INTRODUCTION

These instructions guide each agency, public institution of higher education, and appellate court in preparing and submitting a Legislative Appropriations Request (LAR) for the 2022–23 biennium. The term state agency or agency used throughout these instructions includes the appellate courts. The agency’s appropriation request is the bridge between the development of the agency’s strategic plan and the General Appropriations Act (GAA) by providing a fiscal expression of the agency’s priorities. This fiscal expression includes quantitative information such as projected performance, projected cost(s), and methods of finance proposed for state services. In addition, information is provided related to narrative language (riders) that is integral to preparation of the GAA.

The information contained in these instructions is for the purpose of preparing each agency’s LAR and for ensuring that the resulting information is presented in a consistent and logical manner to inform the appropriations process. None of the information contained in these instructions constrains the constitutional powers and duties of either the legislative branch or executive branch with respect to the overall appropriations process. Any questions with respect to the instructions may be directed to the Office of the Governor, Budget Division, and to the Legislative Budget Board (LBB).

The LAR has two components, the baseline or base-level request and requests for consideration of exceptional items, which are desired services in addition to the baseline request. The Governor or members of the Legislature may provide additional guidance for these two components.

These instructions may not provide all of the information that will be desired for the presentation and analysis of an agency’s LAR. Agencies may supplement the required information with additional materials that express their needs and priorities. Similarly, agencies need only submit schedules that apply to them unless the Office of the Governor, Budget Division, or Legislative Budget Board (LBB) staff request additional information to better analyze the agency’s request.

These instructions include a brief explanation of the concepts of the Texas budgeting system and are available on the LBB website (www.lbb.state.tx.us/Agencies_Portal.aspx → Instructions → Legislative Appropriations Request) and on the Office of the Governor’s website (www.gov.texas.gov/bpp). The submission schedule, indicating the due date for each agency LAR, is available at www.lbb.state.tx.us/Agencies_Portal.aspx → Instructions → Legislative Appropriations Request → LAR Submission Schedule. Additional appendices containing example Automated Budget and Evaluation System of Texas (ABEST) schedules and other forms may be found at www.lbb.state.tx.us/Agencies_Portal.aspx → Instructions → Legislative Appropriations Request → Appendices for State Agencies, Institutions and Agencies of Higher Education.

The Office of the Governor and the LBB look forward to receiving requests for appropriations and to continued joint efforts to provide accountability for necessary state services.

STATE BUDGET CYCLE

Figure 1 shows the entire two-year state budget cycle. The portion of the cycle that pertains to the information in this document has a black border.
STRATEGIC PLANNING AND BUDGETING SYSTEM
The Strategic Planning and Budgeting (SPB) system utilized by the state to allocate state government resources recognizes relationships between funding and performance, between accountability and resource allocation, and most importantly, between spending and results. The goal of SPB is to focus on the quality of services that state agencies provide and to emphasize accountability for expenditure of state resources. Major elements of the system include strategic planning, performance-based budgeting, budget implementation, and budget monitoring.

STRATEGIC PLANNING AND BUDGETING STRUCTURES
Although the strategic planning and budgeting structure serves as the starting point for developing an agency’s biennial budget request, the approved budget structure may differ from the strategic planning structure. Changes to existing budget structures must be approved by the Office of the Governor and the LBB. Requested changes are reviewed by the Office of the Governor and the LBB to ensure that the structure will provide an appropriate basis for budgetary analysis. Please note that the budget structure approved in the Strategic Plan may be altered as the appropriations bill moves through the legislative budget process. In addition, to enable comparison of performance between fiscal years, historical data must be maintained and available for any measures that are changed. Agencies wishing to modify previously approved structures and measure definitions should have submitted a written request to both the Office of the Governor and the LBB by the deadline.
If revisions are not requested or approved, the budget structure previously approved for use in preparing an agency’s appropriation request for the 2020–21 biennium, as modified by House Bill 1, Eighty-sixth Legislature, 2019 (published version of 2020–21 GAA), is the approved structure for the 2022–23 biennium. When budget structures are finalized, the LBB will open ABEST to enable the agency to enter LAR data into the system.

**PERFORMANCE MEASURES**

Developing and maintaining an effective performance accountability system is critical to the SPB system. The overall value of the measurement system depends on the quality of the individual measures. A sound measurement system requires measures that are relevant, reliable, and valid, and that provide sufficient coverage of agency activities in a cost-effective manner.

Measures developed and approved for an agency’s strategic plan are used in its budget request. The agency should show the actual fiscal year 2019 performance for each measure, as reported in ABEST, to the LBB and the Office of the Governor. A good-faith effort should be made to identify expected performance for fiscal year 2020 and projected performance for fiscal years 2021 to 2023.

Additional information on the state’s performance measurement system can be found in the *Instructions for Preparing and Submitting Agency Strategic Plans for Fiscal Years 2021–25* (February 2020) on the LBB website (www.lbb.state.tx.us/Agencies_Portal.aspx → Instructions → Strategic Plan Instructions).

---

**IMPORTANT**

Projecting performance two years to three years out is difficult. As agencies receive additional information on performance trends after submission of the LAR, they are encouraged to provide both budget offices with written documentation of updated performance projections, as appropriate, throughout the legislative process.
MAJOR MILESTONES
The 2022–23 biennial cycle for allocating state resources began with the issuance of Instructions for Preparing and Submitting Agency Strategic Plans for Fiscal Years 2021–25 (February 2020). Figure 2 shows major milestones in the cycle.

GENERAL BUDGET INSTRUCTIONS

BASELINE REQUEST AND EXCEPTIONAL ITEMS

Agencies should limit their General Revenue Funds and General Revenue–Dedicated Funds baseline appropriations requests to the amounts approved by the Legislative Budget Board (LBB) and the Office of the Governor, Budget Division. A policy letter regarding baseline levels is available on the LBB website at www.lbb.state.tx.us/Agencies_Portal.aspx → Instructions → Legislative Appropriations Request → Policy Letter for Legislative Appropriations Request.

Institutions of higher education that receive formula appropriations should not request amounts for the formula strategies.

Agency baseline requests should not include or initiate any new state debt.

Agencies should prepare their 2022–23 biennial base requests under the 2022–23 baseline request limits set by the policy letter.

HIGHLIGHTS AND WHAT'S NEW

ELECTRONIC SUBMISSIONS

- All agencies, institutions of higher education, and appellate courts and judicial branch agencies should include their Dual Submission certification in the PDF submission that is submitted through the LBB application (Document Submissions) located on the LBB’s website at docs.lbb.state.tx.us/ and submit a copy to the Office of the Governor, Budget Division, at budgetandpolicyreports@gov.texas.gov.
- All agencies, institutions of higher education, and appellate courts and judicial branch agencies are no longer required to submit bound paper copies of LARs to the Department of Information Resources (DIR) or Bond Review Board (BRB). DIR and BRB will accept PDF submissions emailed to, respectively, policy@dir.texas.gov and capital@brb.texas.gov.

NEW SCHEDULES, MODIFICATIONS, AND NOTES

- Adjusted Totals for Fiscal Years 2019 to 2021. Amounts for fiscal years 2019 through 2021 should match, except for updated data, those reported in the LBB and Governor approved 2020–21 Base Reconciliation as adjusted for the five percent reduction required by state leadership.
- Administrator’s Statement. All agencies, institutions of higher education, and appellate courts and judicial branch agencies may now include a maximum of four pages of graphics, such as charts and tables, with the Administrator’s Statement.
- Program Ranking by Priority and Inclusion of Legal Authority. The template for 3.1.1 Program-level Request Schedule has been modified to require each agency, court and institution to rank programs by agency priority and to provide text describing the agency’s methodology or approach to program prioritization. Additionally, the template has been modified to include fields to identify legal authority for each program.
- Grants from Trusteed Programs within the Office of the Governor. Use MOF Code 8000 (Other Funds) to report grant funds received from the Trusteed Programs within the Office of the Governor. These funds include any grant received pursuant to either the 2018–19 General Appropriations Act (GAA), or the 2020–21 GAA, Article I, Trusteed Programs within the Office of the Governor, Rider 2, Disaster and Deficiency Grants, which should be cited as the authority for these funds. MOF Code 8000 is also required to report any funds received from Trusteed Programs when the sources were the emergency appropriations made available by the 2018–19 or 2020–21 GAAs, Article I, Trusteed Programs, Rider 3, Governor’s Emergency Appropriations, which is the authority to cite for these funds. Entries reported in a Governor’s Disaster/Deficiency/Emergency Grant (GV) appropriation will be treated similarly to Interagency Contracts for budget summary purposes.
- Hurricane Harvey. Agencies that continue to receive and expend federal funding related to Hurricane Harvey should report those expenditures in their Federal Funds Supporting and Tracking schedules. Additionally, agencies should report All Funds expenditures related to the storm in the 6.G. Homeland Security Funding Schedule, Part B: Natural/Man-Made Disaster Expenditures.
- Federal Funds Tracking Schedule. All agencies are required to submit Federal Funds tracking schedules for any grant award that equaled or exceeded $10.0 million in fiscal year 2019 or upon request by the LBB or Office of the Governor. Please note that the $10.0 million threshold refers specifically to the award and not the final expended amount.
- Exceptional Request Schedule 4.A. If an exceptional item request contains information technology (IT) components, agencies should provide additional information, including a description and status of the new or existing project, outcomes and outputs, a
## Detailed Breakdown of Budgeted and Estimated IT Costs

A detailed breakdown of budgeted and estimated IT costs, and a brief analysis of project alternatives, scalability, and adjusted costs related to the scalability.

### Centralized Accounting and Payroll/Personnel System (CAPPS) – Enterprise Resource Planning (ERP) Project

All CAPPS expenses should be identified in capital budget submissions as Capital Project Category Code 8000 CAPPS Statewide ERP System. Affected agencies should identify all costs, including staffing costs, as capital expenses. Additionally, agencies implementing CAPPS hub systems should include all ongoing costs to support and maintain their systems. Further information is included in Part 5.A. Capital Budget Project Schedule of these instructions.

- Agencies identified by the Comptroller of Public Accounts (CPA) to transition to the centrally managed CAPPS system should include in their Capital Budget submissions all costs for internal needs arising from deployment. Examples of typical internal costs are provided in Part 5.A. of these instructions. If requests are made as an exceptional item, all amounts should be identified in the Capital Budget exceptional item schedules and descriptions of internal deployment-related costs should be detailed in 4.A. Exceptional Item Request Schedule (also see Part 4 of these instructions).

- Agencies that are reallocating CAPPS deployment funding from the 2020–21 biennium for continued deployment costs in the 2022–23 biennium should submit a Capital Budget project.

- Agencies that either are deployed on CAPPS or requesting to deploy onto CAPPS through a separate, agency-managed system (typically referred to as a hub agency) should identify those requests, including ongoing maintenance and support, in their Capital Budget submissions.

- In addition, agencies that make payments to CPA for converted PeopleSoft licenses used for internal accounting systems should identify these costs in their capital budget submissions.

- Agencies are reminded that certain information must be submitted to CPA for Enterprise Resource Planning (ERP) systems to ensure that those systems are consistent with statewide ERP goals. Agencies should submit the required information using the one-page Agency ERP Project Request form found at comptroller.texas.gov/forms/74-222.pdf.

### Prioritization of Cybersecurity and Legacy Systems (PCLS) Tracking Key

Agencies with projects that are identified for the Department of Information Resources’ Prioritization of Cybersecurity and Legacy Systems Projects report should identify the PCLS Tracking Key in 4.A. Exceptional Item Request Schedule and 5.B. Capital Budget Project Information.

### Cybersecurity and Legacy Modernization Projects

All Cybersecurity expenses should be identified in Capital Budget submissions as Capital Project Category Code 9000 Cybersecurity. All Legacy Modernization IT projects should similarly be identified in Capital Budget submissions as Capital Project Category Code 9500 Legacy Modernization. Affected agencies should include both capital expenses and noncapital informational expenses, such as internal staff costs.

### New FTE Requests for Capitol Complex

Agencies that will be relocating to new Capitol Complex office buildings during the 2022–23 biennium and that are additionally requesting new FTEs for the 2022–23 biennium will need to include office build-out and telecommunications costs for each new FTE requested.

### Requests for Facilities-Related Projects

Part 8 Summary of Requests for Facilities-Related Projects (previously known as Summary of Request for Capital Project Financing) has been modified to include information on project scalability or partial-funding, if projects were requested in previous biennia, and on the value of existing related projects.

Refer to the 2022–23 Detailed Instructions for the Appellate Courts and Judicial Branch Agencies and the 2022–23 Detailed Instructions for Institutions and Agencies of Higher Education for other significant changes and updates pertinent to appropriation requests.

## Forms and Reports

Each agency’s budget request may contain the following word-processing forms, spreadsheet forms, and ABEST-generated reports, as necessary.

Word-processing and spreadsheet forms should be emailed to the Office of the Governor address established for that purpose (budgetandpolicyreports@gov.texas.gov) and included in the searchable PDF submitted through the LBB Documents Submissions application (docs.lbb.state.tx.us/). The forms and related reports are shown in Figure 3.
## AGENCY REQUEST

The Strategy Request is the initial building block of the agency’s budget request. It should incorporate direct strategy costs (excluding requested rider appropriations) and capital costs allocated to a strategy. The Summaries of Request can be generated from ABEST. The Federal Funds, Capital Budget, and other schedules are supplemental because they provide detail on amounts contained in the Strategy Request.
PRIORITIZATION OF MEASURES
ABEST requires the agency to enter its performance measure definitions in the system. As part of that process, the agency will be enabled, but not required, to assign a priority (high, medium, or low) to each performance measure. This prioritization will assist in review of the budget request and in the selection of key measures for inclusion in the appropriations bill.

ELECTRONIC SUBMISSION
Agencies will submit LARs for fiscal years 2022 and 2023 electronically, through ABEST, to the LBB. The LAR is submitted to the LBB electronically when agencies change their status in ABEST to Complete. Instructions for entering budget data in ABEST may be found on the LBB website at http://www.lbb.state.tx.us/Agencies_Portal.aspx → Instructions → Legislative Appropriations Requests → ABEST Instructions for Legislative Appropriations Request (August 2020).

A searchable PDF must be emailed to the Office of the Governor, Budget Division, at budgetandpolicyreports@gov.texas.gov and included in the searchable PDF submitted through the LBB Documents Submissions application (docs.lbb.state.tx.us/). An LAR-to-PDF generator is available in ABEST, which enables the selection of LAR reports from ABEST and enables the insertion of additional documents (PDF format only) to compile a PDF file. The PDF generator may be helpful in compiling bound copies of the LAR and the electronic submission to Document Submissions.

The LBB Document Submissions application is available on the LBB website at docs.lbb.state.tx.us/. Agencies that have a valid user ID and password for ABEST can access the application. The Help tab on the log in screen of Document Submissions provides additional instructions to complete electronic submission.

If an ABEST user ID or password is needed, request access by submitting a Logon Request Form at loginreqagy.lbb.state.tx.us.

If needed, use the Contact Us tab within the LBB Document Submissions application to request support or assistance with Document Submissions.

NOTE
If an agency needs, and has received permission, to revise the completed 2022–23 LAR in ABEST, the agency will need to submit a searchable PDF version of the revised LAR through the Document Submissions application and email the revised PDF to the Office of the Governor, Budget Division at budgetandpolicyreports@gov.texas.gov.

BOUND PRINTED COPIES
Agencies will also submit bound printed copies of the LAR and any supplemental (non-ABEST) information to the offices requiring copies of LARs. (See the Distribution section on page 13 for a list.) Additionally, agencies should submit two bound paper copies of the LAR and any supplemental information to both the LBB and the Office of the Governor.

LEGISLATIVE APPROPRIATIONS REQUESTS ON AGENCY WEBSITES
Agencies are required to place their 2022–23 LARs on the agency website within five days of submitting the required PDF to the LBB and the Office of the Governor, Budget Division. Please contact LBB PC Technical Support at (512) 936-4026, if you need technical assistance. Any revisions to the LAR, including all changes to affected forms and schedules, should be posted to the agency website within five days of submitting the revision to the LBB and the Office of the Governor.

The LAR will include up to 28 ABEST reports. Data will be entered into various data-entry screens that are identified in the next section, using instructions in ABEST Instructions for Legislative Appropriations Request (August 2020). Figure 4 shows the 28 reports and the corresponding data-entry screen or screens for each report.

NOTES:
(1) Reports not required for appellate court.
(2) Report required only for Article II agencies, or upon request by an analyst from the Legislative Budget Board or Office of the Governor, Budget Division.

Direct any questions regarding these instructions to the assigned analyst in either the LBB or the Office of the Governor.
ASSEMBLY AND DISTRIBUTION

ASSEMBLY

For bound paper copies of the appropriations request, all pages — whether produced by using Automated Budget and Evaluation System of Texas (ABEST) reports, word-processing software, or spreadsheets — should be on letter-size paper (8.5 inches by 11 inches) and bound along the left margin in a document with a durable cover. See the sample cover sheet on page 15. The appropriations request should be printed on both sides, numbered, and assembled in the manner described in these instructions. Additional support documents may be included, and a pagination system other than the ABEST system may be used.

The following instructions apply to both the searchable PDF copy and the bound paper copies of the appropriations request. These instructions and word-processing and spreadsheet forms may be accessed on the Legislative Budget Board (LBB) website (www.lbb.state.tx.us/Agencies_Portal.aspx→ Instructions → Legislative Appropriations Request). Agencies may use and modify these forms as needed as long as the basic information and structure are maintained.

ABEST schedules are generated through the application. For additional information regarding ABEST schedules, refer to instructions contained in ABEST Instructions for Legislative Appropriations Request (August 2020) (www.lbb.state.tx.us/Agencies_Portal.aspx→ Instructions → Legislative Appropriations Request) or contact the LBB Help Desk at (512) 463-3167.

Assemble request documents in the following order:

1. Cover and Title Sheet
2. Table of Contents
3. Administrator’s Statement
4. Organizational Chart
5. Certificate of Dual Submissions
6. Summaries of Request (including Budget Overview)
7. Strategy Request
8. Program-level Request
9. Rider Appropriations and Unexpended Balances Request
10. Rider Revisions and Additions Request
11. Substrategy Request (if required)
12. Exceptional Item Request
13. Capital Budget
14. Supporting Schedules:
   • Historically Underutilized Business;
   • Current Biennium Onetime Expenditure;
   • Federal Funds;
   • Federal Funds Tracking (if required);
   • Estimated Revenue Collections;
   • Advisory Committee;
   • Homeland Security Funding;
   • Estimated Total of All Funds Outside the General Appropriations Act Bill Pattern;
   • Behavioral Health Funding;
   • Budgetary Impacts Related to Recently Enacted State Legislation; and
   • Document Production Standards
15. Administrative and Support Costs (if required)
   • Indirect Administrative and Support Costs; and
   • Direct Administrative and Support Costs
16. Summary of Request for Facilities-Related Projects
**DISTRIBUTION**

An electronic copy of the Legislative Appropriations Request (LAR) is submitted to the LBB when the agency status in ABEST is set to Complete. Bound paper copies of the LAR and any supplemental (non-ABEST) information required by the LBB or the Office of the Governor, Budget Division, should be filed as follows:

<table>
<thead>
<tr>

|---------------------------------------------------|----------------|-----------------------------| |

*LARs submitted to the Texas State Publications Clearinghouse should use the naming convention: "AGENCYACRONYM_LAR_FY##-##.” Submissions should be sent as a PDF-A file from a state of Texas government email account and preferably from the designated Agency.
Publications Liaison.
Sample Form for Cover and Title Sheet

Legislative Appropriations Request

for Fiscal Years 2022 and 2023

Submitted to the
Office of the Governor, Budget Division,
and the Legislative Budget Board

by

Department, Agency, Board, or Commission Name

Date of Submission
PART 1. STATEMENT, CHART, AND CERTIFICATION

ADMINISTRATOR’S STATEMENT

The Legislative Appropriations Request (LAR) is divided into parts identified by numbers and capital letters. Part 1 includes the Administrator’s Statement, an organizational chart, and Certification of Dual Submissions.

The agency administrator and/or governing board must include a statement in the LAR. The administrator’s statement must be entered into Automated Budget and Evaluation System of Texas (ABEST): see Preparing and Submitting Legislative Appropriations Request in ABEST (August 2020) available on the LBB website at www.lbb.state.tx.us/Agencies_Portal.aspx → Data Entry Applications → Instructions → Legislative Appropriations Request. Available space permits a maximum of 30,000 characters. This statement must include the names, terms of office, and hometowns of the members of the governing board. The statement must explain issues fundamental to the budget request, including the following:

- for agencies with programs identified in the policy letter as exceptions to the baseline request limitation, a description of the funding request for that program that is included in the 2022–23 baseline request, the factors involved in determining that funding level, and how that funding request differs from amounts estimated to be expended for that program in the 2020–21 biennium;
- significant changes in policy;
- significant changes in provision of service (e.g., client population, cost, efficiencies, technology, privatization, etc.);
- significant externalities (e.g., population changes, court orders, federal mandates, service demands, etc.), including a discussion of the impact of COVID-19 on the agency’s programs and allocation of resources and funding;
- purpose of any new funding being requested (e.g., comply with federal or state law requirements, resolve unforeseen budget problems, expand existing or establish new programs); and
- brief narrative summary explaining the approach the agency took to meet the requirements established in the policy letter.

The administrator’s statement should address exempt positions at the agency: requests to change existing positions’ titles, authorized salary levels, or group numbers; requests for new exempt positions; or requests for additional funding to increase exempt position salaries. The administrator’s statement should describe agency statutory authority to conduct background checks and actual agency practices or procedures regarding background checks. Additionally, the administrator’s statement should address any plans to transition to the statewide Enterprise Resource Planning (ERP) system, referred to as the Centralized Accounting and Payroll/Personnel System (CAPPS). If the agency has been identified by the Comptroller of Public Accounts (CPA) as an agency to transition to CAPPS during the 2022–23 biennium, the agency should determine and coordinate funding requests with CPA (also see Parts 4 and 5 of these instructions for additional information) and should work with the LBB analyst to address those requests.

