available for the permanent assignment of inmates. At the end of July 2015, 3,496 beds had been temporarily removed from on-line bed capacity, including 908 Substance Abuse Felony Punishment (SAFP) beds temporarily converted into Intermediate Sanction Facility (ISF) beds and 2,588 beds temporarily removed from capacity due to staffing shortages. Also at this time, on-line bed capacity did not include 2,180 temporary placement beds, which include medical (hospital beds and unit-based infirmary beds), solitary confinement, transfer holding, and pre-hearing detention beds. Inmates housed in temporary placement beds also have permanent beds assigned to them. The total number of ISF beds, at the end of July 2015, was 2,613, which included the 908 SAFP beds temporarily converted into ISF beds and 1,705 previously existing ISF beds.

Capacity Adjustments:

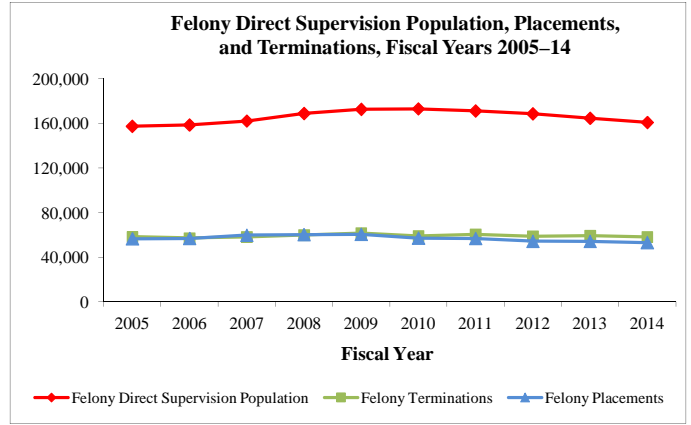

- * In July 2015, adjustments to TDCJ capacity resulted in a net decrease of 729 beds. Capacity adjustments included 376 beds temporarily removed from capacity at the Wallace Unit and 358 beds temporarily removed from capacity at the Dalhart Unit due to the closing of expansion dorms and staffing shortages. In addition, TDCJ added 5 beds to capacity at the Santa Maria Unit to accommodate the expansion of the Baby and Mother Bonding Initiative (BAMBI) program.
- * In February 2015, TDCJ added 56 beds to capacity at the East Texas Treatment Facility; these beds were converted from ISF beds to SAFP beds.
- * In December 2014, TDCJ temporarily removed 381 beds from capacity at the Smith Unit due to staffing shortages.
- * In November 2014, TDCJ temporarily removed 68 beds from capacity at the Glossbrenner Unit; these beds were converted from SAFP beds to ISF beds.

Texas Department of Criminal Justice Community Supervision (Adult Probation) Populations

¹ During fiscal year 2010, the Texas Department of Criminal Justice – Community Justice Assistance Division transitioned from compiling aggregate population data from counties through the Monthly Community Supervision and Corrections Report (MCSCR) to generating monthly population reports based on detailed case-based data collected through the Community Supervision Tracking System / Intermediate System (CSTS Intermediate System). Community supervision data through fiscal year 2009 are based on population counts reported to the MCSCR, and fiscal years 2010 to 2012 data are based on monthly reports generated from the CSTS Intermediate System. Community supervision data will be updated on a quarterly basis.

² Supervision placements include adjudicated probation, deferred adjudication, return from shock incarceration, and return from state boot camp.

³ Successful supervision terminations include early termination and expired term.

⁴ Unsuccessful supervision terminations include revocation to county jail, state jail, prison, state boot camp, and other revocations.

Texas Juvenile Justice Department: State Correctional Populations

¹ Historical numbers reflected in this report may be updated to reflect current information.

² A new commitment is a juvenile committed to the Texas Juvenile Justice Department (TJJD) for the first time and a recommitment is a juvenile who had been committed to TJJD at least once prior to the current commitment.

³ A determinate sentence is a commitment for a specified period of time that is set by the juvenile court and can last up to 40 years in length; youth who have not completed their sentence length by their 19th birthday are transferred to the adult system to complete the sentence.

