</table>

Note: TDCJ defines operating capacity as 96.0% of its on-line bed capacity. TDCJ is accustomed to going beyond its operating capacity for short periods of time. During April 2020, TDCJ temporarily suspended the transfer of individuals into state custody as part of the effort to contain the spread of COVID-19. The transfers resumed in July 2020. Release policies and decisions have not been modified. Individuals are discharged when sentences are completed and released as eligible.

On-line bed capacity reflects the total number of TDCJ beds available for the permanent assignment of incarcerated individuals. At the end of April 2021, 6,916 beds had been temporarily removed from on-line bed capacity (6,709 due to staffing shortages, 167 due to construction for sheltered housing, and 40 due to a renovation project). Also at this time, on-line bed capacity did not include 2,223 temporary placement beds, which include medical (hospital beds and unit-based infirmary beds), transfer holding, and pre-hearing detention beds. Incarcerated individuals housed in temporary placement beds also have permanent beds assigned to them. The total number of Intermediate Sanction Facility (ISF) beds at the end of April 2021 was 3,085.

Recent Capacity Adjustments and Other Notes:

- During March 2021, agency capacity was reduced by 1,030 beds. The Stiles Unit capacity decreased by 770 beds (94 beds were added due to the completion of sheltered housing dorms and 686 beds were removed due to the decrease in agency population and staffing shortages). Dalhart Unit capacity was decreased by 260 beds due to the decrease in agency population and staffing shortages.
- During December 2020, agency capacity was reduced by 6,952 beds. The Chasfield, Gurney, and Neal Units were idled (4,340 beds), Scott Unit was closed (1,130 beds), and trusty camps from Ellis, Ferguson, Eastham, and Cran were idled (1,726 beds) due to the decrease in agency population and staff shortages. The Clemens Unit capacity was increased by 321 beds due to the addition of the trusty camp from the Scott Unit. The Murray Unit capacity decreased by 77 beds due to renovations for sheltered housing.
- During November 2020, the number of ISF beds was decreased by 420 when the Baten facility was idled.
- During October 2020, agency capacity was reduced by 524 beds. Capacity was reduced by 544 beds due to the conversion of prison beds to ISF beds (Goodman Unit) and increased by 20 beds due to the completion of a wheelchair conversion maintenance project (Duncan Unit).
- During September 2020, the Garza East (1,978 beds) and Jester I (323 beds) units were closed and the Bradshaw State Jail (1,980 beds) was idled due to the decrease in the population. This reduced agency capacity by 4,281 beds.

Capacity Adjustments and Other Notes:
- In August 2019, TJD 운영 capacity decreased by 24 beds due to the closure of the Crockett/Huntington houses.
- In June 2018, TJD operating capacity decreased by 269 beds. This was due to the reduction in capacity at the Corsicana facility (49 beds), Giddings facility (48 beds), McLennan facility (120 beds), Run Jackson I facility (16 beds), half-way houses (68 beds), and contract residential placements (48 beds).
- In September 2013, TJD operating capacity decreased by 319 beds. This was due to the reduction in capacity at the Corsicana facility (49 beds), Giddings facility (48 beds), McLennan facility (120 beds), Run Jackson I facility (16 beds), half-way houses (68 beds), and contract residential placements (48 beds).

1/ All footnotes are detailed on page 5.
1 Supervision placements include adjudicated probation, deferred adjudication, and return from shock incarceration.
2 Successful supervision terminations include early terminations and those with expired terms.
3 Unsuccessful supervision terminations include revocation to county jail, state jail, prison, and other revocations.
4 Total terminations in this graph include terminations due to administrative closures, terminations due to death, successful terminations, and unsuccessful terminations.