NOTE

All agencies, institutions of higher education, and appellate courts and judicial agencies may include a maximum of four pages in graphics, such as charts or tables, along with the Administrator’s Statement. For instructions on how to include graphics with the Administrator’s Statement, see Preparing and Submitting Legislative Appropriations Request in ABEST, August 2020, available on the LBB website at www.lbb.state.tx.us/Agencies_Portal.aspx → Instructions → Legislative Appropriations Request.

ORGANIZATIONAL CHART

Provide an organizational chart that reflects the management structure of the agency. The organizational chart is not generated in ABEST. Although there is no standard format for the organizational chart, at a minimum, identify the following:

- oversight Boards or Commissions (Article II agencies should include the Executive Commissioner and Agency Councils);
- all functional units of the agency (with a brief description of each function);
- each management position by title; and
- the number of full-time-equivalent (FTE) positions directly supervised by that position.

**CERTIFICATION OF DUAL SUBMISSIONS**

The LAR is submitted electronically, both through ABEST and as a PDF document. The request submitted in ABEST is the official submission. A certification of the content of the dual submissions, and assurance that the ABEST submission and the PDF document are one and the same, shall be submitted as part of the PDF document. If there is a discrepancy between the ABEST submission and the PDF document, the ABEST submission will be presumed correct. The certification form is available on the LBB website at www.lbb.state.tx.us/Agencies_Portal.aspx → Data Entry Applications → Instructions → Legislative Appropriations Request → Certificate of Dual Submission.

If an office is headed by an elected official, the first assistant may sign for the elected official.
PART 2. SUMMARIES OF REQUEST

GENERAL INFORMATION
The Summaries of Request include seven reports. Four summarize the agency’s base request for fiscal years 2022 and 2023 and include data for fiscal years 2019, 2020, and 2021. The Summary of Exceptional Items Request lists each exceptional item and provides the total exceptional item request by method of finance (MOF). The final two provide the combined totals of the base and exceptional items requests and the corresponding outcome measure targets. The purpose of these schedules is to provide a high-level breakdown of the agency’s budget and performance measure by MOF, Object of Expense, and Strategy. These breakdowns provide transparency into the agency’s historical performance to allow a deeper analysis of the agency’s base and exceptional item requests in the upcoming biennium.

DATA ENTRY
The Summaries of Request consist of data for seven Automated Budget and Evaluation System of Texas (ABEST)-generated summaries. Draft versions can be generated at any time during data entry into ABEST. The agency must set the status of the request to Complete before generating a final copy to ensure there are no contradictions between sections of the request.

BUDGET OVERVIEW
This summary provides a concise overview of the agency’s estimated/budgeted expenditures for the 2020–21 biennium, and the base request for the 2022–23 biennium, both by strategy and MOF type. The schedule also shows the agency’s exceptional item requests by strategy, on an All Funds basis. This schedule is automatically generated in ABEST and will display aggregated amounts entered in other schedules. See the Budget Summary sample on page 1 of the Appendices.

2.A. SUMMARY OF BASE REQUEST BY STRATEGY
This summary totals the agency’s base-level appropriations request for fiscal years 2022 and 2023 by strategy and shows the request in context of the agency’s approved budget structure. It also contains information on fiscal year 2019 actual expenditures, including accruals and encumbrances, fiscal year 2020 estimated expenditures, and budgeted fiscal year 2021 expenditures. Expenditure amounts for fiscal year 2019 should incorporate any additions or reductions as passed in Senate Bill 500, Eighty-sixth Legislature, 2019. The Summary of Base Request by Strategy summarizes data entered in the strategy request and appropriations rider request. For fiscal years 2019 to 2021, appropriation rider expenditures are included in the strategy expenditure amounts. For requested fiscal years 2022 and 2023, prospective rider appropriation totals appear at the end of the summary. For fiscal years 2020 and 2021, the strategy amounts when totaled should equal, except for appropriation adjustments for updated data and the five percent reduction required by state leadership, the 2020–21 Base Reconciliation previously approved by the Legislative Budget Board (LBB) and the Office of the Governor, Budget Division. For all fiscal years, the strategy amounts by MOF when totaled must equal the Adjusted MOF Totals included in the Summary of Base Request by Method of Financing.

2.B. SUMMARY OF BASE REQUEST BY METHOD OF FINANCE
The summary of base request by MOF summarizes the agency’s base request for fiscal years 2022 and 2023 and enables the LBB and the Office of the Governor, Budget Division, to reconcile the original appropriation with the final expended or adjusted budget amounts for fiscal years 2019 to 2021.

The summary of base request by MOF included in the Legislative Appropriations Request (LAR) is similar to the summary of budget by MOF included in the Operating Budget. A similar exercise is also required for an agency’s Base Reconciliation, submitted before the LAR. Although each of these has differing submission periods, the information submitted for each should show

IMPORTANT
- Amounts reported for fiscal year 2019 include expenditures plus accruals and encumbrances payable for the fiscal year.
- Amounts reported for fiscal years 2020 and 2021 reflect the agency’s best estimate for anticipated expenditures.
- Historical expenditures for transferred programs should be reflected by the agency in which the expenditure was actually made.
- Be prepared to provide an explanation for any significant differences between the agency appropriations and expended amounts.
continuity. Review the information submitted previously to ensure you are completing the summary in a consistent manner. Be prepared to provide an explanation for any significant differences between the previous submissions and the LAR submission.

<table>
<thead>
<tr>
<th>IMPORTANT</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Be sure to show any authorized unexpended balances carried forward into the second year of the biennium, or between two biennia (from one biennium to the next), from each MOF.</td>
</tr>
<tr>
<td>• An agency purchasing goods or services from another state entity uses the original MOF (General Revenue Funds, Federal Funds, etc.). The agency acting as the vendor or provider of goods or services uses Interagency Contracts as the MOF.</td>
</tr>
</tbody>
</table>

Each MOF is assigned to a category of fund (General Revenue Funds, General Revenue–Dedicated Funds, Federal Funds, and Other Funds). Each MOF is detailed by Type of Appropriation (Regular, Rider, Transfers, etc.). See Categories of Funds and Types of Appropriation in the Method of Finance section beginning on page 22.

For each MOF, enter the Regular Appropriation amounts from each General Appropriations Act (GAA). Specifically, enter the Regular Appropriation amounts from the Conference Committee Report for Senate Bill 1, Eighty-fifth Legislature, Regular Session, 2017, for fiscal year 2019 and from the Conference Committee Report for House Bill 1, Eighty-sixth Legislature, 2019 for fiscal years 2020 and 2021. Both bills are available on the LBB website at www.lbb.state.tx.us/Legislative_Session.aspx. Use the drop-down options to change legislative session.

Adjustments to the Regular Appropriation amounts are made using other Types of Appropriation. These adjustments should include specific Article IX provisions, end-of-article Special Provisions, and agency-specific riders from the GAA; other appropriating legislation; and other adjustments, including the following:

- latest estimates of Federal Funds and federal reimbursements;
- changes in appropriations (including Earned Federal Funds) based on changes to revenue estimates;
- appropriating riders in agency bill patterns, and Special and General Provisions;
- Governor’s Veto Proclamation reductions;
- House Bill 2, Eighty-fifth Legislature, Regular Session, 2017; House Bill 3849, Eighty-fifth Legislature, Regular Session, 2017; House Bill 21, Eighty-fifth Legislature, First Called Session, 2017; House Bill 30, Eighty-fifth Legislature, First Called Session, 2017; Senate Bill 500, Eighty-sixth Legislature, 2019; House Bill 3317, Eighty-sixth Legislature, 2019; and any other legislation passed by the Eighty-sixth Legislature, 2019, that makes, reduces, or reclassifies appropriations to the agency;
- any funds that are specifically authorized for expenditure on agency operations such as appropriated unexpended balances authorized by agency riders; Article IX provisions, including salary adjustments; and legislation adopted by the Eighty-sixth Legislature, 2019, that makes, reduces, or reclassifies appropriations to the agency;
- budget reductions and transfers mandated by special provisions and general provisions in the GAA;
- executive orders; and
- lapsed funds.

The information in the report for fiscal years 2019 to 2021 should match, except for updated data and the five percent reduction required by state leadership, the 2020–21 Base Reconciliation previously approved by the LBB and the Office of the Governor. For all fiscal years, the Adjusted MOF Totals in the Summary of Base Request by Method of Finance must equal the total of the strategy amounts by MOF included in the Summary of Base Request by Strategy.

In addition to the MOF summary entered by the agency, the report also reconciles the full-time-equivalent (FTE) positions as reported in agency strategies. See the Method of Finance section and the Summary of Base Request by Method of Finance sample report on page 10 (Appendix 2.B.).
PART 2. SUMMARIES OF REQUEST

CHECKLIST ITEMS FOR SECTION 2.B. SUMMARY OF BASE REQUEST BY METHOD OF FINANCE

☐ Does the report reflect appropriate and specific Article IX provisions, end-of-article Special Provisions, agency-specific riders, and Governor’s vetoes?

☐ Does the report include all transfers, including interagency transfers?

☐ Does MOFs reconcile to the fiscal year 2019 and 2020–21 biennial MOF structure, as reflected in the Conference Committee Reports on Senate Bill 1 (May 2017) and House Bill 1 (May 2019)?

☐ Does the report include rider appropriations, such as certain unexpended balances carry-forward authority, and supplemental appropriations?

☐ Does the MOF reflect lapsed appropriations and revised receipts?

☐ Do Full-Time-Equivalent positions equal the sum of FTE positions in each strategy?

2.C. SUMMARY OF BASE REQUEST BY OBJECT OF EXPENSE

The summary by object of expense (OOE) summarizes the agency’s base request by object of expense codes to display the goods and services purchased by the agency. Eighteen objects of expense, as listed in Object of Expense Codes (www.lbb.state.tx.us/Agencies_Portal.aspx → Reference Documents → ABEST → Object of Expense Codes), will be used for this report. See Summary of Base Request by Object of Expense sample report on page 27 (Appendix 2.C.).

2.D. SUMMARY OF BASE REQUEST OBJECTIVE OUTCOMES

The summary of objective outcomes summarizes agency outcome measures. Enter actual and estimated performance for fiscal years 2019 and 2020, respectively. For budgeted fiscal year 2021, enter the agency’s current projected performance for each outcome measure. In instances where the current estimate is not the same as the 2021 targeted performance identified in the 2020–21 GAA, updating the current estimate does not constitute a request to change the target. See the Summary of Base Request Objective Outcomes sample report on page 30 (Appendix 2.D.).

2.E. SUMMARY OF EXCEPTIONAL ITEMS REQUEST

This summary uses data extracted from the Exceptional Item Strategy Request and the Summary of FTE positions ABEST screen. For each fiscal year, enter the number of FTE positions that are included in the Exceptional Item FTE positions totals that are funded entirely with Federal Funds. Do not include FTE positions that would be partially funded with Federal Funds in the line for Number of 100% Federally Funded FTE positions.

2.F. SUMMARY OF TOTAL REQUEST BY STRATEGY AND 2.G. SUMMARY OF TOTAL REQUEST OBJECTIVE OUTCOMES

These summaries correspond to the similarly titled base request summaries. Each displays the requested base level, the exceptional item amount, and the total of the base and exceptional items. No additional data entry is necessary.
METHOD OF FINANCE

The Summary of Base Request by Method of Finance Schedule identifies the sources from which funds have been appropriated, expended, budgeted, and requested.

GENERAL INFORMATION

The method of finance (MOF) section should identify all of the MOF codes from which funds have been appropriated, expended, budgeted, and requested. MOF codes are available on the LBB website (www.lbb.state.tx.us/Agencies_Portal.aspx→Reference Documents→ABEST→Method of Finance Codes). Agencies should consult their Legislative Budget Board (LBB) or Office of the Governor, Budget Division, analyst if there are questions about which MOF code to use for a particular source of funds.

The Summary of Base Request by Method of Finance allows the budget offices to reconcile the final expended amounts for fiscal year 2019, estimated expenditures for fiscal year 2020, and the budgeted amounts for fiscal year 2021 with the General Appropriations Act (GAA) for each year. To provide the necessary level of detail, this section should identify the MOF code for all amounts included in the Legislative Appropriations Request (LAR). The MOF code cited should reflect the fund category applicable to the year in which the amounts were appropriated. In addition, this schedule allows agencies to reconcile the number of full-time-equivalent (FTE) positions for each fiscal year. See Summary of Base Request by Method of Finance sample report on page 10 (Appendix 2.B).

Amounts for fiscal years 2019 to 2021 should match, except for updated data, those reported in the LBB and Governor approved 2020–21 Base Reconciliation as adjusted for the five percent reduction required by state leadership. Requested General Revenue Funds and General Revenue–Dedicated Funds baseline appropriations for 2022 and 2023 should not exceed the amounts established through the base reconciliation process and by the directives contained in the policy letter.

IMPORTANT

For each MOF, enter the Regular Appropriation amounts from the General Appropriations Acts. Specifically, enter the Regular Appropriation amounts from the Conference Committee Report on Senate Bill 1 (May 2017) for fiscal year 2019 and from the Conference Committee Report on House Bill 1 (May 2019) for fiscal years 2020 and 2021, which are available on the LBB website (www.lbb.state.tx.us→Budget→Budget Documents by Session).
CATEGORIES OF FUNDS
ABEST uses four categories of funds: General Revenue Funds, General Revenue–Dedicated Funds, Federal Funds, and Other Funds. Each MOF code is assigned to a particular category of fund, and ABEST subtotals amounts in the LAR by category of fund. See the LBB website for MOF codes (www.lbb.state.tx.us/Agencies_Portal.aspx → Reference Documents → ABEST → Method of Finance Codes).

GENERAL REVENUE FUNDS
This MOF includes all non-dedicated General Revenue Funds and accounts, and Earned Federal Funds.

DEFINITION, APPROPRIATION, REPORTING, AND AUDIT OF EARNED FEDERAL FUNDS

Pursuant to the General Appropriations Act, 2018–19 and 2020–21 Biennia, Article IX, Section 13.11, Earned Federal Funds are classified as collected revenue to the General Revenue Fund and included as part of MOF Code 001. Article IX, Section 13.11(b), shows the amount of General Revenue Funds appropriations contingent on the collection of Earned Federal Funds by agency.

The Summary of Base Request by Method of Finance Report should identify the incremental amount of Earned Federal Funds greater than or less than the amounts estimated in Article IX, Section 13.11(b) for fiscal years 2019, 2020 and 2021. If collections are anticipated to be less than appropriated amounts, a corresponding appropriation reduction to General Revenue Funds (identified as a Lapsed Appropriation adjustment) should occur. Likewise, if collections are anticipated to exceed appropriated amounts, a corresponding increase in General Revenue Funds appropriations should occur and be identified as a Rider Appropriation adjustment. Affected agencies receiving additional appropriation authority via this provision should review and comply with the notification and reporting requirements outlined in Article IX, Section 13.11(c) and (d). (See page 10 (Appendix 2.B.) Summary of Base Request by Method of Finance for an example.)

Pursuant to Article IX, Section 13.11(h), Earned Federal Funds collected for post-retirement health insurance should not be included in agency appropriations. Agencies currently including collections for post-retirement health insurance in General Revenue Funds appropriations will need to adjust the appropriation down by this amount. Agencies should contact the Employees Retirement System to determine amounts for retiree insurance.

Any unexpended and unobligated balances in General Revenue Funds appropriations contingent on Earned Federal Funds at the end of fiscal year 2020 may be carried forward into fiscal year 2021 and identified as a Rider Appropriation adjustment. Affected agencies should include unspent, unobligated amounts as a Lapsed Appropriation entry in the Summary of Base Request by Method of Finance Report.

• Earned Federal Funds include funds received as a reimbursement for previous expenditures and all Federal Funds received in connection with a federally funded program. These funds are treated as General Revenue Funds when the governing agreement does not require the funds to be spent on that program. Earned Federal Funds include, but are not limited to, indirect cost receipts and interest earned on advances of Federal Funds.

• Tobacco Settlement Receipts require the appropriate MOF codes for funds received as tobacco settlement receipts that are not dedicated.

GENERAL REVENUE–DEDICATED FUNDS
General Revenue–Dedicated Funds include all dedicated General Revenue Funds accounts. The MOF codes on the LBB website (www.lbb.state.tx.us/Agencies_Portal.aspx → Reference Documents → ABEST → Method of Finance Codes) incorporate changes made by House Bill 3849, Eighty-fifth Legislature, Regular Session, 2017, and House Bill 3317, Eighty-sixth Legislature, 2019, relating to the establishment and reestablishment of funds, and include a complete listing of the General Revenue–Dedicated accounts.

FEDERAL FUNDS
Federal Funds include all revenue received from the federal government that is not classified as Earned Federal Funds. The MOF code for most Federal Funds is 0555. Federal reimbursements related to natural disasters should be shown as Federal Funds. See the Federal Funds Supporting Schedule for additional information on how to add a new Catalog of Federal Domestic Assistance (CFDA) number in ABEST.

IMPORTANT
For all Federal Funds MOF codes, ABEST requires agencies to enter data at the federal program level using numbers assigned by the
OTHER FUNDS

Other Funds include Appropriated Receipts, Interagency Contract revenue, bond proceeds, and certain constitutionally or statutorily dedicated funds (which should be itemized using MOF codes available online at www.lbb.state.tx.us/Agencies_Portal.aspx → Reference Documents → ABEST → Method of Finance Codes).

**Appropriated Receipts** include all receipts—such as fees, reimbursements, and other revenue—received for an authorized service and appropriated to the agency, usually to offset costs of providing the service. The MOF code for Appropriated Receipts is 0666.

The Summary of Base Request by Method of Finance report should itemize Appropriated Receipts by specific appropriation authority, such as the 2018–19 GAA, Article IX, Section 8.02, Reimbursements and Payments; Section 8.03, Surplus Property; or Section 8.07, Appropriation of Collections for Seminars and Conferences.

**Interagency Contracts** include funds received from another state agency in exchange for services, material, or equipment through a written agreement. Unless directed otherwise by the budget offices, do not include transfer of funds from another state agency due to enactment of legislation that transfers programs. The MOF code for Interagency Contracts is 0777.

The MOF section in the Summary of Budget by Method of Finance should reflect the source of funds applicable to the fiscal year for which the amount was appropriated. An agency purchasing goods or services from another state entity uses the original MOF (General Revenue Funds, Federal Funds, etc.). The agency acting as the vendor or provider of goods or services uses Interagency Contracts as the MOF.

Agencies receiving criminal justice grants from the Trusteed Programs within the Office of the Governor, regardless of the original funding source, should identify those funds by using MOF Code 444, Criminal Justice Grants, which will be considered a type of Interagency Contract. Agencies should explain in the comments section the amount, purpose, and original funding source of each criminal justice grant.

**Bond Proceeds** include appropriated funds from authorized general obligation or revenue bond issuances. Agencies appropriated bond proceeds for new construction, rehabilitation, and repair projects may be required to submit supplemental information on budgeted projects, including project categories and descriptions (e.g., water and wastewater improvements, deferred maintenance, locations, and timelines).

TYPES OF APPROPRIATION

Appropriations have eight types. The Summary of Base Request by Method of Finance must include descriptions that identify the appropriation authority for every type of appropriation included in the LAR. See Summary of Base Request by Method of Finance sample report on page 10 (Appendix 2.B.) for sample descriptions.

**Regular Appropriations (RA)** include direct appropriations that are included in the agency’s MOF table in the relevant GAA. In the Summary of Base Request by Method of Finance, MOF codes are organized by category of fund (General Revenue Funds, General Revenue–Dedicated Funds, Federal Funds, and Other Funds). Regular Appropriations is the first entry in each MOF code, and all other entries are shown as adjustments to this amount. As previously indicated, for each MOF, enter the Regular Appropriation amounts from the GAAs. Specifically, enter the Regular Appropriation amounts from the Conference Committee Report on Senate Bill 1 (May 2017) for fiscal year 2019 and from the Conference Committee Report on House Bill 1 (May 2019) for fiscal years 2020 and 2021. The Conference Committee Reports are available on the LBB website (www.lbb.state.tx.us → Budget → Budget Documents by Session).

**Rider Appropriations (RI)** include amounts that are not specifically itemized in the agency’s MOF table in the GAA, but are appropriated to the agency by a general, special, or agency-specific provision of a GAA. General Provisions are in Article IX of the GAA; Special Provisions are at the end of certain articles; and agency-specific provisions are at the end of the agency’s bill pattern in the GAA.

For each fund or account, enter each Rider Appropriation made by the GAA for the agency. Each entry should reflect the amount stated in the rider as the sum-certain or estimated amount. Subsequent entries or adjustments must reflect increases or decreases to
the original rider amount. Enter the correct citation for each rider amount and adjustment. Note that the reference number for a rider in the GAA for one biennium may be different from the corresponding rider in the GAA for the next biennium.

Additional considerations include the following:

- Some riders provide estimated appropriation authority for revenue collections and/or unexpended balances, with the estimated amounts identified in the riders and included in the agency’s Regular Appropriations in the MOF table of the agency’s bill pattern. In cases where the actual amounts are greater than or less than the amount stated in the rider, show the incremental difference as a separate entry. If there are multiple revisions to an estimate resulting from different events, list each revision separately and show the same rider authorization for each. Appropriation reductions due to uncollected revenue may be shown either as a revised receipt Rider Appropriations adjustment or as a Lapsed Appropriation adjustment.

- In addition to riders in agency bill patterns, several provisions in Article IX of the GAA authorize agencies to increase or decrease appropriations. Examples of those most commonly used provisions to show adjustments to original appropriations include Article IX, Part 13, Federal Funds, and Article IX, Section 8.02, Reimbursements and Payments, in the 2018–19 and 2020–21 GAAs.

- Use caution when identifying appropriation adjustments related to a Capital Budget rider. Amounts shown in Capital Budgets are included in an agency’s MOF table. However, agencies may be authorized to carry forward unspent appropriations for a Capital Budget item. For example, Article IX, Section 14.03, Limitation on Expenditures – Capital Budget (2018–19 GAA), and Article IX, Section 14.03, Transfers – Capital Budget (2020–21 GAA) authorize agencies to carry forward unspent capital budget amounts from the first year to the second year of the biennium. Capital Budget riders in agency bill patterns may provide similar authority. Agencies should carefully evaluate whether authority exists to carry-forward unspent capital budget amounts.