⁴ An indeterminate sentence is a commitment for an unspecified length of time up to the child's 19th birthday; TJJD has sole discretion over the commitment length.

⁵ The parole revocation information in this table presents the offense category that initiated the parole revocation.

⁶ Other commitments (also referred to as negative movements) are juveniles returned to a secure facility for medical care, mental health care, and other non-disciplinary reasons. It also includes juveniles moved to a secure facility for a court hearing that does not result in a revocation.

⁷ This calculation involved only one juvenile.

Texas Juvenile Justice Department: Juvenile Probation Department Supervision Populations

¹ A formal referral occurs when: 1) delinquent conduct, conduct indicating a need for supervision (CINS), or violation of probation was allegedly committed; 2) the juvenile probation department has jurisdiction and venue; and 3) face-to-face contact occurs with the department or official designated by the juvenile board. Juveniles are typically referred to juvenile probation departments by schools and police but may also be referred by social workers, parents, and others. Historical numbers reflected in this report may be updated to reflect current information.

² Misdemeanor Offenses include contempt of magistrate orders in addition to class A and B misdemeanor offenses.

³ Conduct in Need of Supervision (CINS) is a non-criminal offense for a juvenile and includes public intoxication, truancy, running away from home, fineable-only offenses that have been transferred to a juvenile court from a municipal or justice court, inhalant abuse, and expulsion from an alternative school setting for persistent misconduct.

⁴ Dispositions reflect the outcomes of referrals to juvenile probation departments. The dispositions listed above do not include consolidated or transferred cases. Adjudicated probation includes all adjudicated dispositions of probation and modification of probation. Dismissed dispositions include dismissals, findings of not guilty, and findings of no probable cause. Supervisory caution is a non-judicial disposition that may involve such actions as referring the child to a social service agency or a community-based first offender program operated by law enforcement, contacting parents to inform them of the child's activities, or simply warning the child about his or her activities. Historical numbers reflected in this report may be updated to reflect current information. Figures in the table represent the number of cases, not the number of juveniles. A juvenile may have more than one disposition.

⁵ Juveniles under conditional pre-disposition, deferred prosecution, or adjudicated probation supervision may also be on Intensive Supervision (ISP) and/or placed in a residential facility. ISP is a form of supervision that typically involves smaller caseloads supervised by specially trained probation officers and more frequent contacts between the juvenile and his or her probation officer. Juveniles under deferred prosecution or adjudicated probation supervision may be placed in a secure or nonsecure residential facility that is administered by a juvenile probation department or a residential facility.

⁶ The Juvenile Justice Alternative Education Program (JJAEP) table and graph only captures information about students expelled for mandatory reasons because the state only provides funding for these JJAEP students though JJAEPs may accept students referred for discretionary reasons. The number of mandatory attendance days in June and July are low because many schools close in May and others only operate for part of June. The counts in summer school are also typically low because operating a summer school is optional. Historical numbers reflected in this report may be updated to reflect current information.

⁷ Mandatory Attendance Days reflect the sum of the number of days each mandatory student attends JJAEPs within the month.

⁸ The graph reflects the number of juveniles certified as an adult and the number of cases sent to TJJD state residential facilities.

