

AGENCY FEE SURVEY  
2006

LEGISLATIVE BUDGET BOARD

## ARTICLE IX SECTION 7.09

### Reporting of Fees, Fines, and Penalties

- (a) Before November 1 of each fiscal year, each state agency and institution of higher education shall report to the Legislative Budget Board in the manner prescribed by the Legislative Budget Board all fees, fines, and penalties assessed and all fees, fines, and penalties assessed but not collected by the agency or institution during the prior fiscal year.
- (b) Each report made under this section shall detail the effort made by the reporting state agency or institutions of higher education to collect fees, fines, and penalties that are more than ninety days past due.

# APPENDIX A

## FOOTNOTES

**Footnote**

**Detail**

- 1 When an issuer submits a public security for examination and approval, an examination fee is charged. The fee is one-tenth of one percent of the principal amount of the public security to which the record of proceedings relates; or \$9,500. The minimum examination fee is \$750.
- 1aa \$5,056,246 is appropriated to the Office of the Attorney General (OAG) via Rider #22 in the OAG's bill pattern. The balance of the funds collected are deposited into unappropriated GR.
- 1a \$50 fee will increase to \$70 effective 9/1/05 per Rider 21, pg I-21 of the 79th GAA.
- 2 The commission's records storage and microfilming/imaging services are required by law to operate on a cost recovery basis through the assessment of fees. The costs, both direct and indirect, of providing the services are calculated and then fees are set to recover these costs. Because the services operate on a cost recovery basis, our fees must also take into consideration the problem of cash flow. Since services are not billed until the month after the services are provided and since not all agencies are prompt payers, fees must be set to ensure that there is enough actual cash in the Treasury to cover costs during a fiscal year. Fees are calculated to generate in 10 months sufficient cash to cover costs, since approximately two months of billed revenue has yet to be actually collected. Fees are approved by the governing body of the commission each year for the coming fiscal year.
- 3 Registration fees for each conference or seminar presented by the commission are determined on an event-by-event basis depending on location, the costs of facility rental, whether or not food will be provided on a cost recovery basis, the duration of the event, and other associated factors. Fees generally range from \$15 to \$75 per event.
- 4 Based on approximately \$1.5 million total fee revenue for the fiscal year, 75% of revenue is assigned to academic libraries, and 25% of revenue is assigned to public libraries based on database usage statistics. The formula for the academic libraries portion is a weighted combination of 30% undergraduate FTEs, and 70% information resources expenditures. The formula for the public libraries portion is a weighted combination of 30% population served and 70% collection expenditures. A minimum of \$50 is assessed to public libraries; a maximum of \$25,000 is assessed to public libraries. A minimum of \$500 is assessed for academic libraries with under 100 FTEs and a subject-specific focus. A minimum of \$2,500 is assessed to all other academic libraries. A maximum of \$35,000 is assessed to ARL libraries; a maximum of \$25,000 is assessed to other four-year colleges and universities. A maximum of \$15,000 is assessed to community college libraries. Medical libraries are assessed \$2,500.
- 5 Simultaneous filing by one agent for more than one corporation - maximum of \$750.
- 6 Fees collected under 9.02(c) include amounts collected under 9.02(f).
- 7 Simultaneous filing by one agent for more than one corporation - maximum of \$250.
- 8 TNPCA makes fees established under TBCA applicable to filing.
- 9 Simultaneous filing by one agent for more than one limited partnership - maximum of \$2,500.
- 10 Reinstatement fee included within amount noted for report late fee.
- 11 Simultaneous filing by one agent for more than one ltd. Liability co. - maximum of \$500.
- 12 TPFA operate the Master Lease Purchase Program (MLPP) for all state agencies and institutions of higher education. The program charges an Administrative Fee on each lease equal to 0.5% of the principal outstanding. This fee is established by the Authority in the program documents and can be changed with governing board action. This schedule estimates fee collections only for leases currently in place or anticipated based on appropriations made by prior Legislatures. The number and volume of leases processed each year is a function of expenditures and financing decisions made by leasing agencies and the Legislature, and is not within the Authority's control. As a result, the fund maintains a balance to cover direct program costs in the event program activity declines.
- 13 TSTC was only counted once as TSTC Waco and TSTC Harlingen share the same agency number.
- 14 Midwestern State University submitted their payment via wire from local funds and was deposited using CROC 3854.

16 Fines for the late filing of a report are \$500 for late lobby activities reports and \$500 for late campaign finance reports unless the report is an 8-day pre-election report or the first report due after a primary or general election. In those cases the penalty is \$500 for the first day the report is late and \$100 for each day thereafter that the report is late, not to exceed \$10,000. If more than 30 days late, and no response to late notice within 10 days, the Commission may increase the penalty not to exceed \$10,000. If a filer has been assessed a late-filing penalty, the filer may submit an affidavit of defense describing the reason that the report was not timely filed and requesting waiver or reduction of the late-filing penalty. Under Ethics Commission Rules sec. 18.23, the executive director has the authority to waive a late fine if facts that establish that: (1) the report was filed late because of a medical emergency or condition that involved the filer, a family member or relative of the filer, a member of the filer's household, or a person whose usual job duties include preparation of the report; (2) the filer is not an elected official, a candidate for election, or a salaried public servant, and the late report (A) was the first personal financial disclosure report required to be filed by the filer under Government Code chapter 572; and (B) was filed no later than 30 days after the individual was notified that the report appeared to be late; (3) the filer (A) had filed all previous reports by the applicable deadline; (B) had no contributions, expenditures, or loans to report; and (C) filed the report no later than 30 days after the filer was notified that the report appeared to be late; (4) the filer reasonably relied on incorrect information given to the filer by the agency; or (5) other administrative error by the agency. If, in the executive director's discretion, the affidavit establishes grounds for a waiver under this section, the executive director shall waive the fine. If the fine is not waived by the executive director these requests are presented to the commission for consideration. The commission may vote to waive the penalty or decrease the penalty. They may also vote to impose an additional penalty against a filer whose report is more than 30 days late or who has not paid an assessed fine within 10 days after receiving the commission notice of lateness, subject to the statutory limit of \$10,000.

17 The Commission considers these on a case by case basis. The penalty amount cannot exceed \$5,000 or three times the amount at issue, whichever is greater.

18 Global Settlements cases are cases that are worked by other entities, such as the Texas Office of the Attorney General (OAG), the U. S. Justice Department, etc. The State via OIG ultimately receives/recovers the administrative penalties in these cases. NOTE: If the settlement case was worked by the OAG's Medicaid Fraud Control Unit (MFCU) and the OAG is reporting the recovery of administrative penalties in these Global Settlement cases, then the recovery may be counted twice by the LBB.

19 Difference between total amount assessed and total amount recovered in any given fiscal year is the result of payout plans that allow Medicaid providers to repay the administrative penalties along with the Medicaid overpayment over a period of time. Therefore, it is unlikely that the assessed amount and the recovered amount of administrative penalties will balance in any given fiscal year.

20 Fees are collected by local government entities and are deposited with the Comptroller.

21 Penalties/Fines/Late Fees are deposited by revenue object code. The total amount collected may represent multiple fee programs (GR and/or GR-D) within an individual Revenue Object Code.

22 With the exception of hazardous project manufacturing (3555) and inhalant abuse permit (3123), amount collected is not equal to number assessed times the fee due to the variation of fees within an individual fee program.

23 Total amount assessed includes federal and public health service fee billings. This amount can not be separated by billing type.

24 Fees are deposited into unappropriated Comptroller account in GR. Agency receives sum certain appropriations and is not authorized to spend amounts collected in excess of appropriation.

25 Initials/Change of Owner: \$300 + \$10 per bed; Renewals \$300 + \$10 per bed; Increase in Capacity \$10 per bed; Probationary Licenses \$125 + \$5 per bed; Change of Administrator \$20; Background Information Fee \$50; Trust Fund Fees: Annual Fee based on licensed bed capacity, not to exceed \$20 per bed annually. No more than \$10,000,000 in Trust Fund Account.

26 Initials/Change of Owner \$25; Renewals \$25; Trust Fund Fees: Annual Fee based on licensed bed capacity. No more than \$500,000 in Trust Fund.

27 Initials/Change of Owner \$100 + \$5 per bed w/max of \$750; Renewals \$100 + \$5 per bed w/max. of \$750; Increase in Capacity \$5 per bed; Trust Fund Fees: Annual Fee based on licensed bed capacity. No more than \$500,000 in Trust Fund.; Alzheimer Unit Fees are a flat \$100.

28 Initials/Change of Owner \$150 + \$5 per bed; Renewals \$150 + \$5 per bed; Increase in capacity \$5 per bed; Change of Administrator \$20; Trust Fund Fees: Annual Fee based on licensed bed capacity, not to exceed \$20 per bed annually. No more than \$10,000,000 in Trust Fund Account.

29 Initials/Change of Owner \$150 + \$5 per bed; Renewals \$150 + \$5 per bed; Increase in capacity \$5 per bed; Change of Administrator \$20; Trust Fund Fees: Annual Fee based on licensed bed capacity, not to exceed \$20 per bed annually. No more than \$10,000,000 in Trust Fund Account.

30 The revolving fund collected fees for conference, seminars, and registration fees is unappropriated. However, DADS is allowed to spend the funds for conference/seminar related.

31 Total for all facility administrative penalties including ICF/MR and Assisted Living administrative penalties.

Includes Civil Penalties collected by the Office of the Attorney General (OAG) which will be tracked separately in FY'06. These penalties are collected by the OAG through DADS authority under Health & Safety Code 242.065 for Nursing Homes, 247.045 for Assisted Living Facilities, and 252.064 for ICF/MR. The attorney general's office is the state agency that does the actual handling of the payments. Citation information: Sec. 274.045 was promulgated 9-1-91 and amended 9-1-99; 242.065 was promulgated 9-1-89 and amended 9-1-03; and 252.064 was promulgated 9-1-97 and amended 5-3-99. Citation information: Sec. 274.045 was promulgated 9-1-91 and amended 9-1-99; 242.065 was promulgated 9-1-89 and amended 9-1-03; and 252.064 was promulgated 9-1-97 and amended 5-3-99.

32

33 \$100/bed with minimum of \$3,000 - \$200/bed with minimum of \$6,000 not to exceed \$10,000 per application.

34 Late fee 1.5 - 2x regular fee amount; ADM & Civil penalty not to exceed \$10,000 per day; Criminal Penalty not to exceed \$20,000 per day 1st offense or \$25,000 per day 2nd offense

35 Late fee 1.5 - 2x regular fee amount; ADM penalty - <\$1,000 - \$5,000/day depending on the level

36 Civil penalty - \$100-\$500 for each violation, administrative penalty - may not exceed \$1,000 for each violation, each day of a continuing violation constitutes a separate violation

37 Civil penalty - \$100-\$500 for each violation, administrative penalty - may not exceed \$1,000 for each violation, each day of a continuing violation constitutes a separate violation

38 Civil penalty - \$500 for each violation, each day of a continuing violation constitutes a separate ground for recovery; administrative penalty - \$1,000 - \$5,000

39 Equal to 1.5 times the renewal fee or \$1,312.50 for each parent and branch.

40 \$15 Certification fee / \$5 duplicate fee.

40a SBEC Open Records Fees' (COBJ 3719) were combined with 'Fees - Copies or Filing of Records' (COBJ 3719) since a) they share the same Comp Object Code and b) the Texas Education Agency (Agency 703) and the State Board for Educator Certification (Agency 705) have now been consolidated into a single agency (Agency 703).

41 All fees collected are deposited into funds 960, 864, and 855 which are trust funds.

42 Number of individuals/groups assessed range from 9,251 to 9,268 per month.

42a Fees assessed for the use of a credit, charge, or debit card to pay fees and penalties.

42b Violations punishable by fines of NLT \$300 or more than \$500 if vehicle gross weight more than 5,000 pounds and not more than 10,000 pounds; or NLT \$500 or more than \$1,000 if vehicle gross weight is 10,000 pounds or more over allowable gross weight. For fines beginning at \$300, an amount equal to 50 percent of the fine to General Revenue Fund (No. 0001) and 50 percent to municipal or county treasury unless the offense occurred within 20 miles of an international border, in which event the entire amount deposited in municipal or county treasury for road maintenance.

42c Each fiscal year, a municipality may retain from fines collected for violation of any highway law set forth in this Act, an amount equal to 30 percent of their revenue for the preceding fiscal year from all sources other than federal funds and bond proceeds, as shown by audit performed under Section 103.001, Local Government Code. After municipality has retained that amount, they shall send to the treasury any portion of a fine collected that exceeds \$1.

- 42d Fines from Municipal enforcement related to commercial motor vehicle safety standards violations may be retained by a municipality in an amount NTE 110 percent of actual expenses for enforcement during the preceding year, as determined by the Comptroller after review of the municipal audit. Fines that exceed this limit are sent to the treasury.
- 42e Various rates on each delivery based on cargo tank capacity, ranging from \$10 for tanks less than 2,500 gallons to \$40 for tanks between 8,000 and 10,000 gallons, plus additional charges for tanks over 10,000 gallons. The fee will no longer be collected after fiscal 2007.
- 42f Of each administrative fee on loans collected by a financial institution, a fee of \$1.00 for non-real property loans and \$0.50 for secondary mortgage loans.
- 42g \$300 yearly permit fee per location; pro-rated for partial year.
- 42h An amount equal to 1.25% of each pool set aside for the state.
- 42i Collected by CPA under contract with TxDOT.
- 42j \$25 for each distributor; \$1 late fee; and \$5 service fee.
- 42k \$1 per 300 lb barrel of oysters taken from Texas waters.
- 42l GR received 98 percent, GR-D receives 2 percent.
- 42m \$1.80 of each \$2.00 fee collected by a local registrar for a certified copy of a birth record or birth search.
- 42n Rate adjusted annually not to exceed \$0.05 per quart or \$0.20 per gallon of oil; fee payer may retain 1% per quarterly payment.
- 42o \$1.975 of each \$2 fee per lead-acid battery of less than 12 volts and \$2.975 of each \$3 fee per lead-acid battery of 12 volts or more.
- 42p Established by a judge not to exceed an amount greater than 25% of the defendant's gross income while in aftercare or require the defendant to pay the fee at any time other than at a time the defendant is both employed and a participant in aftercare.
- 42q A fee not to exceed \$30 may be charged for processing a dishonored check.
- 42r \$20 of the \$33 fee for obtaining an original certificate of title for a motor vehicle in a county in a nonattainment area or \$15 of the \$28 fee in any other county.
- 42s A Texas emissions plan surcharge is imposed on a truck-tractor or commercial motor vehicle in an amount equal to 10% of total fees due for registration.
- 42t \$15 million annually, apportioned per market share of premiums.
- 42u Generally, \$20 for P&C and title; \$250 for LA&H and HMOs; and \$200 for pre-paid legal svc and 3d party admin (actual, not NTE).
- 42v \$10 per each million or fraction thereof of life insurance in force.
- 42w 1.25% of taxable telecommunications receipts.