- In cases when an appropriation is contingent upon certification by the CPA, include only the certified amount. If the entire appropriation is not certified, include the appropriation stated in the rider, then show a negative entry for the amount not certified. Note that there may be instances when the appropriation related to the certification is included in the Regular Appropriation in the MOF table. In these instances, do not enter the amount as a Rider Appropriation because such an entry will result in double-counting the appropriation.

Supplemental, Special or Emergency Appropriations (SU) may apply to any fund or account. Enter appropriation amounts made specifically by legislation other than the GAA. Subsequent entries or adjustments must reflect increases or decreases to the original supplemental or special appropriations amount. However, any lapses of supplemental or special appropriations should be entered as a Lapsed Appropriation adjustment type. Enter the correct authority for each adjustment.

Supplemental or special appropriations include, but are not limited to, the following:

- House Bill 2, Eighty-fifth Legislature, Regular Session, 2017;
- Senate Bill 500, Eighty-sixth Legislature, 2019; and
- Governor’s Veto Proclamation.

Appropriations referenced in the Governor’s Veto Proclamation should reflect their current status in the CPA’s Uniform Statewide Accounting System (USAS) and be shown as SU reductions as appropriate. Therefore, amounts related to the Governor’s vetoes must be negative entries in this category.

Governor’s Disaster/Deficiency/Emergency Grant (GV) requires the use of MOF Code 8000 (Other Funds) to report grant funds received from the Trusteed Programs within the Office of the Governor. These funds include any grant received pursuant to Article I, Trusteed Programs within the Office of the Governor, Rider 2, Disaster and Deficiency Grants (2018–19 and 2020–21 GAAs), which should be cited as the authority for these funds. MOF Code 8000 is also required to report any funds received from Trusteed Programs when the sources were the emergency appropriations made available by Article I, Trusteed Programs, Rider 3, Governor’s Emergency Appropriations (2018–19 and 2020–21 GAAs), which is the authority to cite for these funds. Entries
reported as a Governor’s Disaster/Deficiency/Emergency Grant (GV) will be treated similarly to Interagency Contracts for budget summary purposes.

**Transfers (TR)** include transfers affecting the agency for each affected fund and account. Enter funds received as a positive entry and funds transferred as a negative entry. Separately identify each transfer by authority and amount. All subsequent entries or adjustments must reflect increases or decreases to the original transfer amount. Transfers include funds transferred to the agency for expenditure by the agency (positive entry), and funds transferred from the agency for expenditure by another agency (negative entry). These transfers may be pursuant to a provision in the GAA, a budget execution order, or other statutory authority relating to the transfer of programs and funds between agencies. Transfers also may include appropriation increases or decreases required by legislation or Article IX provisions.

Both the receiving agency and the transferring agency should identify expenditures and budgeted amounts, including FTE positions, for transferred programs only for the years (or portion of a year) in which program funds were transferred. The receiving agency reports expenditures and budgeted amounts associated with transferred programs and related FTE positions. Both the transferring agency and the receiving agency should report the authorization for the program transfer. Program expenditures in years prior to the transfer should be shown at the agency that made the expenditures; receiving agencies should not recreate historical expenditures for a transferred program as if the program had existed at the receiving agency during those years. This direction applies to transferred programs for which appropriations are transferred between agencies, and to programs for which appropriations were made directly to the receiving agency.

Classify the following as transfers:

- budget reductions related to efficient use of state-owned and leased space, Article IX, Section 11.04 (2018–19 and 2020–21 GAAs), and lease savings, Article IX, Section 11.06 (2018–19 and 2020–21 GAAs);
- budget transfers authorized by contingency appropriation provisions — for example, Article IX, Section 18.97, Contingency House Bill 1422 (2020–21 GAA), which transfers the authority and appropriations for a particular program from one agency to another;
- funds transferred by a budget execution order (do not reference cases in which budget execution authority transfers funds between strategy items within the agency);
- disaster-related transfers authorized by Article IX, Section 14.04 (2018–19 and 2020–21 GAAs); and
- program transfers between agencies pursuant to legislation but not addressed in the GAA or other appropriation legislation.

Do not classify the following as transfers:

- benefit replacement pay and employee benefits, such as retirement, group insurance, Social Security, and post-retirement healthcare costs, should not be included in the LAR, except as directed in the following schedules:
  - Estimated Revenue Collections Supporting Schedule;
  - Federal Funds Supporting Schedule; and
  - Federal Funds Tracking Schedule;
- the 50.0 percent reimbursement paid to the Texas Workforce Commission (TWC) for unemployment benefits, pursuant to Article IX, Section 15.01 (2018–19 and 2020–21 GAAs). These are payments made from agency appropriations and should be treated as expenditures at the strategy level. Agencies that are required to reimburse TWC an additional 50.0 percent from unappropriated fund balances should likewise not show the additional 50.0 percent as a transfer or other adjustment in the Summary of Base Request by Method of Finance;
• amounts transferred pursuant to the Statewide Cost Allocation Plan, Article IX, Section 15.04 (2018–19 and 2020–21 GAAs), when transferred from appropriated funds, should be treated as expenditures;

• amounts transferred to the Health Professions Council pursuant to Article VIII, Special Provisions Relating to All Regulatory Agencies, Section 3, Funding for Health Professions Council (2018–19 and 2020–21 GAAs), when transferred from appropriated funds, should be treated as expenditures;

• payroll contributions for group health insurance authorized by Article IX, Section 17.03 (2018–19 and 2020–21 GAAs), when transferred from appropriated funds, should be treated as expenditures; and

• additional payroll contribution for retirement contribution pursuant to Article IX, Section 17.06 (2018–19 and 2020–21 GAAs), when transferred from appropriated funds, should be treated as expenditures.

Unexpended Balances (UB) are funds carried forward from a prior year’s appropriation as authorized by a specific provision in the GAA, or other legislative or constitutional authority. See Article IX, Section 6.01 (2018–19 and 2020–21 GAAs), for a complete definition. Agencies should include unexpended balances by MOF and indicate amounts unspent and unobligated as a negative entry in the first year and as a corresponding positive entry in the next fiscal year. If UB authority is provided by a rider or Article IX provision, it should be cited as a Rider Appropriation, as previously described. See Rider Appropriations and Summary of Base Request by Method of Finance example in Appendix 2.B. Otherwise, indicate the specific carry-forward authority, which typically is a designated MOF or strategy, and list it as a UB type of appropriation. Agencies with UB authority for bond proceeds must provide a reasonable estimate of unencumbered and unissued appropriation balances appropriated by prior legislatures.

For each fund and account, enter amounts for unexpended balances carried forward and cite the authority for each UB for that MOF. Subsequent entries, or adjustments, must reflect increases or decreases to the original UB amount. Enter the correct citation for each adjustment.

Base Adjustments (BA) include adjustments to estimated strategy appropriations or MOFs due to revised revenue receipts, changes in spending demands, or other updates to reflect actual appropriated amounts. Note that entries of this type should not include estimated appropriations for which the authority to adjust the amount is explicitly granted by an agency-specific rider, general provision, or special provision; those adjustments should be cited and entered as Rider Appropriations.

Lapsed Appropriations (LA) are amounts left unspent and unobligated at the end of a fiscal year. Lapsed appropriations within each fund and account should be identified as negative entries. Uncollected revenue may be shown as a lapse or a revised receipt in another appropriation type. Do not include amounts identified as unexpended balances. Include amounts that have lapsed as a negative entry by each applicable MOF code. Report any anticipated lapses for fiscal years 2020 and 2021.
FULL-TIME-EQUIVALENT POSITIONS

Agencies are required to submit summary information on full-time-equivalent (FTE) positions as part of the Summary of Base Request by Method of Finance. However, the Automated Budget and Evaluation System of Texas (ABEST) has a separate data entry screen for FTE positions information. As indicated in the Method of Finance and Strategy Request instructions, the number of FTE positions associated with the actual, budgeted, and requested amounts for each strategy should be identified. The sum of the FTE positions across all strategies must equal the Adjusted FTE position Total for each fiscal year included in the Summary of Base Request by Method of Finance.

The FTE positions summary follows the same format described previously for Methods of Finance (MOF) regarding the source for Regular Appropriation: an agency’s authorized cap as identified in the Conference Committee Report for Senate Bill 1 (May 2017) for fiscal year 2019 and the Conference Committee Report for House Bill 1 (May 2019) for fiscal years 2020 and 2021. Adjustments should be itemized following the Regular Appropriations using the remaining categories of appropriation type (Rider, Transfer, etc.) and specific authority for each. Adjustments include, but are not limited to, rider appropriations, special or general provisions, transfers due to implementation of legislation, or, for fiscal year 2019 only, joint LBB and Office of the Governor approval to exceed the FTE positions limitation. Numbers of FTE positions should be rounded to the nearest tenth.

In baseline requests for fiscal years 2022 and 2023, FTE positions requests should not exceed the cap for fiscal year 2021, as adjusted in an agency’s approved 2020–21 base reconciliation, unless otherwise instructed by the LBB and Office of the Governor, Budget Division, analysts.

Unless specific legislative exceptions have been made for an agency, the FTE positions number reported for fiscal year 2019 should be the actual quarterly average for the entire year, not only the final quarter. Total adjusted FTE positions reported as expended for fiscal year 2019 should equal the average of the four quarterly amounts of FTE positions or contractors reported to the Classification Division of the State Auditor’s Office (SAO). The FTE positions reports are available online at www.sao.texas.gov → Resources → Tools → Online Systems → Full-Time-Equivalent State Employee System.

Amounts estimated for fiscal year 2020 and budgeted for fiscal year 2021 should reflect the agency’s reasonable expectations for vacancies and other adjustments for each fiscal year. Enter the correct citation for each adjustment.

Two additional categories of appropriation types are unique to FTE positions:

- **Request to Exceed Adjustments (RE)** shows the incremental increase authorized by joint LBB and Office of the Governor approval of a request to exceed FTE limitations set forth in the 2018–19 General Appropriations Act (GAA), Article IX, Section 6.10, Limitation on State Employment Levels. If more than one approval has been made, list each increase separately. Approvals by the LBB and Office of the Governor must be consistent to be effective. If a difference between the increases approved by the two offices exists, the lower FTE cap increase would be effective. Review both approval letters to determine if there are any differences between the budget offices. Please note that RE adjustments would apply only to fiscal year 2019. Beginning in fiscal year 2020, Article IX, Section 6.10 no longer authorizes agencies to request approval from the LBB and Office of the Governor to exceed FTE limitations.

- **Unauthorized Number Over (Below) Cap (UN)** is entered to reflect any difference between the agency’s adjusted FTE positions cap and the actual number of FTE positions (in completed fiscal years) or budgeted FTE positions (in the current fiscal year) after all authorized adjustments to an agency’s cap have been entered.

**Note on Board or Administrator FTE Positions Adjustments:** Pursuant to Article IX, Section 6.10, Limitation on State Employment Levels (2018–19 and 2020–21 GAAs), without the written approval of the LBB or Office of the Governor, a state agency or institution of higher education may increase its FTE position cap by the lesser of 50.0 FTE positions or 10.0 percent of the position cap in its bill pattern. Show these adjustments as Rider Appropriations and use the appropriate ABEST dropdown selection.

**Number of 100 Percent Federally Funded FTE positions:** The number of 100 Percent Federally Funded FTE positions are the number of FTE positions that are included in the expended and budgeted totals that are funded entirely with Federal Funds. These
FTE positions are entered in the separate ABEST data entry screen for each fiscal year. Note that these FTE positions are not in addition to FTE positions entered in the summary of FTE positions, but rather just describe a portion of them. Do not include FTE positions that are partially funded with Federal Funds in these totals.
PART 3.A. STRATEGY REQUEST

The Strategy-level Detail Summary includes historical spending and current funding information, historical and projected performance levels, and the agency's description and justification of requested funding at the strategy level. The strategy request links the strategy components to statewide goals and service categories.

GENERAL INFORMATION

Strategy requests are the basic building blocks for the agency's budget request. Strategy requests set out the baseline funding requested by the agency.

ADDITIONAL INFORMATION FOR HIGHER EDUCATION INSTITUTIONS

Institutions of higher education that receive formula appropriations should not request amounts for the formula strategies.

DATA ENTRY

This summary is generated from the Automated Budget and Evaluation System of Texas (ABEST). Goals, objectives, strategies, and performance measures included in the Strategy-level Detail report must reflect the budget structure approved by the Office of the Governor, Budget Division, and the LBB. Refer to ABEST Instructions for Legislative Appropriations Request (August 2020) on the LBB website at www.lbb.state.tx.us/Agencies_Portal.aspx → Data Entry Applications → Legislative Appropriations Request Instructions for more detailed data entry instructions. To submit the final reports to be included in the Legislative Appropriations Request (LAR), set the general budget status to Complete.

SERVICE CATEGORIES

Refer to ABEST Instructions for Legislative Appropriations Request (August 2020) when assigning service category codes to strategies in ABEST. Assigned service category codes will appear on Strategy Request reports. Refer to Agency Reference Documents on the LBB website for Service Category codes (www.lbb.state.tx.us/Agencies_Portal.aspx → Reference Documents → Other → Service and Population Categories).

PERFORMANCE MEASURES

The Strategy-level Detail report documents an agency’s actual performance for fiscal year 2019, estimated performance for fiscal years 2020 and 2021, and requested performance levels for fiscal 2022 and 2023 for all performance measures; both key — those cited in the General Appropriations Act (GAA); and not key — those not included in the GAA, but that are a part of the agency’s approved strategic planning and budget structure). Projected performance should be the agency’s most current estimate, not necessarily the established target included in House Bill 1, Eighty-sixth Legislature, 2019 (published version of the 2020–21 GAA). Submission of the LAR does not constitute a request to change the targets established in the 2020–21 GAA.

OBJECTS OF EXPENSE

Enter strategy costs by the 18 objects of expense listed and defined in Object of Expense Codes on the LBB website (www.lbb.state.tx.us/Agencies_Portal.aspx → Reference Documents → ABEST → Object of Expense Codes). Incorporate all direct strategy costs and all capital budget costs allocated to the strategy. Refer to the Capital Budget section (beginning on page 47 of these instructions) for more detail on identification and allocation of capital budget expenditures.

METHOD OF FINANCE (MOF)

Enter each fund/account and amount used as a funding source for the strategy for expended 2019, estimated 2020, budgeted 2021, and requested 2022 and 2023. MOF codes are available on the LBB website at (www.lbb.state.tx.us/Agencies_Portal.aspx → Reference Documents → ABEST → Method of Finance Codes). Federal funding sources must be detailed by the Catalog of Federal Domestic Assistance (CFDA) number. See the Federal Funds Supporting Schedule for additional information and clarification regarding appropriate method of financing (MOF) and how to add a new CFDA in ABEST.

NUMBER OF FULL-TIME-EQUIVALENT POSITIONS

Identify the total number of full-time equivalent (FTE) positions associated with each strategy and rider appropriation for expended 2019, estimated 2020, budgeted 2021, and requested 2022 and 2023. Visit the State Auditor’s website for additional information concerning the calculation of FTE positions (www.sao.state.tx.us → Resources → Tools →Online Systems → Full-Time-Equivalent State Employee System).
TRANSFERRED PROGRAMS
Expended and/or budgeted amounts, FTE positions, and performance measure data of a transferred program should be shown by both the transferring and receiving agencies, depending on the fiscal year the program existed at the agency. Program expenditures, FTE positions, and performance measure data in years before the transfer should be shown at the agency that made the expenditures; receiving agencies should not recreate historical expenditures for a transferred program as if the program had existed at the receiving agency during those years. Both the transferring agency and receiving agency should report the authorization for the funds transfer for fiscal years 2019, 2020, and 2021 in the Summary of Base Request by Method of Finance only.

RIDER APPROPRIATIONS IN THE STRATEGY REQUEST.
As reflected in the Strategy Request example, appropriation and unexpended balance riders MOF information will be included in the Strategy Request report. The rider information for 2022–23 will be automatically uploaded from the rider information entered separately by the agency on a separate rider request screen in ABEST. Agencies should not enter appropriation and unexpended balance rider information directly into the Strategy Request section for the requested years 2022 and 2023. For the 2022–23 request, the final total will add the total MOF for the strategy to the total MOF for the rider appropriations.

STRATEGY DESCRIPTION AND JUSTIFICATION.
Provide a narrative description of each strategy, which must include each of the following items:

- specific statutory and/or constitutional provisions authorizing each strategy;
- functional activities and programs associated with the strategy;
- efforts to respond to court orders and/or federal mandates;
- relationship with other agency strategies and associated funding requirements;
- other factors justifying implementation of the strategy;
- new initiatives not currently funded or authorized; and
- means by which the strategy contributes to meeting primary agency goals and objectives and priority goals and benchmarks established in the Statewide Elements Document.

EXTERNAL OR INTERNAL FACTORS AFFECTING STRATEGY
Using the strategic plan as a starting point, each agency will describe external and internal factors affecting current and future strategy funding. Examples of external factors include: characteristics of conditions or target populations; federal requirements for state match or state maintenance of effort; current law and changes in federal or state law; the effects of court rulings and pending litigation; and the relationship of a strategy to a statewide effort affecting strategies in other agencies. Examples of internal factors include information resource technology limitations, agency reorganization efforts, and agency response to recent audit findings.

Explanation of Biennial Change. This section requires an agency to report detailed information describing the increase or decrease from the agency’s 2020–21 Base Spending amounts compared to the 2022–23 Baseline Request for each strategy. Agencies are required to enter incremental increases and decreases (All Funds) for each item that contributes to the biennial change, and to include an explanation for each adjustment. The explanation of each increase or decrease item must describe the All Funds amount by MOF category (General Revenue Funds, General Revenue–Dedicated Funds, Federal Funds, or Other Funds) and must identify any associated increase or decrease of full-time equivalents. Agencies will not be able to close or submit an ABEST report until these fields have been completed. The reported All Funds incremental increases and decreases must fully explain the entire Biennial Change amount for each strategy.

USE OF SUBSTRATEGIES IN THE LEGISLATIVE APPROPRIATIONS REQUEST
Agencies may be required by either the LBB or the Office of the Governor to submit detailed budget information for certain strategies by substrategy. Additionally, agencies deploying onto the Centralized Accounting and Payroll/Personnel System (CAPPs) during the 2020–21 biennium and/or 2022–23 biennium (with base request funding) should submit a substrategy schedule detailing their deployment costs and efforts. When required, complete the Substrategy Detail and Substrategy Summary spreadsheets provided in electronic format on the LBB and Office of the Governor websites. Spreadsheet forms must be emailed to the Office of
the Governor, Budget Division (budgetandpolicyreports@gov.texas.gov) and included in the searchable PDF submitted through the LBB Document Submissions application (docs.lbb.state.tx.us).

### CHECKLIST ITEMS

- Do the totals for object of expense and MOF balance for each strategy?
- Does the sum of the strategy requests equal the amounts shown in the Summary of Base Request by Strategy?
- Are rider appropriations, expenditures, and FTE positions for fiscal years 2019, 2020, and 2021 included?
- Have rider appropriations requested for fiscal years 2022 and 2023 been excluded from the Strategy Request?
- Is the CFDA number and the dollar amount in the heading Federal Funds in the MOF section?
- Does the Strategy Description and Justification reference the agency authority (e.g., statutory or constitutional)?
- Have the Explanation of Biennial Change entry and comments been completed?
- Have all applicable supporting schedules been completed to include with the Legislative Appropriations Request?
- For agencies deploying CAPPS in the 2020–21 biennium or 2022–23 biennium (with base request funding), are CAPPS deployment costs detailed in a substrategy?
PART 3.A.1. PROGRAM-LEVEL REQUEST

The Program-level Overview Schedule requires agencies to itemize requests by program within each strategy at an All Funds level and to rank each program by agency priority. For existing programs, agencies should utilize the program names used in the State Budget by Program process (http://sbp.lbb.state.tx.us/). Certain agencies may be contacted by either the Legislative Budget Board (LBB) or the Office of the Governor, Budget Division, to provide additional detail within a strategy for which State Budget by Program details require clarification.

GENERAL INFORMATION
This supplemental schedule applies to all agencies, including institutions of higher education. For the purposes of this schedule, a program may consist of an entire strategy or a subset of one or more strategies. A program is defined as an agency function, activity, or group of activities that meets one or more of the following criteria:

- is a named program, function, or activity (i.e., named in federal or state law, agency rules (Texas Administrative Code), or identified by a common name);
- is a group of activities intended to achieve a specified goal;
- is funded at 1.0 percent or more of the agency’s budget;
- is directly related to the core mission of the agency;
- is referenced in a rider;
- is a funding decision point for the Legislature; or
- is historically of interest to the Legislature or the public.

In addition to information provided for the State Budget by Program process, institutions of higher education should break apart Institutional Enhancement funds to identify the programs these funds are financing.

Agencies are encouraged to discuss the items with their LBB analyst and Office of the Governor, Budget Division, advisor before the final Legislative Appropriations Request (LAR) submission to ensure complete and accurate reporting.

DATA ENTRY
This spreadsheet form is provided in electronic format on the websites of the LBB and Office of the Governor and should be included in the PDF submitted through the LBB Documents Submissions application (docs.lbb.state.tx.us) and emailed to the Office of the Governor at budgetandpolicyreports@gov.texas.gov. See Appendix 3.A.1. for a sample form. (Spreadsheets are available on the LBB website at www.lbb.state.tx.us/Agencies_Portal.aspx → Data Entry Applications → Legislative Appropriations Request → Templates).

Strategy: Identify each strategy in alphanumeric order.

Program Priority and Name: For each strategy, identify each program allocated within that strategy. Rank each program based on the agency’s priority of that program (i.e. 1 through the total number of programs). If a single program crosses multiple strategies, the same priority number should be repeated under subsequent strategies. Provide the program name as used in the State Budget by Program. Consult with the assigned LBB analyst or Governor advisor regarding addition of new programs.

Legal Authority: For each program, identify the state and federal legal authority for the program. Information should be consistent with information entered in the State Budget by Program. In instances where a program is allocated across multiple strategies and is listed more than once, this information should be entered in the first row where the program is listed.