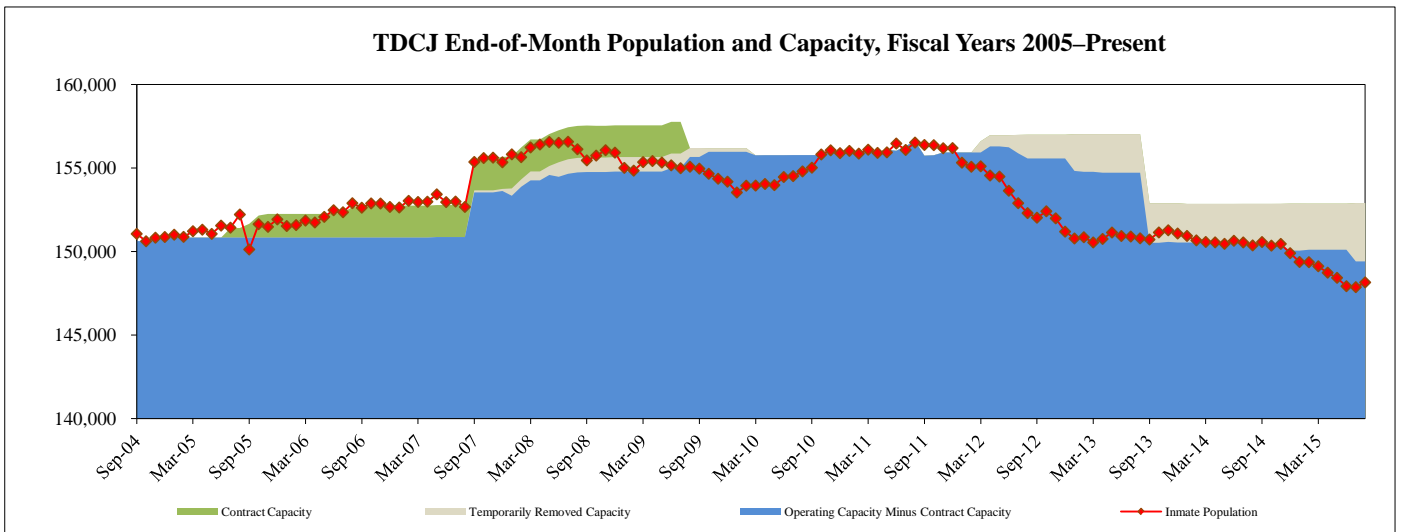

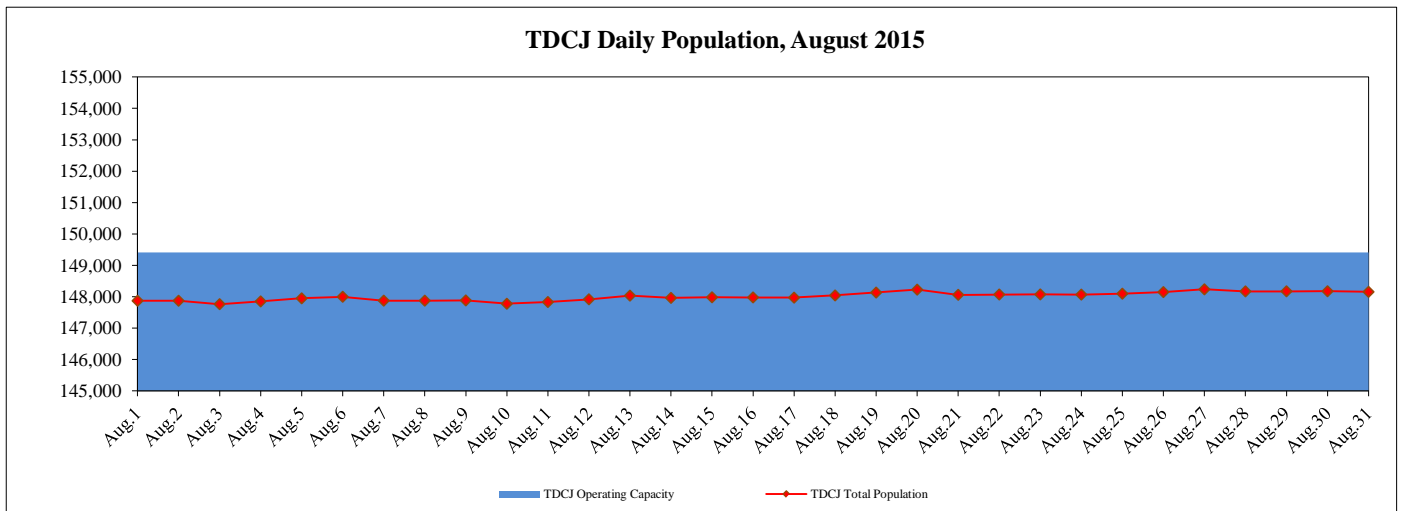

⁹ The Juvenile Justice Alternative Education Program graph reflects mandatory attendance days accrued during the regular school year and does not include those accrued during summer school. Since summer school is optional and only available when sufficient funding exists, including only the regular school year renders year-to-year results that are comparable over time.