- 42x (1) Surcharge on each customer receiving intrastate long distance service NTE 3/10 of one percent of the charges. (2) 9-1-1 emergency service fee on each local exchange access line and on each wireless telecommunications connection of \$0.50 per month. (3) Late penalties NTE \$100 per day may be assessed by the Comptroller against a service provider who fails to timely deliver the surcharges.
- 42y (1) NTE 50¢ per month for each local exchange access line or equivalent local exchange access line. (2) Late penalties NTE \$100 per day may be assessed by the Comptroller against a service provider who fails to timely deliver the fees.
- 42z Felony Conviction: \$133; Class A or B Misdemeanor conviction: \$83; Nonjailable misdemeanor conviction: \$40.
- 42aa GR Acct 0116 (receives 5.0034% of total fees collected);  
GR Acct 0581 (receives 2.1683% of total fees collected).
- 42ab Proceeds from the sale of forfeited property less amounts to cover disposition costs.
- 42ac Fund 0006 (receives 35%) and GR Acct 0421 (receives 65%)
- 42ad \$250 on conviction of certain offenses including kidnapping, sexual assault, burglary and public indecency; \$50 on conviction of public lewdness and indecent exposure
- 42ae Fees for services of peace officers; includes set fees and recovery of actual expenses.
- 42af GR Acct 5085 (receives \$12.50 of the collected fee) and GR (receives \$3 of the collected fee)
- 42ag Fines of NLT \$100 or more than \$200; 50% is remitted to the Comptroller.
- 42ah Texas Mobility Fund - 0365 (receives 67%) and GR Acct 5111 (receives 33%)
- 42ai Recovery from the taxpayer by the Comptroller of the customary fees for filing a tax lien charged by the county clerk.
- 42aj If payment not claimed before 4 years expire, probation department deducts 5% collection fee plus interest and remits the balance to Comptroller.
- 42ak Allows jurors to direct the county treasurer to donate all of a juror's reimbursement to the Compensation to Crime Victims Fund.
- 42al \$30 administrative fee for failure to appear in certain circumstances; \$20 remitted to the Comptroller. Of the \$20, \$10 is deposited to the credit of the Department of Public Safety.

62 Fee, not to exceed \$0.50 for each service line may be assessed on each inventor-owned, natural gas distribution system; Fee, not to exceed \$100 may be assessed on each operator of a natural master metered system; Late penalties of 10% of the total assessment

63 Receipts from reimbursements for damage done to State property at a rate of the cost to repair or replace as determined by the responsible state agency

64 Appropriated \$355,137 in Rider #10.

65 Explanation of Citrus Fees:  
(1) 2.5 cents per one standard box that is sold, transported, or delivered for transportation  
(2) 1.5 cents per one-half standard box, or other container that is one-half the size of a standard container, that is sold, transported, or delivered for transportation; or  
(3) 2.5 cents per 80-pound lot, or portion of an 80-pound lot, that is sold, or transported in bulk.

66 Private-Purpose Trust Funds which are outside of the appropriation process.

67 Late Fees vary by applicable fee being assessed.

68 In some cases, the "amount assessed" is satisfied by non-cash equivalents, such as the completion of continuing education to prevent future violations. The "Total Amount Collected in FY 2006" does not reflect the satisfaction of penalties through non-cash equivalents. In addition, it does not reflect the collection of penalties that will be paid through payment agreements extending into FY 07.

69 Cash collections upon closing during FY 06 are shown in survey. Amounts in financial reports are shown as earned based on relevant work performed, and so will differ.

70 Such fees shall not exceed 1% of the value placed upon the water right or right to use water by the depositor upon deposit into the bank, and 1% of the value of the water right or right to use water transferred while on deposit in the water bank.

71 Collected by the Texas Department of Public Safety.

72 Collected by the Texas Comptroller of Public Accounts.

73 The assessed amount is not adjusted for refunds, debits, or credits.

74 Many of these fees are for occupational licenses with 2 or 3 year terms, and many of the license holders are paying \$35 annually rather than \$70 every 2 years or \$105 every three years.

75 Some assessments are for multiple letters at \$75 each.

76 Air emissions upset & maintenance fees are not assessed separately but rather are included in the air emissions assessment and segregated at a later date. Therefore both amounts collected should be compared jointly with the amount assessed.

77 Fees with +# is to be interpreted as the additional \$ amount for each additional day assessed.

78 **Private Educational Institution Fees**

The number of Private Educational Institutions reflect the number of entities that submitted any kind of payment during the fiscal year regardless of year assessed.

79 **3723 – Fees for Examination & Audits**

The rate per day or hour for an examiner's service, and should be computed on the basis of working time in the month. Divide the number of working days (or hours) in the month into the examiner's gross salary. Subsistence charge is computed on per diem as charged on an expense account. The traveling expense charge is computed on travel at regular mileage allowance. Other charges may be assessed on a case by case basis. Examples include subpoena fees if the employer continually refuses to submit reports or produce records, or those expenses allowed on Form F-5. Expenses should be prorated to insure that an equitable portion of expenses is charged to the employer. Additional incidental expenses on the same trip should not be charged.

81 **3770 – Child Labor Admin Penalties**

§ 51.033. ADMINISTRATIVE PENALTY.

(a) If the commission determines that a person who employs a child has violated this chapter or a rule adopted under this chapter, the commission may assess an administrative penalty against that person as provided by this section.

(b) The penalty for a violation may be in an amount not to exceed \$10,000.

(c) The amount of the penalty shall be based on: (1) the seriousness of the violation, including the nature, circumstances, extent, and gravity of any prohibited acts; (2) the history of previous violations; (3) the amount necessary to deter future violations; (4) efforts to correct the violation; and (5) any other matter that justice may require.

(d) If, after examination of a possible violation and the facts relating to that possible violation, the commission determines that a violation has occurred, the commission shall issue a preliminary determination that states the facts on which the determination is based, the fact that an administrative penalty is to be imposed, and the amount of the penalty.

82 **Labor Law Judgments and Settlements**

Labor Code §61.063 and §61.064 provide that following a commission order becoming final, a party required to pay wages must pay that amount to the commission. If, after judicial review, it is determined that some or all of these wages are not owed, then the commission shall remit that amount to the paying party, plus interest accrued. After a claim is adjudicated or otherwise resolved, then the commission shall pay the claimant the wages collected plus any interest earned

82a Labor Law Judgments and Settlements changed Revenue Object Code due to reclassification of this fund from an agency fund to a private purpose trust fund.

83 The total amount collected in FY 2006 may not match the amount assessed in FY 2006 due to collections received from prior fiscal years. In addition, amounts portrayed are derived from TxDOT internal systems and in many cases may not reconcile to amounts in the Uniform Statewide Accounting System (USAS). This is primarily due to timing differences between a internal systems and USAS (ex. Vehicle Registration, is collected at the county and immediately posted in the Registration and Titling System (RTS), however, a county may hold the state portion for up to 60 days before remitting to be processed in USAS)

84 In some cases, TxDOT's internal systems do not capture data by the fee classifications as they are listed in statute. For those instances, transaction and revenue estimates were developed based on a percentage of transaction volume and amount collected.

85 **\$33 : Fee for TERP (Tuition Emission Reduction Program) non-attainment county**

- 105    **\$31 - minimum fee - Formula below : Other (State Highway Fund)**  
      **Fee Formula**  
      Permit fee = Mileage to be traveled x Highway Use Factor x Total Rate per mile x Registration reduction + Indirect Cost Share  
      **Formula Components**  
      - *Highway Use Factor = 0.6*  
      - *Total rate per mile = combined mileage for width, height and weight for the unit*  
      - mileage rate for width is \$0.06 per mile for each foot above legal width

- mileage rate for height is \$0.04 per mile for each foot above legal height
- mileage rate for any single axle or any axle within a group exceeding 20,000 lbs, but is less than or equal to 25,000 lbs, is calculated by multiplying \$0.045 times the amount by which the axle or axle group exceeds the legal weight for the axle or axle group and dividing the resultant figure by 1000 lbs
- mileage rate for any single axle or any axle within a group exceeding 25,000 lbs, but is less than or equal to 30,000 lbs, is calculated by multiplying \$0.055 times the amount by which the axle or axle group exceeds the legal weight for the axle or axle group and dividing the resultant figure by 1000 lbs
- Registration Reduction = A crane registered for maximum legal weight will receive a reduction of 25% in the computation of the permit fee.
- Indirect cost share = a prorated share of administering department activities, other than the direct cost of the activities, including the cost of providing statewide support services. The indirect cost share factor is based upon the previous year's ex

106 **\$31 : minimum fee - Formula below : Other (State Highway Fund)**

**Fee Formula**

Permit fee = Hubometer mileage x Highway Use Factor x Total Rate per mile x Registration reduction + Indirect Cost Share

**Formula Components**

- Highway Use Factor for time permit = 0.3
- Total rate per mile = combined mileage for width, height and weight for the unit
  - mileage rate for width is \$0.06 per mile for each foot above legal width
  - mileage rate for height is \$0.04 per mile for each foot above legal height
  - mileage rate for any single axle or any axle within a group exceeding 20,000 lbs, but is less than or equal to 25,000 lbs, is calculated by multiplying \$0.045 times the amount by which the axle or axle group exceeds the legal weight for the axle or axle group and dividing the resultant figure by 1000 lbs
  - mileage rate for any single axle or any axle within a group exceeding 25,000 lbs, but is less than or equal to 30,000 lbs, is calculated by multiplying \$0.055 times the amount by which the axle or axle group exceeds the legal weight for the axle or axle group and dividing the resultant figure by 1000 lbs
- Registration Reduction = A crane registered for maximum legal weight will receive a reduction of 25% in the computation of the permit fee.
- Indirect cost share = a prorated share of administering department activities, other than the direct cost of the activities, including the cost of providing statewide support services. The indirect cost share factor is based upon the previous year's ex

107 **\$31 - minimum fee - Formula below : Other (State Highway Fund)**

**Fee Formula**

Permit fee = Mileage to be traveled x Highway Use Factor x Total Rate per mile x Registration reduction + Indirect Cost Share

**Formula Components**

- Highway Use Factor = 0.6
- Total rate per mile = combined mileage for width, height and weight for the unit
  - mileage rate for width is \$0.06 per mile for each foot above legal width
  - mileage rate for height is \$0.04 per mile for each foot above legal height
  - mileage rate for any single axle or any axle within a group exceeding 20,000 lbs, but is less than or equal to 25,000 lbs, is calculated by multiplying \$0.045 times the amount by which the axle or axle group exceeds the legal weight for the axle or axle group and dividing the resultant figure by 1000 lbs

- mileage rate for any single axle or any axle within a group exceeding 25,000 lbs, but is less than or equal to 30,000 lbs, is calculated by multiplying \$0.055 times the amount by which the axle or axle group exceeds the legal weight for the axle or axle group and dividing the resultant figure by 1000 lbs

- Registration Reduction = A crane registered for maximum legal weight will receive a reduction of 25% in the computation of the permit fee.

- Indirect cost share = a prorated share of administering department activities, other than the direct cost of the activities, including the cost of providing statewide support services. The indirect cost share factor is based upon the previous year's example.

\$250: Drivers License surcharge for conviction of driving with an invalid license or without financial responsibility  
\$100: Drivers License surcharge for driving without a license.  
Fee Distribution for all fees:  
49.5% - Texas Mobility Fund  
49.5% - GR Account, EMS and Designated Trauma Facility  
1.0% - General Revenue Fund
- 121 \$30.00: 67% - Texas Mobility Fund, 33% - GR Account, EMS and Designated Trauma Facility
- 122 Fee tied to national exam in practice; cannot change.
- 126 Administrative Penalties are determined by the Commission based on a classification system for violations that includes a range of administrative penalties for each class of violation.
- 127 May include \$25 fee for filing of exhibits for oral argument.
- 128 \$5.00 is collected for certified fees and the copying costs are added.

129 Late fee is \$10/day not to exceed \$450

131 \$5 fee is collected for the certification. The cost of copying each page is added if over 10 pages at \$0.10 a page. (Shown under uncertified copy fee).

132 Fees are collected if over 10 pages at \$0.10 a page.

133 This category includes case filing fees (\$100), motion fees (\$10) and original proceeding filing fees (\$50).

134 This category includes \$5.00 certification fee plus \$0.10 per page.

135 This category includes \$0.10 per page for copies plus employee reimbursement for personal express fees charged to the Court.

136 \$5 fee is collected for the certification and then the cost of copying each page is added if over 10 pages at \$0.10 a page for the first 50 pages and then \$0.50 for each page thereafter.

137 Fee for express is collected according to the state contract rates for UPS.

138 Fees are collected if over 10 pages at \$0.10 a page for the first 50 pages and then \$0.50 for each page thereafter.

139 Certified copies are based on the number of pages. Which are charged at \$1.00 per page or \$5.00 minimum.

140 Postage reimbursement charges are based on the exact amount of postage used to ship the document(s).

141 Copies/opinion sales are based on a per page basis. Publishing companies are charged \$1.00 per page while all others are charged 1-9 no charge; 10-49 pages at \$0.10 per page; over 50 pages at \$0.50 per page.

142 The \$125 filing fee is distributed as follows: \$50 to Fund 00540 (Judicial Fund), \$50 to Fund 00573 (Judicial Fund), and remaining \$25 to Fund 00900 (Indigent Fund).

143 The \$10 motion fee is distributed as follows: \$5 to Fund 00540 (Judicial Training Fund) and the remaining \$5 to Fund 00573 (Judicial Fund).

144 As of March, 2005, the Court began charging \$10 for fax filings instead of \$5.

145 Fees for express are collected according to the state contract rate for UPS.

146 Cash invoices are anonymous. Therefore the same patron could have paid for the same service on different invoices throughout the year.

147 Fee is appropriated back to 13001.

147a This amount includes \$8.00 of employee reimbursements for faxes.

148 Pauper parties permitted to proceed on appeal without payment of fees.

149 The number of individuals/groups assessed are estimates, the agency does not currently collect this data.

150 \$40 + 1/10 of 1% of the aggregate amount of securities described and proposed to be sold/Notice filings vary

151 1/10 of 1% of the aggregate amount of securities described as being offered for sale, but in no case more than \$500

152 From 1/2 up to total amount of original application fee and required renewal fee

153 TexasOnline Subscription fees not included.

154 Subscription fees on renewals for dentists, dental hygienists, dental faculty and dental hygiene faculty doubled in January, 2005.

155 Renewal fees: 90 days or less- 1 1/2 times the normal renewal fee. More than 90 days but less than 1 year, 2 times the normal renewal fee. One year or more- may not renew, must reapply.

156 Renewal fees: 90 days or less- 1/2 of the renewal fee. More than 90 days but less than 1 year- 1 time the initial registration fee. One year or more- may not renew, must reapply.

157 Fee is based on asset size.

158 Per TIC Article 1.16 reimbursement based on expenses attributable to a specific examination including employees' salaries and expenses

159 Fee is based on purchase price. \$500 fee for first \$9,900,000 plus \$250 per each \$10 million, capped at \$5,000

160 \$150 or \$75 if annual gross premium receipts were less than \$450,000

161 \$250 or \$125 if annual gross premium receipts were less than \$450,000

162 Amount is dependent on what is charged in other states

163 The fee for a HMO form filing submitted requiring approval will be \$100. The fee for a HMO filing submitted that is exempt from approval is charged \$50. The rates are set by rule in the Texas Administrative Code

164 The fee for a Life/Accident form filing submitted requiring approval will be \$100. The fee for a Life/Accident form filing submitted that is exempt from approval is charged \$50. The rates are set by rule in the Texas Administrative Code

165 Amount is based on the following calculation: examination fund balance + expected examination reimbursement fee revenue - examination function obligations. Rates are then set to recover the amount needed based on estimated admitted assets and gross premium receipts for domestic insurance companies

166 Amount is based on the following calculation: premium finance fund balance + expected premium finance fee revenue - premium finance function obligations. Rates are then set to recover the amount needed based on estimated loan dollar volume for premium finance companies

167 Various amounts as dictated by TIC § 202.051 and 28 TAC 7.1301

168 Registration fee set to recoup costs associated with seminar

169 The Commissioner may direct the holder of the authorization to pay an administrative penalty under Chapter 84. The penalty for one violation may not exceed \$25,000, unless a greater or lesser penalty is specified by the TIC or another insurance law of this state. The amount of the penalty is based on several factors; e.g., the seriousness of the violation, the hazard or potential hazard created to the welfare of the public, the economic harm to the public, the history of previous violations, etc.