2020—21 Base: Identify the 2020—21 biennial expended/budgeted amounts for each program within each strategy. The total for all programs within the strategy should reconcile with the total for each strategy in Schedule 3.A Strategy Request.
Requested 2022, 2023, and Biennial Total 2022—23: For fiscal years 2022 and 2023, identify the total request (baseline request plus exceptional item requests) for each program within each strategy. The template will automatically calculate the biennial total for each program in a strategy. The total for all programs within the strategy should reconcile with total for each strategy in Schedule 2.F Summary of Total Request by Strategy.

Biennial Difference: The template will calculate the biennial increase or decrease by amount and percent for each program in a strategy.

Program Prioritization: In this text box, describe the approach taken to rank each program by agency priority. Agencies are not directed in these instructions to prioritize programs in any specific manner. Agencies may, but are not required to, consider ranking programs based on relevance to agency mission, overall statewide impact, impact to specific populations or stakeholder groups, and impact to revenues, among other factors.
PART 3.B. RIDER REVISIONS AND ADDITIONS REQUEST

The Rider Revisions and Additions Request form identifies all proposed revisions, deletions, and additions to agency riders in the 2020–21 General Appropriations Act (GAA). Definitions and descriptions of rider-related terms in this section are for the purpose of these instructions.

GENERAL INFORMATION

Information on the Rider Revisions and Additions Request form should reflect all proposed revisions, additions of new riders, and deletions to agency-specific riders contained in the 2020–21 GAA, including riders contained in an agency’s bill pattern, agency-specific riders contained in Article IX, General Provisions, and riders contained in the end-of-article special provisions. Use this form to identify rider revisions and additions for the base-level request. See Appendix 3.B. for a sample form.

Do not use this form to propose changes to non-agency-specific Article IX, General Provisions (2020–21 GAA), such as those impacting appropriation transferability, Appropriated Receipts and Interagency Contracts. These proposals, if any, should be included in the Administrator’s Statement.

This word-processing form is provided in electronic format on the LBB website (www.lbb.state.tx.us/Agencies_Portal.aspx → Data Entry Applications → Legislative Appropriations Request → Templates → 3.B. Rider Revisions and Additions Request) and the Office of the Governor’s website. This form should be included in the PDF submitted through the LBB Documents Submissions application (docs.lbb.state.tx.us).

IMPORTANT

The Rider Revisions and Additions Request:

- is for requesting additional riders, changing existing riders, and identifying riders for deletion;
- may be modified provided the basic information and structure are maintained; and
- should be submitted stating that no changes are needed if no changes to any riders are being requested.

KEY ELEMENTS AND ISSUES

Review all riders in the agency bill pattern, end-of-article special provisions, and agency-specific riders in Article IX, General Provisions (2020–21 GAA).

Riders may require revision due to statutory reference changes, technical corrections, changes in agency policy, or need for clarification. Legislative intent riders, if implemented or no longer applicable, may be proposed for deletion. Riders may be proposed for deletion if the agency believes those funds could more efficiently be used to support an alternate program or exceptional item.

Riders that make appropriations for sum-certain, estimated, or unexpended balance amounts may also require revisions. However, because these appropriation riders are funding requests for fiscal years 2022 and 2023, the associated dollar amounts must appear on the Rider Appropriations and Unexpended Balances Request form.

Riders that previously made contingency appropriations will need revision or deletion. These riders may have read, for example: “Contingent upon the enactment of House Bill 2728 or similar legislation, the Texas Lottery Commission is hereby appropriated [§__].” Contingency language in the rider must be amended if the rider is not deleted.

Lastly, language for newly proposed riders should be included.

COMPLETING THE FORM

For each proposal to revise or delete an existing rider in the 2020–21 GAA:

- list riders in ascending order (1., 2., 4., 6., etc.) using the corresponding rider number in the 2020–21 GAA; do not renumber riders;
• enter the page number on which the rider appears in the published 2020–21 GAA, including the article number (i.e., II-26); and

• enter the rider as it is written in the 2020–21 GAA. Strike out language proposed for deletion and underline language proposed for addition to the rider.

For each proposal to add a new rider:

• identify new riders by assigning consecutive numbers beginning with 701 (i.e., 701, 702, 703, etc.);

• enter only the article number in the page number column;

• enter the new rider language and underline the entire rider text; and

• if the rider would make an appropriation beyond amounts identified within a strategy, enter those amounts appropriated by the rider in the Rider Appropriations and Unexpended Balances Request Schedule.

Explain the proposed change(s) after each rider revision or addition, including the rationale for the request and how it would affect appropriations and activities compared to the 2020–21 biennium.

**CHECKLIST ITEMS**

☐ Are all rider changes and additions affecting the base level request included?

☐ If a rider would make an appropriation, are the dollar amounts for the rider included in the Rider Appropriations and Unexpended Balances Request for the base level request?

☐ If no rider changes are needed, has a form indicating this status been submitted?
PART 3.C. RIDER APPROPRIATIONS AND UNEXPENDED BALANCES REQUEST

The Rider Appropriations and Unexpended Balances Request Schedule:

- identifies all requests made by rider for sum-certain, estimated, and unexpended balance appropriations. It includes appropriation rider requests that are included in an agency’s bill pattern and those in Article IX, General Provisions of the 2020–21 General Appropriations Act (GAA); and

- assists in the process of certifying that appropriations included in the 2022–23 GAA are within available revenues. It assists budget writers and the Comptroller of Public Accounts in determining the amounts of all appropriations made in the GAA.

GENERAL INFORMATION

This schedule is generated from the Automated Budget and Evaluation System of Texas (ABEST). The Rider Appropriations and Unexpended Balances Request identifies all historical and prospective appropriations made by riders that are not identified in existing strategies. It should be used to identify rider appropriations for base level request only. See page 48 (Appendix 3.C.) for a sample report.

All requests for appropriations made by rider for the 2022–23 biennium must be included in this report if the sum requested is not identified in an existing strategy. These appropriating riders make appropriations in addition to amounts included in the strategies. In general, if the rider language is similar to any of the following examples, include the related appropriations and Method(s) of Finance (MOF) within the schedule. Also include any historical information related to the rider. Historical year data is for informational purposes only and will not result in double-counting the amounts included in the strategies. Rider appropriation requests must also be entered in ABEST. For more information, refer to ABEST Instructions for Legislative Appropriations Request (August 2020) on the Legislative Budget Board (LBB) website at www.lbb.state.tx.us/Agencies_Portal.aspx → Data Entry Applications → Legislative Appropriations Request Instructions.

Example – Sum-certain Appropriation (where the appropriation is a set amount): In addition to amounts appropriated above, $500,000 in fiscal year 2022 and $400,000 in fiscal year 2023 are hereby appropriated to the Sample State Agency from additional fees collected and deposited to the credit of the General Revenue Fund in accordance with the Texas Government Code, Section 441.138, to make disbursements to certain library systems.

Example – Estimated Receipts Appropriation (where the appropriation is an estimated amount): In addition to amounts appropriated above, all receipts collected and deposited to the credit of the General Revenue Fund in accordance with the Texas Government Code, Section 441.138, are hereby appropriated to the Sample State Agency for the purpose of making disbursements to certain library systems (estimated to be $350,000 in each fiscal year).

Example – Unexpended Balance Appropriation (where the appropriation is unspent balances from the previous biennium): There is hereby appropriated to the Sample State Agency an amount equal to the unexpended balance on hand from all fees and revenues collected pursuant to the Texas Government Code, Section 441.138, as of August 31, 2021, to be used for making disbursements to certain library systems (estimated to be $40,000).

Requests for unexpended balance (UB) authority for bond proceeds must include a reasonable estimate of unobligated (i.e., unencumbered) appropriation balances. Agencies must also include a UB rider (see example) and itemize the project(s) in the capital budget. Agencies may be required to provide supplemental information, including projected expenditure schedules.

Example – Unexpended Balances of Bond Proceeds for (Critical Repairs). In addition to amounts appropriated above, there is hereby appropriated all unexpended and unobligated balances remaining as of August 31, 2021, from appropriations made by the Eighty-sixth Legislature, Regular Session, 2019 (estimated to be $5,135,000).
The Texas Public Finance Authority (TPFA) will include debt service appropriations in its LAR submission for general obligation bonds that have been issued, and also for appropriated, but unissued bonds for which a Request for Bond Financing has been approved by the TPFA Board of Directors.

Exclude the following information from the schedule:

- transfers between strategies or agencies within the authority of specific riders;
- carry-forward of UBs between the first and second fiscal year of the biennium; and
- additional appropriation of federal receipts, either through agency-specific rider, end-of-article special provisions, and Article IX, General Provisions.

**DATA ENTRY**

Enter this information in ABEST. Refer to *ABEST Instructions for Legislative Appropriations Request* (August 2020) on the LBB website at www.lbb.state.tx.us/Agencies_Portal.aspx → Data Entry Applications → Legislative Appropriations Request Instructions.

**Appropriations:** For each requested rider making a sum-certain, estimated, or UB appropriation, including Special Provisions and Article IX, General Provisions (2020–21 GAA), do the following:

- identify the rider number, caption, and page numbers as indicated in the 2020–21 GAA. Assign a consecutive number beginning with 701 to each new rider (i.e., 701, 702, 703, etc.) to identify individual riders and include only the article number for the page number information; and
- list all strategies with amounts expended, estimated, budgeted, and requested for the respective fiscal years. If a rider directly results in a decreased expenditure or appropriation, indicate the reduction as a negative entry.

**Method of Finance:** For each rider, identify the source of funding in accordance with funds listed in *Method of Finance Codes* on the LBB website (www.lbb.state.tx.us/Agencies_Portal.aspx → Reference Documents → ABEST → Method of Finance Codes). Show total amounts for each fiscal year.

**Description/Justification:** For each rider explain the use of funds and why it is necessary to continue to increase or decrease funding. Also, identify the effects on performance and FTE positions for the 2022–23 biennium compared to the 2020–21 biennium.

**IMPORTANT**

- Appropriations requested by rider count toward limitations on requests from General Revenue Funds and General Revenue–Dedicated Funds established in the policy letter.
- Amounts requested for 2022–23 base level riders must be entered into the ABEST rider database. These amounts will appear on the Strategy Request Form.
- Rider amounts requested for 2022–23 should not be included in Strategy Request totals.
- Amounts for historical years should be included in the Summary of Base Request by MOF and in the Strategy Request totals. Identifying historical year amounts in this schedule will not result in double-counting the amounts included in the strategies.
CHECKLIST ITEMS

☐ Are amounts for fiscal years 2019, 2020, and 2021 included in the Summary of Base Request by Strategy and on the appropriate Strategy Request reports? (This information may not be relevant for new riders.)

☐ Are rider amounts for sum-certain, estimated, and UB appropriations for the 2022–23 biennium included in ABEST at the appropriate base request level?

☐ Are all FTE positions and performance projections for base level rider appropriations included in the appropriate base level strategies?

☐ Are all appropriating riders listed, including riders that are not listed in the Rider Revisions and Additions Form because they require no revisions?

☐ Has requested supplemental information regarding unobligated or unissued appropriation balances in General Obligation Bond Proceeds been submitted to the budget offices?
PART 4. REQUESTS FOR EXCEPTIONAL ITEMS

These schedules provide detailed information required for analysis of exceptional item requests for the upcoming biennium, including strategy, object of expense, Methods of Finance (MOF), and full-time-equivalent (FTE) positions.

GENERAL INFORMATION

These schedules are generated from the Automated Budget and Evaluation System of Texas (ABEST). Exceptional items are requests for funding of amounts greater than the baseline request. Funding for an exceptional item may be requested for one strategy or for allocation among several strategies.

To request exceptional items, agencies must complete the following ABEST-generated schedules:

- **4.A. Exceptional Item Request Schedule**—summarizes and describes the exceptional item request and identifies the strategies for which funding is requested.
- **4.B. Exceptional Item Strategy Allocation Schedule**—identifies how an exceptional item’s funding is allocated among strategies, and indicates how an exceptional item affects strategy and outcome measures.
- **4.C. Exceptional Item Strategy Request**—report providing exceptional item strategy request detail.

**IMPORTANT**

- Specify whether each exceptional item would continue an existing initiative or program or whether it would establish a new initiative during the 2022–23 biennium. If exceptional item funding would continue an existing initiative, agencies should identify when the program was established. Additionally, agencies should state whether requested exceptional item funds would be used to contract with an outside entity and, if so, name the type of contracted service or product (for example, information technology (IT), communications, etc.). Provide these details in the Description/Justification portion of Schedule 4.A. Exceptional Item Request Schedule.
- Exceptional items should be supported by a detailed description and justification clearly demonstrating the enhanced services or increased effectiveness of agency operations resulting from receipt of the item.
- Strategy allocation schedules associated with an exceptional item will equal the dollars and FTE positions requested for the exceptional item (in the Exceptional Item Request Schedule).
- If an agency believes the program or programs associated with an exceptional item being requested would more effectively serve taxpayers than an existing program within the agency’s base, the agency should use the narrative opportunities presented in the request to articulate a potential swap.
- If an exceptional item request contains components that meet capital budget definitions and requirements, the agency must detail this information in relevant capital budget schedules in addition to exceptional item schedules. Likewise, requests related to the Centralized Accounting and Payroll/Personnel System (CAPPS) statewide Enterprise Resource Planning (ERP) project, statewide data center services, cybersecurity projects, and legacy modernization projects should also be identified in the capital budget forms (see Part 5.A. on page 51 of these instructions).
- If an exceptional item request contains IT components, agencies should provide additional information, including a description and status of the new or existing project, outcomes and outputs, a detailed breakdown of budgeted and estimated IT costs, and a brief analysis of project alternatives, scalability and adjusted costs related to the scalability.
- If an exceptional item request anticipates out-year costs, agencies should provide a description of the anticipated costs, and an estimate of those costs for fiscal years 2024, 2025, and 2026.
- If an exceptional item request contains expected contracted costs of $50,000 or more, agencies should provide a description of the goods or services to be procured by contract, the type of contract to be awarded, and other necessary information.

**4.A. EXCEPTIONAL ITEM REQUEST SCHEDULE**

Each exceptional item must be submitted on an individual Exceptional Item Request Schedule. Agencies should:

- develop exceptional items in discrete, incremental amounts reflecting program areas, services, or other functions related to the agency’s bill structure;
• carefully consider, prioritize, and justify each exceptional item;
• name and prioritize the item;
• identify the strategies for which funding is requested;
• include detail for objects of expense, MOF, FTE positions, description/justification, and external/internal factors detail;
• ensure that amounts and FTE positions are submitted in increments, indicating quantities associated with the exceptional item only;
• specify whether requested funds would establish a new initiative or continue an existing program or initiative. If funding would continue an existing program, identify when the program was originally established;
• indicate whether the exceptional item request is scalable and identify any factors which may limit scalability; and
• indicate whether exceptional item funds would be used to contract with an outside entity. If so, provide a description of the contracted service or product.

For non-formula support items, institutions of higher education should also include information on the following in the description/justification:

• a description of major accomplishments of the non-formula support item to date and those expected during the next two years;
• if the non-formula support item existed prior to receiving non-formula support item appropriations, list the year it was established and describe how it was funded;
• if the non-formula support item is eligible to be funded within the formulas, indicate the formula amount that may be applied and the effective date(s); complete this entry for all applicable items, including all program development, enhancement, or start-up items;
• list all non-General Revenue Funds sources of funding and amounts for each year of the 2020–21 biennium for this non-formula support item and projections for the 2022–23 biennium; and
• describe the consequences of reducing or not funding this item; list other sources of funds that would be available to continue the program/project.

For IT components, agencies should also include the following information in the schedule:

• Description/Justification: describe the IT project related to the exceptional item and provide a detailed cost breakdown of the IT component, including the MOF that totals to the Estimated IT Cost for fiscal years 2020 through 2026;
• Prioritization of Cybersecurity and Legacy Systems (PCLS) Tracking Key: indicate the tracking key associated with the project as generated by SPECTRIM for the PCLS report;

• New or Current Project: indicate whether the project existed previously or if it is a new project;

• Status: describe the status of for current IT projects, including:
  o amounts appropriated, expended, or allocated, and allocation of FTE positions in both the 2020–21 and 2022–23 biennia;
  o the total expenditures to date and how funding was expended; and
  o any detail on changes in cost, schedule, or scope since the project was initiated.

• Outcomes: analyze the project cost factors related to the project’s anticipated return on investment (ROI), benefit, or gain;

• Outputs: describe the program- or system-related performance objectives and the measures that will gauge the project’s success;

• Project Type: include the type of project – CAPPS, cybersecurity, legacy modernization, PC replacement, application remediation for Data Center Services (DCS), any initiative defined as Anything as a Service (XaaS) or other;

• Alternative Analysis/Scalability: provide a brief analysis of alternatives with emphasis related to full and/or partial funding and indicate how the project is scalable by costs and/or duration (i.e., extending the project across multiple years); identify any factors which may limit scalability of the project.

• Estimated IT Cost: include the estimated and budgeted IT costs for fiscal years 2020 and 2021, if applicable; the requested IT costs for fiscal years 2022 and 2023; and the estimated IT costs for fiscal years 2024 through 2026, if applicable; and

• IT FTE positions: include the estimated, budgeted, and requested FTE positions related to the IT component for fiscal years 2020 through 2026, as applicable.

For anticipated out-year costs, agencies should provide:

• an estimate of the anticipated costs for fiscal years 2024 through 2026;

• a detailed description of the out-year costs, and whether they represent estimated implementation costs, ongoing program maintenance and/or administrative costs, or a combination; and

• any change in FTEs related to the out-year costs.

If implementing an exceptional item will involve making a contract award that will likely exceed $50,000, provide the following information about the potential contract or contracts:

• the percentage of the total exceptional item cost estimated to be expended on contracted goods or services;

• a description of the good or services to be procured by contract;

• the type of contract or contracts to be awarded (consulting, professional, construction, major information systems, other services, or goods);

• expected duration of the anticipated contract or contracts;

• anticipated method of procurement for the contract or contracts (e.g., sole source, proprietary, request for qualifications or proposal, etc.); and

- for consulting, professional, or other services, a description of the factors the agency considered to contract these services (e.g., cost-benefit analysis, identification of advantages and disadvantages, etc.).

See page 50 (Appendix 4.A.) for a sample schedule.

4.B. EXCEPTIONAL ITEM STRATEGY ALLOCATION SCHEDULE

Complete an Exceptional Item Strategy Allocation Schedule for each affected strategy using the following guidelines:

- provide detail for objects of expense, MOF, FTE positions, and performance measures;
- indicate how exceptional item funding would affect performance measures at the strategy request level;
- outcome, efficiency, and explanatory measures should be cumulative, including the base level strategy request; and
- output measures should be submitted in increments, indicating only the number of units associated with the exceptional item.

See page 53 (Appendix 4.B.) for a sample schedule.

4.C. EXCEPTIONAL ITEM STRATEGY REQUEST

Agencies must enter all requests for exceptional items into ABEST at the strategy level. Refer to ABEST Instructions for Legislative Appropriations Request (August 2020) on the LBB website (www.lbb.state.tx.us/Agencies_Portal.aspx → Data Entry Applications → Legislative Appropriations Request Instructions).

For each strategy, total the objects of expense, MOF, and FTE positions requested for exceptional items. Enter this information in ABEST on the same screen used for the base level request. Include the same detailed information used for the base level request, including: objects of expense, MOFs (all types), performance measures, and FTE positions. List exceptional items that affect the strategy.

Dollar amounts and FTE positions should be submitted in increments, indicating quantities associated with the strategy’s exceptional items only. Output measures should be submitted in increments, expressing the number of units associated with the effects of the exceptional items only. Strategy effects on outcome, efficiency, and explanatory measures should be cumulative, taking into account the base level strategy request.

CENTRALIZED ACCOUNTING AND PAYROLL/PERSONNEL SYSTEM (CAPPS) REQUESTS

Agencies with exceptional item requests related to CAPPS should identify their requests as discrete exceptional items. Additionally, all CAPPS-related costs should be included as a capital budget project under Capital Project Category Code 8000 CAPPS Statewide ERP System in both: (1) the Capital Budget Project Schedule – Exceptional; and (2) Capital Budget Allocation to Strategies by Project – Exceptional. All costs, including staffing-related expenses, should be identified as capital costs. See instructions in Part 5.A., Capital Budget Project Schedule (page 51 of these instructions).

Agencies requesting funds to support internal costs related to transition or deployment onto central CAPPS should provide sufficient detail of those costs within the Description/Justification section of Part 4.A. Exceptional Item Request Schedule. Agency internal costs to deploy onto central CAPPS typically include, but are not limited to:

- backfilling subject matter experts (SMEs) dedicated to agency deployment efforts (on average, 4 hours per day, 4 days per week);
- training services for agency-wide training efforts;
- programming services to modify agency internal interfacing systems;
- disposition of agency legacy data;
- IT efforts to meet minimum browser and network connectivity requirements; and
- travel costs for SME assignments and/or agencywide training efforts.
Agencies should indicate the amount included for each of the categories of costs listed and, if necessary, other costs to support their requests.

**CAPITAL BUDGET AND FACILITIES REQUESTS**

All relevant forms (Capital Budget, Federal Funds, Summary of Requests for Facilities-related Projects) must be completed for each exceptional item. In particular, if an exceptional item contains components that meet the definition and general requirements of a capital budget item, those costs should be identified in the two schedules: (1) Capital Budget Project Schedule – Exceptional; and (2) Capital Budget Allocation to Strategies by Project – Exceptional. See instructions in Part 5. Capital Budget (page 47 of these instructions), and Part 5.A., Capital Budget Project Schedule (page 51 of these instructions).

Agencies with requests for new construction, rehabilitation and repair projects are additionally required to submit the Summary of Requests for Facilities-Related Projects, which provides supplemental information such as project categories (e.g., new construction, health and safety, deferred maintenance, and maintenance), and descriptions. **Note:** If an agency is requesting funding through General Obligation Bond Proceeds or Revenue Bonds, debt service estimates must be included in the agency exceptional item request for bond proceeds. If the project is approved by the Eighty-seventh Legislature, 2021, bond proceeds will be appropriated to the requesting agency and debt service will be appropriated to the issuing agency or other appropriate agency. Contact the Texas Public Finance Authority (TPFA) for debt service estimates on bonds that would be issued by TPFA on behalf of TPFA client agencies.