Monthly Tracking of Adult Correctional Population Indicators (September 2015)

Texas Department of Criminal Justice Correctional Population and Capacity (End of Month)

February 2015	149,361	156,363	56	0	0	150,108	747	
March 2015	149,090	156,363	0	0	0	150,108	1,018	
April 2015	148,734	156,363	0	0	0	150,108	1,374	
May 2015	148,426	156,363	0	0	0	150,108	1,682	
June 2015	147,813	156,363	0	0	0	150,108	2,295	
July 2015	147,970	155,634	5	734	0	149,409	1,439	
August 2015	148,152	155,634	0	0	0	149,409	1,257	

Note: TDCJ defines operating capacity as 96.0% of its on-line bed capacity. TDCJ is accustomed to going beyond its operating capacity for short periods of time.

On-line bed capacity reflects the total number of TDCJ beds available for the permanent assignment of inmates. At the end of August 2015, 3,496 beds had been temporarily removed from on-line bed capacity, including 908 Substance Abuse Felony Punishment (SAFP) beds temporarily converted into Intermediate Sanction Facility (ISF) beds and 2,588 beds temporarily removed from capacity due to staffing shortages. Also at this time, on-line bed capacity did not include 2,180 temporary placement beds, which include medical (hospital beds and unit-based infirmary beds), solitary confinement, transfer holding, and pre-hearing detention beds. Inmates housed in temporary placement beds also have permanent beds assigned to them. The total number of ISF beds, at the end of August 2015, was 2,613, which included the 908 SAFP beds temporarily converted into ISF beds and 1,705 previously existing ISF beds.

Capacity Adjustments:

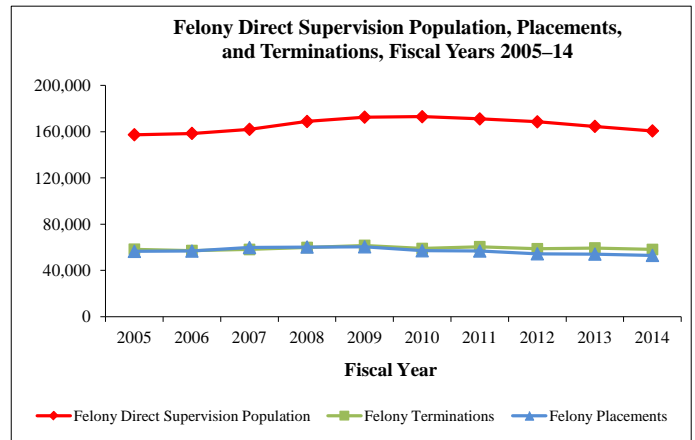

- * In July 2015, adjustments to TDCJ capacity resulted in a net decrease of 729 beds. Capacity adjustments included 376 beds temporarily removed from capacity at the Wallace Unit and 358 beds temporarily removed from capacity at the Dalhart Unit due to the closing of expansion dorms and staffing shortages. In addition, TDCJ added 5 beds to capacity at the Santa Maria Unit to accommodate the expansion of the Baby and Mother Bonding Initiative program.
- * In February 2015, TDCJ added 56 beds to capacity at the East Texas Treatment Facility; these beds were converted from ISF beds to SAFP beds.
- * In December 2014, TDCJ temporarily removed 381 beds from capacity at the Smith Unit due to staffing shortages.
- * In November 2014, TDCJ temporarily removed 68 beds from capacity at the Glossbrenner Unit; these beds were converted from SAFP beds to ISF beds.

Texas Department of Criminal Justice Community Supervision (Adult Probation) Populations

¹ During fiscal year 2010, the Texas Department of Criminal Justice – Community Justice Assistance Division transitioned from compiling aggregate population data from counties through the Monthly Community Supervision and Corrections Report (MCSCR) to generating monthly population reports based on detailed case-based data collected through the Community Supervision Tracking System / Intermediate System (CSTS Intermediate System). Community supervision data through fiscal year 2009 are based on population counts reported to the MCSCR, and fiscal years 2010 to 2012 data are based on monthly reports generated from the CSTS Intermediate System. Community supervision data will be updated on a quarterly basis.

² Supervision placements include adjudicated probation, deferred adjudication, return from shock incarceration, and return from state boot camp.