170 Amounts paid are determined by the court

171 Amount is Federal salaries paid times the indirect cost rate. Indirect cost rate changes annually.

172 Amounts submitted in not based on a fee amount. The amount submitted is recorded as revenue.

173 Amounts will be based on the amount of warrants that expire due to the statute of limitations

174 Income from the Catastrophe Reserve Trust fund of not less than \$1 million and not more than ten percent of the investment income

175 Based on charges established by the State Building & Procurement Commission. Charges primarily consist of copy charges of \$.10/page, programming personnel - \$28.50/hour, other personnel - \$15.00/hour

176 The amount is to reimburse the state for the actual expense of printing the publication or printed matter

177 Net proceeds of property sold

178 The fees shall be in amounts sufficient to cover but not exceed the costs of rehabilitating an entity

179 Reimbursement based on costs salaries and fringe benefits paid for the Liquidation Allocated function

180 Reimbursement based on costs paid for the Title Allocated function

181 Reimbursements based on costs that are to be paid by a third party

182 Number of individuals assessed count represents vehicles.

183 Number of individuals assessed count represents inspectors.

184 Number of individuals assessed count represents license holders.

185 Currently no procedure in place to capture this data.

186 If fund is less than \$300,000 on 12/31 each year, additional fee is assessed, prorated at \$50 or more

187 Number of individual groups assessed are per semester credit hour.

188 Number of individual groups assessed are on a head count basis.

189 Number of individual groups assessed represents a duplicated head count.

190 Portion of Distance Education Tuition is allocated to ID Badge and Yearbook.

191 School of Allied Health Science Medical Technology Students and first year Medical Students.

192 Charged once per school year.

193 Additional lab fee assessed based on specialization or course.

194 Liability funds kept in deferred account until invoice is received from insurance company for payment.

195 Maximum of \$158 per semester.

196 The exact date is not accessible, however the rates have been the same since before 1998.

197 The total amount collected does not equal the amount remitted to the State. Before being remitted to the State, the TPEG set-aside is taken out of the amount collected.

198 Students who were enrolled prior to summer 2002 are only assessed \$6 per semester credit hour.

199 Student who were enrolled prior to summer 2002 are only assessed \$12.50 per semester credit hour.

200 Assessed to undergraduate students only.

201 Assessed to students taking courses using distance ed resources.

202 Assessed to international students only.

203 Legislative Maximum Allowed- At least equal to but no more than twice the following maximum rates. Resident: \$48 per semester credit hour; Non-Resident: \$306 per semester credit hour.

204 Designated Tuition: \$46 per semester credit hour, \$828 Fall/Spring Max, \$552 Summer Max.

205 Computer Access Fee: \$7.50 per semester credit hour, \$135 Fall/Spring Max, \$90 Summer Max.

206 Collected to cover cost of Student Services: \$21.25 per semester credit hour, \$250 Fall/Spring Max, \$250 Summer Max.

207 Student Center Fee: \$3 per semester credit hour, \$36 Fall/Spring max, \$18 Summer max.

208 This fee is assessed against certain enrolled students, based on their enrollment status.

209 This fee is assessed against certain enrolled students based on enrollment status, and certain agency employees based on optional participation.

210 See AFR Schedule B-2. Not on C-1-DET because amount is transferred to TAMU College Station.

211 Number of individuals or groups assessed are shown per week.

212 Minimum tuition for resident of Texas \$120. Tuition per credit hour for Resident of Texas \$30.

213 Minimum tuition for non-resident of Texas \$300. Tuition per credit hour for Non-Resident of Texas \$60.

214 Student service fee minimum \$10 for up to 8 credit hours. \$15 for 9+ credit hours.

215 Building use fee is \$12 per credit hour.

216 Workforce development tuition is calculated by multiplying teacher's salary X number of hours instruction X 30% overhead for a minimum of 6 students.

217 Lifetime learning tuition is calculated by multiplying teacher's salary X number of hours instruction X 30% overhead by 6 minimum students.

218 Duplicated fee reported both by agency and Comptroller of Public Accounts.

219 Late fees: 90 days or less--1 1/2 times the normal renewal fee. More than 90 days but less than 1 year--2 times the normal renewal fee. One year or more--may not renew and must reapply.

220 Late fees: 90 days or less--1/2 of the renewal fee. More than 90 days but less than 1 year--1 time the initial registration fee. One year or more--may not renew and must reapply.

221 Bingo Prize Fees represent total fees collected less allocations to local jurisdictions.

222 The agency over-collected late fees for the first 6-9 months of FY 06 due to a misunderstanding concerning the proper way to charge for late renewals, based on changes made to the statute as a result of the Sunset Bill (HB 972). The estimated amount of the excess collection is \$29,000 to \$46,000 dollars for FY 2006.

223 All revenue amounts on this spreadsheet are ESTIMATES . The agency does not currently use agency codes to track revenues according to the specific type of fee that is collected. That is, the accounting records in USAS do not break out the various types of revenues coded to 3562 or 3572. However, the total amount of revenue shown as collected for Revenue Codes 3562 and 3572 very closely approximate the total amounts shown in USAS for those accounts for the 2006 fiscal year.

224 Installment late fees are included in late registration fees.

225 Breakdown of Patient Income Charges Not Collected: Bad Debts Written Off = \$44,598; Accounts Receivable as of 8/31/06 = \$151,475.

226 Majority of Patient Income Not Collected is unsponsored charity care. The second component is bad debt that is written off.

## APPENDIX B

### PAST DUE COLLECTION SUMMARY

**Past Due Collection Summary**  
(As Submitted by Agencies)

Agency	Comments
<b>ARTICLE I: GENERAL GOVERNMENT</b>	
303 Tx Building and Procurement Commission	The Training and Certification Program makes the following efforts to collect money owed on outstanding balances. 30 days after class completion, students who have not paid are sent a "Payment Reminder" e-mail. If we do not receive payment after 60 days students are e-mailed a 2nd reminder e-mail with the fiscal person cc'd if we have their information. If we do not receive payment after 90 days, we contact the agency via phone and try to find someone to help us secure payment.
306 Tx State Library and Archives Commission	<b>STATE AND LOCAL RECORDS MANAGEMENT DIVISION:</b> In addition to our standard invoice displaying both current and past due amounts, we also send a reminder letter to any state agency, local government, or private individual/organization any part of whose invoice is more than 90 days past due. We do this until the overdue invoice amount is 160 days past due. We then call the agency or local government records management officer and, working through them, attempt to get the past due amounts paid. If that does not work, we contact the chief fiscal officer of the governmental entity. In rare cases, we contact the head of the agency or local government. Because of our known aggressive collection practices and the fact that the overwhelming bulk of our clients are government agencies, less than 4% of our fees took longer than 90 days to collect. Of fees billed in FY 2006 and collected prior to the end of FY 2006, 66.77% were collected within 30 days; 26.83% in the next 30 days; 2.76% in the next 30 days; and 3.64% after 90 days. Over the past 4 years, we have failed to collect on only five accounts, and all of these instances involved abolished state agencies or defunct private genealogical or historical associations. The cumulative amounts of these uncollected fees totaled less than \$1000.
307 Secretary of State	<p>Across the board the Office is quite successful in collecting fees. The largest dollar amounts are filing fees for business, commercial and public documents where the fee must be paid at the time the document is submitted for review and filing. If the fee is subsequently uncollectible the filing is simply revoked and the customer has, in effect, received no services. For example, if a customer files a document to charter a corporation and the check is returned for Not Sufficient Funds and collection efforts fail, the office revokes the filing and no corporation exists. The Office provides copies of public information upon the request of a customer and in many cases will invoice the customer afterwards. The collection rate on these fees is high about 99.3 percent. This collection rate is relatively stable from year to year. The collection effort includes sending the customer three statement, then a dunning letter if no payment is received.</p> <p>For larger amounts, the office will call the customer and request payment. Customers may be placed on a cash only basis if an invoice remains unpaid. In extreme cases the customer may be placed on "warrant hold" through the Comptroller's office.</p> <p>On an annual basis the Office writes off uncollectible amounts. Written off accounts exceeding \$10.00 are reported to the Attorney General. In FY 2005, the write-off amount was \$28,498 or about 0.7 percent of \$4,318,410 in fees charged through the SOS billing system. In FY 2006, the write-off amount is estimated to be \$43,523 or about 0.7 percent of \$5,771,000 in fees charged through the SOS billing system. No outside contract vendors are used for collections.</p>
327 Employees Retirement System	The Employees Retirements System of Texas has a 99.8% collection rate and very few problems with past due amounts.
356 Tx Ethics Commission	<p><b>Requests for information:</b> First, a reminder letter is sent to the requestor. If payment is still not received, a letter is sent to the requestor indicating that no further requests will be filled until the balance due is paid. These amounts are very small as we request partial payment in advance on larger requests. The collection rate for requests for information is very high.</p> <p><b>Late Fines:</b> If a report is due and either not filed or filed late, a letter is sent to the filer notifying them that a late penalty has been assessed. This letter is sent 15 business days after the deadline. When payment is received, the collection process stops. If we receive an affidavit raising a defense as to the lateness, the account is placed on hold until validation is made regarding the defense. First, the commission staff determines whether it has the authority to administratively waive the fine. If staff does not have that authority then the defense is presented to the commission. If the fine is waived, the collection process ends. If the defense is rejected, the filer has 30 days to pay the fine before being referred to the Office of the Attorney General for collection. If we don't hear from the filer within 15 days (from the date of the last letter), another late letter goes out informing the filer that he/she is being referred to the Office of the Attorney General for collection.</p>

**Past Due Collection Summary**  
(As Submitted by Agencies)

Agency	Comments
	<p>If we receive an affidavit of defense after the filer receives the second late letter, the account is placed on hold until a determination is made whether to waive the fine or to present the filer's defense before the commissioners. If the fine is waived, the collection process ends. If the defense is rejected, the filer has 30 days to pay the fine. If we have not heard from the filer after sending the 1st and 2nd late letters, the filer will be sent to the Office of the Attorney General for collection. When the delinquent filer is referred to the Attorney General they are also placed on warrant hold status with the Comptroller's office which will prevent the filer from receiving any payments from the state (with the exception of payroll payments) until the delinquent fees are paid. Additionally, we post a list of delinquent filers on the Ethics Commission website. An affidavit of defense, or a request for reconsideration of a determination by the commission, can be received at any time and will be considered unless the Office of the Attorney General has begun litigation proceedings.</p>
<b>ARTICLE III: PUBLIC EDUCATION</b>	
703 Texas Education Agency	During fiscal year 2006, approximately 0.2% of all fees, fines, or penalties assessed were not collected.
<b>ARTICLE III: HIGHER EDUCATION</b>	
738 University of Texas at Dallas	<p>We are utilizing two new internet skip tracing tools to locate students with outstanding balances. The first tool Metronet, an Experian product, has been in production since fall of 2004. The second tool, Public Data.com, went into production October of 2005. The students often move and change their location, therefore these tools will assist us in contacting students who maybe unaware of their balances. These products will also assist us with the due diligence process ensuring that those students who choose to ignore balances are notified of the consequences. Additional collection efforts include a dedicated Tuition and Fee Collections Counselor who contacts students personally, through letters/emails and final demand letters; after which, the unpaid balances are turned over to outside collection agencies. The additional personnel was added to our collections efforts October of 2005.</p> <p>The ultimate goal of our collection efforts is to contact each account personally with the smaller accounts being contacted through skip tracing and letters. All accounts which do not set up a repayment schedule will be forwarded to outside collection agencies for the final stage of the collections effort. If the agencies are unsuccessful, the accounts are sent to The Office of General Counsel for legal action. With a concerted collection effort utilizing the latest collection tools, a more focused internal collections effort, additional collections personnel, and the use of outside collection agencies, the collections department will be able to maximize collections while ensuring full circle collections efforts have been completed.</p>
743 University of Texas at San Antonio	<p>During fiscal year 2006, approximately 0.2% of all fees, fines or penalties assessed by UTSA are currently uncollected. In other words, over 99.8% of all revenues assessed during fiscal year 2006 have been collected. The amount of Accounts Receivable write-offs (for balances over 1 year past due, e.g. uncollectible fees originally charged in FY0405) totaled \$346,556 (0.3%) out of a total Student Receivables of \$110,952,087.</p> <p>The revenue types with the largest uncollectible rates as a percentage of total revenue tend to be from (1) loan late fees and interest due; (2) counseling no show charges (15.3% default rate); and (3) housing deposit forfeitures, cancellation charges and damage/key replacements. These are all categories for which we have less leverage to collect the outstanding debt, or in circumstances where we are already working with the student to pay the debt owed. These amounts are relatively insignificant when compared to the total of all revenue collected. The fees that have the largest receivable dollar amounts are resident tuition and three-peat enrollment charges. However, the bad debt rates on these fees as compared to the total revenue collected are very small. Apparently, our payment and hold policies are working as expected.</p>

## Past Due Collection Summary (As Submitted by Agencies)

**Agency**

**Comments**

If all tuition and fees are not paid in full by the specified deadline in the Schedule of Classes, a hold is placed and a 30 day overdue notice will be sent to the student.

- Any student, who has a financial obligation to UTSA, will have a HOLD placed on his/her record. Until the HOLD is removed with full payment of the obligation, such students are not allowed to register, obtain transcripts, receive grades or a diploma, obtain release of financial aid or scholarship checks or receive other services from the University.
- UTSA wishes to avoid incurring additional collection costs and invites students to make payment arrangements with the Business Manager's Office. Each student's situation is unique, so arrangement will vary, but we begin by asking the student to pay 50% of the balance with monthly payments throughout the next six months. We will accept less and in many cases set up future payments without any up-front payment; however, if for example, they want a transcript, they must pay the 50% down payment as a minimum.
- If the student is currently enrolled or has made recent payments, they are skipped from the collections process (which includes professional collections agencies, State Comptroller holds and submission to OGC for legal action).
- There are no fees for payment plans, but loan interest will continue to accrue.
- Our past-due letters encourage the students to call in to make payment arrangements or they will be placed for collections. Additionally, any students who call in to ask about their balance and state they cannot pay delinquent portions in full are referred to our Collections Specialist or the Business Manager.

If debt is not resolved after initial overdue letter is sent out, and the grace period has elapsed, the following will occur:

- Student account is sent to a contracted collection agency to attempt debt recovery. Reasonable collection costs are added to the current balance.
- If the collection agency is unsuccessful, the account is forwarded to the Office of General Counsel for legal action and reported to the State Comptroller to have a hold placed, not only with UTSA, but any state university. The student's account is also reported to a credit bureau.

UTSA is in the process of hiring an additional "Collections Specialist" to supplement the single position that we've had for the last several years. We intend to use this position for more timely follow-up and analysis of delinquent accounts. Through these efforts UTSA hopes to decrease annual write-offs by 10% (after factoring in increased assessments and rates).