**Capital Projects Undertaken Through the Texas Facilities Commission:** All agencies that anticipate undertaking a capital budget project — i.e., a project with a unit cost exceeding $100,000 — during the 2022–23 biennium through the services of the Texas Facilities Commission (TFC) must include a request for related appropriations in their capital budget submission. If TFC is to undertake a capital budget project on behalf of a requesting agency, the requesting agency must first have capital budget authority or other specific authorization for such projects.

**CHECKLIST ITEMS**

- Is an Exceptional Item Strategy Request Schedule included for each exceptional item?
- Are exceptional items prioritized and linked to agency and state strategic plans?
- Are supporting Exceptional Item Strategy Allocation Schedules included for each exceptional item?
- Do the total of all allocated dollars and the total of all allocated FTE positions equal the totals requested for the exceptional item?
- Is an Exceptional Item Strategy Request included for each strategy that would receive additional funding?
- Does the narrative justification provide detailed information to support each exceptional item request?
- Do the totals on the individual Exceptional Item Strategy Request schedules equal the totals on the Summary of Exceptional Item Request?
- Are capital budget costs within an exceptional item request, including costs related to an IT component, the CAPPs statewide ERP project, statewide data center services, cybersecurity projects, or legacy modernization projects, identified in relevant supporting capital budget schedules? (See Part 5.A., Capital Budget Project Schedule, on page 51 of these instructions).
☐ Are exceptional item requests for new construction, rehabilitation, and repair projects also identified in the Summary of Requests for Facilities-Related Projects Schedule?

☐ Does the exceptional item with an IT component include a description and status, PCLS Tracking Key, outcomes and outputs, project costs and FTE positions, and an alternative analysis for scalability with associated costs in Schedule 4.A?
PART 5. CAPITAL BUDGET

The summaries provide:

- the basis for developing capital budget riders in the General Appropriations Act (GAA) for projects with a unit or unified asset cost exceeding $100,000;
- current and historical capital expenditure detail; and
- information on future operating and maintenance costs associated with capital acquisitions.

GENERAL INFORMATION

The Capital Budget Supporting Schedules consist of five forms and reports generated from Automated Budget and Evaluation System of Texas (ABEST):

- 5.A. Capital Budget Project Schedule;
- 5.B. Capital Budget Project Information;
- 5.C. Capital Budget Allocation to Strategies;
- 5.D. Capital Budget Operating and Maintenance Expenses Detail; and

Additional ABEST-generated reports are required if an agency is requesting an exceptional item that contains components that meet the general definition and requirements of a capital budget project:

- Capital Budget Project Schedule – Exceptional (similar to Schedule 5.A); and
- Capital Budget Allocation to Strategies by Project – Exceptional (similar to Schedule 5.C).

The Capital Budget Supporting Schedules do not apply to higher education institutions or the 14 appellate courts.

Refer to ABEST Instructions for Legislative Appropriations Request (August 2020) for specific instructions related to ABEST-generated forms and reports.

IMPORTANT

- When the Legislative Appropriations Request (LAR) is submitted and includes a major information resources project, a Business Case and Statewide Impact Analysis must also be submitted to the Department of Information Resources, Comptroller of Public Accounts, Legislative Budget Board, and the State Auditor’s Office in accordance with the Texas Government Code, Section 2054.303. Refer to the Texas Project Delivery Framework at dir.texas.gov/View-Resources/Pages/Content.aspx?id=16 for additional information.
- Requests for new construction, rehabilitation and repair projects may require supplemental information including project categories (e.g., new construction, health and safety, deferred maintenance, and maintenance), location and timelines. See also Part 8, Summary of Requests for Facilities-Related Projects (page 87 of these instructions). Note: Debt service estimates must be included with an agency exceptional item request for bond proceeds. If the project is approved by the Eighty-seventh Legislature, 2021, bond proceeds will be appropriated to the requesting agency and debt service to the issuing agency or appropriate agency. Contact the Texas Public Finance Authority (TPFA) for debt service estimates on bonds that would be issued by TPFA on behalf of TPFA client agencies.

CAPITAL BUDGET PROJECTS DEFINED

Agencies itemize capital budget projects in 5.A. Capital Budget Project Schedule. A capital budget project is defined as:
• an item or asset with a unit cost exceeding $100,000; examples include a piece of machinery or building construction including, but not limited to: building additions, renovations, remodeling, improvements, repairs, and demolition; data center improvements; parking improvements and additions; and facility planning;

• similar or identical items with individual unit costs of less than $100,000 that constitute a functionally unified asset or asset improvement; such items must be grouped together and considered a capital budget project for the purposes of Schedule A if the aggregate cost of the items exceeds $100,000. For example:
  - unified asset: when grouped together, the replacement of 75 personal computers as a group or separately during the biennium, each with a unit cost of $2,000, exceeds the $100,000 threshold; as a result, the computers should be identified as a capital project;

• agency IT infrastructure: hardware purchases or leases should be aggregated to determine if the $100,000 threshold is met; follow the same guideline for software purchases and telecommunications purchases and leases;

• assets acquired from consultants/contracted service providers: information resource technologies or other assets developed or acquired through a consultant or contracted services; this definition applies to assets that will ultimately be owned by a state agency, regardless of whether the asset is operated by a state agency or a contractor; examples include:
  - a consultant designs a generic licensing system that a state agency will own, operate, and maintain; and
  - a state agency contracts with a vendor to provide automated fraud detection services; when the contract for services ends, the state agency owns the automated system;

• treatment of leased information resource technologies: leased equipment or software that constitute or are components of a functionally unified asset should be viewed as part of the total capital budget project cost and treated like cash purchases of information resource technologies; examples include:
  - an information resource technology project requires the addition of computer hardware to support new software. The agency determines that leasing the equipment is more cost-effective than a cash purchase, and the project would be considered a functionally unified asset. As a result, the agency should include the annual lease cost in the capital budget project; and
  - an agency determines that it is cost-effective to lease its personal computers. If the annual lease cost for these personal computers exceeds $100,000, the lease would be considered a functionally unified asset and should be included in capital budget schedules; and

• pooled asset: vehicle purchases, regardless of whether they are purchased separately or as a group, should be included in the capital budget request if the aggregate purchase cost exceeds $100,000.

IMPORTANT

• Agencies with projects that are also identified for the Department of Information Resources’ Prioritization of Cybersecurity and Legacy Systems Projects (PCLS) report should identify the PCLS Tracking Key in Schedule 5.B. Capital Budget Project Information.

• Agencies utilizing the Centralized Accounting and Payroll/Personnel System (CAPPS) statewide Enterprise Resource Planning (ERP) system and other agencies requesting appropriations to deploy or implement CAPPS are required to include CAPPS-related expenditures and appropriations requests in the capital budget submissions. Refer to Part 5.A. of these instructions (page 51) for information on identification of CAPPS requests. In addition, agencies are reminded that certain information must be submitted to the Comptroller of Public Accounts for ERP systems to ensure that those systems are consistent with statewide ERP goals. Agencies should submit the required information using the one-page Agency ERP Project Request form at comptroller.texas.gov/forms/74-222.pdf.

• Additional provisions related to capital budgets are in Article IX, Section 14.03 (2020–21 GAA).

• Any information resource technology project that uses internal staff only shall not be considered a capital budget project. However, the costs for internal staff should be reported in the informational detail section of the Biennial Operating Plan.
ANCILLARY CAPITAL COSTS

Typically, any expenditure directly related to the acquisition of an asset or to the placing of an asset in service shall be included in the cost of a capital budget project. Internal staff costs, although not a capital expense, may be identified within the informational detail of a capital budget project. The costs of a capital budget project should include costs related to the acquisition of information resource technologies, such as the purchase, lease, lease-purchase, or contract of:

• software;
• hardware and computer time;
• facility resources;
• maintenance and training required or necessary to put the asset in service;
• contracted computer services; and
• information resource technologies developed and used by a contractor, but owned or leased by a state agency.

For example, the costs associated with consultant and non-consultant contracts for the creation, design, or development of computer software, if directly related to the acquisition of the software or necessary to place the software in service, should be included in the cost of that information resource technology project. Other examples of such expenditures include freight or installation charges incurred to acquire a major facility equipment or survey fees incurred as part of a land acquisition.

INFORMATIONAL ALLOCATION OF NONCAPITAL COSTS

Occasionally certain costs may be identified that are similar to ancillary capital costs but do not require the restrictions associated with the capital budget. Such costs may be identified as noncapital informational costs within the related capital budget projects. Such costs would not be included in the capital budget rider.

For example, an agency contracting with one or more construction managers to supervise parts or phases of a large construction project may additionally choose to contract with an independent validation and verification (IVV) consultant for advice on oversight of the multiple contracts. The agency may choose to pay the IVV consultant from regular operating funds and show the expenditure in the LAR as an informational allocation of noncapital costs. Refer to ABEST Instructions for Legislative Appropriations Request (August 2020) for instructions on entering data for noncapital informational items. Noncapital informational costs are identified separately in capital budget ABEST reports. See page 54 (Appendix 5.A.) Capital Budget Project Schedule.

Unless otherwise directed, ongoing agency activities such as facilities planning and computer training after the asset has been put in place are not to be treated as capital expenditures and should not be included in the Capital Budget Project Schedule.

CLASSIFICATION OF CAPITAL BUDGET PROJECTS

Classify capital budget projects using the following categories:

• Acquisition of Land and Other Real Property (except for right-of-way purchases made by the Texas Department of Transportation);
• Construction of Buildings and Facilities;
• Repairs or Rehabilitation of Buildings and Facilities;
• Construction of Roads (except for such expenditures made by the Texas Department of Transportation);
• Acquisition of Information Resource Technologies;
• Transportation Items;
• Acquisition of Capital Equipment and Items;
• Lease Payments to the Master Lease Purchase Program (for items acquired in fiscal years 2017 and earlier);
• Data Center Consolidation;
• CAPPs Statewide ERP System;
• Cybersecurity Projects; and
• Legacy Modernization.

See Definitions of Capital Expenditure Categories beginning on page 58 of these instructions.

**CYBERSECURITY AND LEGACY MODERNIZATION PROJECTS**

Agencies’ information technology projects may address both security concerns and modernization of legacy applications simultaneously. However, agencies must categorize the project under either capital project category code 9000 Cybersecurity or 9500 Legacy Modernization. Agencies should consider the following guidance when determining the category in which to classify projects:

- **Cybersecurity projects** should include projects related to the protection of computer systems from the theft and damage to their hardware, software or data, and from disruption or misdirection of services. Projects should:
  - have the primary purpose or driver of improving the agency’s cybersecurity, or possess a significant focus on the enhancement of the organization’s cybersecurity; and
  - address or improve the organization’s capability to identify, detect, protect, respond, or recover from cybersecurity events, threats, and vulnerabilities.

- **Legacy modernization projects** should include projects that have the primary purpose or driver of modernizing or replacing a computer system or application which is currently operating with obsolete or inefficient hardware or software, as defined in the Government Code, Section 2054.571.
PART 5.A. CAPITAL BUDGET PROJECT SCHEDULE

The Capital Budget Project Schedule:

- itemizes capital budget projects requested for 2022–23;
- classifies capital budget projects into defined categories;
- provides information on historical and budgeted expenditures, method of financing, and type of financing for capital budget projects.

GENERAL INFORMATION

Estimated, budgeted or requested amounts for each capital budget project must be itemized for fiscal years 2020 to 2023. The fiscal year 2020 column itemizes estimated expenditures for capital budget projects. The fiscal year 2021 column itemizes budgeted expenditures for capital budget projects. If a project appropriation was made for fiscal year 2020, and it is anticipated that unexpended balances will be carried forward into fiscal year 2021 to complete the project, indicate that amount in the fiscal year 2021 column. The fiscal year 2022 and 2023 columns itemize capital budget projects requested in those fiscal years. See Appendix 5.A. for a sample schedule.

This report does not apply to institutions of higher education or the 14 appellate courts.

Any object of expense code from the Automated Budget and Evaluation System of Texas (ABEST) may be used for capital costs or for noncapital informational costs, with the exception that 5000 may not be used for noncapital costs. The object of expense codes should detail asset acquisition costs and noncapital expenditures incurred in the acquisition or required to place the asset in service.

Examples of noncapital expenditures to include in the capital budget project schedule include:

- design consultant services for construction projects or acquisition of information resource technologies;
- surveying fees incurred as part of a land acquisition;
- installation costs (for example, remodeling required to house a mainframe computer);
- costs for Data Center Services (DCS) provided by the Department of Information Resources as authorized by the Texas Government Code, Chapter 2054, Subchapter L; and
- ongoing maintenance costs related to implementation of the statewide Enterprise Resource Planning (ERP) system known as the Centralized Accounting and Payroll/Personnel System (CAPPS), including CAPPS-hub systems. Identification of costs is covered in this section.

Examples of noncapital expenditures to exclude from the capital budget project schedule:

- cost of additional full-time-equivalents to operate a newly constructed prison; and
- utility, grounds maintenance and other operating costs for a new facility.

Use Method of Finance (MOF) codes for each project entry. The MOF should detail the source of funding by fund/account number(s):

- use MOF Code 0780 for General Obligation Bond proceeds; and
- use MOF Code 0781 for Revenue Bond proceeds.
Use Type of Financing (TOF) codes to indicate the type of financing proposed for each project. Types of financing codes are:

- CA – Current Appropriations
- GO – General Obligation Bonds
- RB – Revenue Bonds
- ML – Master Lease Purchase Program (MLPP)
- LP – Other (non-MLPP) Lease-Purchase

**IMPORTANT**

- For capital items within the category Acquisition of Information Resource Technologies, project names should be identical to project names used in the agency’s Biennial Operating Plan.
- Agencies participating in Data Center Services (DCS) as defined by the Texas Government Code, Chapter 2054, Subchapter L. Statewide Technology Centers, must complete a capital budget project schedule.
- Information submitted in ABEST for the Biennial Operating Plan (BOP) should be consistent with data submitted in the Legislative Appropriations Request (LAR) for CAPPs initiatives, cybersecurity projects, and legacy modernization projects.

**CENTRALIZED ACCOUNTING AND PAYROLL/PERSONNEL SYSTEM (CAPPs): STATEWIDE ENTERPRISE RESOURCE PLANNING PROJECT**

All CAPPs estimated/budgeted expenses in fiscal years 2020 and 2021 and requests for fiscal years 2022 and 2023 should be identified in capital budget submissions as Capital Project Category Code 8000 CAPPs Statewide ERP System. Affected agencies should identify all costs, including staffing costs, as capital expenses. Additionally, agencies implementing CAPPs hub systems should include all ongoing costs to support and maintain the systems.

Pursuant to the Texas Government Code, Section 2101.036, the Comptroller of Public Accounts (CPA) may identify certain agencies to transition to the central CAPPs system during the 2022–23 biennium. These agencies should identify in capital budget submissions any requests to fund costs for internal needs that arise from deployment. Agency costs to deploy onto central CAPPs typically include:

- backfilling subject matter experts (SMEs) dedicated to agency deployment efforts (on average, 4 hours per day, 4 days per week);
- training services for agency-wide training efforts;
- programming services to modify agency internal interfacing systems;
- disposition of agency legacy data;
- IT efforts to meet minimum browser and network connectivity requirements; and
- travel costs for SME assignments and/or agency-wide training efforts.

The entire request should be included as a capital budget project under Project Category Code 8000 CAPPs Statewide ERP System. Costs should be identified as capital expenses. Agencies that estimate their biennial deployment costs to be $100,000 or less and that are absorbing those costs within their baseline requests are not required to include a capital project. However, agencies that are reallocating CAPPs deployment funding from the 2020–21 biennium for continued deployment costs in the 2022–23 biennium should submit a capital project budget item.

Agencies should only include their CAPPs costs that arise from deployment. CPA’s capital budget submissions will identify the costs for ongoing modification, maintenance, and support of CAPPs.

Agencies should coordinate their deployment plans with CPA.

**Hub Agencies:** Agencies that have either previously implemented or are requesting to implement CAPPs as a separate, agency-managed system (typically referred to as a CAPPs hub system) should identify all expenditures and requests for CAPPs in their
capital budget submissions. Requests should include, as applicable, development and deployment costs and costs for ongoing maintenance and support of the CAPPS hub systems. Costs should be identified as capital expenses.

**Payments for Converted PeopleSoft Licenses:** Additionally, agencies (Office of the Attorney General, Health and Human Services Commission, Texas Education Agency, Department of Housing and Community Affairs, Texas Department of Transportation, and the Texas Workforce Commission) that make payments to the CPA for converted PeopleSoft licenses used for internal accounting systems should identify these costs in capital budget submissions.

**CAPITAL PROJECTS UNDERTAKEN THROUGH THE TEXAS FACILITIES COMMISSION**

All agencies that anticipate undertaking a capital budget project — i.e., a project with a unit cost exceeding $100,000 — during the 2022–23 biennium through the services of the Texas Facilities Commission (TFC) must include a request for related appropriations in their capital budget submission. If TFC is to undertake a capital budget project on behalf of a requesting agency, the requesting agency must first have capital budget authority or other specific authorization for such projects.

**SPECIAL INSTRUCTIONS FOR MASTER LEASE PURCHASE PROGRAM (MLPP) ACQUISITIONS AND OTHER LEASE-PURCHASE PAYMENTS**

**New Acquisitions:** Agencies that are requesting to finance new capital acquisitions through MLPP financing or another lease-purchase agreement should indicate the projected lease payment obligations for each acquisition in fiscal years 2022 and 2023. Acquisitions must be assigned the appropriate capital expenditure category in ABEST (e.g., Acquisition of Information Resource Technologies, Transportation Items, Acquisition of Capital Equipment and Items, etc.). Additional information for new acquisitions should be provided in 5.B. Capital Budget Project Information, such as the estimated or actual project cost and length of the proposed financing period.

**MLPP or Lease Purchase Payments for Prior Acquisitions:** Agencies with obligations for MLPP or other lease purchase payments for acquisitions made in fiscal year 2021 or earlier should provide the total lease payment obligations for each applicable year for those acquisitions. The MLPP payments should be categorized as Lease Payments to the Master Lease Purchase Program (Capital Expenditure Category code 5008) and identified as MLPP Acquisitions (2016–17), (2018–19), or (2020–21) as appropriate. The amounts for other lease-purchase agreements should be assigned to the appropriate capital expenditure category in ABEST (e.g., Acquisitions of Information Resource Technologies, Acquisition of Equipment and Items, etc.).

Do not detail the MLPP or other lease purchase items acquired from prior fiscal years or budgeted for fiscal year 2021 in 5.B. Capital Budget Project Information.

---

**IMPORTANT**

Additional provisions related to the Master Lease Purchase Program can be found in Article IX, Section 12.04 of the 2020–21 General Appropriations Act.

**DATA ENTRY**

Enter this information in ABEST. Refer to *ABEST Instructions for Legislative Appropriations Request* (August 2020) on the LBB website (www.lbb.state.tx.us/Agencies_Portal.aspx → Data Entry Applications → Instructions → Legislative Appropriations Request).

Assign capital budget projects to appropriate capital expenditure categories. After entering the estimated, budgeted or requested amounts for each project for fiscal years 2020 to 2023, the ABEST report will group projects by category and calculate subtotals. See page 54 (Appendix 5.A.) for a sample report.

**CAPITAL EXCEPTIONAL ITEM REQUESTS**

Part 5.A. Capital Budget Project Schedule identifies capital budget requests included within an agency’s baseline request. A corresponding schedule, Capital Budget Project Schedule – Exceptional, identifies capital budget requests included within an exceptional item request. Agencies should identify any capital budget costs included within an exceptional item request in this schedule. All requests related to the CAPPS statewide enterprise resource planning system should be included in this schedule.
CHECKLIST ITEMS

- Were capital acquisitions reviewed to determine whether they should be included in the Capital Budget Project Schedule? (This category includes past, present, and future acquisitions and Master Lease Purchase Program (MLPP) agreements).

- Were MLPP amounts categorized as Lease Payments to the Master Lease Purchase Program (capital expenditure category 5008)?

- Were capital budget costs included within an exceptional item request, including IT components of the request, identified in the corresponding Capital Budget Project Schedule – Exceptional?

- Were estimated, budgeted, and requested expenditures related to DCS and CAPPS identified in this schedule or the corresponding Capital Budget Project Schedule – Exceptional?

- Were requests for new construction, rehabilitation and repair projects also identified in the Schedule 8 Summary of Requests for Facilities-Related Projects?
PART 5.B. CAPITAL BUDGET PROJECT INFORMATION

The Capital Budget Project Information Schedule provides additional information on capital budget projects requested for 2022–23, such as project description, unit cost, estimated completion date, and estimated useful life. The schedule includes information for projects that require funding for more than one biennium.

ENTERING DATA TO GENERATE THE REPORT

This schedule is generated from the Automated Budget and Evaluation System of Texas (ABEST). See page 57 (Appendix 5.B.) for a sample report.

This report does not apply to institutions of higher education or the 14 appellate courts.

Enter data for the schedule only for projects for which funding is requested in fiscal years 2022 and 2023. For each entry, list category and project name and number as identified in the Capital Budget Project Schedule. Complete Item 1, Project Description, a) to f), as follows:

1. Project Description:
   a) General Information: Describe the project and its relationship to the objectives of the agency’s strategic plan and discuss potential consequences of postponing the requested capital project;
   b) PCLS Tracking Key: indicate the SPECTRIM-generated Prioritization of Cybersecurity and Legacy Systems Projects (PCLS) report tracking key associated with the project;
   c) Number of Units/Average Unit Cost: List number of units and average unit cost (required only if the project represents a grouping of identical or similar items);
   d) Estimated Completion Date/Additional Capital Expenditure Amounts: Show estimated project completion date and additional capital expenditure amounts necessary to complete the project (required only if the project will be partially completed with the funds requested for fiscal years 2022 and 2023);
   e) Type of Financing: Indicate specific type of financing (ML, LP, GO, RB, CA) for the project;
   f) Projected Useful Life: Identify projected useful life of the project in years.