³ Successful supervision terminations include early termination and expired term.

⁴ Unsuccessful supervision terminations include revocation to county jail, state jail, prison, state boot camp, and other revocations.

Texas Juvenile Justice Department: State Correctional Populations

¹ Historical numbers reflected in this report may be updated to reflect current information.

² A new commitment is a juvenile committed to the Texas Juvenile Justice Department (TJJD) for the first time and a recommitment is a juvenile who had been committed to TJJD at least once prior to the current commitment.

³ A determinate sentence is a commitment for a specified period of time that is set by the juvenile court and can last up to 40 years in length; youth who have not completed their sentence length by their 19th birthday are transferred to the adult system to complete the sentence.

⁴ An indeterminate sentence is a commitment for an unspecified length of time up to the child's 19th birthday; TJJD has sole discretion over the commitment length.

⁵ The parole revocation information in this table presents the offense category that initiated the parole revocation.

⁶ Other commitments (also referred to as negative movements) are juveniles returned to a secure facility for medical care, mental health care, and other non-disciplinary reasons. It also includes juveniles moved to a secure facility for a court hearing that does not result in a revocation.

⁷ This calculation involved only one juvenile.

Texas Juvenile Justice Department: Juvenile Probation Department Supervision Populations

¹ A formal referral occurs when: 1) delinquent conduct, conduct indicating a need for supervision (CINS), or violation of probation was allegedly committed; 2) the juvenile probation department has jurisdiction and venue; and 3) face-to-face contact occurs with the department or official designated by the juvenile board. Juveniles are typically referred to juvenile probation departments by schools and police but may also be referred by social workers, parents, and others. Historical numbers reflected in this report may be updated to reflect current information.

² Misdemeanor Offenses include contempt of magistrate orders in addition to class A and B misdemeanor offenses.

³ Conduct in Need of Supervision (CINS) is a non-criminal offense for a juvenile and includes public intoxication, truancy, running away from home, fineable-only offenses that have been transferred to a juvenile court from a municipal or justice court, inhalant abuse, and expulsion from an alternative school setting for persistent misconduct.

⁴ Dispositions reflect the outcomes of referrals to juvenile probation departments. The dispositions listed above do not include consolidated or transferred cases. Adjudicated probation includes all adjudicated dispositions of probation and modification of probation. Dismissed dispositions include dismissals, findings of not guilty, and findings of no probable cause. Supervisory caution is a non-judicial disposition that may involve such actions as referring the child to a social service agency or a community-based first offender program operated by law enforcement, contacting parents to inform them of the child's activities, or simply warning the child about his or her activities. Historical numbers reflected in this report may be updated to reflect current information. Figures in the table represent the number of cases, not the number of juveniles. A juvenile may have more than one case in a quarter.

⁵ Juveniles under conditional pre-disposition, deferred prosecution, or adjudicated probation supervision may also be on Intensive Supervision (ISP) and/or placed in a residential facility. ISP is a form of supervision that typically involves smaller caseloads supervised by specially trained probation officers and more frequent contacts between the juvenile and his or her probation officer. Juveniles under deferred prosecution or adjudicated probation supervision may be placed in a secure or nonsecure residential facility that is administered by a juvenile probation department or a contracted organization.

⁶ The Juvenile Justice Alternative Education Program (JJAEP) table and graph only captures information about students expelled for mandatory reasons because the state only provides funding for these JJAEP students though JJAEPs may accept students referred for discretionary reasons. The number of mandatory attendance days in June and July are low because many schools close in May and others only operate for part of June. The counts in summer school are also typically low because operating a summer school is optional. Historical numbers reflected in this report may be updated to reflect current information.

⁷ Mandatory Attendance Days reflect the sum of the number of days each mandatory student attends JJAEPs within the month.

⁸ The graph reflects the number of juveniles certified as an adult and the number of cases sent to TJJD state residential facilities.

⁹ The Juvenile Justice Alternative Education Program graph reflects mandatory attendance days accrued during the regular school year and does not include those accrued during summer school. Since summer school is optional and only available when sufficient funding exists, including only the regular school year renders year-to-year results that are comparable over time.