750 University of Texas at Tyler

Student debts such as installments and emergency loans are sent to a collection agency once the following letters have been sent in an attempt to collect the debt: 1. Reminder letter of the debt prior to it being due. 2. Past due letter sent after the payment has been missed. 3. Collection letter sent saying the debtor has 30 days to make arrangements or the debt will be sent to a collection agency. Interest is accrued on emergency loans, but we will waive those fees to get the debt paid in full. A minimal late fee is charged on the two installment payments if they are missed. We allow a student with a past due debt to reenroll if they pay half of the old debt and make payment arrangements for the remaining balance. We also allow a student to reenroll if they have already been approved for financial aid for the upcoming semester and it is enough to cover the current tuition and fees and the past due debt.

506 University of Texas MD Anderson Cancer Center

Student accounts that remain unpaid have blocks placed on their records prior to the end of the academic term. Students with holds are not allowed to register until the account is cleared. Students who received financial Aid via loans are processed through the Loan Collections Department. The Due Dilligence process begins with notifications sent out 15 & 30 days after an account is delinquent. Accounts that remain delinquent after multiple letters and courtesy phone call are turned over to a commercial collection agency for minimum of 1 year. Accounts that remain delinquent and are returned from the collection agency and turned over to the Office of General Counsel for further collection attempts. Accounts that remain uncollected after OGC processing are submitted for writte off to either the ferderal agency or institutional director. The University of Texas M. D. Anderson Cancer Center remains in compliance with the federal standard of less than a 5 % default rate.

744 University of Texas Health Science Center at Houston	Student accounts that remain unpaid have blocks placed on their records prior to the end of the academic term. Students with holds are not allowed to register until the account is cleared. Students who received financial Aid via loans are processed through the Loan Collections Department. The Due Dilligence process begins with notifications sent out 15 & 30 days after an account is delinquent. Accounts that remain delinquent after multiple letters and courtesy phone call are turned over to a commercial collection agency for minimum of 1 year. Accounts that remain delinquent and are returned from the collection agency and turned over to the Office of General Counsel for further collection attempts. Accounts that remain uncollected after OGC processing are submitted for writte off to either the ferderal agency or institutional director. The UTHSC-Houston remains in compliance with the federal standard of less than a 5 % default rate.
745 University of Texas Health Science Center at San Antonio	Students are contacted monthly for past due balances. If the student has withdrawn, payment arrangements are made.
729 University of Texas Southwestern Medical Center at Dallas	UT Southwestern Medical Center makes every effort to work with students regarding the timely payment of tuition and fees. If a student is delinquent in paying, the Legal Department at UTSW is contacted and provided with the information. In addition, paperwork is submitted to place the student on warrant hold in the Comptroller's Warrant Hold system. Only 4 students was delinquent with past due payments at the end of FY 06 for a total of \$230.00.
723 University of Texas Medical Branch	During Fiscal Year 2006 approximately less than 3% of all tuition and fees was not collected. The majority of this amount is from outstanding tuition. Warrant holds and registration holds are placed on student accounts with outstanding balances from previous semesters. Students are charged a late payment fee and expected to pay outstanding balances before registering upcoming semesters or requesting transcripts. Warrant holds are also placed with the Comptroller's Office. Transcripts are withheld from the students until balance is paid. Student outstanding balance maintained in Student Information System until amount is paid.
736 University of Texas Pan American	Collection Efforts: Accounts are considered delinquent at 90 days old. Students with balances are mailed two statements each semester. Delinquent accounts are submitted to the Texas Identification Number System (TINS) maintained by the Office of the State Comptroller for establishment of a warrant hold pursuant to TEX. GOV'T CODE ANN. §403.055 (Vernon Supp. 2003). The university's threshold for submission to TINS is currently \$250. The university may lower the TINS submission threshold in the future to further increase collections. Write-Off Policy: The university writes all student receivables which are over five (5) years old off of the financial records. This is a book entry which affects the receivable control accounts only. These debts are still maintained in the student receivables system and are not actually forgiven. As of August 31, 2007, a total of \$291,456 of student debt has been written off in this manner.
739 Texas Tech University Health Sciences Center	Debt Prevention: A signed Student Payment Agreement/Master Promissory Note is obtained from each enrolled student. Students who fail to make required tuition and fee payments by the 20th class day (15th class day for summer terms) are cancelled from their enrollment for the current term. Debt Collection: Students who fail to make full payment of tuition and fees are placed on hold by the institution to prevent the student from future registrations and obtaining official transcripts. Institution contracts with an external collection agency for collection efforts after the student exits the institution. Aged receivables are reviewed after each term and at the end of each fiscal year to adjust collection procedures as needed.

**Past Due Collection Summary**  
(As Submitted by Agencies)

Agency	Comments
753 Sam Houston State University	The majority of our uncollected accounts consist of emergency tuition and fee loans (ETFL), second and third installment payments and parking fines. Interest accrues on the ETFLs, and short-term loans, but the late fees for tuition & fees, housing & dining, etc., are assessed only once and do not increase based on the delinquency of the account. When an account is over 90 days past due, and therefore the student is not enrolled, we accept partial payments and will put an account into a "repayment" status as long as the student is making regular payments. While in this status, we do not report the account to the credit bureau. In order to increase collections, we have contracted with an outside collection agency and hope to have this system fully implemented during 2007. Currently, delinquent accounts are reported electronically to a nation-wide credit bureau and reported by FTP to the comptroller's office for warrant hold. We do not write individual accounts off as uncollectible on our subsidiary ledger (student receipt system), but receivables are adjusted for bad debt on the general ledger and the AFR based on historical collections information. The most effective means of collecting at this time is holding transcripts and blocking registration. Our collections have also increased since we began taking credit card payments.
754 Texas State University - San Marcos	Payment of 50% of mandatory fees is required prior to the beginning of each semester and the remaining 50% of the fees due may be placed on an installment plan. Collection efforts include placement of holds on delinquent accounts, barring registration for subsequent semesters and barring receipt of official transcripts. Holds are placed with the state comptroller also. Delinquent accounts are worked in house for 90 - 120 days after the end of each semester and efforts include letters, phone calls and skip trace efforts and credit bureau reporting. Uncollected accounts are referred to a commercial collection agency.
714 University of Texas at Arlington	The University of Texas at Arlington utilizes the following methods to collect the fees, fines, and penalties that are more than ninety days past due: (1) Transcript holds are placed on all past due account; (2) Various delinquent notices are mailed to students; (3) Monthly account billing occurs, with assessment of Delinquent Accounts Receivable Fee; (4) Students who owe prior session debt, regardless of the age of the debt, are required to pay all past due amounts, plus the minimum required current semester payment to prevent withdraw for non-payment in subsequent sections. Write-off occurs when a student is no longer enrolled, and any portion of the student's account is past due 90 days. Upon write-off, transcript and enrollment holds are placed on student accounts, and they are submitted to a collection agency, with collection fee assessment. Each collection agency maintains the account for one year, credit bureau reporting, and returns the account to the University after one year of no activity. The University continues submitting the student's account to a total of six agencies, until the debt is collected. Debt in excess of \$250, not collected by collection agencies, is forwarded to the Office of General Counsel for litigation.
721 University of Texas at Austin	Tuition & Fee Collection Procedures: Students who have unpaid tuition bills at the time of designated payment due dates have their registration cancelled. Therefore, all enrolled students must pay their original tuition registration bill or one-half of the bill amount if the student selects the installment payment plan. Students who have unpaid add bills or installment bills have a "financial bar" placed on their account. This prohibits them from registering for the next semester, receiving grades or transcripts until the balance is paid in full. At the end of each semester, students with past due tuition and fee balances are contacted, and informed that the balance will be reported as delinquent to a credit bureau. Students are given the opportunity to sign a payment agreement, which, if maintained, will prevent the negative credit report but will not remove the financial bar.
742 University of Texas of the Permian Basin	The registrar's office contact students who have an outstanding balance for registration fees. A statement will be mailed to these students indicating the date that the payment is due. If the student does not pay the outstanding balance by the due date, the registrar's office will drop the student from his/her current classes and will not receive credit for them.

**Past Due Collection Summary**  
(As Submitted by Agencies)

Agency	Comments
747 University of Texas at Brownsville	<p>Ongoing efforts are conducted to collect past due balances from all students, whether they have a delinquent payment plan in effect or simply have a balance due to the University for registration activities conducted after first class day. These efforts include making periodic telephone calls each month and mailing out notices which reflect the amount outstanding. It is the University's policy is to put a "Hold" on the student's account so that future registration or financial transactions initiated by the student will be blocked and they will be required to contact the Business Office to work out payment arrangements before this "Hold" can be lifted.</p> <p>Although many students have unique financial problems, the following are some general options we provide to the student when they visit the Business Office to make payment arrangements for their outstanding balances: 1. Monthly payment schedules are set up according to the financial obligation the student's budget can support, but the goal is to payoff the balance before the end of the current semester; 2. Late payment fees are negotiated and forgiven if the debt is various years old and the fees constitute a large amount of the debt; and 3. The student is encouraged to apply for Financial Aid as a form of future resources.</p> <p>In addition to these arrangements, the Business Office has created a new Student Financial Services area within the department. This area will design and implement a new financial counseling program for students and their parents in the areas of alternative financing and debt management. We believe that this new counseling service will greatly aid in the collection of outstanding, delinquent accounts.</p>
711 Texas A&M University - College Station	<p>Students are blocked from registration and transcripts and are assessed late payment penalties when charges on their account are not paid by the due date. Students who withdraw from the university are sent a letter informing them of any remaining balance after all adjustments have been made. Within one semester, letters are sent to students who are no longer enrolled and still have a balance on their account. When the student has not been enrolled at the university for one full semester, the account is placed with our Student Debt Management office for debt recovery efforts which include: 1. Monthly billing statements; 2. Skip tracing; 3. Collection letters; 4. Phone calls; 5. Credit bureau reporting; 6. Monthly repayment agreements; and 7. Placement with one or more external collection agencies for debt recovery.</p> <p>In addition to these standard processes for all students, we also have debt recovery efforts for graduating students that begin during their last enrolled term. These include: 1. Notifications by email; 2. Certified letter; 3. Phone calls; 4. Contacts by their departments; and 5. Withholding diplomas for those who fail to respond.</p>
715 Prairie View A&M University	<p>Accounts that are unpaid are turned over to collection agencies that the University has contracts with to assist with collection efforts. Accounts are not turned over to the collection agencies until after the end of the registration period for the following term as payment of prior balances or a repayment agreement is requirement for future enrollment at the University. All accounts with balances at the end of the semester are placed on state hold. An allowance for doubtful accounts is set up for 100% of the receivables that are over one year past due as of 8-31-06 and 80% of the receivables less than one past due as of 8-31-06. Receivables are written off if the receivable is 2 years or older past due as of 8-31-06. Transcripts are not released until outstanding balance is paid in full.</p>
718 Texas A&M University - Galveston	<p>During fiscal year 2006 only approximately .37% of all fees, fines, and/or penalties assessed were not collected. The majority of this is in the form of State and Local Tuition. Every effort is made to collect all tuition and fees on a timely basis. Student Business Services staff make initial efforts to contact students via telephone and email. If this approach does not work SBS representatives will contact student in person in an effort to resolve the non-payment issue. In those situations where more direct intervention is needed TAMUG has contracted with a collection agency to collect outstanding debt. This is a new function for SBS which has not yet been fully implemented, at present with the assistance of TAMU SBO staff TAMUG is working to learn how best to make use of this outside service. In 2005 unpaid balances were .67% which is an indicator that SBS efforts are working at the present time.</p>

## Past Due Collection Summary (As Submitted by Agencies)

Agency	Comments
713 Tarleton State University	<p>During fiscal year 2006, approximately 99.7% of all fees assessed were collected. While this represents a fairly high collection rate, the remaining .3% remains a substantial sum of money. We perform the following actions each year in order to collect fee balances owed: Four student billings are mailed out during each semester. After the due date for fees has passed, students' accounts are blocked. This effectively eliminates the students' ability to register for future courses or obtain transcripts of their past course work. Students are reinstated in good standing after receipt of the past due balances. Past due collection letters are mailed approximately 30 days after the end of each semester. These letters offer a chance to set up payment arrangements. We work with students to allow them to continue to attend school as long as a formal payment plan is agreed to. Accounts 90 to 120 days past due are turned over to an external collection company, Todd, Bremer, and Lawson, Inc.. The company collects both the original fees and their own collection costs.</p>
	<p>During fiscal year 2006, approximately .0033 percent of tuition and fees were not collected because of the following:</p> <ul style="list-style-type: none"> <li>A. Students withdrawing at a prorated rate without completely paying their balance due</li> <li>B. Students on financial aid not remaining enrolled or not attending classes past the 60% point of the semester(s), thus owing tuition and fees</li> <li>C. Students on a deferred payment plan, not meeting the last payment due at the end of the semester</li> </ul>
732 Texas A&M University - Kingsville	<p>The university requires placement of registration and transcript hold on the students' account as soon as an expense becomes past due. The past due student accounts are then administered by the university's internal collection department utilizing the following procedures.</p> <ol style="list-style-type: none"> <li>1. The collection department sends out monthly statements (paper and email) to the students; followed up with telephone calls. Once contact is established with the student(s), counseling and payment arrangements are made to assist the student in paying off their debt. If no response is received from the student within a six month period, a letter is mailed to the student informing him/her that the account will be referred to our contracted collection agency. The letter provides information as to the consequences and costs that will be incurred after the referral to the collection agency. Language is included to persuade the student to make payments prior to the referral.</li> <li>2. Accounts are referred to the collection agency at least once a year. On the average, 50 accounts are referred to the collection agency each year. The collection agency collects approximately 33% of all the referred accounts. The collection agency works very closely with the university when collecting these student accounts.</li> <li>3. The university re-calls the accounts that have been at the collection agency for a year without any activity. The university collection department renews their collection efforts for an additional six months.</li> </ol> <p>The timeline for the administration of past due student accounts covers a period of two years (6 months internal, 12 months at collection agency, 6 months interaal). After this period, delinquent student accounts are submitted to the Claims Division at the State Comptroller's Office using TINS (Taxpayer Identification Number) for identification purpose. It is at this point that the student accounts are written off. The accounts reported to the Claims Division at the State Comptroller's Office are placed on State Hold. Accounts on State Hold are reviewed by every state agency each time a state refund/voucher/award is issued to the student. The state agencies notify each other whenever a state refund is about to be issued to student accounts on State Hold. In fiscal year 2006, four student accounts reported on State Hold were paid.</p>
760 Texas A&M University - Corpus Christi	<p>Once the due date has past, letters are sent to all students who have an outstanding balance and their accounts are placed on hold with the university. If the balance is less than one hundred \$100 the students transcripts are place on hold. If the balance is greater than one hundred dollars then the student is unable to register for another term plus their transcripts will not be released. After the census date for the next semester all outstanding balances from the prior term are placed on hold with the State of Texas if their balance is greater than five dollars. Letters are generated and mailed to the student to inform them of this new action. Forty-five to sixty days after state holds have been placed on the outstanding accounts those that are \$150 or more are sent to a third party collection agency. Letters are generated and mailed to the student to inform them that their account has been sent to a collection agency. For accounts that are smaller than \$150, past due billing statements are sent to them.</p>

## Past Due Collection Summary

(As Submitted by Agencies)