Complete (g) and (h) if the proposed type of financing is MLPP, lease-purchase, general obligation or revenue bonds. If not applicable, enter N/A:

   g) Estimated/Actual Project Cost: Identify estimated or actual acquisition or completion cost. If a project represents a grouping of items, provide total estimated or actual cost for all items. Include only cash purchase costs; do not include interest or finance charges.
   h) Length of Financing/Lease Period: Identify length of proposed financing in years. Enter information for each applicable item as directed in the next steps.

2. Estimated/Actual Debt Obligation Payments: Identify all estimated or actual payments (principal and interest or, as appropriate, lease-purchase) payable for fiscal years 2022 to 2025 and the estimated or actual total of all cumulative costs paid during the term of the obligation. Do not include operating expenses.
3. Revenue Generation/Cost Savings: Identify and explain revenue generation and/or cost savings anticipated as a result of completing or acquiring the capital project. Provide information on an average fiscal year basis and indicate the affected fund or account by method of finance code.
4. Project Location: Identify city or region of the state.
5. Beneficiaries: Identify government and public users of project.
6. Frequency of Use and External Factors Affecting Use: Identify (1) frequency of use of the project asset(s) and (2) forces outside agency control affecting the need for and/or use of the project.
PART 5.C. CAPITAL BUDGET ALLOCATION TO STRATEGIES

IMPORTANT

ABEST data entry for this schedule is still required; however, this schedule is no longer required to be submitted as part of an agency’s printed Legislative Appropriations Request submission.

The Capital Budget Allocation to Strategies Schedule identifies the amount of funding in each strategy associated with a particular capital budget request.

GENERAL INFORMATION

This schedule is generated from the Automated Budget and Evaluation System of Texas (ABEST). Allocate the cost of capital budget projects to one or more strategies. For fiscal years 2020 and 2021, allocate to the strategy(ies) in which the project is budgeted; for fiscal years 2022 and 2023, allocate to the strategy(ies) in which funding for each project is requested. The ABEST report will organize them by category and provide subtotals by project and a total of all projects.

This report does not apply to institutions of higher education or the 14 appellate courts.

DATA ENTRY

Enter this information in ABEST. Refer to Preparing and Submitting Legislative Appropriation Requests in ABEST (August 2020) on the LBB website (www.lbb.state.tx.us/Agencies_Portal.aspx → Data Entry Applications → Instructions → Legislative Appropriation Request).

CAPITAL EXCEPTIONAL ITEM REQUESTS

Schedule 5.C. Capital Budget Allocation to Strategies identifies capital budget requests included within an agency’s baseline request. A corresponding schedule, Capital Budget Allocation to Strategies by Project – Exceptional, identifies capital budget requests included within an exceptional item request. Agencies should identify any capital budget costs included within an exceptional item request in this schedule.

CHECKLIST ITEMS

☐ Are estimated, budgeted, and requested amounts that are identified in 5.C. Capital Budget Allocation to Strategies included in the appropriate strategy request forms?

☐ Do totals shown in 5.A. Capital Budget Project Schedule equal totals in 5.C. Capital Budget Allocation to Strategies?

☐ Do 5.A. Capital Budget Project Schedule and 5.C. Capital Budget Allocation to Strategies include all ongoing Master Lease Purchase Program obligations in fiscal years 2022 and 2023 for capital items lease-purchased in prior years, or planned for purchase in fiscal year 2021?

☐ Do 5.A. Capital Budget Project Schedule and 5.C. Capital Budget Allocation to Strategies include all capital budget projects funded or anticipated to be funded through Interagency Contracts?

☐ Are capital budget costs included within an exceptional item request identified in the Capital Budget Allocation to Strategies by Project – Exceptional schedule?
PART 5.D. CAPITAL BUDGET OPERATING AND MAINTENANCE EXPENSES DETAIL

IMPORTANT
ABEST data entry for this schedule is still required; however, this schedule is no longer required to be submitted as part of an agency's printed Legislative Appropriations Request submission.

The Capital Budget Operating and Maintenance Expenses Detail Schedule identifies future operating and maintenance expenses associated with capital projects requested for the 2022–23 biennium.

GENERAL INFORMATION
This schedule is generated from the Automated Budget and Evaluation System of Texas (ABEST). Enter data for this report for each capital budget project meeting all of the following criteria:

- it is classified for the 2022–23 biennium as 5002 Construction of Buildings and Facilities, 5005 Acquisition of Information Resource Technologies, 9000 Cybersecurity, or 9500 Legacy Modernization;
- the expected total acquisition cost exceeds $500,000; and
- when in service, there will be an increase in operating and maintenance expenses directly related to the project, and additional funding greater than fiscal year 2021 levels will be needed to operate or maintain the asset.

This report does not apply to institutions of higher education or the 14 appellate courts.

IMPORTANT
Information provided in this schedule is for informational purposes only. Actual requests for additional operating expenses in the 2020–21 biennium should be incorporated in the appropriate strategy request(s).

DATA ENTRY
Enter this information in ABEST. Identify costs from fiscal years 2022 to 2025 necessary to operate or maintain the asset or facility after it is in service.

- Include costs associated with staffing, equipment purchases and installation, utilities, telecommunications, service contracts, and other operating or maintenance expenses.
- Provide objects of expense, method of finance, and number of full-time-equivalents for the indicated years, using the same definitions as used for the Strategy Request and operating costs description and justification.
PART 5.E. CAPITAL BUDGET PROJECT: OBJECT OF EXPENSE AND METHOD OF FINANCING BY STRATEGY

**IMPORTANT**

ABEST data entry for this schedule is still required; however, this schedule is no longer required to be submitted as part of an agency’s printed Legislative Appropriations Request submission.

The Capital Budget Project Object of Expense (OOE) and Method of Financing (MOF) by Strategy Schedule allocates amounts to each strategy in which the project is budgeted and indicates the method of finance and object of expense for the amount of the project budgeted in each strategy.

**GENERAL INFORMATION**

This schedule is generated from the Automated Budget and Evaluation System of Texas (ABEST). Allocate the cost of the capital budget projects to each strategy and indicate the method of finance and object of expense for each project by strategy. For fiscal years 2020 and 2021, allocate amounts to each strategy in which the project is budgeted and indicate the method of finance and object of expense for the amount of the project budgeted in each strategy. For fiscal years 2022 and 2023, allocate amounts to each strategy in which funding for the project is requested and indicate the method of finance and object of expense for the amount of the project funding requested in each strategy.

This report does not apply to institutions of higher education or the 14 appellate courts.

**ENTERING DATA TO GENERATE THE REPORT**

Enter this information in ABEST. Refer to *Preparing and Submitting Legislative Appropriation Requests in ABEST* (August 2020) on the LBB website (www.lbb.state.tx.us/Agencies_Portal.aspx → Data Entry Applications → Instructions → Legislative Appropriations Request). *Figure 5* provides a description of each capital project category, including frequently used Comptroller expenditure codes associated with each category.

  - 7343 – Remodeling of Buildings – State-owned  
  - 7344 – Remodeling of Buildings – State-leased |
| 5004  | Construction of Roads (except for such expenditures made by the Department of Transportation) | For expenditures directly related to contracts for road construction and improvements. Includes, but is not limited to:  
  - 7356 – Real Property - Infrastructure - Capitalized |
| 5005  | Acquisition of Information Resource Technologies | For expenditures directly related to purchase or lease-purchase of computer equipment; purchase of computer software; and purchase or lease-purchase of telephones, telephone systems, and other telecommunications and video/teleconferencing equipment. Includes, but is not limited to:  
  - 7243 – Computer Services – Education/Training Services OOE Code 2001 Professional Fees and Services  
  - 7379 – Computer Equipment – Capitalized  
  - 7385 – Lease/Purchase of Computer Equipment  
  - 7395 – Computer Software – Purchased – Capitalized  
  - 7519 – Lease/Purchase of Telecommunications Equipment  
  - 7520 – Telecommunications – Equipment purchase – Capitalized |
| 5006  | Transportation Items                          | For expenditures directly related to purchase or lease-purchase of motor vehicles, boats, and aircraft. Includes, but is not limited to:  
  - 7351 – Lease/Purchase of Motor Vehicles/Passenger Cars  
  - 7352 – Lease/Purchase of Motor Vehicles/Other  
  - 7371 – Motor Vehicles – Passenger Cars  
  - 7372 – Motor Vehicles – Other  
  - 7375 – Aircraft  
  - 7365 – Boats |
| 5007  | Acquisition of Capital Equipment and Items    | For expenditures directly related to purchase or lease-purchase of furnishings and equipment, and to purchase of books, prerecorded reference material, and animals. Includes, but is not limited to:  
  - 7373 – Furnishings and Equipment – Capitalized  
  - 7376 – Lease/Purchase of Furnishings and Equipment  
  - 7386 – Animals – Capitalized  
  - 7388 – Fabrication of Equipment – Higher Education  
  - 7389 – Books and Prerecorded Reference Materials – Capitalized |
| 5008  | Lease Payments to Master Lease Purchase Program (for items acquired in fiscal year 2021 and previously) | For installment payment obligations payable to Texas Public Finance Authority. See Special Instructions for Master Lease Purchase Program in the section addressing the Capital Budget Project Schedule. Includes:  
  - 7964 – Master Lease Disbursements |

PART 6.A. HISTORICALLY UNDERUTILIZED BUSINESS SUPPORTING SCHEDULE

The Historically Underutilized Business (HUB) Supporting Schedule provides information on agencies’ good faith efforts to comply with HUB-related statutory requirements and rules set by the Comptroller of Public Accounts (CPA). The schedule compares the percentage of agencies’ HUB-related expenditures with the agency’s HUB goals.

GENERAL INFORMATION
This schedule is generated from the Automated Budget and Evaluation System of Texas (ABEST). Pursuant to the Texas Government Code, Section 2161.127, each state agency and institution of higher education must include as part of its Legislative Appropriations Request a report detailing the extent to which the agency has made good faith efforts to comply with both HUB-related general law and rules adopted by CPA. Additionally, data from this schedule forms the basis of a biennial HUB report compiled by the Legislative Budget Board pursuant to Article IX, Section 7.08 (2020–21 General Appropriations Act), which is published concurrently with the introduced General Appropriations Bill.

To assist in completing this schedule, agencies should use relevant HUB-related information previously reported in Strategic Plans and Annual Reports of Nonfinancial Data (the Texas Government Code, Section 2101.0115) and reported to CPA for the State of Texas Annual HUB Report for fiscal years 2018 and 2019 including supplemental information.

See page 60 (Appendix 6.A.) for a sample report.

DATA ENTRY
Enter this information in ABEST. This report reflects a comparison to statewide and agency HUB procurement goals.

- 2018–19 HUB Expenditure Table – This table compares, for six designated procurement categories, the statewide and agency HUB goals for purchasing (goods and services) and public works contracts (construction) to applicable agency expenditures for fiscal years 2018 and 2019. It shows the percentage of total agency expenditures related to HUBs. The report will also generate the difference between an agency’s HUB goal and percentage of HUB-related expenditures for each procurement category. Enter the actual expenditure information reported to CPA for the State of Texas Annual HUB Report for fiscal years 2018 and 2019 and subsequently used in the agency’s progress report in the Annual Report of Nonfinancial Data for those fiscal years.

- Assessment of 2018–19 Efforts to Meet HUB Procurement Goals
  - Attainment – Each agency should provide a summary of its efforts to attain or exceed the agency’s HUB procurement goals in each fiscal year. The format is: The agency attained or exceeded _______ of ________, or ____%, of the applicable agency HUB procurement goals in fiscal year _______.
  - Applicability – For each fiscal year, identify any procurement categories that are not applicable to the agency’s operations and include a summary justification for each procurement category.
  - Factors Affecting Attainment – If a goal was not met, provide a brief explanation of factors preventing the agency from achieving the HUB goal in a given procurement category. This section may include information that an agency reported in the external/internal assessment section relating to HUBs in its strategic plan. The agency should include specific examples of restrictions on its ability to contract with HUBs, such as: the limited availability of vendors for certain types of contracts; not all contract decisions

NOTE

If a procurement category is not applicable to the agency’s operations, the agency should enter “0” rather than leave this information blank.
within a given procurement category are subject to the agency’s control; and unique or specialized contract requirements. If applicable, an agency should also mention its contracting efforts with graduated HUBs.

- Good Faith Efforts – Provide any additional information on the agency’s efforts to meet the agency’s HUB procurement goals in fiscal years 2018 and 2019. A good faith effort includes the implementation of procedures as stated by the Texas Administrative Code, Title 34, Section 20.284(d). An agency may also include information from supplemental letters submitted to CPA for fiscal years 2018 and 2019, pursuant to Section 20.284(e), that demonstrates good faith efforts. If an agency was audited on its HUB performance by the State Auditor’s Office (SAO) in fiscal years 2018 or 2019, it may include information on good faith efforts as determined by the SAO.

<table>
<thead>
<tr>

</tr>
</thead>
<tbody>
<tr>
<td>- Are the agency’s HUB goals identified? An agency may have adopted the statewide HUB goals or may have adopted separate goals.</td>
</tr>
<tr>
<td>- Are zeros entered in fields where a procurement category is not applicable to the agency’s operations?</td>
</tr>
<tr>
<td>- Does the information in this schedule align with information submitted to the Comptroller’s Office in other HUB performance reporting or with information in the Annual Report of Nonfinancial Data?</td>
</tr>
</tbody>
</table>
PART 6.B. CURRENT BIENNium ONETIME EXPENDITURE SCHEDULE

The Current Biennium Onetime Expenditure Schedule provides a list of actual or anticipated onetime expenditures in the current biennium and identifies how those funds were reallocated within the baseline request.

GENERAL INFORMATION

The onetime expenditures schedule should identify expenditures made in the 2020–21 biennium that are not anticipated in the 2022–23 biennium. Each agency is likely to have expenditures unique to that agency, so a complete list is impracticable, but common examples of the types of expenditures that should be reported in this schedule are:

- facility construction or renovation;
- land purchases;
- deferred maintenance projects;
- completed information technology projects;
- onetime grants;
- onetime studies or evaluations;
- implementation of legislation (startup costs);
- special-purpose equipment;
- special events;
- correcting a backlog (licenses, complaints, etc.); and
- aircraft, boats or other vehicles not on a replacement schedule.

DATA ENTRY

This spreadsheet form is provided in electronic format on the LBB website (www.lbb.state.tx.us.Agencies_Portal.aspx → Data Entry Applications → Instructions → Legislative Appropriations Request (LAR) Instructions → Templates → 6.B. Current Biennium One-time Expenditure Schedule) and should be included in the PDF submitted through the LBB Documents Submissions application (docs.lbb.state.tx.us) and emailed to the Office of the Governor. See page 62 (Appendix 6.B.) for a sample form.

For each onetime project or item, agencies should complete a Project tab in the Current Biennium Onetime Expenditure Schedule. The Summary tab will autopopulate with selected information from the Project tabs; no data entry should be necessary on this tab, and it should be included in the LAR submission. In the Project tab, agencies should provide the following information for each year of the 2020–21 reported expenditures and 2022–23 baseline request:

- the project/program name and description and, if the planned project/program of the funds is different in the 2022–23 biennium, a description of the purpose of the project/program;
- strategy or strategies;
- object(s) of expense; and
- method(s) of finance
PART 6.C. FEDERAL FUNDS SUPPORTING SCHEDULE

The Federal Funds Supporting Schedule:

- shows how Federal Funds support agency programs;
- provides historical and projected expenditures of federal funding sources;
- assists in analysis of the effects of federal legislation on the state budget; and
- identifies Federal Funds and related General Revenue Funds for employee benefits.

GENERAL INFORMATION

The Federal Funds Supporting Schedule identifies:

- state agency expenditures and projections of Federal Funds by program title and Catalog of Federal Domestic Assistance (CFDA) number;
- strategy-specific information for each federal program;
- for agencies expending more than $10.0 million in total Federal Funds in fiscal year 2019, additional information related to employee benefits paid with Federal Funds and General Revenue Funds used as a match for employee benefits or maintenance of effort for employee benefits;
- assumptions and/or methodology used to estimate federal funding; and
- potential losses of any Federal Funds projected for fiscal years 2022 and 2023. See page 64 (Appendix 6.C.) for a sample report.

This report does not apply to institutions of higher education.

DATA ENTRY

The Federal Funds Supporting Schedule is generated in the Automated Budget and Evaluation System of Texas (ABEST). Refer to ABEST Instructions for Legislative Appropriations Request (August 2020). Generate the Federal Funds Supporting Schedule after entering the method of finance (MOF) for each strategy request and all additional required information in ABEST. The agency must set the status of the general budget submission in ABEST to Complete before generating a final copy of the Federal Funds Supporting Schedule.

FEDERAL FUNDS

Include all Federal Funds used as sources of agency funding and complete the following actions:

- select the appropriate MOF code to identify Federal Funds, which is usually 0555;
- provide the CFDA number and title for each source of funding. If a CFDA number cannot be found in ABEST or if a new CFDA number is replacing another CFDA number, send an email to cfda@lbb.texas.gov and provide the following information:
  - contact information (name and phone number of requestor);
  - agency code and agency name;
  - CFDA number;
  - program name for the CFDA number you are requesting; and
  - notice of grant award or other documentation that demonstrates the agency has received Federal Funds, along with the intended use. For example, a subrecipient who has entered into a contract with a primary
recipient of a grant award will need to provide a copy of the contract or agreement that they received from the primary recipient.

- provide Federal Funds amounts for expended 2019, estimated 2020, budgeted 2021, and requested 2022–23;
- funds should be reported as Federal by the agency expending the funds (which might not be the original recipient of the Federal Funds); exceptions to this policy should be discussed with your LBB budget analyst and your Office of the Governor, Budget Division advisor; and
- to ensure accurate counts of Federal Funds and reflect the actual expenditure of Federal Funds, use the following guidelines to report Federal Funds that pass through multiple entities:
  - if any portion of Federal Funds are passed through to another state agency or institution of higher education, the expending agency—not the initial recipient—should report the funding as Federal Funds;
  - if any portion of Federal Funds are passed through to a nonstate entity, the initial recipient should report the funding as Federal Funds.

ADDITIONAL FUNDS FOR EMPLOYEE BENEFITS

Agencies expending more than $10.0 million in total Federal Funds in fiscal year 2019 must:

- identify by CFDA number expended 2019, estimated 2020, budgeted 2021, and requested 2022–23 amounts for employee benefits paid with Federal Funds (include group insurance, retirement, Social Security, and benefit replacement pay);
- identify expended 2019, estimated 2020, budgeted 2021, and requested 2022–23 amounts for employee benefits paid with General Revenue Funds used as match or maintenance of effort in each federal program (include group insurance, retirement, Social Security, benefit replacement pay, and post-retirement healthcare costs); and
- do not include any additional funds for employee benefits in the strategy amounts.

HURRICANE HARVEY FEMA PUBLIC ASSISTANCE PROGRAM

Agencies receiving FEMA Public Assistance funding for Hurricane Harvey response and recovery activities should continue to use and report the expenditures using the appropriate CFDA number for the specific Hurricane Harvey grant. Please report all other grants and reimbursements for the disaster under the standard CFDA number for each program.

ASSUMPTIONS AND METHODOLOGY

Describe assumptions and methodologies used to estimate funding for 2022–23. Specific factors affecting Federal Funds estimates (e.g., changes in federal authorization levels or allocation formula changes) should be described and identified by CFDA number and title. Otherwise, general statements that apply to multiple CFDA numbers are acceptable.

POTENTIAL LOSS OF FEDERAL FUNDS

If an agency estimates that 2022–23 allocations for a Federal Funds program will decrease to less than 90.0 percent of the 2020–21 estimated/budgeted receipts, the agency shall describe what state/federal circumstances factor into its estimates. To identify Federal Funds that previously were available and are not part of the estimated appropriations for the 2022–23 biennium, the agency shall follow these guidelines:

- identify any Federal Funds by CFDA number and title that were budgeted in 2021 that potentially might not be received in 2022–23;
- identify state action possible or necessary to avoid loss of Federal Funds (e.g., statutory change or appropriation of funds for purposes not previously receiving state funding);
- identify federal action necessary to avoid loss of Federal Funds (e.g., federal legislation, federal rule changes, agency action, formula changes or a change in appropriation of Federal Funds); and
- identify changes that result from reduced General Revenue Funds and the impact on meeting state maintenance of effort or state-to-federal matching ratio requirements.

**CHECKLIST ITEMS**

- Does the report include all federal programs or grants?
- If the agency meets the $10.0 million Federal Funds threshold, does the report include expenditures and estimates for the related employee benefits (Federal Funds and General Revenue Funds) for each program?
- Does the report include statements describing the assumptions and methodology for estimating Federal Funds and identify Federal Funds that could be lost?
PART 6.D. FEDERAL FUNDS TRACKING SCHEDULE

The Federal Funds Tracking Schedule:

- cross-references annual federal awards that equal or exceed $10.0 million with actual and projected state fiscal year amounts;
- provides historical and projected expenditures of federal funding sources;
- assists in analyzing the effects of federal legislation on the state budget; and
- identifies Federal Funds carried forward from previous fiscal years.

GENERAL INFORMATION

All agencies that receive Federal Funds are required to submit the Federal Funds Tracking Schedule for any grant award that equaled or exceeded $10.0 million in fiscal year 2019. Please note that the $10.0 million threshold refers to the federal award and not the final expended amount. Grant amounts below that threshold are not required to be tracked via this schedule unless requested by an analyst from the Legislative Budget Board (LBB) or Office of the Governor, Budget Division. The request(s) may include one or more federal programs by Catalog of Federal Domestic Assistance (CFDA) number and title. See page 75 (Appendix 6.D.) for a sample report. Contact the budget analyst at either budget office for additional information.

This report does not apply to institutions of higher education.

DATA ENTRY

The Federal Funds Tracking Schedule is generated in the Automated Budget and Evaluation System of Texas (ABEST). Enter the requested information into ABEST. Include any CFDA programs by number and title requested by the LBB or Office of the Governor analyst; this information is available at www.lbb.state.tx.us/Agencies_Portal.aspx → Reference Documents → ABEST → CFDA Program Names & Numbers. See the Federal Funds Supporting Schedule for additional information on how to add a new CFDA in ABEST.

