The data highlight offense and sentence characteristics of offenders released from substance abuse felony punishment facilities during fiscal year 2011. A Substance Abuse Felony Punishment Facility (SAFPF) is a facility that provides an intensive therapeutic community program for offenders who are sentenced by a judge as a condition of community supervision or as a modification of parole or community supervision. The data do not include characteristics of prison offenders, state jail offenders, or parole violators in Intermediate Sanction facilities. The data were extracted from individual-level records submitted by Texas Department of Criminal Justice (TDCJ) Executive Services and may differ from the TDCJ Statistical Report due to methodological differences.