Agency	Comments
	Currently less than 5% of total fees, fines and penalties for a term are sent to a collection agency. If a third party collection agency is unable to collect a debt that the university has turned over to them the account is proposed for write off unless the amount is greater than \$4,999.99. Those accounts that are greater than \$4999.99, they are sent to the Attorney Generals Office for permission to write off. The students account will still remain on hold with the university and the state until the debt is paid in full. Write off from FY 1997 through FY 2006 are \$489,779.70.
761 Texas A&M International University	Texas A&M International University has an internal collections process established. Loans are provided to students each semester for payment of tuition, fees and books. Students are invoiced up to three times per semester, depending on the type of loan. Subject invoice provides the current balance owed as well as when payment is due. If loans are in default a demand letter is sent to the student seeking payment within 60 days. If loans are not repaid after 60 day period, they are referred to a collection agency.
757 West Texas A&M University	Email messages are sent to students after the end of the semester notifying them that restrictions have been placed on their account so that they cannot register or receive a transcript. Ninety (90) days after the close of the semester, letters are sent to students informing them that we preparing their accounts to be sent for collection and we are giving them six weeks to make payment arrangements. Within two months of notification, the student accounts are turned over to the Credit Bureau of the High Plains for collection (first placement). When the CBHP determines the account uncollectible based on their collection efforts, the account is rotated to National Credit Management (second placement).
751 Texas A&M University - Commerce	Late loan payment fees and late installment payment fees have historically reflected lower collection rates. The current collection rate for these fees is approxiamtely 80%. The collection rate is lower than that of the other fees due to the fact that these fees, by definition, are assessed to students who are already in default. The University's current collection procedures allow past due accounts to be assigned to a collection agency once they become 120 days past due. The collection agency pursues the accounts for a period of 12 months. After 12 months, the accounts are returned to the University where they are subsequently assigned to another agency. This process does not appear to have a significant impact on overall collections. Delinquent accounts are written off when they become one year past due. Collection efforts continue, but the affected amounts are removed from active receivables and moved to bad debt.
764 Texas A&M University - Texarkana	The university sends statements for uncollected tuition and fees as well as calls students. The students are blocked in the Student Information System. The block prevents students from enrolling again, using the library, or getting transcripts.
752 University of North Texas	Students who fail to make full payment of fees, fines and penalties by the end of a semester are blocked from obtaining official transcripts and are required to submit the outstanding payment with the initial amount owed in future semesters in which they enroll. Additional internal collection efforts to collect unpaid fees, fines and penalties begin at the end of each semester and include phone calls and written correspondence. The individuals are counseled by trained employees who analyze their situations and often have the option of arranging a payment agreement. The individuals must complete monthly payments until the outstanding amounts are cleared. Individuals completing the payments on-time are not assessed additional delinquent payment fees. Some unpaid fees, fines and penalties are assigned to external collection agencies if internal collection efforts are not successful. Aged receivables are reviewed annually to analyze collection results and to adjust procedures as needed. Uncollected amounts are not removed from student accounts. Collection efforts continue until the outstanding amounts are repaid.

## Past Due Collection Summary (As Submitted by Agencies)

Agency	Comments
756 Sul Ross State University	<p>Sul Ross State University employs the following steps to collect fees, fines and penalties that are more than ninety days past due: 1. We place registration and transcript holds on students accounts the first day the account becomes delinquent. We send the student an email notifying them of the past due balance and the resulting holds. 2. Many accounts are collecting during the registration process the next semester. After late registration in the following semester, we begin our formal in-house collections process. 3. The first step of in-house collections is a series of 2 letters sent to the student permanent address. 4. The next step is a certified letter sent to the student permanent address and/or a phone call to the student permanent address. 5. In cases where in-house measures have failed, the student is submitted to an external collection agency. 6. After 4 years with the collection agency, accounts with little or no activity are recalled and written off as uncollectible.</p> <p>Sul Ross State University employs the following steps to collect fees, fines and penalties for students who withdraw each semester: 1. We send a certified letter within 2 weeks of the student's withdrawal, with instructions about amounts due and who to contact for payment arrangements. 2. We place registration and transcript holds on withdrawn students who owe a balance. 3. Students who have not paid or entered into a repayment agreement within 3 months are sent to our external collection agency. 4. After 4 years with the collection agency, accounts with little or no activity are recalled and written off as uncollectible.</p>
733 Texas Tech University	<p>Debt Prevention: A signed Student Payment Agreement is obtained from each enrolled student on payment option plan or emergency enrollment loan. Students who fail to make required tuition and fee payments by the 20th class day (15th class day for summer terms) are cancelled from their enrollment for the current term.</p> <p>Debt Collection: Students who fail to make full payment of tuition and fees are placed on hold by the institution to prevent the student from future registrations and obtaining official transcripts. Institution contracts with an external collection agency for collection efforts after the student exits the institution. Aged receivables are reviewed after each term and at the end of each fiscal year to adjust collection procedures as needed.</p>
734 Lamar University - Beaumont	<p>Delinquent obligations to the University will be sent to a collection agency and reported to credit bureaus. All costs of collections are paid by the student which is generally 33.333 % of the student's obligation to the University. Delinquent accounts must be paid at the collection agency. Payments cannot be accepted by Lamar University if the account is forwarded to a collection agency. Students who are delinquent on obligations will be prohibited from registering for a class until all obligations are paid in full. Also holds are placed on academic records so that students cannot obtain transcripts.</p>
787 Lamar State College - Orange	<p>Business Office, Financial Aid and Registrar Office place holds on student files. Returned checks are collected by an outside agency. If we have delinquent student receivables they are turned over to collection agencies for collection. Any payment arrangements are accepted. Students are given extensions to pay by signing an extended agreement. Students are called to attempt final collection before accounts are turned over to the collection agency.</p>
788 Lamar State College - Port Arthur	<p>During the Fall semester of fiscal year 2006, the Port Arthur area was vastly impacted by Hurricane Rita. The college waived late payment fees that semester to encourage students to stay in class and make payment arrangements. Special cases were handled one on one. Despite the hardship of Hurricane Rita, only 1.96% of all fees were uncollected. In effort to collect receivables, the college always offers to make payment arrangements with the student. We have found that a student who is having difficulty meeting the due date may chose to make no payment and drop out of school. Once a student contacts our office, we will counsel one on one with them in order to keep them in school and to design a payment plan.</p> <p>Once a student contacts our office: We will counsel one on one with them in order to keep them in school and to design a payment plan. The student must contact the college prior to the due date in order for the college to consider waiving the late fee. No transcript shall be issued to a student who owes the college any amount of money. We inform the student that we regularly monitor collections to ensure students are making progress else the accounts are turned over to the credit bureau. The great incentive for the student is to finally receive their transcript. We have found nearly 100% of the students we make payment arrangements with eventually do pay their entire balance in order to receive their transcript.</p>

## Past Due Collection Summary

(As Submitted by Agencies)

Agency	Comments
709 Texas A&M University System Health Science Center	The HSC has a contractual agreement with a collection agency, and with the onset of a student system equipped to better monitor outstanding debt will be better tooled for reporting to a collection agency those students needing additional collection attention.
71B Texas State Technical College - Harlingen	During fiscal year 2006 fees, fines, or penalties assessed and were not collected are the majority in penalties that require the person being fined to either make payment at a central location or mail in their payment such as our "Onsite Failure to Comply" fines. What we have found is that when individuals can not make full payments, they will choose to make no payment at all. The addition of late fees compounds the burden on the individual and their willingness to make no payment at all. In an effort to increase our collection rate we have done the following: 1. The fine, fee, or penalty is greater than \$500, but less than \$1,000; and 2. The individual can make an initial payment of 50% of the total fine; and make payment arrangements to pay entire balance prior to next semester attendance 3. The payment plan can not exceed 4 months, anything after such time is sent to our collection agency. We are mailing out statements to students in efforts to make them aware of monies owed to the school. Statements are sent for Installment Plans and Emergency Loans before and after due dates. We also verbally advise individuals / students of their payment options, as well as providing a printed sheet with the same options at the time in which the fee, fine, or penalty is assessed. We believe that these new payment options will help increase our collection rate from 80% in fiscal year 2006 to 90% in fiscal year 2007. We will regularly monitor our collection rate to make any necessary adjustments to our collection plan.
71C Texas State Technical College - West Texas	At the beginning of fiscal year 2005 a new contract was awarded for a Collection Agency. We have been through the first full year and have seen good results from the agency. We currently are mailing two statements per term to students and then a collection letter 30 days after the end of the term giving the student 30 days to pay and then a final notice giving them 10 days before the balance is then turned over to the collection agency for collections. We notify students verbally at the time of setting up payment plans or giving student Emergency Tuition loans and information is stated in the promissory note of what will happen if students do not meet their obligations.
71E Texas State Technical College - Marshall	We send monthly bills to individuals who owe a balance. When an amount owed is more than 90 days old, we use a three-step collection process. The first step is to send a past due letter notifying the individual that their account is past due and requesting that the individual either pay their balance in full or contact us to make payment arrangements. If we do not get a response to the first letter, we send a second letter notifying the individual that their account is seriously past due and is being reviewed for collection and requesting the individual to contact us. If we still have not received a response to the second letter, we send a third letter (return receipt requested) notifying the individual that if they do not contact us within seven days they will be turned over to a collection agency for collection of their account.
717 Texas Southern University	Bills are mailed each month to the students and the bill is accessible to the student on the internet at all times. After six months, the bill is sent to a collection agency.
730 University of Houston	Approximately 30 days after a semester is completed and the student is no longer enrolled the student is sent a letter stating the amount owed and telling them they have 30 days to pay the account in full or make arrangements to setup a payment plan. If paid this ends the collection effort; if not paid as a result of this letter, then A second, stronger letter is mailed to the student stating that we have not received the payment and he now has 30 days to pay or a collection fee of 25% will be added to the total owed. If the student pays that ends the collection effort; if the student does not pay, then a 3rd letter is sent telling the student that the 25% collection fee has now been added to his/her account and instructing them to contact the collection department as soon as possible. The account is then sent to the collection department for processing. The Collection department attempts to contact the student through emails, letters, and phone calls. All attempts are documented. There should be at least two phone attempts and 3 written communication attempts. Approximately 180 days without any resulting payment and the account will be turned over to an outside collection agency contracted with the university for this purpose.

## Past Due Collection Summary

(As Submitted by Agencies)

Agency	Comments
759 University of Houston - Clear Lake	<p>The university attempts to collect tuition and fees within state guidelines. Once a student becomes past due they are placed on a stop roster. This stops prevents the student from receiving additional services until they work out repayment arrangements. Outside collection agencies may be used if necessary.</p>
765 University of Houston - Victoria	<p>During FY06, student receivables which were less than 90 days past due were managed in-house by Bursar Office Staff. UHV is a relatively small university with a total student population of 2,500 students. Written notices served as the primary means of contact with students regarding outstanding obligations. Students were mailed three written notices throughout a 90 day duration. The first two notices reminded students of the past due obligation and requested payment of the debt. If the student failed to take any action within 30 days of receiving the first notice, a second notice was generated and mailed to the student. Again, if no action was taken within 30 days of receiving the second notice, a third (final) notice was generated and mailed to the student. The final notice advised students 1) of available payment options 2) their account would be transferred to an outside collection agency, Windham Professionals, should they fail to take required action stated in final notice letter 3) additional collection fees would be assessed if their account was transferred to collections 4) the delinquent balance would be reported to the credit bureau and the State of Texas at the time of collection assignment. However, before any student account was submitted to collections UHV attempted a final courtesy call to students encouraging them to take required action to prevent collection assignment. If there was no response to UHV internal collection efforts, individual student files were processed and forwarded to collections. Typically the collection agency works each assigned account for a period of one year. After a one year period, accounts with no payment activity are returned to UHV. Accounts returned to UHV remain reported to the credit bureau and the State of Texas. Additionally, a financial stop preventing future registration at any UH campus remains on the student's account. Upon payment in full, all the above mentioned stops and holds are cleared and the student is allowed to register with the UHS System.</p>
784 University of Houston - Downtown	<p>UH-D has instituted a comprehensive plan to try to collect overdue tuition and fees from students. Students with outstanding balances are not able to register for the following semester, nor are they allowed to obtain transcripts that give them credit for the classes taken. Normally, this process catches a majority of the students with past due accounts because they pay before registering for the upcoming semester.</p> <p>Additionally, UHD has hired a collections accountant that is specifically charged to not only make collections efforts, but also assist students in finding ways to pay their debt (financial aid) Finally, UH-D has contracted with a new collections agency to more effectively collect on those overdue accounts that cannot be collected from in-house methods.</p>
704B Alvin Community College	<p>The Business Office and the Registrar's office places a hold on the students file so that the student will not receive any new services from the college until the student bill is paid. Returned checks are collected by an outside agency that has up to three opportunities to draft the students account if the check is returned NSF. When the check is originally accepted by the college it is stamped with a statement giving the collection agency the right to draft the account if the check is returned for insufficient funds. Accounts that the college is unable to collect due to the account being closed or other various reasons are turned over to Green Flag Collection agency which mails out approximately 5 mailings over a 2 month period trying to collect the unpaid account. This is the extent of the collection process. The college currently does not proceed further with more strenuous collection efforts.</p>
704C Amarillo College	<p>Student is sent a letter once their account appears to have a balance. After this balance is over 30 days old, a second letter is sent. This would make the balance now 60 days past due. After that a third letter, now 90 days past due, is sent informing the student that we will have to turn their account over to a collection agency if their balance is not paid in full. Once it is over 91 days past due, a list of students names are given to the collection agency for collecting. The collection agency attempts to collect and they will set the student up with some type of payment plan. We do not charge students for overdue charges on their accounts except for those that have signed up for the payment plan. These students are notified at the time they sign their promissory note that a late fee will be assessed if payment is not received by the posted due dates on the promissory note. Students are given ample time to pay off their account before they are sent to a collection agency.</p>

## Past Due Collection Summary (As Submitted by Agencies)

Agency	Comments
704E Austin Community College	During FY2006 approximately 0.005% (5 tenths of one percent) of the fees assessed were uncollected by at year end. Therefore, ACC has a very good initial collection rate. ACC takes additional steps to try and collect all outstanding receivables. These steps include: 1. Placing registration holds on student records in order to collect past dues if the student tries to register at a future date. This is very effective and leads to collection of a large portion of the delinquents within one year. 2. If the registration hold does not lead to collection, usually meaning the student did not return the following semester, then their account is turned over to a collection agency. It will remain with agency until collected. Basically, the results of these two steps will allow the college to collect more than half of the past due accounts lowering the uncollected rate from the initial 0.005% to less than 0.002% (2 tenths of one percent). The college does assess late penalties and returned check fees. These revenues more than offset the remaining 0.002% of uncollectible.
704G Brazosport College	The college allows students to sign a Promissory Note for Fall and Spring semesters: 1. The student must pay 50% of the total tuition and fees plus a \$20.00 non-refundable payment fee before the first day of class of the semester on the first installment. 2. The student must pay 25% of the total tuition and fees before the sixth class week begins on the second installment. 3. The student must pay the final 25% of the total tuition and fees before the eleventh class week begins on the third installment. 4. If the student pays after the due date on the second or third installment, the college will assess a \$25.00 late fee on each late payment. Any unpaid balance on the note after the third installment due date will be turned over to a collection agency. The student will also be responsible for the collection costs. 5. By Texas law, "A Student who fails to make a full payment of tuition and fees, including any incidental fees, by the due date may be prohibited from registering for classes until full payment is made. A student who fails to make payment prior to the end of the semester may be denied credit for the work done that semester (HB2747). 6. The college will prohibit release of an official transcript of all credits earned until full payment of all amounts due and payable under the agreement.
704I Cisco Junior College	The College has two main methods to collect unpaid balances. The first is to send statements to the students explaining the consequences of not paying. The second is to not allow the student to register for future semesters until the balance is either paid or arrangements have been made with the business office for payment. Old balances are written off in the audit report, but are not written off in the student billing system.
704M Collin County Community College	Business Office and Registrar Office places holds on student files. Return checks are collected by Justice of the Peace Court.
704N Dallas County Community College District	In 2006, Dallas County Community College District (District) collected approximately 94.9% of its student receivables. Historically, the District has sent letters to those with past-due accounts and blocked students from further registration and/or obtaining transcripts and other records. To further enhance its collection efforts, the District has contracted with collection agencies to pursue collection of receivables that are at least 90 days past due.
704P El Paso Community College	We are currently utilizing the services of two collection agencies in an attempt to collect on outstanding balances.
704Q Frank Phillips College	The Business Office and the Registrar Office place holds on student files. Demand letters are sent to students as a means to collect on past due amounts. If not successful, the delinquent student account is filed with the County Court as a small claim.
704R Galveston College	Transcript fee changed from \$3 to \$5 for FY 2005-06; but was discontinued in January 2006. Telecheck services implemented in FY 2005-06. Therefore, only 1 returned check fee was collected. During fiscal year 2005 - 2006, outstanding institutional loans for tuition and fees totaling \$142,247 or 11% of total tuition and fees assessed were not collected. We are currently mailing monthly billing statements to students with outstanding tuition and fee installment loans. Late fees are also assessed when students make payment on outstanding balances. During fiscal year 2005 - 2006, the college's \$25 registration fee is non-refundable. Therefore, \$12,256 or 8% of the total assessed registration fees were not collected. Monthly billing statements are sent to students with outstanding balances reflective of the non-refundable \$25 registration fee.