When entering Federal Fiscal Year Grant and Award amounts, begin with the original grant or award year and include all federal fiscal years that had or have funds available for expenditure. Make any necessary adjustments for rescissions or other changes to the award amount. Describe any adjustments in the Tracking Notes text box. See instructions for Federal Funds Tracking Schedule in ABEST Instructions for Legislative Appropriations Request (August 2020)

For federal grants that are appropriated across agencies, such as Temporary Assistance for Needy Families, each agency should report the amount of the grant appropriated to it, except for the lead agency, which should report on any amounts not otherwise appropriated.

Although additional funds for employee benefits are excluded in agency strategy amounts, such funds are included in this Federal Funds Tracking Schedule. However, use the section at the bottom of this schedule to identify the employee benefit amounts for a given fiscal year. Employee benefits are a subset of the total expenditures.
### Checklist Items

- If the agency received an award of $10.0 million or more in fiscal year 2019, did the agency provide current, historical, and projected expenditures through this schedule?

- Has the agency supplied the additional information to identify employee benefits payment amounts?

- Do the totals across state fiscal years equal the annual totals in the Federal Funds grant and award totals? If not, include difference in Difference from Award column and explain in Tracking Notes text box.

- For each CFDA, do the annual state fiscal year totals match the annual state fiscal year totals reported in the 6.C. Federal Funds Supporting Schedule?
PART 6.E. ESTIMATED REVENUE COLLECTIONS SUPPORTING SCHEDULE

The Estimated Revenue Collections Supporting Schedule provides details for actual and estimated revenue collections listed in the Method of Finance (MOF) Schedule, by fund and/or account, for fiscal years 2019 to 2023.

GENERAL INFORMATION
Submit this schedule if the following apply:

- the agency has an Appropriations Limited to Revenue Collections rider in the Eighty-sixth Legislature, General Appropriations Act (GAA), 2020–21 Biennium;
- the agency collects any revenues, including those deposited to General Revenue Funds or General Revenue–Dedicated accounts, that are appropriated or requested to be appropriated to the agency’s MOF Schedule, including riders;
- the agency is in Article II – Health and Human Services or Article VIII – Regulatory; or
- the agency is instructed to do so by the Legislative Budget Board (LBB) or the Office of the Governor, Budget Division.

Report Appropriated Receipts in this schedule.

Do not report Federal Funds in this schedule. Federal Funds are reported in the Strategy Request and can be printed using the Federal Funds Supporting Schedule (page 64 of these instructions).

Include a separate section in the Estimated Revenue Collections Supporting Schedule for Earned Federal Funds if the agency is affected by Article IX, Section 13.11 (2020–21 GAA). Include in the Revenue Assumptions for Earned Federal Funds, the source of the Earned Federal Funds and whether any benefits are paid from this source.

This report does not apply to institutions of higher education unless requested by staff of the Office of the Governor or the LBB.

IMPORTANT

- Work with the Office of the Governor, Budget Division, and the LBB analyst(s) to determine the funds and accounts reported in this schedule.
- Appropriations requests and/or appropriation transfers listed in this schedule should be part of the agency’s strategy or rider appropriation request.
- List total revenue collections, including the amounts collected that are greater than appropriated amounts.

DATA ENTRY
The Estimated Revenue Collections Supporting Schedule is generated in the Automated Budget and Evaluation System of Texas (ABEST). Provide the following information:

- fund or account names and numbers;
- beginning unencumbered balance of funds or accounts, as applicable;
- total estimated revenue, detailed by revenue code (excluding Federal Funds);
- appropriations requests/transfers from funds or accounts;
- ending fund/account balance, if applicable; and
- assumptions used in projecting revenue.
PART 6.E. ESTIMATED REVENUE COLLECTIONS SUPPORTING SCHEDULE

**Beginning Balance:** For each fund or account, list actual unencumbered beginning balances for fiscal years 2019 and 2020 and projected beginning balances for fiscal years 2021 to 2023. If revenues are deposited into a nonspecific account in the General Revenue Fund, it is not necessary to calculate a beginning balance. Review House Bill 3849, Eighty-fifth Legislature, Regular Session, 2017 and House Bill 3317, Eighty-sixth Legislature, 2019; the Texas Government Code, Sections 403.095 and 2201.003; and other relevant statutes to determine if the fund or account exists.

The Estimated Revenue Collections Supporting Schedule includes separate sections for each fund/account to which agencies deposit collected revenue. Agencies affected by Article IX, Section 13.11 (2020–21 GAA), should include a separate section in the Estimated Revenue Collections Supporting Schedule for Earned Federal Funds, using the following guidelines:

- include revenues collected and deposited into the General Revenue Fund as CPA revenue object codes 3602, 3702, 3726, 3745, 3750, 3773, 3851, and 3971; and
- use MOF Code 0888 as the fund/account in the Estimated Revenue Collections Supporting Schedule.

Other guidelines include:

- estimated revenues may exceed amounts budgeted and/or requested;
- Subtotal Actual/Estimated Revenue: adds all revenue sources;
- Deductions: list deductions made from the fund or account, including:
  - amounts expended, budgeted, and requested, including the 50.0 percent reimbursement paid from agency appropriations to the Texas Workforce Commission (TWC) for unemployment benefits;
  - the additional 50.0 percent some agencies are required to reimburse TWC from unappropriated General Revenue–Dedicated Funds and other special fund balances; these reimbursements are shown as transfers in this schedule;
  - transfers for employee benefits (retirement, group insurance, Social Security, benefit replacement pay);
  - emergency or deficiency grant amounts; and
  - employee benefits also include collections for post-retirement health insurance, which are not transferred by the agency, but captured by the Employees Retirement System after the agency deposits the collections into unappropriated General Revenue Funds.

Do not include deductions that include Federal Funds, because Federal Funds are excluded from this schedule. Also, do not include depreciation costs or other tax deferral mechanisms.

Total Deductions include all deductions.

**Ending Fund/Account Balance:** Subtracts Total Deductions from Total Available to determine Ending Fund/Account Balance. The Ending Fund/Account Balance in a given year is the beginning balance for the next year. Calculating an Ending Fund Balance is not necessary if revenues are deposited to a non-specific account in the General Revenue Fund.
Pursuant to Article IX, Section 6.09 (2020–21 GAA), appropriation amounts from special funds or General Revenue–Dedicated Accounts may not exceed actual balances and available revenues in the fund/account. Accordingly, agencies may not show an estimated negative balance in a special fund or General Revenue–Dedicated Account. Any anticipated shortfalls in a special fund or General Revenue–Dedicated Fund Account must be offset by an appropriation reduction in the Summary of Base Request by Method of Finance Report.

**Revenue Assumptions:** List and explain assumptions used in estimating revenue collections for each fund or account, including current fee rates, potential increases or decreases in fee rates, and the effects of federal legislation on the collection of fees (e.g., increases in, decreases in, establishment of, or abolition of fees). Note whether fee rate changes require statutory amendments or governing board action. Provide a detailed analysis of factors resulting in a 20.0 percent increase or decrease from the fiscal year 2022 estimated beginning fund balance in any fund or account for fiscal years 2022 and 2023. For Earned Federal Funds, include the source of the Earned Federal Funds and whether any benefits are paid from this source.

**CHECKLIST ITEMS**

- Are associated employer benefit costs, including post-retirement health insurance, included in Total Deductions?
- Are explanations provided for the revenue assumptions, particularly for changes affecting revenue collections?
- Do the entries for Beginning Balance plus Estimated Revenue equal Total Available?
- Does expended/budgeted plus miscellaneous deductions equal Total Deductions?
- Does Total Available less Total Deductions equal Ending Fund/Account Balance?
- Does Ending Fund/Account Balance equal the next year’s Beginning Balance?
PART 6.F. ADVISORY COMMITTEE SUPPORTING SCHEDULE

The Advisory Committee Supporting Schedule provides information for reimbursing expenses of advisory committee members.

GENERAL INFORMATION
The Advisory Committee Supporting Schedule is generated from the Automated Budget and Evaluation System of Texas (ABEST). Pursuant to the Texas Government Code, Chapter 2110, agencies must request authority to reimburse the expenses of advisory committee members. “Advisory committee” is defined as a committee, council, commission, task force or other entity in the executive branch of state government that:

- is not a state agency;
- is established by or pursuant to state law; and
- has as its primary function advising a state agency.

DATA ENTRY
Enter this information in ABEST. Provide a schedule for each agency advisory committee for which reimbursement authority is being requested. See page 77 (Appendix 6.F.) for an example.

Each schedule must include:

- expenditure and Method of Finance (MOF) information for the following fiscal years: expended 2019, estimated 2020, budgeted 2021, and requested 2022 and 2023;
- committee members’ direct expenses related to the committee’s responsibilities itemized by personnel, travel, and other operating costs;
- all other expenditures in support of the committee’s activities, including the cost of agency staff time, itemized by personnel, travel, and other operating costs;
- the MOF section should detail the source of funding by fund/account number(s) in accordance with funds listed in Method of Finance Codes found on the LBB website at www.lbb.state.tx.us.Agencies_Portal.aspx → Reference Documents → Method of Finance Codes;
- the strategy or strategies for which funding is requested. The Advisory Committee Supporting Schedule is informational and not an actual request for funding; therefore, include amounts requested for each committee in the appropriate strategy request;
- date and statutory authority for establishment of the committee;
- the number of committee members and frequency of meetings each fiscal year; and
- a description and justification for the continuation or consequences of abolishing the committee, including the advisory committee’s purpose and duties, the statutory membership requirements, an evaluation of its work and usefulness, and reasons the advisory committee should continue in existence or the consequences of abolishing the committee. If the committee is required to exist by federal law, include the applicable citation.

IMPORTANT
The Eighty-sixth Legislature, General Appropriations Act (GAA), 2020–21 Biennium, Article IX, Section 5.08, Travel of Advisory Committee Members, prohibits reimbursement of advisory committee members unless such authority is expressly granted in the GAA.
PART 6.G. HOMELAND SECURITY FUNDING SCHEDULE

The Homeland Security Funding Schedule assists in the analysis of agency expenditures related to homeland security. It identifies expenditures related to homeland security by Object of Expense (OOE) and Method of Finance (MOF). Corresponding full-time-equivalent (FTE) positions are recorded, a description and funding amount for items are included, and attachments listing amounts passed through to local entities and state agencies or institutions of higher education are required. Part A of the schedule covers expenditures related to terrorism, Part B covers expenditures related to natural or man-made disasters, and Part C covers expenditures related to COVID-19 pandemic response.

GENERAL INFORMATION

This supplemental schedule applies to all agencies and institutions of higher education that expend funds on Homeland Security or pass through funds to other state agencies, institutions of higher education, or local entities for Homeland Security purposes.

State agencies and institutions of higher education that do not receive or expend funds described in this schedule do not have to complete it.

PART A: TERRORISM-RELATED EXPENDITURES

In determining terrorism-related expenditures, agencies shall use the following definition, adapted from the federal definition of homeland security followed by the U.S. Congressional Budget Office and the Administration’s Office of Management and Budget:

Homeland security expenditures are funds used to prevent terrorist attacks, reduce vulnerability to terrorism, minimize the damage from attacks that do occur, and assist in recovery from attacks. This effort includes activities such as protection of critical infrastructure and key assets, defense against terrorist threats, emergency preparedness, and response specifically related to terrorism.

PART B: NATURAL/MAN-MADE DISASTER EXPENDITURES

This section is designed to capture the remaining elements of Homeland Security Activity as defined in the Texas Government Code, Chapter 421, Subchapter A. Other homeland security activity expenditures are defined as expenditures related to natural or man-made disasters such as wildfires, hurricanes, floods, and tornadoes. These disasters include any fires or medical emergencies requiring resources beyond the capabilities of a local jurisdiction.

Please include any Hurricane Harvey-related impacts incurred by the agency in this section. Agencies receiving Federal Emergency Management Agency (FEMA) Public Assistance funding for Hurricane Harvey response and recovery activities should use the CFDA number 97.036.002, Hurricane Harvey Public Assistance Grants. Activities may include debris removal, emergency protective measures, or the repair, replacement, or restoration of disaster-damaged, publicly owned facilities. Please report all other grants and reimbursements for the disaster under the standard CFDA number for each program.

PART C: COVID-19 RELATED EXPENDITURES

This section was created for agencies to report COVID-19 related expenditures in fiscal year 2020, any budgeted funding in fiscal year 2021, and any funding included in the agency’s baseline request for fiscal years 2022 and 2023 in response to the pandemic. Agencies’ methodologies for reporting expenditures in this section should be consistent with their reporting for monthly COVID-19 surveys submitted to the LBB.

Report all Federal Funds received through the following federal legislation, and any subsequent federal legislation:

Coronavirus (COVID-19) and Border Security Funding: Report expenditures related to COVID-19 disaster response and recovery activities in the new Part C: COVID-19 Related Expenditures. Include border security funding in Part B: Natural/Man-Made Disaster Expenditures to the extent that its use meets the definition provided in that section.
• Coronavirus Preparedness and Response Supplemental Act;
• Families First Coronavirus Response Act; and
• Coronavirus Aid, Relief, and Economic Security Act.

Additionally, agencies should utilize CFDA numbers in the Automated Budget and Evaluation System of Texas (ABEST) with a "119" extension (i.e. CFDA xx.xxx.119), including but not limited to, the following CFDA numbers:

• Public Assistance Category B (Emergency Protective Measures) – 97.036.119;
• Emergency Management Performance Grants (EMPG) – 97.042.119;
• Child Care & Development Block Grant – 93.575.119; and
• Community Development Block Grant (CDBG) - 14.218.119.

Please refer to COVID-19 Catalog of Federal Domestic Assistance Numbers for a complete list of affected CFDA numbers at www.lbb.state.tx.us.Agencies_Portal.aspx→ Data Entry Applications → Instructions → Legislative Appropriations Request. Other MOFs allocated for COVID-19 response activities should also be identified in Part C, in addition to Federal Funds. Agencies should complete this schedule regardless of receipt or anticipated receipt of Federal Funds for response activities.

Additionally, agencies should describe their efforts addressing the pandemic, such as responses to internal agency needs (e.g., enhancing telework capabilities for staff) and responses impacting agency customers or clients, as well as ongoing needs in fiscal years 2021 to 2023, if applicable. If space permits, also provide information on the pandemic’s effect on agency revenue sources and on agency staffing needs (e.g., FTE overtime and additional FTE positions).

DATA ENTRY
The Homeland Security Funding Schedule is generated from the ABEST. Refer to ABEST Instructions for Legislative Appropriations Request (August 2020) on the Legislative Budget Board (LBB) website at www.lbb.state.tx.us.Agencies_Portal.aspx→ Data Entry Applications → Instructions → Legislative Appropriations Request. Upon request of analysts from the LBB or the Office of the Governor, information will be submitted at the strategy level. See page 79 (Appendix 6.G.) for a sample report.

OBJECTS OF EXPENSE AND METHOD OF FINANCE
Amounts identified in the OOE and MOF sections should include all funding sources expended by the agency for state homeland security programs. Federal Funds passed through to another state agency or institution of higher education should be reported as Federal Funds by the expending agency (not by the initial recipient). Funds received from another state agency via procurement contracts for goods or services should be reported as Interagency Contracts (not Federal Funds); they should be reported as Federal Funds by the original agency. Federal Funds passed through to a nonstate entity should be reported as Federal Funds by the initial recipient.

FULL-TIME-EQUIVALENTS
Identify the total number of full-time-equivalents paid with Homeland Security funding for each fiscal year.

LOCAL ENTITIES AND OTHER STATE AGENCIES OR INSTITUTIONS OF HIGHER EDUCATION
Agencies that pass through funds to local entities, other state agencies, or institutions of higher education must submit recipients by year and MOF, including the CFDA number for each source of Federal Funds. Provide the information for as many years as data are available.

Amounts shown in the attachment for local entities should be included in the agency’s expended, budgeted and requested amounts in the OOE and MOF sections of the Homeland Security Funding Schedule. However, amounts passed through to other state agencies or institutions of higher education should not be included in amounts reported in the OOE and MOF sections in the Homeland Security Funding Schedule because they are not expended by the initial recipient agency.
USE OF HOMELAND SECURITY FUNDS
List the strategies from which funds are expended and describe the types of activities or expenses included in the amounts (e.g., surveillance, equipment purchases, competitively bid grants, unit, or FTE positions supported by the funds, etc.). If relevant, also describe the methodology used for allocating costs to homeland security.
PART 6.H. ESTIMATED TOTAL OF ALL FUNDS OUTSIDE THE GENERAL APPROPRIATIONS ACT BILL PATTERN SCHEDULE

The purpose of the Estimated Total of All Funds Outside the General Appropriations Act Bill Pattern Schedule is to identify revenue authorized by the state constitution, statute, federal law, or court order that is deposited in funds or accounts within or outside the state Treasury, is within the control of the agency or its oversight board or commission, and is not appropriated by the Legislature in the General Appropriations Act (GAA). Total amounts identified in the spreadsheet are used to calculate the percentage of estimated total funds contained in an agency’s bill pattern in the GAA.

GENERAL INFORMATION

Submit this schedule if the agency or its governing board or commission is authorized to collect and spend funds that are deposited to accounts within or outside the state Treasury, but are not appropriated by the Legislature in the GAA. The information contained in the schedule will be used to determine the percentage of funds available to an agency that are appropriated in its bill pattern in the GAA. Examples include endowments, trust funds, bond proceeds, reserve funds, and revolving loan funds. Bond proceeds should be included in the schedule only if the bonds are not included in the GAA (e.g., Water Development Bonds and Mortgage Revenue Bonds).

Do not include benefit replacement pay and employee benefits (retirement, group insurance, social security, and post-retirement healthcare costs). These funds are appropriated elsewhere in the GAA, and an informational listing is provided after each agency. Do not include General Revenue–Dedicated account balances, because these balances are not available to the agency unless appropriated. State agencies should contact their assigned Legislative Budget Board (LBB) analyst if they have questions concerning this reporting requirement.

Institutions of higher education should contact their assigned LBB analyst for direction on meeting this reporting requirement.

DATA ENTRY

This spreadsheet form is provided in electronic format on the LBB and the Office of the Governor websites and should be included in the PDF submitted through the LBB Documents Submissions application (docs.lbb.state.tx.us) and emailed to the Office of the Governor (budgetandpolicyreports@gov.texas.gov). See page 90 (Appendix 6.H.) for a sample form. (Spreadsheets can be found on the LBB website at www.lbb.state.tx.us.Agencies_Portal.aspx → Data Entry Applications → Instructions → Legislative Appropriations Request → Templates.)

Name of Account. Enter the name of the account, fund, endowment, grant, or self-supporting enterprise as designated by the state constitution, statute, federal law, or court order.

Estimated Beginning Balance. Enter the beginning balance for fiscal years 2020 and 2022 for each account taking into account actual or anticipated expenditures, encumbrances, and accruals for the previous reporting period.

Estimated Revenue Collections. Enter the estimated revenue collections, including interest earnings, for fiscal years 2020, 2021, 2022 and 2023.

Duplicate the spreadsheet to add accounts as necessary.

ESTIMATED GRAND TOTAL OF ALL AGENCY FUNDS OUTSIDE THE GAA BILL PATTERN FOR THE 2022–23 BIENNIUM

For all accounts, the spreadsheet will automatically calculate the estimated total amount of funds, which consists of the total beginning balance for fiscal year 2022 and the revenue collections for fiscal years 2022 and 2023. However, if additional accounts are added, adjust the spreadsheet formula to include the estimated total available for all accounts.

CONSTITUTIONAL OR STATUTORY CREATION AND USE OF FUNDS

Identify the specific constitutional and/or statutory citation(s) authorizing the agency to collect and spend the funds. Also describe the authorized uses of the funds. Briefly describe the reasons why the funds are not part of the agency’s bill pattern along with any problems that may result if these funds were to be included in the agency’s bill pattern (i.e., constitutional issues, federal rules, etc.).
METHOD OF CALCULATION AND REVENUE ASSUMPTIONS
For each fund or account, list and explain assumptions used in estimating revenue collections, including current fee rates, potential increases or decreases in fee rates, and the effects of state or federal legislation on the collection of fees (e.g., increases in, decreases in, establishment of, or abolition of fees). Note whether fee rate changes require statutory amendments or governing board action.

CHECKLIST ITEMS

☐ Are the method of calculation and revenue assumptions clearly described for all accounts?

☐ If spreadsheets are added for additional funds or accounts, was the formula adjusted to account for the estimated total for all accounts?
PART 6.J. BEHAVIORAL HEALTH FUNDING SCHEDULE

The Behavioral Health Funding Schedule provides summary and budgetary information for mental health or substance abuse treatment programs, as estimated/budgeted for the 2020–21 biennium and as requested for the 2022–23 biennium.

GENERAL INFORMATION
Pursuant to the Eighty-sixth Legislature, General Appropriations Act (GAA), 2020–21 Biennium, Article IX, Section 10.04, certain agencies identified in the provision as receiving behavioral health appropriations, listed below, are required to develop and submit a coordinated expenditure proposal for fiscal years 2020 and 2021. These agencies should complete this supplemental schedule, along with any agency or institution of higher education that is not on the list but: (1) is requesting behavioral health-related appropriations for the 2022–23 biennium; or (2) has been requested to complete the supplemental schedule by the Legislative Budget Board (LBB) or the Office of the Governor.

State agencies and institutions of higher education that do not receive or expend funds or are not requesting funds described in this schedule do not have to complete this schedule.

The following agencies are identified in the 2020–21 GAA, Article IX, Section 10.04, or have been otherwise identified as receiving behavioral health-related appropriations:

- Trusted Programs within the Office of the Governor
- Veterans Commission
- Department of Family and Protective Services
- Department of State Health Services
- Health and Human Services Commission
- Texas Civil Commitment Office
- The University of Texas Health Science Center at Houston
- The University of Texas Health Science Center at Tyler
- Texas Tech University Health Sciences Center
- Texas Higher Education Coordinating Board
- Supreme Court of Texas
- Court of Criminal Appeals
- Office of Court Administration
- Commission on Jail Standards
- Department of Criminal Justice
- Juvenile Justice Department
- Texas Military Department
- Texas State Board of Dental Examiners
- Board of Pharmacy
- Board of Veterinary Medical Examiners
- Optometry Board
- Texas Board of Nursing
- Texas Medical Board

Agencies should identify costs in the 2020–21 base, the 2022–23 baseline request, and the exceptional items that occur in the research, prevention, detection, treatment, control, supervision, and rehabilitation of individuals with mental disorders or disabilities, including those that result from alcoholism or drug addiction.