Texas Department of Criminal Justice Community Supervision (Adult Probation) Populations
1 Historical numbers in this report may be updated to reflect current information.
2 A new commitment is a juvenile committed to the Texas Juvenile Justice Department (TJJD) for the first time.
3 A determinate sentence is a commitment for a specified period of time that is set by the juvenile court and can last up to 40 years in length; those who have not completed their sentence length by their 19th birthday are transferred to the adult system to complete the sentence.
4 An indeterminate sentence is a commitment for an unspecified length of time up to the individual's 19th birthday; TJJD has sole discretion over the commitment length.
5 Since January 2016, a youth is said to have multiple commitments when there is more than one lawful court order committing him/her to the TJJD simultaneously. This differs from a recommitted youth, which is a youth who has been discharged from a TJJD commitment, usually due to positive completion of the program before age 17, only to reoffend and be committed again ("recommitted") by a judge with jurisdiction over juvenile court. Prior to January 2016, the term recommittment was used in lieu of multiple commitments.
6 The information in this column reflects the level associated with the alleged offense initiating the parole revocation process.
7 Other commitments (also referred to as negative movements) are juveniles who are returned to a state residential facility for medical care, mental health care, or other non-disciplinary reasons. Other commitments can also include juveniles moved to a secure facility for a court hearings.
8 Total admissions is the sum of total new commitments, total multiple and recommitments, total revocations, and other.
9 This calculation included a juvenile who had an unusually long length of stay.
10 Numbers may not sum exactly due to rounding.

Texas Juvenile Justice Department: Juvenile Probation Department Supervision Populations
1 A formal referral occurs when: 1) delinquent conduct, conduct indicating a need for supervision (CINS), or a violation of probation was allegedly committed; 2) the local juvenile probation department has jurisdiction and venue; and 3) face-to-face contact occurs with the department or official designated by the local juvenile board. Juveniles are typically referred to juvenile probation departments by schools and law enforcement but may also be referred by social workers, parents, and others. Historical numbers in this report may be updated to reflect current information.
2 Misdemeanor Offenses include contempt of magistrate orders in addition to class A and B misdemeanor offenses.
3 Conduct in Need of Supervision (CINS) is a non-criminal offense for a juvenile and includes public intoxication, truancy, running away from home, fine-only offenses transferred to a juvenile court from a municipal or justice court, habitual abuse, and expulsion from an alternative school setting for persistent misconduct.
4 Dispositions reflect the outcomes of referrals to juvenile probation departments. The dispositions listed do not include consolidated or transferred cases. Adjudicated probation includes all adjudicated dispositions of probation and modifications of probation. Dismissed dispositions include dismissals, findings of not guilty, and findings of no probable cause. Supervisory caution is a non-judicial disposition that may involve such actions as referring the child to a social service agency or a community-based first offender program operated by law enforcement, contacting parents to inform them of the child's activities, or simply warning the child about his or her activities. Historical numbers in this report may be updated to reflect current information. Figures in the table represent the number of cases, not the number of juveniles. A juvenile may have more than one case in a quarter.
5 Juveniles under conditional predisposition, deferred prosecution, or adjudicated probation supervision may also be on Intensive Supervision (ISP) and/or placed in a secure or nonsecure residential facility. ISP is a form of supervision that typically involves smaller caseloads supervised by specially trained probation officers and more frequent contacts between the juvenile and his or her probation officer. Juveniles under deferred prosecution or adjudicated probation supervision may be placed in a secure or nonsecure residential facility.
6 The Juvenile Justice Alternative Education Program (JJAEP) table and graph include information associated only with those students receiving a mandatory placement, those for whom the state provides reimbursement, though JJAEPs may accept students referred for discretionary reasons. The number of mandatory attendance days in June and July are low because many schools close in May and others only operate for part of June. The counts in summer school are also typically low because operating a summer school is optional. Historical numbers in this report may be updated to reflect current information.
7 Mandatory attendance days reflect the sum of the number of days mandatory students attended JJAEPs within the month.
8 The graph reflects the number of juveniles certified as an adult and the number of cases sent to TJJD state residential facilities.
9 The Juvenile Justice Alternative Education Program graph reflects mandatory attendance days accrued during the regular school year and does not include those accrued during summer school. Since summer school is optional and reimbursement is only available when sufficient funding exists, including only the regular school year renders year-to-year results that are comparable over time.