## Past Due Collection Summary

(As Submitted by Agencies)

Agency	Comments
704V Howard College	<p>During fiscal year 2006, approximately 3.3% of all fees, fines and penalties assessed were not collected. The majority of unpaid fees were due from students who dropped out of school during the semester and did not return the subsequent semester. Students were assessed late payment fees of twenty-five dollars for a maximum of two installment payments due per semester.</p> <p>The school makes every effort to retain students; however, a student who has a past due account is not allowed to register or receive transcripts until the balance is paid in full. After the account becomes past due, the school works with the student to resolve the balance and avoid being referred to our collection agency. The school will allow students to make payment arrangements to clear past due balance. As long as the school is in agreement with the student's proposed plan to clear the balance and the student upholds his promise to pay, the school will not refer the student's account to the collection agency. Students who fail to make any attempt to pay past due balances are notified shortly after the start of the semester following the semester in which the student failed to meet his/her financial obligation to the school. Written notice is sent by mail, notifying the student of the school's intent to refer the account to its collection agency; a period of 10 to 15 days is given for the student to respond.</p>
704W Kilgore College	<p>Holds are placed on student accounts, restricting registration or release of transcript until balance is paid in full. Accounts over 9 months past due are placed with a collection agency.</p>
704X Laredo Community College	<p>During fiscal year 2006, approximately 15% of the student payment plans were delinquent. As a standard procedure, each student account incurs a \$10.00 late fee after the designated due date. After the final payment deadline, all delinquent accounts will reflect a registration and transcript hold. Prior to referring delinquent accounts to an external collection agency, notification letters were mailed out to students. They were granted approximately thirty days to make payment or payment arrangements and avoid collection fees. There was little response to the notification letters. We determined that the students were paying delinquent accounts if they needed to enroll or request an official transcript. In fiscal year 2007, we will be sending out notification letters after the last payment deadline and allowing students a period of two months prior to referring the accounts to the external collection agency.</p>
704Z McLennan County Junior College District	<p>Business Office and Registrar Office holds are placed on student files. On return checks they are collected by an outside agency. If we have delinquent student receivables they are turned over to collection agencies for collection.</p>
704AA Midland College	<p>During fiscal year 2006 less than 1% of all fees assessed were not collected. Individuals associated with the unpaid fees are contacted in writing and if they do not pay they are prevented from registering again and they are also unable to obtain their transcript. These procedures will clear those individuals that wish to continue their education. Those that do not respond are referred to an outside collection agency. Beginning with the Spring semester 2007 we will initiate a new online payment plan system that will require either a bank account or a credit card for the payments. Others schools using this system have shown much better collection rates for their payment plans.</p>
704AE Northeast Texas Community College	<p>We estimate that our uncollectible percentage is running approximately 2% net per year. Student's that do not pay their balances are have their records placed on hold. They cannot transact any business with the college until their accounts are brought up to date. For installment agreements, we have outsourced our installment plan to a company named FACTS. This has greatly increased our collections on installments.</p>
704AG Panola College	<p>After the fiscal 2004-2005 audit, we realized that we needed to be more aggressive with our collections process. We are in the process of sending out letters on all existing balances. Included in the letter is the option to set up a payment plan (a handful of students have taken advantage of this option) or to make payment in full either by mail or by telephone. At this point, we have not added any type of late fees or penalties to the accounts. After this process has been completed, we will begin turning accounts over to a collection agency. During the last year, we have had all of our paperwork, handbooks, schedules and written policies revised to include a clause stating that any collection fees will be the responsibility of the student. We hope to begin turning students over to the collection agency after the first of the calendar year.</p>

## Past Due Collection Summary

(As Submitted by Agencies)

Agency	Comments
704AH Paris Junior College	During fiscal year 2006 less than 1% of all fees, fines, or penalties assessed were not collected. While that is a high rate of collection, we will continue to work those accounts that are past due. Our efforts include: Mailing out reminder notices of the amounts still outstanding. Placing a block on the accounts of students with outstanding balances so they are not able to reenroll until payment is made in full.
704AJ San Jacinto College District	For the fiscal year 2006 San Jacinto College experienced an assessed but not collected rate of approximately 3.6%. The College efforts to minimize delinquencies and collect accounts receivables include; 1. Emails and Telemarketer calls to students 10 days prior to the payment deadline for the Fall and Spring Semesters. 2. Emails to students one week prior to the Installment Payment Deadlines. 3. Delinquent Notices sent to students; a. After 30 days past due, b. After 60 days past due, and c. When a debt is at least 120 days past due the debt is submitted to the College's collection agency. 4. The Director of Accounting and Financial Services or the Comptroller reviews any appeals by students regarding delinquencies.
704AM Southwest Texas Junior College	Business Office and Registrar Office holds are placed on student files. On return checks they are collected by an outside agency. If we have delinquent student receivables they are turned over to collection agencies for follow up. Payment plans are optional for all students with a default rate of approximately 2%. An outside entity is currently handling all payment plans, thus the redirection of the tuition installment plan fees. Students can enroll in a tuition installment plan via the web or in person. Workforce Education Tuition varies based on costs of providing each course with the base amount being zero. Auxiliary revenue is not derived from fees, rather, sales from business type activities. Students are not required to use auxiliary services. Tuition rates were changed prior to Summer classes, however the bulk of tuition and fees are attributable to Fall and Spring at the listed rates.
704AO Temple College District	The Student Accounting Office and the Financial Aid Office put holds on student files. Return checks and short term institutional loans are turned over to outside collection agencies. Temple College now uses an outside agency to manage the installment plans and the collection rate has improved.
704AU Victoria College	The Victoria College places a hold on all late installment plan students. They are given one long semester to pay the installment loan due. Those who have not paid after one long semester are turned over to a collection agency for collection procedures. All returned checks are given 10 days to repay the check, plus fees. Those who have not paid by 10 days are turned over to the Victoria County Criminal District Attorney for collection and prosecution.
704AX Wharton County Junior College	Wharton County Junior College turns uncollected accounts over to a third party agency before the end of each semester. We are currently collecting approximately 42% of bad debts.
704AL South Texas College	During fiscal year 2006 approximately 3.2% of all revenues and fees were not collected. The non-payment of revenue and fees were composed of students defaulting in one or a combination of STC's Emergency Loan, Installment Plan and/or reversal of Financial Aid. Currently STC practices internal collections and use the following tactics: Mailed Statements; Courtesy calls to notify students a balance is coming due; Past due phone notification once an account is in default; Collection calls; After STC has worked on a past due account for an average of 3 months it is then transferred over to a third party collection agency; Once an account is at a third party collection agency the student's balance is turned over to the credit bureau within a month to reflect the student's credit worthiness; and Students with delinquent accounts will be denied registration and have holds placed on their records until payment is rendered.
704AI Ranger College	Official records are not released until all fees are paid. Periodic statements are sent to all students.

**Past Due Collection Summary**  
(As Submitted by Agencies)

Agency	Comments
704L College of the Mainland	College of the Mainland is currently in the process of sending all student receivables greater than ninety days past due to a collection agency. In an effort to collect any fees, fines, and penalties, we place holds on all student records with outstanding balances, which in turn, prevents them from being able to request a transcript. During the past year, we have also implemented a payment system with FACTS that enables students to pay in full on-line, or set up a payment plan that will cater to their financial situation. It is our hope that this will decrease the amount of student receivables in the future.
704K Coastal Bend College	Anyone with a balance due the college has a hold placed on their records and cannot receive a transcript of work completed or register for additional coursework until the amount due is paid.
704Y Lee College	We do not experience difficulty collecting tuition and fees because all tuition and fees must be paid upon registration.
555 Texas Cooperative Extension	All payments are due within thirty days of invoice date. Past-due accounts are reviewed on an annual basis to determine if they continue to be collectible. Any accounts deemed to be uncollectible by a unit are submitted to the Ag Program Cash Management Office for approval to write these accounts off as uncollectible. Once an account has been written off, no further credit should be issued to this customer.
556 Texas Agricultural Experiment Station	Fees are collected at the time of service.
557 Texas Veterinary Medical Diagnostic Laboratory	Past due notifications are sent at 31, 61, and 91 days past due with current copies of statement. Clients receiving a third past due notification are called to assess when payment may be expected and a payment plan is set up if necessary. Clients are given the option to set up a payment plan with each notification. Accounts that are past due are blocked and further credit is not extended. Each payment plan follows guidelines that payments must be monthly and on time. If the client is needing diagnostic testing done while on a payment plan, payment of double what the requested testing cost must accompany the sample. The extra amount is applied to the past due balance. Once a payment plan has been established, assessment of finance charges is suspended.
576 Texas Forest Service	During fiscal year 2006, only 0.85% of all fees, fines, or penalties assessed were not collected. The uncollected amounts at year end are all from state agencies, and are collectible. The department involved follow up with the agencies involved to ensure we collect all balances due.
716 Texas Engineering Extension Service	During Fiscal Year 2006, a total of \$2,419 of course fees were not collected. This equates to .00010% of the total of \$23,805,511 collected. The Texas Engineering Extension Service has a very low non-payment rate due to its efforts in monitoring accounts receivable. The TEEEX Division sends the first letter to customer when a receivable is 46 days past due. If no response or payment is received when the receivable is 56 days past due, the Division follows up with a telephone call. If the receivable becomes 91 days past due, the Division sends a second letter to the customer informing them they will be placed on State Warrant Hold if not paid within 30 days. If the receivable becomes 121 days past due, the TEEEX Deputy Director/CFO will determine if the invoice will be forwarded to the TAMUS Office of General Counsel for further handling. TEEEX Financial Services sends letter to the customer informing them they have been placed on Warrant Hold with the State and any future services from TEEEX will require payment in advance.

**ARTICLE IV: THE JUDICIARY**

**Past Due Collection Summary**  
(As Submitted by Agencies)

Agency	Comments
201 Supreme Court of Texas	<p>The Supreme Court commends the clerk's office for its high collection rate of 99%. The Court's collection process is entirely in-house. When the clerk's office receives a document tendered for filing without a correct fee, the clerk's office personally contacts the individual filing the document, to the extent the contact information is available, and notifies the individual that the matter filed will be dismissed unless the correct fee is tendered within ten (10) days. If the fee is not tendered within that time period, the matter is dismissed for lack of payment. Once the matter is dismissed, the clerk's office makes no additional effort to collect the outstanding fee even though the fee technically remains "assessed". This is the primary explanation for the Court's minor collection variance. Moreover, fees assessed in cases involving the Office of Attorney General are billed by Interagency Transaction Vouchers when the Court disposes of the case. This delayed payment may account for some fees that are assessed but not collected.</p> <p>Fees for other services are due before the service is performed. If a payment for a license fee is returned to the Court for insufficient funds, the clerk's office notifies the licensee that the license may be revoked if payment is not received within thirty (30) days. This process has produced a 100 percent collection rate on licenses. Because fees are collected before matters are forwarded to the Court for consideration and before a service is performed, past due fees are not tracked.</p>
221 First Court of Appeals	<p>The Court of Appeals for the First District of Texas collects filing fees for appeals (\$125), original proceedings (\$75), and motions (\$10).</p> <p><b>Appeals:</b> Amount assessed, but not collected in FY 2006: \$13,125.00. Pending cases - filing fee still due and owing: \$3635.00. Not collected (indigence, exempt, do not tax or appeal dismissed): \$9,500.00.</p> <p><b>Original Proceedings:</b> Amount assessed, but not collected in FY 2006: \$3,975.00. Pending cases - filing fee still due and owing: \$375.00. Not collected (indigence, exempt, do not tax or petition denied): \$3,600.00.</p> <p><b>Motions:</b> Amount assessed, but not collected in FY 2006: \$2,380.00. Pending motions - filing fee still due and owing: \$670.00. Not collected (indigence, exempt, do not tax, denied): \$1,710.00.</p> <p>During pendency of an appeal, the Clerk issues a series of letters relating to payment of the filing fee and other fees associated with prosecution of an appeal. Failure to pay a filing fee can result in dismissal of the appeal. The judgment directs that unpaid fees be paid.</p>
229 Ninth Court of Appeals	<p>The Uncollected Filing and Indigency Fees were billed in August as new civil cases where filed. They were credited in the new fiscal year due to the timing of the billing and case filing.</p>
230 Tenth Court of Appeals	<p>The Court has a total of \$595 in fees that are more than ninety days past due. \$295 of the overdue fees were assessed prior to FY2006. \$300 of the overdue fees were assessed during FY2006. Some of the causes in which these fees are owed are causes that are pending at a higher court and no collection efforts will be taken by this Court until the Supreme Court or Court of Criminal Appeals issues a decision. Once a decision is made by one of the higher courts, this Court will determine if further collection efforts can be taken efficiently. Also included in this amount, are those fees owed on appeals which have been stayed by bankruptcy. No attempt to collect these fees will be taken until the appeal has been reinstated. See Tex. R. App. P. 8.2. Part of the \$300 is owed on cases on which an affidavit of indigence has been filed and the decision to allow the party to proceed on appeal without payment of costs has not been determined.</p> <p>The court collects fees, not fines. When fees become overdue, a phone call and/or an overdue notice is sent to the responsible party. If the clerk's office is not successful with the collection of a fee, the matter is referred to the Court for appropriate action. The Court does not contract with outside vendors for collections. In 2004, the Court made a concerted effort to collect unpaid fees. As a result of those efforts, the payment of fees has increased tremendously. However, the Court is not always successful with its collection efforts. After collection efforts fail, the Court authorizes the fees to be written off and the cause may be dismissed for failure to pay or the related request for relief may be dismissed. After collection efforts fail; varies from case to case. A total of \$1,860 (\$1,600 filing fees; \$260 motion fees) was written off during FY2006. This total is about half of the amount written off during FY2005.</p>
232 Twelfth Court of Appeals	<p>The Twelfth Court of Appeals collected all fees that were assessed and due during the 2006 fiscal year.</p>

Past Due Collection Summary  
(As Submitted by Agencies)