DATA ENTRY
This spreadsheet form is provided in electronic format on the websites of the Legislative Budget Board (LBB) and the Office of the Governor and should be included in the PDF submitted through the LBB Document Submission application (docs.lbb.state.tx.us).

See page 92 (Appendix 6.J) for a sample form. (Spreadsheets are available on the LBB website at www.lbb.state.tx.us.Agencies_Portal.aspx→ Data Entry Applications → Instructions → Legislative Appropriations Request → Templates.)

In determining behavioral health related expenditures, agencies must use the definition from Article IX, Section 10.04 (2020–21 GAA):
Behavioral health services are programs or services directly or indirectly related to the research, prevention, or detection of mental disorders and disabilities, and all services necessary to treat, care for, control, supervise, and rehabilitate persons who have a mental disorder or disability, including persons whose mental disorders or disabilities result from alcoholism or drug addiction.

For each individual item, agencies should complete the Data Entry tab in the Summary of Behavioral Health Funding. The LAR Schedule tab, which will autopopulate with selected information from the Data Entry tab; no data entry should be necessary on this tab, and it is the only tab that should be included in the LAR submission. In the Data Entry tab, agencies should provide the following information:

- program name – identify each program by name; note that, depending on the number of methods of finance being requested, a program’s information may be identified across multiple rows;

- service type – select from the drop-down list one of the following service types that the program provides, as identified by the Behavioral Health Expenditure Proposal:
  - education and training
  - research
  - housing supports
  - staff
  - information technology
  - substance use disorder services - detox
  - infrastructure
  - substance use disorder services - intervention
  - mental health services – inpatient/residential
  - substance use disorder services – other
  - mental health services – other
  - substance use disorder services – outpatient
  - mental health services – output
  - substance use disorder services – prevention
  - mental health services – prevention
  - workforce development

Note: Mental Health Services and Substance Use Disorder Services have been shortened to MH Svcs and SUD Svcs, respectively, in the drop-down list;

- agency strategies – identify each strategy through which the program is funded or funding is requested;

- summary description – provide a detailed description of the program or service, including the goal of each;

- target population – describe the target population for each program or service (e.g., adults, children, inmates, etc.);

- fund type requested – indicate whether the request is for General Revenue Funds, General Revenue–Dedicated Funds, Federal Funds, Interagency Contracts, or Other Funds; identify each method of finance requested for a program or service on separate rows;

- 2020–21 base – identify the total base funding for each MOF for fiscal years 2020 and 2021, and the total biennial base funding;

- 2022–23 base request – identify the total base request for each MOF for fiscal years 2022 and 2023, and the total biennial base funding;

- 2022–23 exceptional items – identify the total amount requested for exceptional items by MOF for fiscal years 2022 and 2023, and the total biennial exceptional item request;

- amount requested by category – for the agency’s total request for the 2022–23 biennium (base request and exceptional item request), summarize the amount requested by each category as indicated in the following:
• mental health – includes programs or services involved in the research, prevention, or detection of mental disorders and disabilities, and all services necessary to treat, care for, control, supervise, and rehabilitate persons who have a mental disorder or disability; and
• substance abuse – includes programs and services for the prevention, intervention, and/or treatment of individuals with substance abuse disorders, and all services necessary to treat, care for, control, supervise, and rehabilitate persons whose mental disorder or disability results from alcoholism or drug addiction;

- full-time-equivalent (FTE) positions – for fiscal years 2021 and 2023, indicate the number of FTE positions required for each program or service by strategy;
- Statewide Strategic Plan strategies – identify each strategy outlined in the Texas Statewide Behavioral Health Strategic Plan that the program seeks to address; and
- methodology/notes – describe any methodology used to estimate or disaggregate behavioral health costs from other healthcare costs, or to determine the allocation of the request between mental health and substance abuse; or provide any other comments necessary to understand the request.

Items identified by the agency for this schedule may include, but are not limited to, the following:

- substance abuse treatment programs;
- mental health treatment programs;
- substance abuse prevention programs;
- inpatient services at state mental health facilities;
- veterans’ mental health services;
- behavioral health training programs for educators or judicial personnel;
- psychiatric services;
- special needs programs and services for adult or juvenile offenders; and
- coordination of and referral to mental health professionals through peer assistance programs.

**IMPORTANT**

Agencies are required to simultaneously submit a copy of the behavioral health funding schedule to the Health and Human Services Commission for inclusion in a consolidated behavioral health schedule. Agencies should also submit a copy of the completed Data Entry spreadsheet to their assigned analyst at the LBB and the Office of the Governor, Budget Division.
PART 6.K. BUDGETARY IMPACTS RELATED TO RECENTLY ENACTED STATE LEGISLATION SCHEDULE

The Budgetary Impacts Related to Recently Enacted State Legislation Schedule provides detailed information about agency costs and savings resulting from the implementation of new state legislation enacted by the Eightieth Legislature, 2019. The schedule allocates amounts to each strategy in which the expanded or new initiative is budgeted. The schedule also indicates the Method of Finance (MOF) and object of expense for the expanded or new initiative budgeted in each strategy.

GENERAL INFORMATION
This supplemental schedule applies to all agencies and institutions of higher education that are implementing or expanding programs because of recently enacted state legislation.

Information on these schedules should be limited to agency costs and savings that are directly or indirectly related to an expanded or new initiative for expended fiscal year 2019, budgeted fiscal year 2020, and estimated fiscal years 2021 to 2023. This information includes direct and indirect impacts to services, programs, and benefits, and any impacts to the agency’s administrative and capital budgets. Do not include cost changes that the agency would have incurred without the implementation of recently enacted state legislation.

Identify the cost or savings of the expanded or new initiative by strategy and indicate the MOF and object of expense within each strategy for each item. Budgetary impacts should be expended for fiscal year 2019, budgeted for fiscal year 2020, and estimated for fiscal years 2021 to 2023.

Agencies should not include existing staff and resources that have been reassigned to implement these expansions or new initiatives due to recently enacted state legislation. Agencies also should attempt to identify, to the extent possible, changes in federal funding that are projected to occur as a result of newly enacted state legislation. Agencies are encouraged to discuss the items with analysts from the Legislative Budget Board (LBB) and the Office of the Governor, Budget Division before submitting the Legislative Appropriations Request to ensure complete reporting.

If an expanded or new initiative contains information technology (IT) components, agencies should provide additional information, including a description of the new or existing project, proposed hardware and software, and development costs. If an expanded or new initiative anticipates out-year costs, agencies should provide a description of the anticipated costs, and an estimate of those costs for fiscal years 2021 and 2023. If an expanded or new initiative request contains expected contracted costs of $50,000 or more, agencies should provide a description of the goods or services to be procured by contract and the type of contract to be awarded, among other information.

PART A. BUDGETARY IMPACTS OF RECENTLY ENACTED LEGISLATION
The Budget Impacts Related to Recently Enacted State Legislation Schedule is generated in the Automatic Budget and Evaluation System of Texas (ABEST). Refer to ABEST Instructions for Legislative Appropriations Request (August 2020) on the LBB website at www.lbb.state.tx.us/Agencies_Portal.aspx → Data Entry Applications → Instructions → Legislative Appropriations Request for more details. Also see page 93, Appendix 6.K, for a sample schedule.

Submit each expanded or new initiative on a separate schedule. The agency should summarize and describe any applicable costs, savings, and Federal Funds related to the initiatives. Fiscal year 2019 should reflect actual impacts on expenditures, and fiscal years 2020 to 2023 should reflect budgeted and estimated impacts.

Agencies should include the following information:

- name of the expanded or new initiative;
- the State Budget by Program name for the initiative;
- the legal authority for the initiative, including the session law and the specific section of the state statute to which the costs are related;
• a narrative description of each expanded or new initiative, including which costs are related to start-up or implementation and which costs are ongoing.

• the strategy or strategies that have a budgetary impact;

• detail for objects of expense, MOF, full-time-equivalent (FTE) positions, and performance measures; and

• estimated savings or cost reductions as a negative value.

For IT components, agencies should also include the following information in the schedule:

• the project description related to the expanded or new initiative, including whether it is an existing or new project;

• for fiscal years 2019 to 2023, the number of FTE positions and estimated costs related to the project;

• all development costs associated with the proposed project;

• the type of project – Centralized Accounting and Payroll/Personnel System (CAPPS), cybersecurity, application remediation for Data Center Services, or other; and

• the proposed hardware and software and an indication of whether the proposal can be scalable (i.e., implemented across multiple years).

If implementation of an expanded or new initiative will require awarding a contract that will exceed $50,000, provide the following information about the potential contract or contracts:

• percentage of the total initiative cost for fiscal years 2020 to 2021 estimated to be expended on contracted goods or services;

• description of the good or services to be procured by contract, including the type of contract(s) to be awarded (consulting, professional, construction, major information systems, other services, or goods) and expected duration of the anticipated contract(s);

• anticipated method of procurement for the contract(s), (e.g., sole source, proprietary, request for qualifications or proposal, etc.); and

• for consulting, professional, or other services, a description of the factors the agency considered to contract these services (e.g., cost benefit analysis, identification of advantages and disadvantages, etc.). See page 93, Appendix 6.K, for a sample schedule.

PART B. SUMMARY OF COSTS RELATED TO RECENTLY ENACTED STATE LEGISLATION

This report automatically generates data from submitted Part A. Budgetary Impacts Related to Recently Enacted State Legislation Schedules to provide a summary of all budgetary impacts for fiscal years 2019 to 2023. No additional data entry is necessary. See Appendix 6.K, Part B for a sample report.
PART 6.L. DOCUMENT PRODUCTION STANDARDS

This schedule provides savings realized by agencies due to improved document production standards in fiscal years 2020 and 2021.

GENERAL INFORMATION

Article IX, Section 7.13, Document Production Standards of the 2020–21 General Appropriations Act requires each state agency to review its document production protocols and apply best practices to produce documents in the most practicable, efficient, and cost effective manner that would lead to reduction in the total volume of paper used for general office administration, publications, and reproduction and printing services. This may also include changing the format of transmitting or receiving documents, such as through electronic means rather than hard copy.

Each agency also must report any cost savings or other efficiencies achieved from implementing changes to document transmission and production practices in the agency’s Legislative Appropriations Request.

Agencies should report all savings realized due to improved document production standards during the 2020–21 biennium. Examples of improved document production standards could include:

- duplex (double-sided) printing;
- adjusting default word processing to reduce or change font size, line spacing, expand margins, etc.;
- adopting stricter processes to identify and purge duplicative data (e.g. removing duplicative entries in database contact list); and
- sending documents electronically, in lieu of printed hard copy.

Please identify all savings realized by method used. Total all methods used for agency-wide savings realized due to improved document production standards, and estimate total paper volume reduced in number of sheets.

Please describe all methods used to improve document production standards.

This spreadsheet form is provided in electronic format on the websites of the Legislative Budget Board (LBB) and the Office of the Governor, Budget Division, and should be included in the PDF submitted through the LBB Documents Submissions application (docs.lbb.state.tx.us). See page 95 (Appendix 6.L) for a sample form. (Spreadsheets are available on the LBB website at www.lbb.state.tx.us/Agencies_Portal.aspx → Data Entry Applications → Instructions → Legislative Appropriations Request → Templates).
PART 7. ADMINISTRATIVE AND SUPPORT COSTS

The Administrative and Support Costs schedules:

- provide historical information on all administrative and support costs for each strategy;
- allocate indirect administrative and support costs to the appropriate strategies;
- identify direct administrative and support costs included in each strategy;
- distinguish the costs of implementing a strategy from the costs of running an agency; and
- provide the Legislative Budget Board (LBB) and the Office of the Governor, Budget Division, with additional information for developing budget recommendations.

GENERAL INFORMATION

Enter this information into the Automated Budget and Evaluation System of Texas (ABEST). Refer to ABEST Instructions for Legislative Appropriations Request (August 2020) on the LBB website at www.lbb.state.tx.us/Agencies_Portal.aspx → Data Entry Applications → Instructions → Legislative Appropriations Request.

An agency must complete this schedule only if requested to do so by an analyst from the LBB or Office of the Governor, Budget Division.

Agencies completing this schedule should provide budget detail for both direct and indirect administrative and support costs. Indirect administrative and support costs are operating expenses incurred by the agency that are independent of the implementation of a specific strategy and are often included in one or more Indirect Administration strategies. Conversely, direct administrative and support costs are integral to the strategy and are related only to the strategy in which they are included. Information to be provided includes objects of expense, Method of Finance, and number of full-time-equivalent (FTE) positions for fiscal years 2019 to 2023.

IMPORTANT

This schedule is only required upon request by the LBB or Office of the Governor, Budget Division.

Agencies with an Indirect Administration goal in their budget structure should use both the Indirect Administration Strategy Request and the Indirect Administrative and Support Costs schedule to report indirect administrative and support costs data.

7.A. INDIRECT ADMINISTRATIVE AND SUPPORT COSTS

Calculating indirect administrative and support costs requires identifying which administrative and support costs are associated with running an agency. Indirect administrative and support costs may not significantly change due to a change in funding levels. See page 96 (Appendix 7.A.) for a sample report.

Examples of costs that typically constitute indirect administrative and support costs include:

- central administration costs, such as executive staff, public information, planning and policy development, external liaison/affairs, general counsel, legal services and enforcement, accounting, budget, travel management, financial reporting, human resource management, staff development, and internal audit;
- information resources costs, such as Data Center Services contract expenses, mainframe operations, automated service programmers, analysts, personal computer support, and data and voice telecommunications;
- operating/support costs, such as mail services, purchasing, warehouse, maintenance, motor pool, library, security, reproduction services, housekeeping, building support and other operating costs that are not directly attributable to specific strategies; and
• regional administration costs such as expenditures at agency field offices; or expenditures at state schools or facilities that are indirect administrative or support costs as defined previously, and do not constitute a direct programmatic administrative or support cost.

**ALLOCATING INDIRECT ADMINISTRATIVE AND SUPPORT COSTS**

Indirect administrative and support costs must be allocated to each strategy. The following rules apply:

• Agencies without an Indirect Administration goal should list, for each strategy, only the amounts included in the strategy request attributable to indirect administrative and support costs.

• Agencies with an Indirect Administration goal should list in Schedule 7.A, for each strategy, indirect administrative and support costs that are included in the Indirect Administration goal and allocated to the strategy. The Strategy Request(s) within the Indirect Administration goal should be used to provide the total strategy amount for each Indirect Administration strategy. The sum of all strategies in the Indirect Administrative and Support Costs report must equal amounts contained in the Strategy Request(s) for the Indirect Administration goal.

• All agencies should complete the final portion of the Indirect Administrative and Support Costs report by explaining the methodology used to allocate indirect administrative and support costs among strategies.

Examples of methodologies that may be appropriate for allocating costs include the following.

**Allocating Costs by Budget Size**

Costs can be allocated based on the percentage of budget associated with an individual strategy. For example, if an agency has 10 strategies but five of the strategies account for 80.0 percent of its budget, allocate 80.0 percent of the indirect administrative costs to those five strategies. Allocating costs by budget size may not be appropriate if the amount of administrative support necessary for a given strategy is disproportionate to its budget size.

**Allocating Costs by FTE Positions**

Similar to allocating by budget size, a labor-intensive agency may allocate indirect administrative and support costs by the number of FTE positions associated with the various strategies. For example, if two out of 10 strategies account for 50.0 percent of the agency’s FTE positions, allocate half of the agency’s total indirect administrative and support costs to those two strategies.

**Allocating Costs by Workload or Services Provided**

An agency may have indirect administrative and support costs that are driven by the workload of individual strategies. For example, a human services agency might serve 25.0 percent of its clients through one strategy. If providing these services requires high indirect administrative and support services, 25.0 percent or more of the agency’s indirect administrative costs may be allocated to that strategy.

**Variance Among Categories**

It may be necessary to allocate different types of indirect administrative and support costs by various methodologies. For example, it may be appropriate to allocate central administration costs among all strategies and to allocate information resource costs only to several strategies.

**Existing Allocation Plans**

Agencies are encouraged to use any appropriate allocation methodologies already in place for other purposes, such as a formal indirect cost allocation plan prepared for federal grant reporting.

**7.B. DIRECT ADMINISTRATIVE AND SUPPORT COSTS**

Direct administrative and support costs are similar in nature to indirect administrative and support costs, with the exception that they are related only to the strategy in which they are included. Some strategies may not include any direct administrative and support costs. For example, if all administrative and support costs for an agency are included in an Indirect Administration goal, the other strategies would have no direct administrative and support costs.
The direct administrative and support costs of a strategy are included in the strategy and are related solely to implementation of the single strategy. In some cases, they may change proportionately with funding levels of the strategy.

Each Direct Administrative and Support Costs report should include a description of the costs in terms of what FTE positions or activities are supported. For example, the costs may support a dedicated file server or specific support staff. See page 97 (Appendix 7.B.) for a sample schedule.

PART 8. SUMMARY OF REQUESTS FOR FACILITIES-RELATED PROJECTS

This Summary of Requests for Facilities-related Projects schedule summarizes requests for facilities-related projects into four categories:

- new construction;
- health and safety;
- deferred maintenance; and
- maintenance.

GENERAL INFORMATION

This supplemental schedule applies to all agencies and institutions of higher education with requests for new construction, rehabilitation, and repair projects. Agencies are encouraged to discuss the items with analysts from the Legislative Budget Board (LBB) and the Office of the Governor, Budget Division, prior to the final Legislative Appropriations Request submission to ensure complete and accurate reporting.

Information reported in this schedule should be consistent with the most recent information provided by the agency to the Joint Oversight Committee on Government Facilities.

DATA ENTRY

This spreadsheet form is provided in electronic format on the websites of the LBB and Office of the Governor, Budget Division, and should be included in the PDF submitted through the LBB Documents Submissions application (docs.lbb.state.tx.us). See page 98 (Appendix 8) for a sample form. (Spreadsheets are available on the LBB website at www.lbb.state.tx.us/Agencies_Portal.aspx → Data Entry Applications → Instructions → Legislative Appropriations Request → Templates).

Agencies should also submit a copy of the completed Data Entry spreadsheet to their assigned analyst at the LBB and the Office of the Governor, Budget Division.

For each individual item, agencies should complete the Summary of Requests for Capital Project Financing with the following information:

- **Project ID.** Identify each project by number, beginning with 1. Note that, depending on the number of Methods of Finance (MOF) being requested, a project’s information may be identified across multiple rows in order to identify amounts by each MOF. The project number, however, will not change.

- **Capital Expenditure Category.** Enter the capital project category of the affected project. For a list of all possible project categories, see Figure 5: Definitions of Capital Project Categories on page 60 of these instructions. **Note:** this category is not the same as the subsequent categories discussed below.

- **Project Description.** Provide a general description of the project that correspond to the request.

- **Amount Requested.** Identify the amount requested by each category as indicated in the following:
  - **New Construction.** Includes projects to construct new buildings or facilities or major renovation projects that significantly alter or add to the layout or exterior structure of an existing building.
  - **Health and Safety.** Includes the highest priority repairs to building systems that present a safety risk or where failure is imminent and includes items associated with federal and state compliance laws.
PART 8. SUMMARY OF REQUESTS FOR CAPITAL PROJECT FINANCING

- **Deferred Maintenance.** Includes building system repairs, retrofits, upgrades and other deferred maintenance activities that have been postponed due to funding priorities but do not represent an imminent threat to the facility or its occupants. These items are past due and relate to building systems that are either in disrepair or have exceeded their useful life.

- **Maintenance.** Includes items to maintain the normal operation of the facility and may include preventative maintenance, minor repairs and other general maintenance. These items are ideally scheduled for completion during the 2022–23 biennium and are not already past due.

- **2022–23 Total Amount Requested.** Identify the total amount for each method of finance requested for the 2022–23 biennium.

- **MOF Code.** Identify the MOF code requested to finance the project. Identify each MOF requested for a project on separate rows using the same Project ID.

- **MOF Requested.** Indicate the MOF name.

- **Can This Project Be Partially Funded?** Respond “Yes” or “No” as to whether a project can be scaled based on the amount of funding received. Answer "Yes" if the project is scalable depending on the level of funding received. Examples include exceptional items that comprise smaller discrete projects, such as deferred maintenance. Answer "No" if the project cannot be completed without one of its component parts. Examples include the construction of new facilities.

- **Requested in Prior Session?** A response to this field indicates how long this project has been in your agency’s queue. Choose the earliest legislative session in which this item was requested. If the item was fully or partially funded in a previous session, choose the first session the request was made and also indicate the value of any appropriations in the next column "Value of Existing Capital Projects". If this is the first Legislative Appropriations Request containing this request, enter "No."

- **Value of Existing Capital Projects.** Indicate the total value of all related capital projects that are currently funded at your agency. Total value means the combined capital budget authority for those projects at the time of the LAR submission. If those related projects received appropriations in multiple biennia, total those appropriations for this field (for example, enter $10.0 million if $5.0 million was appropriated in the 2018–19 GAA and another $5.0 million was appropriated in the 2020–21 GAA for related projects). Projects are considered related if they are for the same type of activity (e.g., system-wide deferred maintenance) or relate to the same facility (e.g., roof for building X, HVAC for building X, parking lot for building X).

- **2022–23 Estimated Debt Service.** If the agency is requesting project financing through General Obligation (GO) Bond Proceeds or Revenue Bonds, identify the amount of estimated debt service for the 2022–23 biennium related to the requested amount of debt. If the project is approved by the Eighty-seventh Legislature, 2021, bond proceeds will be appropriated to the requesting agency and debt service will be appropriated to the issuing agency or other appropriate agency. Debt service for GO bonds issued by the Texas Public Finance Authority (TPFA) would be appropriated to TPFA, and debt service for Revenue Bonds would be appropriated to the requesting agency. Contact TPFA for debt service estimates on bonds that would be issued by TPFA.

- **Debt Service MOF Code.** If applicable, identify the MOF code that is requested to finance the estimated debt service associated with the requested GO Bond Proceeds or Revenue Bonds.

- **Debt Service MOF Requested.** If applicable, indicate the MOF name for the MOF requested for debt service.
