

LEGISLATIVE BUDGET BOARD

Juvenile Justice System and Adult Community Supervision Funding

**PRESENTED TO SENATE FINANCE COMMITTEE
LEGISLATIVE BUDGET BOARD STAFF**

DECEMBER 2017

Statement of Interim Charge

Examine the funding patterns used to fund the juvenile justice system and adult probation departments. Develop recommendations to ensure the Texas Juvenile Justice Department budget does not dis-incentivize the use of cost-effective best practices such as diverting youth from the juvenile justice system, providing services to youth in their community, and keeping youth closer to home. In addition, review funding to adult probation departments and ensure it provides for an equitable distribution to all Texas Probation Departments.

TJJD Funding Patterns

Formula Funding

- Refers to agency strategies formula-funded by Legislature (does not address TJJD policies or formulas for dispersing grants to local probation departments)
- Applies to strategies primarily affected by population fluctuations
 - Goal A - Basic Probation Supervision – includes funding for face-to-face contacts with probation officers
 - Goal B - Institutional Supervision and Food Service, Halfway House Operations, and Contract Residential Placements – includes supervision and food for youth housed in the three types of facilities used for youth committed to TJJD
 - Goal C – Parole Direct Supervision - includes funding for face-to-face contacts with parole officers
- Primary Methodology – LBB projected population for each FY multiplied by actual state cost per day (CPD) from the first year of previous biennium and number of days in each FY
- Other Methodologies – May be used if funds transferred in or out of a program or strategy significantly change actual CPD of first year of previous biennium
 - May use agency requested CPD
 - May use previous biennium appropriated CPD

TJJD Funding Patterns (cont.)

Non-Formula Funding

- Includes strategies, programs and services primarily focused on providing treatment, counseling, and other programs and services based on individual youth needs
 - Goal A – Community Programs, Commitment Diversion Initiatives, Mental Health Services Grants, Regional Diversion Alternatives Program
 - Goal B - Education, Health Care, Integrated Rehabilitation Treatment
 - Goal C – Parole Programs and Services
 - Goal D – Office of Independent Ombudsman
 - Goal E – Training and Monitoring
 - Goal F - Administration
- Methodology may include:
 - Base program or initiative level funding
 - Agency exceptional item funding
 - Funding for new initiative added by the Legislature
 - For example, Regional Diversion Alternatives Program – Initiated in 2016-17 at \$9.1 million; biennialized to \$18.3 million in 2018-19

Correctional Population Projections: Overview

	June 2016 Projections	January 2017 Projections
Purpose:	<ul style="list-style-type: none"> • Informed Agencies' Legislative Appropriation Requests • Informed the 2018-19 General Appropriation Bills as Introduced 	Informed the committee substitutes to the 2018-19 General Appropriation Bills as Introduced
Based on individual level data through:	Fiscal Year 2015	Fiscal Year 2016

- Projections (June and January) are based on current laws, policies, and practices. Subsequent shifts in these factors are considered and may be incorporated into future LBB projections.
- The LBB simulation model incorporates these factors into the population projections and tracks an individual movement into, through, and out of the criminal and juvenile justice system.

Correctional Population Projections: Methodology

Central Questions

- How many individuals will enter the system?
- How long will they stay in the system?

Projections Generated Using:

- Expected number of admissions over the projection period
- Predicted length of stay of those admitted
- Predicted length of stay of those in the system at the end of the previous fiscal year