Agency	Comments
233 Thirteenth Court of Appeals	<p>During FY 2006, approximately 1% of all fees assessed were not collected. The Court makes every effort to collect delinquent fees. Letters are sent to parties advising that their appeal will be dismissed if the fee is not paid, and the Court carries through and dismisses cases if the fee remains unpaid. Upon issuance of the mandate, the District Clerk is directed to collect any unpaid fees.</p>
234 Fourteenth Court of Appeals	<p>The 14th COA during the fiscal year 2006 has attempted to institute new procedures aimed at increasing the rate at which fees are collected in our court. Although the numbers provided indicate that in regard to filing fees and original proceeding filing fees, we are currently collecting payment at a rate of 49%, these numbers fail to take into account the myriad of cases, both original proceeding and regular appeals, that were filed by individuals whose indigence status was either unknown or in question at the time the case was opened. Determining whether or not a filing party is indigent can in many instances take a considerable amount of time and hence requires that fees be input as NOT PAID until the question of indigence can be resolved. Motion fees are currently being collected at a rate of 55% for the same time period, but have similar collection problems to those associated with the collection of filing fees. The new procedures listed below reflect a melding of old practices regarding the collection of fees with new procedures designed to increase this Court's ability to collect all fees mandated by the TRAP rules. We believe that these new procedures will help to increase our collection rates dramatically during the current fiscal year. We will continue to monitor our collection rates and make any necessary adjustments to these procedures make any necessary adjustments to these procedures if it is shown that such adjustments will ultimately increase the Court's efficiency in collecting these fees.</p> <p><b>STEPS TAKEN FOR REGULAR APPEALS:</b> 1. At the time a civil case is opened, notice is sent to the filing party letting them know that the filing fee is now due. A due date is set for ten days from the date this notice is sent. 2. If after this ten day period the fee has not been paid, a second notice is sent out informing the parties that the fee is past due and the Court requires payment of the fee. This past due notice includes language in it that the case may be dismissed under TRAP 42.3©, 3. A third attempt to collect the fee is made when the clerk's record is filed with the appellate court. In the notice that is generated for this occurrence, the filing party is again notified that the filing fee is due and that prompt payment is required. 4. If the three previous steps have been taken and the fee has still not been paid by the filing party, the Court will then issue an order to the filing party stating that if the fee is not paid by a specified date, the Court may dismiss the appeal. 5. If the filing fee is not paid within the time period given in the order, the case will, upon approval of our justices, be dismissed for non-</p> <p><b>STEPS TAKEN FOR ORIGINAL PROCEEDINGS:</b> 1. At the time an original proceeding is filed with the Court, we attempt to collect the filing fee immediately. 2. If the filing party or their agent is unable for any reason to pay the fee at the time of filing, the original proceeding is docketed in the Court and notice is sent to the filing party that unless the fee is paid, the original proceeding may be dismissed for non-payment of the required fee. 3. A due date for the fee is given in the notice and if the filing party fails to make payment by the required date, the original proceeding is then dismissed under TRAP 42.36© for non-payment of the filing fee.</p> <p><b>STEPS TAKEN REGARDING MOTIONS:</b> 1. The Court has a policy of not accepting for filing any motion that is delivered to the Court by the attorney of record or any individual associated with the attorney's law firm that is not accompanied by the ten dollar filing fee. 2. If the motion is brought to the Court by a third party, we inform the party filing the motion that a fee is due and instruct them to inform the attorney of record whom they are filing the motion for that the fee is due. 3. If a motion is received by the Court in the mail and is not accompanied by a check, the motion is processed by the Court in our usual manner. 4. In both instances (2 and 3 above) a motion fee notice is sent to the filing party informing them that the motion was filed by the Court and that the fee was not paid at the time of filing. This notice gives the parties ten days within which to pay the fee. In this notice it states that failure to pay the filing fee may delay consideration of the motion for which the filing fee remains unpaid.</p>

Past Due Collection Summary

Agency

Comments

243 State Law Library

Overdue Collection Procedures: Fines are calculated from the due date of the material borrowed until its return. The first overdue notice is sent two weeks from the original due date informing the patron of the overdue status of materials borrowed. If the borrowed materials are not returned, a second notice is sent three weeks from the original due date informing the patron that the materials remain overdue and alerting the patron that if the borrowed materials are not returned by the fifth week from the original due date, a collection notice will be sent. Borrowers will be invoiced for materials that are overdue and not returned by the fifth week after the due date, when the maximum fine is reached. The fees assessed in the invoice are the maximum fine; \$75 or the actual replacement cost of the material borrowed (whichever is greater); and a \$15 administrative fee, which is non-refundable. Return of the overdue material will result in the waiver of the cost of the material but the patron will still be liable to the library for the outstanding fine and the administrative fee. The invoice and demand for payment is sent by certified mail with request for receipt of proof of delivery.

At the time of registration, the library obtains a home address, work address (if applicable), business phone, email address and either a driver's license number or TX ID number and date of birth. When a notice is returned as undeliverable to the State Law Library, the letter is resent to the alternate address. If the letter sent to the alternate address is returned, a Department of Public Safety Detective is contracted. DPS can assist us, as time permits, in trying to locate the individuals whose addresses are no longer valid. The name, addresses, driver's license number or TX ID number along with birth date is forwarded to DPS. The assigned detective will attempt to contact the individuals and either encourage them to pay the outstanding charges or will obtain the library materials from them.

The Office of the Attorney General may be contacted for assistance as well. Their options, however, are more limited. Though they might be able to write a letter on our behalf, they would be having the same difficulty in sending letters to the patron. While lawsuits or criminal charges for theft are a consideration, the OAG would have to make the determination that the intent was to convert state property to their own versus a loan that the patron neglected to return and still might have the intent to do so but has not. In February 2005 payment at time of service was implemented for individuals. Law firms and organizations have the option of being billed, terms 30 days net provided they have a signed agreement (terms 30 days net) on file at the library. Agencies must have a signed Interagency Contract on file for the current fiscal year in order to be billed.

**ARTICLE V: PUBLIC SAFETY & CRIMINAL JUSTICE**

**SEX OFFENDER REGISTRATION REIMBURSEMENT:**

TEX. CODE CRIMINAL PROCEDURE 62.045 Provides TxDPS with the authority to collect the cost associated with the Neighborhood Sex Offender Registrant Notification Program.

"(c) The department shall establish procedures for a person with respect to whom notice is provided under subsection (a), other than a person subject to registration on the basis of an adjudication of delinquent conduct, to pay to the department all costs incurred by the department in providing the notice. The person shall pay those costs in accordance with the procedures established under this subsection." Presently, TxDPS does not have adequate personnel resources to initiate collection of delinquent debts from the registrants. Due to the mobile nature of the registrants and the poor compliance rate with the reimbursement requirement, it would take extensive departmental resources to affect total or near total compliance with the reimbursement requirement.

1. Initial Invoice
2. Offer payment installments
3. Debt turned over to Attorney General's Office

405 Department of Public Safety

The Department will be implementing new reconciliation procedures that will pursue delinquent accounts through telephone contact, subsequent delinquent statements and possible criminal actions for compliance with the terms and conditions of probation or parole violations.

**MOTOR VEHICLE SAFETY RESPONSIBILITY FEES (REINSTATEMENT FEE):** Variances between money assessed and collected for reinstatement fees is due to the "Allen Ruling" court case which states that reinstatement fees do not have to be collected until it is time for the individual to renew their driver license. As such, reinstatement fee notices are sent at the time the action occurs; however, it could be up to (6) six years before the reinstatement fee is collected.

## Past Due Collection Summary (As Submitted by Agencies)

Agency	Comments
	<p><b>AGENCY PAID PARKING FEES:</b> Agencies are sent a second letter requesting payment. If no payment is received, reserved parking spaces become open parking spaces for all state employees. Changes in the billing process were made for FY07. Billing will be done 30 days prior to the quarter. If payment is not received prior to the quarter, the reserved spaces will become open parking until payment is made.</p> <p><b>RETURNED CHECKS:</b> The Accounting Department sends a first notice and then a second notice 20 days later. Consequences for non-payment vary for each division within the Department.</p> <p><b>REIMBURSEMENT FOR DRUG CASES EXAMINED:</b> The collection rate on the amount assessed and the amount assessed but not collected is dependent on three things: 1. defendant is found guilty of a drug offense; 2. defendant receives probation; 3. restitution is ordered by the court. There is no accurate method to account for uncollected funds due to lack of knowledge as to who is ordered to pay restitution and if the full amount is ordered to be paid.</p> <p><b>DRIVER RESPONSIBILITY PROGRAM FEES:</b> During fiscal year 2006, approximately 67% of all surcharge assessments were not collected. These assessments require the person being fined to either pay the assessment in full, or enter an installment agreement. For those persons who cannot pay in full, they may enter into an installment agreement and pay the assessment over a 12-month period. For those persons who enter into an installment agreement and default, they must pay the remaining balance for the resulting suspension to be lifted from their driving record. Payments may continue to be made until the balance is paid, not all persons continue to send payments. Some will wait to send the payment and pay the full balance.</p> <p>The assessments have varying amounts based upon the underlying conviction(s). These include assessments for points, driving while intoxicated, driving while license invalid, no liability insurance and driving without a valid license. The assessments are applied to a driver license, identification card and unlicensed record. The assessments range from \$100 to \$2000. Due to the amounts assessed and the assessment being applied to non-driver license records, not all persons comply with the surcharge assessment requirement.</p> <p>In an effort to increase our collection rate, we have implemented the following processes: 1. A monthly reminder notice is mailed to all persons who have entered an installment agreement. 2. Online services for payment were made available to all persons in the surcharge program, which can be submitted 24/7. 3. An IVR system for telephonic payments were made available to all persons in the surcharge program, which can be submitted 24/7 and scheduled in advance. 4. The vendor selected to administer the surcharge assessment has contracted with the U.S. Postal Service to verify addresses and obtain forwarding addresses to send subsequent notices to a more current address for the person. 5. A spanish translation for the online information and payment services will be available in October 2006. The collection rate for fiscal year 2005 was 25%, which increased to 30% in fiscal year 2006. Due to reasons addressed for non-collection, we cannot forecast the collection rate for fiscal years 2007-2008. We monitor the collection rate on a weekly basis.</p>
407 Texas Commission on Law Enforcement Officer Standards and Education	TCLEOSE has no fees, fines or penalties that are more that ninety days past due. Our business is such that we first receive payment before requests requiring payment are processed.
409 Texas Commission on Jail Standards	During Fiscal year 2006 100% of all assessed fees were collected. Agency staff ensures that all vital information is taken at the time the order is placed, which ensures a more timely collection of amounts owed. An invoice is sent out with every order and every quarter all customers with outstanding balances are sent an additional notice. Less than 1% of assessed fees are more than 90 days past due. In an effort to even further reduce our low rate of overdue payments, we have also begun to conduct telephonic reminders and send follow-up letters to all past due accounts.
665 Texas Juvenile Probation Commission	A TJPC event coordinator is assigned to each training event. The event coordinator is responsible for collecting unpaid registration fees. The collection procedure includes mailing an invoice with a reminder notice to the designated contact of the department or entity. The contact may include but is not limited to; the training coordinator for the department, staff in the accounting section or the person who registered for the training. If payment is not received within 30 days, a phone call is made to the chief probation officer and the fees are typically paid shortly thereafter. One of the accountants in the Fiscal Unit will also monitor to assist in collecting late fees.

**Past Due Collection Summary**  
(As Submitted by Agencies)

Agency	Comments
	The amounts for the conferences identified in the column "Not collected 06" is attributed to speakers and agency staff that were included in "# Assessed 06" who attended that particular conference, but did not pay a fee.
696 Texas Department of Criminal Justice	<p>The Inmate Health Care Co-payments are imposed on certain offender-initiated medical visits. TDCJ is responsible for collecting this fee from the offender. Medical services that are provided to an offender are not based upon the offender's ability to pay this fee. The Local Funds System was created to provide an automatic collection process of this fee. The fee is automatically taken from the offender's Trust Fund Account. If the Balance in the offender's account is insufficient, the System will deduct 50% of each deposit (if available) made to the offender's account until the total amount is paid.</p> <p>The Supervision fees are assessed when an offender is placed on mandatory supervision or parole. The individuals who are assessed these fees include active parolees, absconders, detainer and pre-revocation status offenders. The parole officers are responsible for the collection of these fees.</p>
<b>ARTICLE VI: NATURAL RESOURCES</b>	
305/317 General Land Office and Veterans' Land Board	<p>The majority of the fees imposed by the General Land Office (GLO) and Veterans Land Board are for tangible items such as archival maps and booklets, or for services such as research, application fees and coastal lease fees and appraisals, therefore the fee must be received in house before any service is provided to the customer. This greatly reduces the number of penalties and fines that the agency must pursue collection for.</p> <p>When penalties are assessed, the GLO has various collection procedures. Oil Spill violations result in an administrative penalty to the responsible party as well as cleanup cost reimbursement. For outstanding oil spill cleanup cost reimbursements, two demand letters are sent by certified mail to the responsible party. If we are still not compensated and the spill is consistent with the National Contingency Plan, the agency is reimbursed by the National Pollution Funds Center. Ineligible cases are closed as "uncollectible" if the amount is less than \$1,000. Those over \$1,000 are referred to the Attorney General's Office (AGO) for collection. Penalties are imposed by Notice of Violation and Order to Pay letter from the agency's Legal Dept. Unpaid penalties less than \$1,000 are closed as "uncollectible". Those over \$1,000 are referred to the Attorney General's Office. The referrals to the Attorney General's Office is typically after eight months of effort by the GLO. The GLO will always work with the responsible party by allowing payment plans.</p> <p>The Veterans Land Board can write off unpaid balances due by State Veterans Home former residents when it appears that collection of the amount would either be unjust or further collection efforts would not be economically viable. Prior to this action, the Financial Manager works with the GLO legal staff to propose a reasonable settlement or payment plan. If this plan is not implemented, the file will be forwarded to the AGO for further collection proceeding. If the AGO does not implement collection proceedings, the financial manager recommends that the account be written off, which will occur only upon approval by Agency Executive Management. Among all homes, a total of 33.4% of the accounts are delinquent. Land loans that are not paid will accrue penalties and interest once they become delinquent. After a determined number of days in delinquency status, the veteran's property is in danger of forfeiture. The veterans is notified several times of their delinquency, then receives by certified mail notification the property is in forfeiture and ordered for sale.</p> <p>Coastal Lease agreement delinquent accounts are reviewed and addressed quarterly. The Professional Services division works with the lease managers to ensure that lease payments are kept current. Some delinquencies are addressed during the renewal process, requiring past due balances to be paid before a new term is approved. When there is difficulty with collecting balances or when circumstances involve bankruptcies or litigation, Professional Services works through our Legal Division to collect past due amounts as well. Only 2.0% of these accounts are delinquent past 90 days.</p>
455 Railroad Commission of Texas	<p>The Commission assesses very few fees. In fact, a majority of the fees it collects are associated with licenses, permits, etc. that one needs in order to engage in some specific activity. If the fees are not paid, the license is not issued and the requesting party may not engage in the requested activities. If it is determined that unpermitted activities have occurred, then fines and violation penalties are assessed. The Commission's collection rate for such fines and/or violation penalties is approximately 50%. Any amounts that are not collected are referred to the Attorney General. Pipeline Safety Fee (Cobj 3553) - This fee is truly assessed. The Commission is actively pursuing the receipt of \$39,200, which is the outstanding balance.</p>

## Past Due Collection Summary (As Submitted by Agencies)

### Agency

### Comments

582 Texas Commission on Environmental Quality

During FY 2006 approximately 2.6% of all assessed (billed) fees and administrative penalties were not collected. It should be noted as well that most of TCEQ's fees are either self-paid or are collected by another state agency (DPS and Comptroller); this narrative refers only to fees directly billed and collected by the TCEQ. The fees and administrative penalties with the highest rates of assessed but uncollected amounts continued to include the Underground Storage Tank Registration fee (UST – 7.2%) and the Dry Cleaning Registration fee (DCR – 9.6%), although each showed improved collection rates from FY 2005. The Stormwater General Permit fee (GPS – 7.7%) and administrative penalty assessments related to waste programs (WDV – 28.8%) also have higher rates of uncollected amounts. The UST fee has been collected since 1988 and has historically had a higher incidence of uncollectible accounts. This can be attributed to the number of small businesses that have to pay this fee and to frequent changes of tank ownership. Registration certificates required to legally receive delivery of fuel into the tanks are withheld if outstanding fees or penalties are owed.

The DCR fee is relatively new with assessment and collection beginning in FY 2004. Some of the uncollected invoices for FY 2006 can be explained by the quarterly invoicing of this fee and the inclusion of invoices that were billed on June 30 with a July 30 due date. Automated collection processes were implemented for the DCR fee in FY 2006, which resulted in improved collections, including the assessment of late fees, the creation and mailing of delinquent letters, placement on warrant hold, and referral to litigation or the collection agency for collection. Additionally, an enforcement initiative began mid-year increasing collections, assessing administrative penalties for non-compliance, and demonstrating consequences for non-compliance to the regulated community. The GPS fee presents unique challenges due to the large number of customers (15,000 accounts in FY 2006) and the difficulty many of these customers have in accepting that an annual fee is assessed for any permit that is not terminated by Sept. 1, even if the construction activity covered by the permit has been completed.

To address this issue and the administrative burden on both the agency and the regulated community for a \$100 annual fee, when the general permit is up for renewal in March 2007, TCEQ may charge a higher initial application fee and no annual fee to collect the same amount of revenue without the billing and collection issues. The outstanding invoices for administrative penalty assessments related to waste programs (WDV) is overstated by July 31 and August 31 invoices. The rate of uncollected invoices is 18.8% if July 31 and August 31 invoices are not used in calculating the rate. This type of administrative penalty is assessed primarily against the same customer base that presents collection issues for UST fees. Moreover, this penalty type has a much higher proportion of default orders, which are assessed when the customer does not respond to the Agency or agree to the violations. Without agreement from the customer, the incidence of unpaid penalties is significantly higher. In these situations, TCEQ ultimately refers many of these cases to the Attorney General for collection, but the incidence of uncollectibility due to business closures or the sale of the gas tanks is high.

New Collection Efforts in FY 2006: TCEQ's contract with an outside collection agency continued in FY 2006 resulting in collections of approximately \$425,000 for delinquent fees and administrative penalties that did not meet the Attorney General (AG) thresholds for amount owed or age of account. As detailed above, automated collection processes were implemented for the dry cleaning registration fee and an enforcement initiative against non-compliant dry cleaners was undertaken at mid-year. The TCEQ Financial Administration and Litigation Divisions devoted additional attention and resources for prompter referral of collection cases to the Litigation Division and to the AG. On September 1, 2006, TCEQ implemented the last remaining collection recommendation from TCEQ's Enforcement Process Review. In general, permits, licenses, registrations and other authorizations will not be issued to customers with delinquent fees and penalties in excess of \$200. This process requires permitting staff to view and use on-line crystal reports. TCEQ is working on a more automated process which will link the accounts receivable system with TCEQ's Central Registry.

When the automated system is in place, the threshold of unpaid accounts will drop from \$200 to \$25, and the system and policy will also be applied to permits that can be obtained through the electronic permitting process.

## Past Due Collection Summary

(As Submitted by Agencies)

Agency	Comments
	<p>Uncollectible Accounts: The Texas Constitution does not allow TCEQ to "write-off" uncollected amounts; however, TCEQ follows the AG's collection procedures in 1 TAC, Chapter 59. Two demand letters are sent on a delinquent account. Accounts are then placed on warrant hold. Once an account is delinquent for 90 days, the account is referred to the TCEQ Litigation Division if the account meets thresholds for amount and age. If not, the account is referred to the collection agency. If the AG or TCEQ Litigation Division concludes that the account is uncollectible, the account is flagged as such in TCEQ's accounts receivable system. After 180 consecutive days of nonpayment, the collection agency returns referred accounts back to TCEQ. These accounts are also flagged as uncollectible. This designation prevents additional overt collection activities such as the mailing of billing statements and demand letters. However, warrant hold and TCEQ review processes for issuing permits may still result in collection of the account. As of August 31, 2006, TCEQ had \$9.8 million flagged as uncollectible or bankrupt (Chapter 7).</p>
<b>ARTICLE VII: BUSINESS &amp; ECONOMIC DEVELOPMENT</b>	
320 Texas Workforce Commission	<p>The Regulatory Enforcement Division (RED) of the Texas Workforce Commission was established to handle collection of delinquent Unemployment Insurance contributions; delinquent, unpaid Labor Law wage claims; and the prosecution of fraudulent Unemployment Insurance benefit overpayments. This division is working with the Office of Attorney General of Texas, local district attorneys, TWC internal departments and the workforce boards to recover dollars lost to fraud, waste and abuse in all agency programs. The Texas Workforce Commission has comprehensive procedures, including a detailed collections manual that outlines the timing of various collection actions that are applied depending on the revenue type that is owed. These steps include: issuance of a demand letters, filing of a liens (tax and administrative), application of a bank freeze/levy and issuance of notices of assessment (administrative legal actions). RED can also assess penalties to enforce compliance requirements. Labor Law determinations result when an employer does not pay an employee wages that are due to him. The underlining cause is that the employer is either financially unstable or lacks basic business acumen. As a result the collection rate from such employers is not high.</p>
601 Texas Department of Transportation	<p>In FY2006, \$257,770 in Motor Carrier Penalties were assessed, of which \$25,770 was collected. The low collection amount is primarily due to the fact that many of the carriers assessed these penalties are either out of business, bankrupt, or both. In some cases the Attorney General may proceed with initiating a judgment, but as stated, many of these carriers in this situation simply do not have the assets to pay the penalty or will not pay the penalty, regardless of legal action. TxDOT continues to work with the Attorney General and the Carriers to attempt to collect all past due penalties/fines.</p>
<b>ARTICLE VIII: REGULATORY</b>	
370 Texas Residential Construction Commission	<p>The commission has a compliance section that handles all enforcement issues. This section sends investigates, sends notice of violations, and sends agreed orders. This section also works closely with the State Office of Administrative Hearings and the Office of the Attorney General after exhausting all previous attempts to collect the money.</p>
451 Department of Banking	<p>f a fee to the agency is delinquent in excess of 90 days, administrative hearing proceedings are initiated against the regulated entity for collection of the past due fees. If funds are not collected, in most cases the license can be revoked. Since most of our license fees are collected by ACH debit, we do not have significant collection problems. If a fine or penalty due the agency is delinquent 90 days, the file is referred to the Attorney General's Office for collection proceedings. These proceedings include such action as the filing of an abstract judgment.</p>
454 Department of Insurance	<p>During fiscal year 2006, approximately 14% or \$7.3 million of fees, fines or penalties assessed by the agency were not collected. Approximately \$4.1 million (56% of the uncollected amounts) represents penalties.</p>

**Past Due Collection Summary**  
(As Submitted by Agencies)

Agency	Comments
	<p><b>The \$4.1 million consists of:</b> \$1,539,135 -- delinquent debt, already past due; \$827,012 -- debt not delinquent, but may be difficult to collect; this is generally unauthorized insurance and license revocation; \$654,755 -- penalties that are due in FY'07; \$222,425 -- penalties that are due in FY'08 or later; and \$366,821 -- penalties remaining to be paid on installment plans.</p> <p><b>Why don't violators pay fines?</b> Individuals and entities that hold no license to engage in the business of insurance have no incentive to pay fines assessed by TDI. Approximately \$1.1 million falls into this category. A subset of this category consists of agents whose licenses have been revoked. Because they are no longer eligible to sell insurance, they often refuse to comply with orders requiring payment of a fine. Many of these fines are relatively small, making collection efforts difficult to justify from a cost/benefit standpoint. Another subset of this group is individuals and companies who have never held a license issued by TDI. Many of the entities are located out of state or out of the country. Some of them file bankruptcy; many of them dissolve and the principals relocate, sometimes taking on aliases. Because of TDI's aggressive action toward unlicensed entities, who often operate outside the borders of Texas, we expect that a significant percentage of fines will not be collectible.</p> <p>Tools to enforce payment are: Obtain warrant hold, thereby precluding receipt by debtor of any state funds; Revocation of license, if debtor holds a license; and Referral to Attorney General for litigation.</p>
464 Texas Board of Professional Land Surveying	<p>License renewals are due December 31 of each year. Surveyors can still renew and pay penalties after this date. While we send out a renewal notice to all surveyors in our data base, we do not know how many will renew. If a surveyor does not renew, we will send out a reminder letter but make no other contact to collect the renewal fee. Their license will expire and they cannot offer land surveying services.</p> <p>If a surveyor is assessed a fine due to a violation of our Act and Rules, they must sign an agreement to pay the fine. Sometimes they will request an Administrative Hearing and the amount of the fine can be changed and other stipulations made. Sometimes in lieu of paying a fine, the surveyor will decide to relinquish his license. So while a fine may be assessed, it may not always be collected. We do follow-up on non-compliance by registered mail. Many times, fines are assessed in one fiscal year and payment not reflected until the next fiscal year. We also will set up a payment plan if requested.</p>
472 Structural Pest Control Board	<p>The Board refers all uncollected debts that meet the set tolerance level to the Office of the Attorney General for collection. The Office of the Attorney General currently set a tolerance level of \$1,500. If the debt is below the tolerance level and is more than four years old, the debt will be written off as past due status. The agency does not contract outside vendors to collect amounts past due since the Board is required to use the Office of the Attorney General as its legal representative. The Board refuses to issue or renew a licenses to individuals with outstanding debt.</p>
473 Public Utility Commission	<p>During 2006 a firm was assessed an Administrative Penalty of \$234,049. Monthly payment terms were arranged that will result in total collection during 2007 of the outstanding balance of \$191,714, The remainder of the amounts assessed in 2006 and not collected are due to appeals that have been filed or ongoing litigation postponing payment until settlement is reached.</p>
466 Office of Consumer Credit Commissioner	<p>The # of individuals/groups assessed are estimates, we currently do not collect this data. The Office of Consumer Credit Commissioner is a regulatory agency. We regulate finance companies, payday lenders, mortgage companies, pawnshops, motor vehicle sales finance companies, and debt management service providers and registered creditors. The agency will not license or register an entity before all fees and/or penalties are paid. During the renewal period if a licensee or registrant decides not to pay their fees and surrenders their license/registration, the fees would never be collected and are not considered owed. If a licensee does not pay their fees and continues to be in the business, we take administrative action against them and either collect the fees or revoke their license. All publications and consumer education displays must be prepaid before shipping. We currently allow applicants to pay late filing fees or administrative penalties over a 90 day time frame, if requested, but they are not allowed to be in the business and a license is not issued until all charges are paid.</p>

## Past Due Collection Summary (As Submitted by Agencies)

Agency	Comments
456 Texas State Board of Plumbing Examiners	<p>During the 78th Legislative Session, the Board was granted the authority under Section 1301 of the Occupations Code (the Plumbing License Law) to dispense administrative fines and penalties to persons who had violated the Plumbing License Law and/or Board Rules. This was a new process for the Board which began during fiscal year 2004. As of August 31, 2006, only twenty-eight (28) individuals had not paid their assessed administrative penalties. These penalties became past due during fiscal year 2006. The total amount of administrative penalties assessed during fiscal year 2006 was \$499,500. Of this amount, \$97,000.00 had been uncollected as of August 31, 2006., or 19.4%.</p> <p>During August 2006 these individuals were turned over to the Office of the Attorney General, Bankruptcy and Collections Division, for help in collecting these unpaid administrative penalties. Additionally, the Board has either revoked or will not renew the license or registration of any person who has not paid their administrative penalty. In cases where the individual has no license or registration, the Board's Enforcement department will be used to ensure these individuals are no longer engaged in plumbing activities in the State of Texas. As of November 1, 2006, the Board has not written off any of these administrative penalties. If deemed uncollectible by the Office of the Attorney General, the Board will write these amounts off on an individual basis.</p>
508 Board of Chiropractic Examiners	<p>The Board collects administrative penalties assessed in some cases involving violations of the Chiropractic Act. Staff is currently working to determine the number and total amounts of fines that have been assessed but not collected for cases that have been fully adjudicated. It is estimated that the total amount of fines outstanding is less than \$30,000. This effort to establish who owes how much is due to the agency being understaffed for the past few years and because of staff turnover in accounting and enforcement.</p>
512 Texas State Board of Podiatric Medical Examiners	<p>Under Chapter 202, Texas Occupations Code, notification letters are sent to delinquent licensees according to statute and follow statutory timeframes for fee collection. Regarding license verification fees and license certification fees, our agency sends out delinquent notices quarterly. We do not have a mechanism for writing off uncollected amounts. After review, we find no fees that are responsive to the threshold of low collection rates, therefore we can identify no specific problematic areas, patterns or trends that would warrant changing our procedures on collections.</p>
513 Texas Funeral Service Commission	<p>Administrative penalties assessed will always be more than collected, due to a timing issue. Sometimes the penalties assessed will be paid out on a payment plan. Other times they do not pay, and these are turned over to the Office of the Attorney General for collection.</p>
503 State Board of Medical Examiners	<p>During fiscal year 2006, approximately .3% of all fees, fines, or penalties were not collected. When a licensee is assessed a penalty, TMB compliance staff monitor the payment as part of the licensee's disciplinary order. Compliance staff will attempt to negotiate a payment plan when needed. If the licensee doesn't meet the obligation to pay then compliance staff forward the information to the Office of the Attorney General for collection.</p>
504 State Board of Dental Examiners	<p>When renewals are sent out 60 days prior to renewal date, the licensee is notified of penalties that will be assessed if renewal is not received timely. Penalty for 90 days or less is 1 1/2 times the normal renewal fee. Penalty for more than 90 days, but less than 1 year is 2 times the normal renewal fee. A final notice of pending cancellation is sent to all licensees who are delinquent for one year. This is sent 60 days prior to cancellation. If the licensee has not renewed at the end of that period, their license is cancelled and they are required to reapply for licensure.</p>

**Past Due Collection Summary**  
(As Submitted by Agencies)

<b>Agency</b>	<b>Comments</b>
450 Department of Savings and Mortgage Lending	<p>Licensees were assessed \$207,750 during FY06 in penalties related to examination findings. The unpaid amount of \$41,000 is comprised of fees collected during FY06 and fees which have been appealed and are in abeyance until the hearing. Licensees were assessed \$23,650 during FY06 in penalties related to non-filing of annual reports, combined with failure to respond to an order of the commissioner. Only \$1,250 has been collected. These licenses have been suspended and the penalties are not deemed to be collectible. If a person decides to reenter the business, the agency will not issue a license before all fees and/or penalties are paid. If a licensee does not pay their fees and reenters the business, we take administrative action against them and collect the fees before issuing a license.</p> <p>Licensees were assessed \$7,750 during FY06 in penalties related to failure to respond to a request of the agency. Much of the uncollected \$3,500 is not collectible because the agency has revoked the license and the person is no longer in the business. Licensees were assessed \$201,965 during FY06 in penalties pursuant to agreed orders. The remaining balance of \$64,015 is not likely to be collected because the person violated the order and the license has been revoked.</p>
